TEXAS GAS SERVICE COMPANY
Borger/Skellytown Service Area
RATE SCHEDULE 1-1
COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all gas sales rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Borger and Skellytown, Texas.

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing at least thirty (30) days prior to the first billing cycle of July each year at which time rate adjustments will become effective.

C. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment and federal income taxes. In any year, the percentage change in total calendar year operating expenses shall not exceed the greater of 3.5 percent or the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in operating expenses is computed by comparing the operating expenses for the most recent calendar year to the prior calendar year operating expenses (either those from the last rate case or cost of service adjustment filing, whichever is more recent). The rate adjustment will be spread evenly across all weather normalized gas sales volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing gas sales rates for each rate code.

1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account Nos. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. **Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20407

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items*** Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes ***These items will reflect the Materials and Supplies inventories and prepayments levels approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Investment Tax Credit (remaining unamortized credit) Multiplied by: Tax Factor (.35/(1-.35) or .53846) Less: Investment Tax Credit (remaining unamortized credit)

4. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections C.1 through C.3 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized gas sales volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (****) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each gas sales rate code. **** The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than thirty (30) days within which to review the proposed annual rate adjustment prior to its taking effect each year for meters read on or after the first billing cycle of July. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

TEXAS GAS SERVICE COMPANY Borger/Skellytown Service Area RATE SCHEDULE 1-INC COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of Borger and Skellytown, Texas. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, a Reconciliation Component, and applicable fees (including franchise fees) and taxes. 2. Commodity Cost - The estimated Cost of Purchased Gas

DESCRIPTION

multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year. 3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of surcharges or refunds made to customers during the period and any other revenues, costs, or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (e) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount of uncollectible accounts that are attributable to charges calculated under this

DESCRIPTION

tariff during the period. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had over collected during the period, it shall credit into the Reconciliation Account an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had under collected during the period, it shall debit into the reconciliation account an amount equal to the average balance multiplied by six percent (6%). F. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. G. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 5. A summary of charges related to uncollectible accounts as described in Section B. 5. (d). This report shall be filed concurrently with the Cost of Gas Statement for December. This Rate Schedule replaces Cost of Gas Clause: Meters Read On and After 1-INC dated 8/24/01 (Borger) and 8/24/01 (Skellytown) November 4, 2008

 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20407

RATE SCHEDULESCHEDULE IDDESCRIPTION

annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

DESCRIPTION

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

WNA BorgSk-IS

TEXAS GAS SERVICE COMPANY Borger/Skellytown Service Area RATE SCHEDULE WNA

WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Borger and Skellytown, Texas: 10, 20, 40 and 48. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. Initial Rate Schedule Meters Read On and After

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20407

The curtailment program to be filed shall include, in verified form, the following information:

A. Volume of gas reserves attached to its system together with a brief description of each separate source of gas reserves setting forth the following:

1. the name of the supplier,
2. the term of each contract in years, and the years remaining on said contract,
3. the volume of recoverable reserve contracted for, and
4. rated deliverability of such reserves in MCF.

B. Capacity and location of underground storage, if any, attached to its system with a statement of whether the company's storage balance is above or below its desired level for this time, and, if below, what plans has the company made to restore the balance.

C. Peak day and average daily deliverability on an annual basis of its wells, gas plants and underground storage attached to its system.

D. Peak day capacity of its system.

E. Forecast of additions to reserves for each of the next two succeeding years.

F. Location and size of the line pipes, compressor stations, operating maximum line pressures, and a map showing delivery points along the system.

G. Disposition of all gas entering its system, with names of all customers other than residential customers and volumes delivered to each during the past calendar year. Identify those customers using 3,000 MCF gas per day, or more, which are under a service contract, and if such contract includes an Interruptible Service clause, and if so, attach a reproduced copy of the relevant provisions of such contract.

H. Steps taken in past years, being taken at the present, and to be taken to alleviate curtailments.

RULE 2.

Until such time as the Commission has specifically approved a utilities curtailment program, the following priorities in descending order shall be observed:

A. Deliveries for residences, hospitals, schools, churches and other human needs customers.

B. Deliveries of gas to small industrials and regular commercial loads (defined as those customers using less than 3,000 MCF per day) and delivery of gas for use as pilot lights or in accessory or auxiliary equipment essential to avoid serious damage to industrial plants.

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20407

C. Large users of gas for fuel or as a raw material where an alternate cannot be used and operation and plant production would be curtailed or shut down completely when gas is curtailed.

D. Large users of gas for boiler fuel or other fuel users where alternate fuels can be used. This category is not to be determined by whether or not a user has actually installed alternate fuel facilities, but whether or not an alternate fuel could be used.

E. Interruptible sales made subject to interruption or curtailment at Seller's sole discretion under contracts or tariffs which provide in effect for the sale of such gas as Seller may be agreeable to selling and Buyer may be agreeable to buying from time to time.

RULE 3.

Each gas utility that has obtained Commission approval of a curtailment program shall conduct operations in compliance with such program. So long as any gas utility which has obtained Commission approval of a curtailment program continues to curtail deliveries to its customers, except as provided by contract or those customers included in Part E of Rule 2 above, it

(a) shall file on or before April 1 of each year, under oath, the information called for in Rule 1, for the preceeding year, and

(b) shall not, without Commission approval, make sales of gas to any new customers or increase volumes sold to existing customers, except those new or existing customers defined in Parts A & B of Rule 2 above.

IT IS FURTHER ORDERED that this cause be held open for such other and further orders as may be deemed necessary.

ENTERED AT AUSTIN, TEXAS, this 5th day of January, 1973.

LINE EXTENSION POLICY

<u>POLICY ID</u>	<u>DESCRIPTION</u>
1212	<p>TEXAS GAS SERVICE COMPANY Texas Tariff - Borger/Skellytown MUNICIPALITIES OF BORGER, TEXAS and SKELLYTOWN, TEXAS Borger/Skellytown Service Area - Municipality (From Quality of Service Rules effective 11/04/08)</p> <p>INSTALLATION OF EQUIPMENT</p> <p>7.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the meter and the equipment related thereto, including meter valve and service regulator. The entire service shall become the property of the Company and shall be operated and maintained by it.</p> <p>7.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company as described in Paragraph 7.1 above. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility for the facilities installed by him or her.</p> <p>7.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances and shall be properly designed for the pressures and volumes to be handled. In those locations where there are no appropriate ordinances, the applicable provisions of the National Fuel Gas Code, Z223.1 or amendments thereto shall apply.</p> <p>7.4 CHECKS AND TESTS The Company shall have the right to check new installations prior to institution of service and to make any test of the Applicant's facilities it deems necessary.</p> <p>7.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company.</p> <p>EXTENSION OF FACILITIES</p> <p>8.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation.</p> <p>8.2 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve</p>

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20407

the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

8.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 100 feet of distribution main shall be given for each potential Customer whose premises exist at the time of application to be served from the proposed main extension. In order to qualify for this allowance, the Customer must file an application and agree to initiate gas service upon completion of the Company's facilities.

8.4 ADVANCES The difference between the total cost of facilities as determined in Paragraph 8.2 above and the initial allowance, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less.

8.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

8.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Paragraph 8.3 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the

first year of service.

8.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

8.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five year period of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

This Tariff is applicable in the Municipalities of Borger and Skellytown, Texas. Service under this Tariff is subject to the original jurisdiction of the Municipalities of Borger and Skellytown. The Company will provide service to any person and/or business within its service area in accordance with the prices, terms, and conditions provided for in its Tariff and regulations. 1.2 RATE SCHEDULES All Customers shall be served under rate schedules filed with the Municipalities. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer regarding the most advantageous rate for his usage if more than one rate is applicable. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error may be corrected immediately. In the event of a question regarding the Customer's classification, the questions shall be resolved by reference to the coding of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office Management and Budget. 1.3 DEFINITIONS The following definitions shall apply to the indicated words as used in this Tariff: Company: Texas Gas Service Company. Applicant: Any person, organization or group of persons or organizations making a formal request either orally or in writing for gas service from the Company. Customer: Any person or organization now being billed for gas service whether used by him or her, or by others. The Commission: The Railroad Commission of Texas. The Regulatory Authorities: City Councils of the Cities of Borger and Skellytown, Texas or the Railroad Commission of Texas. Consumer: Any person or organization receiving and using gas from the Company for his or her own appliances or equipment whether or not the gas is billed directly to him or her, or to a second party. (For example, in the case of a rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer.) Domestic Service: Service to any Consumer which consists of gas used directly for heating, air conditioning, cooking, water heating and similar purposes whether in a single or multiple dwelling units. Commercial Service: Service to Consumers engaged primarily in the sale or furnishing of goods and services and any usage not otherwise provided for. Industrial Service: Service to Consumers engaged primarily in a process which changes raw or unfinished materials into another form of product. This classification shall embrace all Consumers included in Division A (except Major Groups 01 and 02) and Division D of the Standard Industrial Classification Manual. Agricultural Service and Irrigation or Irrigation Pumping Service: Service to Consumers engaged in agricultural production (SIC Division A - Major Group 01) who use gas for operating</p>	Section Description	1 General Statement	2 Map of Service Area	3 Rates and Utility Charges	4 Condition of Service	5 Initiation of Service	6 Metering and Delivery of Gas	7 Installation of Equipment	8 Extension of Facilities	9 Customer Owned Systems	10 Security Deposits	11 Gas Measurement	12 Meter Reading and Accuracy	13 Billing and Payment of Bills	14 Curtailments	15 Quality of Gas	16 Service Work	17 Maintenance of Equipment	18 Discontinuance of Service	19 Re-establishment of Service	20 Notice	21 Budget Payment Plan	22 Fees and Cash Deposits	TEXAS GAS SERVICE COMPANY Section 1 Texas Tariff - Borger/Skellytown Service Area

engine driven pumping equipment. Power Generation Service: Service to Consumers for the purpose of generating electricity. This service may be further divided into direct generation in which the gas is used to power the prime mover and indirect generation in which the gas is burned in a boiler and the generator is steam powered. Firm Service: Service under any rate schedule which does not specifically provide for interruption of service for peak shaving purposes. Firm service is nevertheless subject to the curtailment provisions of this Tariff. Interruptible Service: Service under any rate schedule which specifically provides for interruption of service for peak shaving purposes. Temporary Service: Any service which will not be utilized continuously at the same location for a period of two or more years. General Rate Schedule: A rate schedule available to all Customers of the appropriate class or classes for usages indicated therein. Special Rate Schedule: A rate schedule designed for a specific Customer, but usually available to others of the same class similarly situated through negotiations with the Company. Optional Rate Schedule: A General Rate Schedule which may be selected by a Customer in lieu of another general schedule (may require installation of special equipment). Transportation Rate Schedule: A rate schedule designed for service to any Customer for the transportation of Customer owned natural gas through the Company's distribution system. Alternate or Standby Fuel: Any fuel and the facilities for generating, storing or using such fuel owned by a Consumer for the purpose of continuing the operating of his equipment during periods of interruption of service by the Company. Plant Protection Gas: The minimum gas volumes required to prevent physical harm to plant facilities or danger to plant personnel when such protection cannot be afforded through use of alternate fuel. Feedstock Gas: Gas used as a raw material for its chemical properties in creating an end product. Boiler Fuel Gas: Gas used for boiler fuel to generate steam or hot water regardless of the end use to which the steam or hot water is put. Average Day Usage: The demand of a given Customer for gas in any one month divided by 30. Demand is considered to be equivalent to consumption during each billing month, provided however, that when service has been curtailed, demand shall be considered to be actual consumption plus estimated curtailment during the period. System: Any group of interconnected pipelines or mains owned or operated by the Company and so situated that they will be unaffected by changes in operating of any other such group of facilities. Restricted Service Area: Any service area in which additions of Consumers and/or increases in existing usage is restricted by order of the Regulatory Authority. TEXAS GAS SERVICE COMPANY Section 2 Texas Tariff - Borger/Skellytown Service Area Section 2 Reserved For Map of Service Area. TEXAS GAS SERVICE COMPANY Section 3 Texas Tariff - Borger/Skellytown Service Area Note: Section 3 was originally reserved for filing of the Service Rate Schedules that are now filed separately. TEXAS GAS SERVICE COMPANY Section 4 Texas Tariff - Borger/Skellytown Service Area

CONDITION OF SERVICE 4.1 PROVISION OF SERVICE The Company will provide gas service to any person or organization located within the Municipalities of Borger and Skellytown from its facilities or in certain cases, the facilities of its supplier, in accordance with the provisions of this Tariff including Rate Schedules and Rules of Service. Service provided directly from the facilities of others may be provided only with the approval of the owning company and shall thereafter be continued only as long as gas of satisfactory quality and quantity is available at the location. 4.2 FEES AND CHARGES All fees and charges made by the Company for utility service - gas delivered and that work necessary to maintain service, shall be those provided for in this Tariff. (SEE NOTE BELOW) 4.3 RESALE OF GAS Gas delivered by the Company shall not be redelivered or resold for the use thereof by others unless otherwise expressly agreed to in writing by the Company - except, however, that those Customers purchasing gas for redistribution to the Customer's tenants may separately meter each tenant distribution point for the purpose of prorating the Customer's actual purchase price of gas delivered among the various tenants on a per unit basis. Any other allocation will constitute resale and is prohibited. 4.4

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20407

TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without the express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice.

4.5 CONTINUITY OF SERVICE a) Service interruptions. i) Every gas utility shall make all reasonable efforts to prevent interruptions of service. When interruptions occur, the utility shall reestablish service within the shortest possible time consistent with prudent operating principles so that the smallest number of Customers are affected. NOTE TO SECTION 4.2 FEES AND CHARGES: In the incorporated areas of Borger and Skellytown only, all fees and charges (excluding advances, contributions in aid of construction and deposits) shall be adjusted by the amount which represents the actual gross receipts, occupation, revenue taxes and franchise fees paid by the Company. ii) Each utility shall make reasonable provisions to meet emergencies resulting from failure of service, and each utility shall issue instructions to its employees covering procedures to be followed in the event of an emergency in order to prevent or mitigate interruption or impairment of service. iii) In the event of national emergency or local disaster resulting in disruption of normal service, the utility may, in the public interest, interrupt service to other Customers to provide necessary service to civil defense or other emergency service agencies on a temporary basis until normal service to these agencies can be restored. b) Record of interruption. Except for momentary interruptions which do not cause a major disruption of service, each utility shall keep a complete record of all interruptions, both emergency and scheduled. This record shall show the cause of interruptions, date, time duration, location, approximate number of Customers affected, and, in cases of emergency interruptions, the remedy and steps taken to prevent recurrence. c) Report to commission. The commission shall be notified in writing within 48 hours of interruptions in service affecting the entire system or any major division thereof lasting more than four hours. The notice shall also state the cause of such interruptions. If any service interruption is reported to the commission otherwise (for example, as a curtailment report or safety report), such other report is sufficient to comply with the terms of this paragraph. d) The procedure under which curtailments of service will be made is described in Section 14 of this Tariff. e) The Company does not guarantee uninterrupted service to any Customer and shall not be liable for damages resulting from loss of service.

4.6 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in the Company's Borger Office, its District Office in Borger, and its Division Office in Austin. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it and notice to this effect shall be posted in the office. Upon the request of any Customer or Applicant, the Company shall make copies of the Tariff which may be purchased by the Customer or Applicant at the Company's Borger Office. The Company may charge for each copy a fee which is not in excess of the Company's reasonable cost in reproducing the material.

4.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. Upon any Customer's request, the Company shall inform the Customer how to read the Company's meter. The Company shall annually provide each Customer with notice of the availability of a concise description in English and Spanish of the Customer's rights and the Company's obligations under this Tariff. The Company's new Customers shall be provided with a description at the time service is initiated.

4.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Complaints which require no further action by the Company need not be

GAS SERVICES DIVISION

TARIFF CODE: DS	RRC TARIFF NO: 20407
-----------------	----------------------

recorded. Each complainant shall be advised of his or her right to file the complaint with the regulatory authority if not satisfied by the Company. Upon receipt of a complaint, either by letter or by telephone, from the regulatory authority on behalf of a Customer, the Company will make a suitable investigation and advise the regulatory authority and complainant of the results thereof. An initial response must be made by the next working day. The Utility must make a final and complete response within 15 days from the date of the complaint, unless additional time is granted within the 15 day period. TEXAS GAS SERVICE COMPANY Section 5 INITIATION OF SERVICE 5.1 REGULAR SERVICE Application for service shall be made to the Company's office nearest to the premises to be served. Each Applicant must comply with the appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for residential service under the standard provisions of this Tariff; commencement of service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply. Each Applicant may be required to produce an identification card bearing a photograph of Applicant. 5.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply. 5.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution as specified in Section 22.1 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of Section 8 of this Tariff. 5.4 FEES AND CHARGES The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in initiation of service as specified in Section 22.1 of this Tariff. Whenever the Applicant requests expedited service, the Company will accomplish the work as expeditiously as possible and the Customer will be charged as specified in Section 22.1 of this Tariff. Expedited service and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying Company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling. See Section 22.1 relating to the fees for the above. 5.5 ESTABLISHMENT OF CREDIT Each Applicant for service shall be required to make a Security Deposit in accordance with Section 10 of this Tariff to establish a satisfactory credit standing. These Deposits shall be computed in the same manner for the same class of service, providing however, that a Deposit may be waived if a) The Applicant has been a Customer for the same kind of service within the last two years and did not have more than one occasion in which a bill for service from any such utility service account was paid after becoming delinquent during the last 12 month period of service and no disconnection for non-payment was made; (applicable to residential Customers only); b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills; c) The Applicant demonstrates a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification (applicable to residential Customers only); d) The Applicant is 65 years of age or older provided they have no outstanding balance for natural gas utility service which accrued within the last two years (applicable to residential Customers only). e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or f) The application is made for or guaranteed by an agency of the Federal, State or Local

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 20407

government. 5.6 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons; a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff; b) Failure of the Applicant to furnish any service or meter location specified for service under this Tariff; c) Existence of an unsafe condition such as a leak in the Applicant's piping system which, in Company's opinion, may endanger life or property; d) The Applicant is indebted to the Company for the same class of utility service at the same or another service location within the Company's system; e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for the refusal to serve. 5.7 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending on approvals and permits required, the extent of the facilities to be built, and on the Company's workload at the time. TEXAS GAS SERVICE COMPANY Section 6 Texas Tariff - Borger/Skellytown Service Area METERING AND DELIVERY OF GAS 6.1 METER LOCATION Each Applicant shall furnish and subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and not be subject to damage. Meters shall not be located within any enclosed structure not solely intended as a meter house. 6.2 POINT OF DELIVERY The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter, provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery. 6.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land shall be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately, provided that any combined billings in effect at the time of adoption of this Tariff may be continued until the affected Customer discontinues service or upon order by the Cities of Borger and Skellytown. 6.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection. TEXAS GAS SERVICE COMPANY Section 7 Texas Tariff - Borger/Skellytown Service Area INSTALLATION OF EQUIPMENT 7.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the meter and the equipment related thereto, including meter valve and service regulator. The entire service shall become the property of the Company and shall be operated and maintained by it. 7.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company as described in Paragraph 7.1 above. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility for the facilities installed by him or her. 7.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances and shall be properly designed for the pressures and volumes to be handled. In those locations where there are no appropriate ordinances, the applicable provisions of the National Fuel Gas Code, Z223.1 or amendments thereto shall apply. 7.4 CHECKS AND TESTS The Company shall have the right to check new

-----------------	----------------------

installations prior to institution of service and to make any test of the Applicant's facilities it deems necessary. 7.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company. TEXAS GAS SERVICE COMPANY Section 8 Texas Tariff - Borger/Skellytown Service Area

EXTENSION OF FACILITIES 8.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation. 8.2 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 8.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 100 feet of distribution main shall be given for each potential Customer whose premises exist at the time of application to be served from the proposed main extension. In order to qualify for this allowance, the Customer must file an application and agree to initiate gas service upon completion of the Company's facilities. 8.4 ADVANCES The difference between the total cost of facilities as determined in Paragraph 8.2 above and the initial allowance, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less. 8.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the Company's name and on its form at

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20407

no cost to the Company (except for fees involved in the recording of documents). 8.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Paragraph 8.3 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service. 8.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction. 8.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five year period of the extension agreement shall be retained by the Company and considered a contribution in aid of construction. TEXAS GAS SERVICE COMPANY Section 9 Texas Tariff - Borger/Skellytown Service Area CUSTOMER OWNED SYSTEMS 9.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. 9.2 MASTER METERS The Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis; provided, however, that those Customers purchasing gas for redistribution to the Customer's own tenants only on the Consumer's premises may, separately meter each tenant distribution point for the purpose of prorating the Customer's actual purchase price of gas delivered among the various tenants on a per unit basis.

BSk1 b TEXAS GAS SERVICE COMPANY Section 10 Texas Tariff - Borger/Skellytown Service Area SECURITY DEPOSITS 10.1 REQUIREMENTS The Company shall require a security deposit from any present or prospective Customer in accordance with Paragraph 5.5 and 19.1 of this Tariff to guarantee payment of bills, and from any present Customer who during the last 12 consecutive months had on one or more occasion paid their utility bill after becoming delinquent. The amount of the deposit shall not exceed the amount as specified in Section 22.2 of this Tariff. If one-sixth of actual annual use at the particular address is at least twice the amount specified in Section 22.2, a new deposit requirement may be calculated and an additional deposit may be required within two days. Residential deposits shall be retained by the Company until the Customer has paid bills for service for 12 consecutive bills without having service disconnected for non-payment of bill and without having more than two occasions in

GAS SERVICES DIVISION

----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 20407
-----------------	----------------------

which a bill was delinquent and when the Customer is not delinquent in the payment of the current bills. 10.2 RECEIPTS The Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of the receipt. 10.3 INTEREST The Company shall pay interest on all security deposits for the time held at the rate as set by the Public Utility Commission of Texas annually except when - a) the deposit is held 30 days or less; b) notice is sent to the Customer's last known address that the deposit is no longer required; c) the service to which the deposit relates has been discontinued; or d) all or any part of the deposit has been applied to a delinquent account. Interest on deposits earned during the preceding year shall be paid during the first quarter of each calendar year. Payment shall be made either by check or as a credit on the monthly bill at the Company's option. 10.4 RETURN ON DEPOSITS Deposits returned to the Customer in accordance with Paragraph 10.1 above shall be credited to the Customer's account once the good payment record is established. Whenever the deposit of any Customer is credited, the Company shall credit all previously unpaid interest. TEXAS GAS SERVICE COMPANY Section 11 Texas Tariff - Borger/Skellytown Service Area GAS MEASUREMENT 11.1 PRESSURE The standard serving and measurement pressure shall be 4 ounces (0.25 psig) or 7 Water Column above the standard atmospheric pressure in the area served. Standard serving pressure and the atmospheric pressure determined to be the average in Borger and Borger Environs, which applies to the City of Borger, are 13.35 psia and 13.10 psia, respectively. Standard serving pressure and the atmospheric pressure determined to be the average in Skellytown and Skellytown Environs, which applies to the City of Skellytown, are 13.27 psia and 13.02 psia, respectively. The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under a load condition of approximately 10 percent of meter capacity. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted. 11.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one hundred cubic feet (Ccf). A cubic foot for Borger shall be defined as the amount of gas which occupies a volume of one cubic foot at 13.35 psia and at a temperature of 60 degrees Fahrenheit. A cubic foot for Skellytown shall be defined as the amount of gas which occupies a volume of one cubic foot at 13.27 psia and at a temperature of 60 degrees Fahrenheit. Whenever the Company delivers gas at any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation. 11.3 BILLING UNIT Unless otherwise specified on the rate schedules or by special agreement, Customers shall be billed on the basis of Ccf measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. Whenever the meter reads directly in hundreds or smaller units, a reading of one-half a billing unit or more (500 Cf or more) shall be considered a whole billing unit. Readings of less than one-half a unit shall be disregarded for billing. In those cases in which heating value is used as the billing unit, the calculation of the heating value in BTU's shall be made in accordance with Paragraph 11.7 of this Tariff. 11.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure or pressure and temperature compensating measurement whenever the cost of this equipment is justified by the volumes

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20407

served. Such measurements shall be equipped with devices which mechanically or electronically correct the actual measured volumes in accordance with Boyles law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 11.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units. 11.5 METERING - SPECIAL POSITIVE DISPLACEMENT

Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing unit or may be furnished with devices designed to correct the actual volumes to the standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correcting devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculations based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specific gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 11.6 METERING - SPECIAL ORIFICE

Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter charge period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance, impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement. 11.7 BTU MEASUREMENT

The heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.73 psia and temperature of 60 degrees F on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period, expressed in the same units and measured at, or corrected to, 14.73 psia and 60 degrees F, and multiplying by the factor necessary to convert the heating value/measurement units to the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 20407
-----------------	----------------------

billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods: a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type. b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type. i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents. 11.8 CUSTOMER OWNED METERS Any Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for billing purposes. TEXAS GAS SERVICE COMPANY Section 12 Texas Tariff - Borger/Skellytown Service Area METER READING AND ACCURACY 12.1 METER READING Meters shall be read as nearly as may be practical on the same day of each calendar month. Whenever a reading of a general service meter is missed or the meter is not registering, the Company shall estimate the amount of gas used during the period. Such estimates shall be based on either - a) that Customer's use of gas during the same period(s) in previous years; b) that Customer's normal use of gas during preceding months; c) the use of a like Customer for the period missed. If practical, an actual reading shall be made after two consecutive estimated bills. All meters in Special Service shall be read at least once a month. Whenever such a meter fails to register or is misread, the amount of gas used during the preceding period shall be estimated using data applicable to that Special Service Customer only. The Company will make a special reading of any meter upon request and payment of a service charge will be made in accordance with Section 22.1. The time of the special reading shall be agreed upon with the Customer so that he or she may be present. If the original reading was in error (subject, of course, to consumption between the two readings) the service charge shall be refunded. 12.2 ACCESS TO THE METER The Customer shall permit the Company access to the meter at all times for reading thereof and at all reasonable times for maintenance, testing or replacement of the meter. 12.3 METER ACCURACY The limits of accuracy of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set. 12.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Requests for such tests shall be made in writing and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his or her meter. If the test is to be performed after the period of presumed accuracy listed in paragraph 12.7 or if the test is to be performed for a residential or small commercial Customer for whom no such tests have been performed within the previous four (4) years for the same Customer at the same location, no service charge will be assessed. Otherwise, the Customer shall pay a service charge for such test as specified in Section 22.1. If the test proves the meter is registering above the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter. 12.5 BILLING ADJUSTMENTS - GENERAL SERVICE Whenever it has been determined that a meter reading and the subsequent billing has been in error, the Company shall recalculate the affected bill(s). If the date and amount of the error can be definitely fixed, the Company shall refund or may bill the affected Customer

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20407

for the entire difference between the actual bills rendered and the amount which should have been billed. If the date and/or the amount of the error cannot be definitely fixed (such as a meter found to be registering fast or slow), the Company shall refund or bill an amount equal to the difference between the actual bills rendered and the amount which would have been billed if the meter was 100 percent accurate for one-half of the time since the last previous test or six months, at the Company's option. Rebilling for meters found not to register are limited to a three-month period previous to the time the meter is found not to be registering. Undercharges billed to the Customer may be repaid in a series of equal installments over a reasonable period of time. Meter errors found after a final bill has been rendered to any Customer shall not be refunded or collected. This Paragraph shall not apply to meter errors found as a result of routine testing in the Company's meter shop.

12.6 PROVISIONS FOR SPECIAL SERVICE The following modifications shall apply to the provisions of this Section for all Special Service rate schedules and service under special written agreements: a) Orifice and turbine meters shall be tested at least four times per year at intervals not to exceed 120 days. Should the Customer so elect, tests shall be made in the presence of his or her representative. b) Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill either up or down shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate: i) by using registration of Customer's check meter(s) ii) by correcting the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or iii) by estimating the quantity of gas delivered by comparison with deliveries during preceding period under similar conditions when accurate registration was obtained.

12.7 PERIODIC TESTS The Company shall make periodic tests of meters, associated devices and instruments to assure their accuracy. Such test shall be scheduled within the calendar year or earlier, when the interval is stated in years; or within the calendar month, or earlier when the interval is stated in months. The basic period test interval shall be longer than provided for in the following schedule (if the manufacturer of the meter recommends a different schedule - either a shorter or longer time interval, such recommendation shall be followed).

Positive displacement meters:	275 cubic feet per hour or less	Per the Performance Control Program See Paragraph 12.9	276 to 1500 cubic feet per hour	7 years*	1501 to 3000 cubic feet per hour	5 years*	3001 to 5000 cubic feet per hour	2 years*	Over 5000 cubic feet per hour	1 year*
Orifice Meters	6 months	Base pressure correcting devices	24 months	Base volume correcting devices	24 months	Secondary standards Test bottle, one cubic foot	10 years	Dead weight tester	10 years	Working standards
Bell prover	3 years	Rotary displacement test meter	5 years	Flow prover	5 years	Laboratory quality indicating pressure gauge	6 months	* The Company may alter these basic test intervals by placing these meters in the Performance Control Program.		

12.8 METER TEST PROCEDURE AND ACCURACIES Meters and/or associated meter devices shall be tested at the points and adjusted to the tolerance prescribed below. The test of any unit of metering equipment shall consist of a comparison of its accuracy of a standard. Positive displacement meters Accuracy of test points Flow Adjusted to Within Check flow 1.5% Not less than full rated flow 1.5% Overall accuracy The overall accuracy at check flow and the overall accuracy at not less than full rated flow shall agree within one percent. Orifice Meters Accuracy at the test points must be within 2% plus or minus. Timing devices All recording type meters or associated instruments which have a timing element that served to record the time at which measurements take place must be adjusted so that the timing element is not in error more than plus or minus four minutes in twenty-four hours. General i) All meters and/or associated metering devices when tested shall be adjusted as closely as possible to the condition of zero error. ii) All

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20407

tolerances are to be interpreted as maximum permissible variations from the condition of zero error. In making adjustments, no advantages of the prescribed tolerance limits shall be taken. 12.9 PERFORMANCE CONTROL PROGRAM - SMALL METERS The Company shall test and control the performance of all meters of 275 cubic feet per hour capacity or less. Such meters shall be classified into groups on the following basis: a) by year purchased or last repaired; b) by manufacturer, type and size; c) by type of diaphragm (leather or synthetic), when that information is available, and; d) geographic area. Samples of each group shall be tested annually. The sample shall include meters tested as result of routine changes and other removals made during a calendar year. If routine changes and other removals do not produce an adequate sample, additional meters will be removed from service on a random basis. These randomly chosen meters will be included with those removed normally in the sample for determination of acceptability of the group. For any group of meters which has been in service for ten or more years, the minimum sample size is 50 meters. The test results for the group shall be inserted on a control form in terms of number of meters in the sample versus the test results expressed as a percentage. A group will remain in service when it meets the following criteria: 1. No more than 10% of the meters tested in the group will be more than 2% fast; and 2. At least 80% of the meters tested in the group will be within plus or minus 2% of zero error. For the purpose of determination of performance, the results shall be based on the average (algebraic sum divided by two) of the check rate proof and capacity rate proof.

A meter group shall be removed from service when the results of the tests of the sample for that group do not meet the performance standard. The Company shall begin removal of the meters of that group then in service within a 90-day period and shall continue on a regular basis until completed. All meters of the group must be removed within 21 months after the removal program is begun except in unusual circumstances. The Company may, at its option, remove a group of meters even though the group meets the requirements of the performance standard. TEXAS GAS SERVICE COMPANY Section 13 Texas Tariff - Borger/Skellytown Service Area BILLING AND PAYMENT OF BILLS 13.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full within 10 days after the date the bill is rendered. Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of authorized pay stations. If not paid by the date due, the bill shall be considered delinquent. 13.2 PARTIAL BILLING Whenever service is rendered for less than fifteen days during any monthly billing period, the Customer shall be billed for his actual consumption or the regular minimum charge in the applicable rate schedule, whichever is the larger amount. 13.3 ESTIMATED BILLS In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption determined in accordance with Paragraph 12.1 of this Tariff.

The next bill based on an actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for his actual consumption. 13.4 DISPUTED BILLS a) In the event of a dispute between the Customer and the utility regarding the bill, the utility must forthwith make such investigation as is required by the particular case and report the results thereof to the Customer. If the Customer wishes to obtain the benefits of clause b) of this subparagraph, notification of the dispute must be given to the utility prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the utility shall inform the Customer of the complaint procedures of the appropriate regulatory authority. b) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: resolution of the dispute or the expiration of the 60-day period

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 20407
-----------------	----------------------

beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period during the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar Customers and under similar conditions.

13.5 RETURNED CHECKS Whenever the payment for gas service or any other charge permitted under this Tariff is rendered by check and such check is refused by the bank on which it is drawn, the Company may make an additional charge as specified in Section 22.1 to cover the costs of handling and rebilling. The Company must post a notice of the charge in its principal office in the service area at least ten days in advance of the institution thereof and keep such notice in place as long as the charge is in effect. Notice shall be posted adjacent to the place of acceptance of payment.

TEXAS GAS SERVICE COMPANY

Section 14 Texas Tariff - Borger/Skellytown Service Area

CURTAILMENTS

14.1 CURTAILMENTS Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.

14.2 PRIORITY CLASSES All Customers served by the Company shall be classified into one of the following priority groups: Priority 1 - All Domestic service. Priority 2 - All small Commercial and Industrial service (less than 50 Mcf on an average day). Priority 3 - All other Commercial service. Priority 4 - Industrial service, other than boiler fuel, for usage through one meter of more than 50 Mcf but less than 200 Mcf on an average day. Priority 5 - Industrial service, other than boiler fuel, for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 6 - Industrial service, other than boiler fuel, for usage through one meter of more than 1500 Mcf on an average day. Priority 7 - Industrial boiler fuel for usage through one meter of less than 200 Mcf on an average day. Priority 8 - Industrial boiler fuel for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 9 - Industrial boiler fuel for usage through one meter of more than 1500 Mcf on an average day. For the purpose of this classification, each separately billed meter shall be considered a separate Customer. When service which may fall into more than one priority group is rendered through a single meter, the entire service shall be placed in the lowest (highest numbered) applicable priority group.

14.3 METHOD OF CURTAILMENT Curtailment shall be ordered ratably insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities 1 and 2. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

14.4 CLASS AND GROUP CURTAILMENTS No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher numbered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.

14.5 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any Customer (other than a Customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.

14.6 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20407

life or property is endangered. See Section 4.5. TEXAS GAS SERVICE COMPANY Section 15 Texas Tariff - Borger/Skellytown Service Area QUALITY OF GAS 15.1 HEATING VALUE Gas delivered to Consumers in all service areas shall have a gross heating value of at least 900 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered. 15.2 CHARACTER OF GAS All gas furnished to Consumers in the Cities of Borger and Skellytown shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered. 15.3 ODORIZATION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable. Gas containing enough natural odorant as prescribed by state regulatory agency need not be odorized unless the odorant level drops below the acceptable level. TEXAS GAS SERVICE COMPANY Section 16 Texas Tariff - Borger/Skellytown Service Area SERVICE WORK 16.1 FREE SERVICE When requested by the Consumer, the Company shall perform the following service work on the Consumer's premises and appliances on a no-charge basis: a) gas-air adjustments on standard domestic and commercial gas burning appliances when service is initiated; and b) Leakage and pressure investigations to assure that unsafe conditions do not exist. Where leakage is determined by the Company to be in the Consumer's piping or equipment, the Consumer will be so advised and service will be discontinued as required. Any other work performed on any Consumer's appliances or house piping will be on a charge basis. 16.2 OTHER SERVICE The Company may have personnel available for and may undertake other service work on the Consumer's premises on a charge basis, as time permits. Charges shall be made at the Consumer's standard rate in the Service Area and such work and the associated revenues and costs shall be considered non-utility.

BSk1 c TEXAS GAS SERVICE COMPANY Section 17 Texas Tariff - Borger/Skellytown Service Area MAINTENANCE OF EQUIPMENT 17.1 MAINTENANCE BY COMPANY The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter on the Customer's premises at any reasonable time or in the event of an emergency at any time, to read the meter or make any necessary inspection, repair, adjustment, or replacement of any property owned by the Company. 17.2 MAINTENANCE BY THE CUSTOMER The Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Consumer, the Customer will reimburse the Company for all costs of repairing or replacing the damaged property. 17.3 LEAKS - RIGHT TO DISCONNECT FOR The Consumer shall give the Company notice of any escaping gas as soon as it is detected by him. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If the Company's test indicates leakage in the Consumer's facilities, the Company shall have the right to disconnect service immediately until the Consumer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by Company forces. The Company shall have the right to disconnect service immediately if any of the Consumer's appliances or equipment is, in Company's opinion, operating in an unsafe condition.

TARIFF CODE: DS	RRC TARIFF NO: 20407
-----------------	----------------------

17.4 YARDLINES PRESENTLY OWNED BY THE CUSTOMER Any facilities upstream of the meter installed by the Customer prior to the effective date of this Tariff shall remain the property and responsibility of the Customer. Whenever the condition of the facility is such that replacement is required, the work shall be done by the Company under the same terms and conditions as for a new service as described in Paragraph 7.1 of this Tariff. Customer shall reimburse the Company in advance for the estimated cost of the new facility at the prices filed with the city. Thereafter, it shall become the property and responsibility of the Company. 17.5 RESPONSIBILITY Nothing in this Section shall make the Company responsible for the safe upkeep of Consumer owned facilities. TEXAS GAS SERVICE COMPANY Section 18 Texas Tariff - Borger/Skellytown Service Area DISCONTINUANCE OF SERVICE 18.1 BY CUSTOMER A Customer shall be responsible for all charges for gas service from the time he gives notice of the intention to discontinue service until the Company has read the meter or for three working days whichever is the shorter period of time. 18.2 FOR NON-PAYMENT The Company shall have the right to discontinue service to any Customer for non-payment of bills or other charges authorized by this Tariff or the applicable rate schedules, following the due date specified in Section 13.1 hereof. Before discontinuing service for non-payment, the Company shall mail a separate written notice to the Customer with the words TERMINATION NOTICE or similar language prominently displayed. This notice shall include the hours, address, and telephone numbers where payments may be made; the amount of the delinquent bill and the date by which the bill must be paid to avoid disconnection; and a statement of how to contact the Company in case of illness or other emergencies. If a representative of the Company visits a Customer concerning the non-payment of a bill prior to disconnection, a Collection Fee per visit shall be assessed to such Customers as specified in Section 22.1. No Customer shall be disconnected for non-payment: a) Within a period of five working days after mailing of the notice or the day following the date indicated in the notice, whichever is the longer time; b) If the interest on his Security deposit, if any, is sufficient to cover the amount of the delinquent bill; c) After payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel of the payment; d) Before 8:00 AM or after 5:00 PM on any day or on Friday, Saturday, Sunday, Holiday, or day before a holiday unless Company personnel are available on that day for the purpose of making collections or reconnecting service; e) If within five working days after the date of delinquency of the bill the Company receives a written request from the Customer not to discontinue service for health reasons and the request is accompanied by a written statement from a licensed physician. Upon receipt of such request, the Company will suspend termination of service for a period up to twenty days. The Customer shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings. 18.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any Consumer for any of the following reasons: a) Without notice for the presence of what the Company considers to be an unsafe condition on the Consumer's premises or if an emergency exists. b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with his knowledge. c) Within five working days after written notice if the Consumer uses his equipment in any way which causes or creates a potential for adverse effect on the Company's service to others. d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class 1 or 2. e) Five working days after written notice for refusal to grant Company's personnel access to the Consumer's premises at any reasonable time for any lawful purpose. f) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of this Tariff or violation of any applicable laws, orders or ordinances, provided that disconnection may be made without notice if the violation creates an unsafe condition. 18.4 RIGHT OF ENTRY The Company shall have the right to enter upon the Consumer's premises at any reasonable time to shut off service in accordance with

-----------------	----------------------

this Tariff and to remove its meter and other property. 18.5 ABANDONMENT OF SERVICE Service shall not be abandoned (permanent disconnect of any but a temporary Customer) unless requested by the Customer(s) without permission of the regulatory authority. Failure of the Customer to reinstitute service after disconnection within a reasonable period of time shall be considered a request for permanent discontinuance of service. TEXAS GAS SERVICE COMPANY Section 19 Texas Tariff - Borger/Skellytown Service Area RE-ESTABLISHMENT OF SERVICE 19.1 FOR NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount of his account then due plus the prescribed reconnect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer re-establish satisfactory credit in accordance with Section 5 of this Tariff. The first time a Customer requests re-establishment of service after disconnection for non-payment, the Company may waive the deposit. Thereafter, it shall be required in accordance with this Section. 19.2 FOR OTHER REASONS When service has been disconnected for any other reason, the Customer shall be required to request reconnection in writing. If disconnection has been made by the Company, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a reconnect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment. 19.3 RECONNECTION The Company shall restore service as soon as feasible after receipt of the request and compliance with the requirements of this Section. The Company shall charge a non-refundable reconnection fee for all Customers in accordance with Section 22.1. The restoration of service will be accomplished as expeditiously as scheduling permits. If the Customer requests service after hours or earlier than scheduled, the Company shall offer expedited service in accordance with Section 22.1. Applicant must be advised that an additional fee will be charged and must agree to pay such charge. In the event the Company is required to make more than one call because the reason for disconnection has not been properly corrected, the reconnect fee may be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operations. See Section 22.1 for fees. TEXAS GAS SERVICE COMPANY Section 20 Texas Tariff - Borger/Skellytown Service Area NOTICE 20.1 GENERAL Notice is required for all matters in this Tariff other than billing and payment of bills, which shall be deemed to have been given by either Company or Customer when a letter with postage prepaid has been deposited in the United States mail addressed to the Company at the office specified on the front sheet of this Tariff or to the Customer at his or her known service address or when communicated in person or by telephone directly between the Company and Customer. TEXAS GAS SERVICE COMPANY Section 21 Texas Tariff - Borger/Skellytown Service Area BUDGET PAYMENT PLAN 21.1 DESCRIPTION Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner: a) The Plan year shall be the 12 months ending each year with the Customer's July bill. The Plan monthly payment shall be determined as follows: i) for Customers electing to commence with the August bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's plan year. ii) for Customers electing to commence with the September or later bills, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year from commencement in the Plan until the next following July bill. Succeeding years shall be computed on an annual basis as in subparagraph (i) above. b) The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon the most recent available prior 12-month period at the same service location; or, if there is not at

GAS SERVICES DIVISION

least 12-months prior service at the same service location, then the charges shall be based on consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known charges. c) The Company reserves the right to adjust the remaining monthly plan payments of any Customer at any time for changes in condition or rates. d) The Company shall advise each Customer in the Plan of the monthly plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of the month's plan payment. The Customer shall continue to pay the monthly plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. e) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly plan payment. f) The July gas bill for each Customer in the Plan shall be handled as follows: i) any amount due the Company up to the monthly plan payment shall be paid in full by the due date shown on the bill. ii) if the balance due the Company exceeds the monthly plan payment, a payment equal to that amount will be paid and the excess shall be utilized in computing the next plan year's monthly plan payment. iii) any balance due the Customer shall also be utilized in computing the next plan year's monthly plan payments. g) Interest will not be charged the Customer on accrued debit balances nor paid by the Company on accrued credit balances. h) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan. i) Any Customer's participation in the Plan may be discontinued by the Company if the monthly plan payment has not been paid on or before the due date of the next monthly plan payment. j) If any Customer in the Plan shall cease, for any reason, to participate in the Plan, then the Company may refuse that Customer's reentry in the Plan until the next following August. TEXAS GAS SERVICE COMPANY Section 22 Texas Tariff - Borger/Skellytown Service Area FEES AND DEPOSITS 22.1 FEES A. Initiation of Service: i) Connect: (Section 5.4) \$35.00 charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set and/or gas turned on. ii) Read-In: (Section 5.4) \$15.00 charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when only a meter reading is required. ii) After-Hours & Special Handling: (Section 5.4 & 19.3) In addition to initiation of service fee above, a fee may be charged to any Applicant whose request to initiate service cannot be worked during normal business hours or requires special handling. Applicant must be advised that an additional fee will be charged and must agree to pay such charge. a) Special Handling: \$15.00 The Company may, at Customer's request, provide special handling in order to meet the Customer's requirements. Special handling may include such assistance as calling the Customer in advance or making other special arrangements (such as A.M. or P.M. scheduling) for access to the Customer's premises. b) Expedited Service: \$41.25 Charged to any Customer who requires that the order be worked after hours for their convenience or if the Customer requires expedited service. The Customer's request for expedited service may then be scheduled at any time to fit the Company's work schedule but the after-hours charge shall be collected as long as any other work is done on overtime. c) Special Call Out: \$41.25 Charged to any Customer, if the initiation of service order requires special call out. B. Services - Others: As stated below Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying Company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling. C. Customer Requested Meter Test: (Section 12.4) Positive Displacement Charge 275 cubic feet per hour or less \$25.00 276 to 1500 cubic feet per hour 35.00 1501 to 3000 cubic feet per hour 50.00 3001 to 5000 cubic feet per hour 75.00 over 5000 cubic feet per hour 100.00 Orifice Meters All sizes

1-1-BorgSk-IS-COSAdj

TEXAS GAS SERVICE COMPANY
 Borger/Skellytown Service Area
 RATE SCHEDULE 1-1
 COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all gas sales rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Borger and Skellytown, Texas.

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing at least thirty (30) days prior to the first billing cycle of July each year at which time rate adjustments will become effective.

C. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment and federal income taxes. In any year, the percentage change in total calendar year operating expenses shall not exceed the greater of 3.5 percent or the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in operating expenses is computed by comparing the operating expenses for the most recent calendar year to the prior calendar year operating expenses (either those from the last rate case or cost of service adjustment filing, whichever is more recent). The rate adjustment will be spread evenly across all weather normalized gas sales volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing gas sales rates for each rate code.

1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account Nos. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. **Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20408

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items*** Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes ***These items will reflect the Materials and Supplies inventories and prepayments levels approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Investment Tax Credit (remaining unamortized credit) Multiplied by: Tax Factor (.35/(1-.35) or .53846) Less: Investment Tax Credit (remaining unamortized credit)

4. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections C.1 through C.3 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized gas sales volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (****) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each gas sales rate code. **** The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than thirty (30) days within which to review the proposed annual rate adjustment prior to its taking effect each year for meters read on or after the first billing cycle of July. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

Meters Read On and After June 28, 2011

DESCRIPTION

multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year. 3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of surcharges or refunds made to customers during the period and any other revenues, costs, or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (e) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount of uncollectible accounts that are attributable to charges calculated under this

DESCRIPTION

tariff during the period. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had over collected during the period, it shall credit into the Reconciliation Account an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had under collected during the period, it shall debit into the reconciliation account an amount equal to the average balance multiplied by six percent (6%). F. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. G. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month. 2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 5. A summary of charges related to uncollectible accounts as described in Section B. 5. (d). This report shall be filed concurrently with the Cost of Gas Statement for December. This Rate Schedule replaces Cost of Gas Clause: Meters Read On and After 1-INC dated 8/24/01 (Borger) and 8/24/01 (Skellytown) November 4, 2008

DESCRIPTION

to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;

(B) the unit rate and total amount of the surcharge billed to each customer;

DESCRIPTION

(C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline

WNA BorgSk-IS

TEXAS GAS SERVICE COMPANY Borger/Skellytown Service Area RATE SCHEDULE WNA
WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Borger and Skellytown, Texas: 10, 20, 40 and 48. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. Initial Rate Schedule Meters Read On and After

DESCRIPTION

1-INC-BorgSk-IS-COG

TEXAS GAS SERVICE COMPANY Borger/Skellytown Service Area RATE SCHEDULE 1-INC COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of Borger and Skellytown, Texas. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, a Reconciliation Component, and applicable fees (including franchise fees) and taxes. 2. Commodity Cost - The estimated Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year. 3. Cost of Purchased Gas - The cost for gas purchased by the Company from its supplier or the weighted average cost for gas purchased by the Company from all sources where applicable. The Cost of Purchased Gas may include prudently incurred costs necessarily incurred for transportation, storage and associated services. The Cost of Purchased Gas shall also include any surcharge or refund the Company may incur from its gas suppliers or service providers. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees (including franchise fees) and taxes paid by the Company on those revenues, (c) the total amount of surcharges or refunds made to customers during the period and any other revenues, costs, or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (e) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.73 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7.

DESCRIPTION

Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total prudently incurred amount paid for the Cost of Purchased Gas as defined in Section B.3. of this Cost of Gas Clause to provide service to its customers during the period, including prudently incurred gains or losses on natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of fees (including franchise fees) and taxes, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, and (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined. E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had over collected during the period, it shall credit into the Reconciliation Account an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had under collected during the period, it shall debit into the reconciliation account an amount equal to the average balance multiplied by six percent (6%). F. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (d) the Reconciliation Component; (e) the revenue associated fees (including franchise fees) and taxes to be applied to revenues generated by the Cost of Gas; and (f) the Cost of Gas which is the total of items (b) through (e). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. G. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month. 2. A tabulation of gas units sold to general service

DESCRIPTION

COST OF SERVICE ADJUSTMENT CLAUSE

A. APPLICABILITY

This Cost of Service Adjustment Clause applies to all gas sales rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Borger and Skellytown, Texas.

B. EFFECTIVE DATE

Rate adjustments shall be made in accordance with the procedures described below on an annual basis. The Company shall make its annual filing at least thirty (30) days prior to the first billing cycle of July each year at which time rate adjustments will become effective.

C. COMPONENTS OF RATE ADJUSTMENT

Calculation of the rate adjustment will be based on calendar year operating expenses, return on investment and federal income taxes. In any year, the percentage change in total calendar year operating expenses shall not exceed the greater of 3.5 percent or the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) from December of the prior calendar year to December of the most recent calendar year. The actual percentage change in operating expenses is computed by comparing the operating expenses for the most recent calendar year to the prior calendar year operating expenses (either those from the last rate case or cost of service adjustment filing, whichever is more recent). The rate adjustment will be spread evenly across all weather normalized gas sales volumes for the calendar year to determine an adjustment amount per Ccf to be added to existing gas sales rates for each rate code.

1. Operating Expenses Operating expenses will be determined by the ending balances for the applicable calendar year. The applicable expenses are: Depreciation and Amortization Expense (Account Nos. 403-405)* Taxes Other Than FIT (Account No. 408)** Distribution Expenses (Account Nos. 870-894) Customer Related Expenses (Account Nos. 901-916) Administrative & General Expenses (Account Nos. 920-932) Interest on Customer Deposits (Account No. 431) * Based on last city-approved depreciation methods and lives. **Excluding City Franchise, Gross Receipts, and any other revenue-based tax. This information will be presented with supporting calculations.

2. Return on Investment The rate of return will remain constant at the level authorized in the most recent rate case. The return on investment is the rate of return multiplied by the rate base balance for the applicable calendar year end. The rate base balance is composed of: Net Plant in Service Plus: Other Rate Base Items*** Less: Customer Deposits (Account No. 235) Customer Advances (Account No. 252) Deferred Federal Income Taxes ***These items will reflect the Materials and Supplies inventories and prepayments levels approved in the most recent general rate case.

3. Federal Income Taxes Calendar year federal income taxes will be calculated as

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20409

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

follows: Net Taxable Income (calendar year end rate base multiplied by rate of return from the most recent general rate case) Less: Interest on Long Term Debt (debt cost component of return from the most recent general rate case multiplied by rate base) Investment Tax Credit (remaining unamortized credit) Multiplied by: Tax Factor (.35/(1-.35) or .53846) Less: Investment Tax Credit (remaining unamortized credit)

4. Cost of Service Adjustment Rate The amount to be collected through the cost of service adjustment rate will be the sum of the amounts from Sections C.1 through C.3 (the revenue requirement) less the calendar year customer charge revenue and other revenue (i.e., transportation revenue and service charges). Dividing this amount by weather-normalized gas sales volumes for the applicable calendar year will yield a per unit rate for the calendar year. The difference between this calendar year per unit rate and the per unit rate from the most recent rate case (****) will result in the cost of service adjustment rate for the calendar year. The cost of service adjustment rate for the calendar year will be added to the cost of service rate approved in the most recent rate case for each gas sales rate code. **** The per unit rate from the most recent rate case will be the weighted average per unit cost of service rate for all classes of gas sales service.

D. REGULATORY REVIEW OF ANNUAL RATE ADJUSTMENT

The cities will have a period of not less than thirty (30) days within which to review the proposed annual rate adjustment prior to its taking effect each year for meters read on or after the first billing cycle of July. This Cost of Service Adjustment Clause does not limit the legal rights and duties of the cities. Texas Gas Service Company's annual rate adjustment will be made in accordance with all applicable laws.

Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 20409

RATE SCHEDULESCHEDULE IDDESCRIPTION

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

Source Note: The provisions of this Section 8.201 adopted to be effective September 8, 2003, 28 TexReg 7682; amended to be effective November 24, 2004, 29 TexReg 10733; amended to be effective May 15, 2005, 30 TexReg 2849; amended to be effective December 19, 2005, 30 TexReg 8428; amended to be effective April 18, 2007, 32 TexReg 2136; amended to be effective November 12, 2007, 32 TexReg 8121; amended to be effective September 21, 2009, 34 TexReg 6446; amended to be effective August 30, 2010, 35 TexReg 7743; amended to be effective November 14, 2011, 36 TexReg 7663 Meters Read On and After March 28, 2016 Supersedes Same Sheet Dated March 30, 2015

WNA BorgSk-IS

TEXAS GAS SERVICE COMPANY Borger/Skellytown Service Area RATE SCHEDULE WNA WEATHER NORMALIZATION ADJUSTMENT CLAUSE A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas of Borger and Skellytown, Texas: 10, 20, 40 and 48. The WNA shall be effective during the September through May billing cycles. B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. D. FILING WITH THE CITIES The Company will file with the Cities monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities an annual report verifying the past year's WNA collections or refunds. Initial Rate Schedule Meters Read On and After November 4, 2008

surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom and Punkin Center, Texas: 1A, 2A, 2B, 4A, and 4B. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis.

The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \text{WNAD} \cdot \text{CV} \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} \cdot \text{CB} \cdot \text{WF}) \cdot \text{COS rate, where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case as listed below.

CV = Current Volumes for the billing period.

Weather Factors from most recent rate case by class:

Residential 0.13197

Commercial 0.37721

Large Commercial 10.64749

Public Authority 1.73743

Large Public Authority 15.61800

Applicable weather station is Abilene, Texas.

TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-ENV COST OF GAS
 CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general
 service rate schedules of Texas Gas Service Company (The Company) in the
 unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral
 Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo
 Pinto, Perrin, Whitt, Possum Kingdom, and Punkin Center, Texas. B. DEFINITIONS
 1. Cost of Gas - The rate per billing unit or the total calculation under this
 clause, consisting of the commodity cost, a Reconciliation Component and related
 fees and taxes, and other purchased gas expenses. 2. Commodity Cost - The Cost of
 Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas -
 The estimated cost for gas purchased by the Company from its suppliers or the
 estimated weighted average cost for gas purchased by the Company from all sources
 where applicable. Such cost shall include not only the purchase cost of natural
 gas, but shall also include all reasonable fees for services such as gathering,
 treating, processing, transportation, capacity and/or supply reservation fees,
 storage, balancing, and swing services necessary for the movement of gas to the
 Company's citygate delivery points. The Cost of Purchased Gas shall also include
 gains or losses from the utilization of natural gas financial instruments that are
 executed by the Company for the purpose of mitigating high prices and price
 volatility. 4. Reconciliation Component - The amount to be returned to or
 recovered from customers each month from December through August as a result of the
 Reconciliation Audit. 5. Reconciliation Audit - An annual review of the
 Company's books and records for each twelve month period ending with the production
 month of August to determine the amount of over or under collection occurring
 during such twelve month period. The audit shall determine: (a) the total amount
 paid for gas purchased by the Company (per Section B(3) above) to provide service
 to its general service customers during the period, (b) the revenues received from
 operation of the provisions of this cost of gas, (c) the total amount of refunds
 made to customers during the period and any other revenues or credits received by
 the Company as a result of relevant gas purchases or operation of this Cost of Gas
 Clause, (d) the total amount of uncollectible accounts that are attributable to
 charges calculated under this tariff during the period, not to exceed 0.82% of cost
 of gas revenues and (e) an adjustment, if necessary, to exclude lost and
 unaccounted for gas during the period in excess of five (5) percent of purchases.
 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes
 purchased of a general service customer during the twelve (12) month period ending

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7.

Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund

DESCRIPTION

or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. 7. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. 8. Transition from the preceeding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Meters Read On and After January 27, 2014 Supersedes Rate Schedule 1-ENV dated April 30, 2009

IRA-NTX-OS-IRAAdj

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE IRA-ENV
 North Texas Service Area - East Texas Region
 INTERIM RATE ADJUSTMENT

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the environs areas of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

RATE SCHEDULESCHEDULE IDDESCRIPTION

Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Mineral Wells, Graford, Millsap, Palo Pinto, Whitt, Perrin, Weatherford, Aledo, Hudson, Hudson Oaks, Willow Park, Punkin Center and Possum Kingdom, Texas. Applicable rate schedules include 1A, 2A, 2B, 3A, 3B, 4A, and 4B.

B. PURPOSE

Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

The Commission may approve the program without a hearing; set the matter for a public hearing on its own motion or on the motion of any affected customer of said utility.</p>

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

The curtailment program to be filed shall include, in verified form, the following information:

A. Volume of gas reserves attached to its system together with a brief description of each separate source of gas reserves setting forth the following:

1. the name of the supplier,
2. the term of each contract in years, and the years remaining on said contract,
3. the volume of recoverable reserve contracted for, and
4. rated deliverability of such reserves in MCF.

B. Capacity and location of underground storage, if any, attached to its system with a statement of whether the company's storage balance is above or below its desired level for this time, and, if below, what plans has the company made to restore the balance.

C. Peak day and average daily deliverability on an annual basis of its wells, gas plants and underground storage attached to its system.

D. Peak day capacity of its system.

E. Forecast of additions to reserves for each of the next two succeeding years.

F. Location and size of the line pipes, compressor stations, operating maximum line pressures, and a map showing delivery points along the system.

G. Disposition of all gas entering its system, with names of all customers other than residential customers and volumes delivered to each during the past calendar year. Identify those customers using 3,000 MCF gas per day, or more, which are under a service contract, and if such contract includes an Interruptible Service clause, and if so, attach a reproduced copy of the relevant provisions of such contract.

H. Steps taken in past years, being taken at the present, and to be taken to alleviate curtailments.

RULE 2.

Until such time as the Commission has specifically approved a utilities curtailment program, the following priorities in descending order shall be observed:

A. Deliveries for residences, hospitals, schools, churches and other human needs customers.

B. Deliveries of gas to small industrials and regular commercial loads (defined as those customers using less than 3,000 MCF per day) and delivery of gas for use as pilot lights or in accessory or auxiliary equipment essential to avoid serious damage to industrial plants.

C. Large users of gas for fuel or as a raw material where an alternate cannot be used and operation and plant production would be curtailed or shut down completely when gas is curtailed.

D. Large users of gas for boiler fuel or other fuel users where alternate fuels can be used. This category is not to be determined by whether or not a user has actually installed alternate fuel facilities, but whether or not an alternate fuel could be used.

E. Interruptible sales made subject to interruption or curtailment at Seller's sole discretion under contracts or tariffs which provide in effect for the sale of such gas as Seller may be agreeable to selling and Buyer may be agreeable to buying from time to time.

RULE 3.

Each gas utility that has obtained Commission approval of a curtailment program shall conduct operations in compliance with such program. So long as any gas utility which has obtained Commission approval of a curtailment program continues to curtail deliveries to its customers, except as provided by contract or those customers included in Part E of Rule 2 above, it

(a) shall file on or before April 1 of each year, under oath, the information called for in Rule 1, for the preceeding year, and

(b) shall not, without Commission approval, make sales of gas to any new customers or increase volumes sold to existing customers, except those new or existing customers defined in Parts A & B of Rule 2 above.

IT IS FURTHER ORDERED that this cause be held open for such other and further orders as may be deemed necessary.

ENTERED AT AUSTIN, TEXAS, this 5th day of January, 1973.

LINE EXTENSION POLICY

<u>POLICY ID</u>	<u>DESCRIPTION</u>
1129	<p>TEXAS GAS SERVICE COMPANY Texas Tariff - North Texas NORTH TEXAS REGION ENVIRONS OF THE MINERAL WELLS SERVICE AREA (From Quality of Service Rules effective 01/28/91) INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him. 4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him. 4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary. 4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company.</p> <p>EXTENSION OF FACILITIES 5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation. 5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or</p>

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 21336

individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer. 5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents). 5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served. 5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction. 5.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction.

1111 TEXAS GAS SERVICE COMPANY Texas Tariff - North Texas NORTH TEXAS REGION ENVIRONS OF BRECKENRIDGE, TEXAS SERVICE AREA (From Quality of Service Rules effective 1/28/91) INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the

-----------------	----------------------

property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him.

4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him.

4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled.

4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary.

4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company.

EXTENSION OF FACILITIES

5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation.

5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer.

5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is

made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents). 5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served. 5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction. 5.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction.

1122 TEXAS GAS SERVICE COMPANY Texas Tariff - North Texas NORTH TEXAS REGION ENVIRONS OF GRAHAM, TEXAS SERVICE AREA (From Quality of Service Rules effective 1/28/91) INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. 1135 TEXAS GAS SERVICE COMPANY Texas Tariff - Possum Kingdom Service Area ENVIRONS OF POSSUM KINGDOM, TEXAS SERVICE AREA (From Quality of Service Rules effective 10/19/95) INSTALLATION OF EQUIPMENT 7.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, the Company shall determine the estimated cost of that portion of the service between the property line and the meter set. This estimate shall be based on the size and footage to be installed. This amount shall then be contributed by the Applicant before construction. The entire service shall become the property of the Company and shall be operated and maintained by it. 7.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company as described in Paragraph 7.1 above. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility for the facilities installed by him or her. 7.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances and shall be properly designed for the pressures and volumes to be handled. In those locations where there are no appropriate ordinances the applicable provisions of the National Fuel Gas Code, Z223.1 or amendments thereto shall apply. 7.4 CHECKS AND TESTS The Company shall have the right to check new installations prior to institution of service and to make any test of the Applicant's facilities it deems necessary. 7.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company. EXTENSION OF FACILITIES 8.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation. 8.2 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 8.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

TARIFF CODE: DS RRC TARIFF NO: 21336

existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 150 feet of distribution main shall be given for each potential Customer whose premises exist at the time of application to be served from the proposed main extension. In order to qualify for this allowance, the Customer must file an application and agree to initiate gas service upon completion of the Company's facilities.

8.4 ADVANCES The difference between the total cost of facilities as determined in Paragraph 8.2 above and the initial allowance, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less. [Note per Deposits Section 22.2 (A): Advances - Estimated expenditure to serve the premises of new business beyond the existing distribution facilities of the Company]

8.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

8.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Paragraph 8.3 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service.

8.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

8.8 DELIVERY OF REFUNDS When a refund is due, a check

in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five year period of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

Main Weatherford, Texas 76086 TEXAS GAS SERVICE COMPANY Texas Tariff - North Texas NORTH TEXAS REGION TEXAS GAS SERVICE COMPANY RULES OF SERVICE INDEX SECTION 1 CONDITIONS OF SERVICE SECTION 2 INITIATION OF SERVICE SECTION 3 METERING AND DELIVERY OF GAS SECTION 4 INSTALLATION OF EQUIPMENT SECTION 5 EXTENSION OF FACILITIES SECTION 6 CUSTOMER OWNED SYSTEMS SECTION 7 SECURITY DEPOSITS SECTION 8 GAS MEASUREMENT SECTION 9 METER READING AND ACCURACY SECTION 10 BILLING AND PAYMENT OF BILLS SECTION 11 CURTAILMENTS SECTION 12 QUALITY OF GAS SECTION 13 SERVICE WORK SECTION 14 MAINTENANCE OF EQUIPMENT SECTION 15 DISCONTINUANCE OF SERVICE SECTION 16 RE-ESTABLISHMENT OF SERVICE SECTION 17 BUDGET PAYMENT PLAN TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 1 SERVICE AREA North Texas SECTION 1 CONDITION OF SERVICE 1.1 PROVISIONS OF SERVICE The Company will provide gas service to any person or organization located within its service areas, from its facilities or facilities of its supplier in certain cases, in accordance with the provisions of this Tariff including Rate Schedules and Rules of Service approved by the Railroad Commission of Texas. Service provided directly from the facilities of others may be provided only with the approval of the owning company and shall thereafter be continued only as long as gas of satisfactory quality is available at the location. 1.2 FEES AND CHARGES All fees and charges made by the Company for provision of utility service and that work necessary to maintain service, shall be provided for in this Tariff. All other fees and charges for service work done on Consumer's premises shall be done in accordance with the schedule of fees and charges on file and approved by the appropriate regulatory authority where required. 1.3 RESALE OF GAS No gas supplied by the Company shall be resold by any Customer unless expressly authorized by the Company in writing and approved by the Regulatory Authority. Gas delivered through a master meter and delivered to one or more consumers shall not be considered to be resold as long as it is not metered and billed on separate commodity or cost of service basis. 1.4 TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice. 1.5 CONTINUITY OF SERVICE The Company shall use reasonable diligence in providing continuous service to all of its Consumers except for those interruptions of service permitted under rate schedules providing for them. Under certain circumstances it may be necessary to curtail Consumers of any class. The procedure under which interruptions and curtailments of service will be made is described in Section 11 of this Tariff. The Company does not guarantee uninterrupted service to any consumer and shall not be liable for damages resulting from loss of service. 1.6 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in each of the Company's Service Area offices and at its Corporate Office in Austin, Texas. A copy of the locally applicable Tariff shall be kept in each of the Company's offices. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it during reasonable office hours. 1.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. The Company shall provide each new Customer, when service is initiated, information as follows: a) Upon request, instructions as to the method of reading meters. b) At the time service is initiated or as an insert in the first billing, a pamphlet or packet containing the following information. This information shall be provided in English and Spanish as necessary to adequately inform Customers. i) The Customers' right to information concerning rates and services and the</p>

Customer's right to inspect or obtain at reproduction cost a copy of the applicable tariffs and service rules; ii) The Customer's right to have his or her meter checked without charge under Section 9.4 (Meter Testing-Customer Requests) of these Rules of Service, if applicable; iii) The time allowed to pay outstanding bills; iv) Grounds for termination of service; v) The steps the Company must take before terminating service; vi) How the Customer can resolve billing disputes with the Company and how disputes and health emergencies may affect termination of service; vii) Information on alternative payment plans offered by the Company; viii) The steps necessary to have service reconnected after involuntary termination; ix) The appropriate regulatory authority with whom to register a complaint and how to contact such authority; x) The hours, addresses, and telephone numbers of utility offices where bills may be paid and information may be obtained; and xi) The Customer's right to be instructed by the Company how to read his or her meter. c) At least once each calendar year, notify Customers that information is available upon request, at no charge to the Customer, concerning the items listed in Subsection b. This notice may be accomplished by using the billing insert or a printed statement upon the bill itself.

1.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Upon receipt of a complaint from the regulatory authority on behalf of a Customer, the Company shall investigate and advise the regulatory authority and complainant of the results of the investigation. An initial response will be made the next working day with a final response completed within 15 days from the date of the complaint, unless additional time is granted within the 15 day period.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 2 SERVICE AREA North Texas

SECTION 2 INITIATION OF SERVICE 2.1 REGULAR SERVICE Application for service shall be made to the Company's office nearest to the premises to be served. Each Applicant must comply with appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for service under the standard provisions of this Tariff. Commencement of the service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply.

2.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply.

2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff. The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS	RRC TARIFF NO: 21336
-----------------	----------------------

on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

2.4 ESTABLISHMENT OF SERVICE Each Applicant for residential service may be required to make a Security Deposit to establish a satisfactory credit standing. These deposits shall be computed in the same manner for the same class providing however, that a Deposit may be waived if

- a) The Applicant has been a Customer of any utility for the same kind of service within the last two years and is not delinquent in payment of any such utility service account and during the last 12 consecutive months of service did not have more than one occasion in which a bill for such utility service was paid after becoming delinquent and never had service disconnected for nonpayment;
- b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills for the service required;
- c) The Applicant furnishes in writing a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification, or ownership of substantial equity;
- d) The Applicant is 65 years of age or older provided they have no outstanding balance for utility service over two years old (applicable to residential Customers only);
- e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or
- f) The application is made for or guaranteed by an agency of the federal, state or local government.

2.5 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons:

- a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff;
- b) Failure of the Applicant to furnish any service or meter location specified by the Company as a condition for obtaining service;
- c) Existence of a potentially hazardous condition such as a leak in the Applicant's piping system which, in the Company's opinion, may endanger life or property;
- d) Failure to pay for gas service at the same or another service location within the Company's system; provided the amount billed is not then in dispute; or
- e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for refusal to serve.

2.6 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending upon approvals and permits required, the extent of the facilities to be built, and the Company's work load at the time.

2.7 INSUFFICIENT GROUNDS FOR REFUSAL TO SERVE The Company may not refuse service to any Applicant for any of the following reasons -

- a) Failure to pay any bill of another Customer, except as provided above;
- b) Failure to pay for merchandise or other charges for non-utility service purchased from or through the Company.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 3 SERVICE AREA North Texas SECTION 3 METERING AND DELIVERY OF GAS

3.1 METER LOCATIONS Each Applicant shall furnish and subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and protected from damage. Meters shall not be located within any enclosed structure not solely intended as a meter house.

3.2 POINT OF DELIVERY The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery.

3.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land shall be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

is permitted for the same Customer, the Company shall bill the usage through each meter separately. 3.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 4 SERVICE AREA North Texas SECTION 4 INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him.

4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him. 4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary. 4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 5 SERVICE AREA North Texas SECTION 5 EXTENSION OF FACILITIES 5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation. 5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer.

5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension.

5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents).

5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served.

5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction.

5.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 6 SERVICE AREA North Texas SECTION 6 CUSTOMER OWNED SYSTEMS

6.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers.

6.2 MASTER METERS The Company shall provide service through a master meter into the piping system of others to be distributed to

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 7 SERVICE AREA North Texas SECTION 7 SECURITY DEPOSITS 7.1 REQUIREMENTS The Company may require a security deposit from any present or prospective Customer in accordance with Section 2 of these rules. The amount of the deposit for residential service shall not exceed 1/6 of the estimated annual billing except that when the actual usage exceeds twice the amount estimated, the amount of the required deposit may be increased proportionately. 7.2 RECEIPTS The Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of the receipt. 7.3 INTEREST The Company shall pay interest on all security deposits for the time held at the then lawfully established rate per annum except when - a) the deposit is held less than 30 days; b) notice is sent to the Customer's last known address that the deposit is no longer required; c) the service to which a deposit relates has been discontinued; or d) all or any part of the deposit has been applied to a Customer's account. Interest on deposits earned during the preceding year shall be paid annually either by check or as a credit on the monthly bill at the Company's option. Whenever the deposit of any Customer is returned, the Company shall pay all previously unpaid interest. 7.4 REFUND OF DEPOSITS Except where locally established regulations provide otherwise, deposits for residential service will be promptly refunded with accrued interest when: a) service is not connected or, after disconnection of service, the balance, if any, is in excess of the unpaid bills for service furnished. b) the Customer has paid bills for residential service for 12 consecutive months without having service disconnected and without having more than two occasions when a bill was delinquent and when the Customer is not delinquent in the payment of current bills. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 8 SERVICE AREA North Texas SECTION 8 GAS MEASUREMENT 8.1 PRESSURE The standard serving and measurement pressure shall be determined by the assumed average atmospheric pressure in the service area as follows: Standard Serving Atmospheric District or Service Area Pressure, PSIA Pressure, PSIA Mineral Wells Region 14.65 14.40 Weatherford Region 14.65 14.40 Jacksboro Region 14.65 14.40 Breckenridge Region 14.65 14.15 Graham Region 14.65 14.15 The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under normal load conditions. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted. 8.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one thousand cubic feet. A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at the pressure of gas in the meter and a temperature of 60 degrees Fahrenheit. Whenever the Company delivers any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation. 8.3 BILLING UNIT Unless otherwise specified on the rate schedule or by special agreement, Customers shall be billed on the basis of CCF measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. 8.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure compensating meters whenever the cost of this equipment is justified by the volumes

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

served. Such meters shall be equipped with devices which mechanically correct the actual measured volumes in accordance with Boyles Law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 8.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units. 8.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing units or may be furnished with devices designed to correct the actual volumes to be standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correction devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculation based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specified gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 8.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter chart period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

WTH2 b 8.7 BTU MEASUREMENT The heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.65 psia and temperature of 60 degrees F. on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period expressed in the same units and measured at or corrected to 14.65

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

psia and 60 degrees F., and multiplying by the factor necessary to convert the heating value/measurement units to the billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods: a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type. b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type. i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents.

8.8 CUSTOMER OWNED METERS Any Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for billing purposes. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 9 SERVICE AREA North Texas SECTION 9 METER READING AND ACCURACY 9.1 METER READING Meters shall be read as nearly as may be practical on the same day of each calendar month. 9.2 ACCESS TO THE METER The Customer shall permit the Company access to the meter at all times for readings thereof and at all reasonable times for maintenance, testing or replacement of the meter. 9.3 METER ACCURACY The nominal accuracy of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results. Industrial Customer meter tests performed under these conditions shall be charged at the following fee schedule:

METER TYPE AND CAPACITY		SERVICE CHARGE	
Displacement	251 to 1500 cubic feet per hour	\$ 25.00	1501 to 3000 cubic feet per hour
	50.00	3001 to 5000 cubic feet per hour	50.00
	100.00	Turbine meters	200.00
		Orifice	All Sizes
			\$ 100.00

If the test proves the meter is registering above or below the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter. 9.5 BILLING ADJUSTMENTS - GENERAL SERVICE If meter tests reveal more than a 2% error the previous readings will be corrected for the past six months or the time since the last test of the meter, whichever is shorter. Resulting over or underbillings will be corrected in subsequent bills. If a meter is found not to have registered for a period of time, the Company will charge for unmeasured consumption for a period of not longer than three months prior to the time the meter is found not to be registering. The amount used but not measured will be based upon consumption during a like period by the same Customer at the same location or, if this information is unavailable, on consumption under similar conditions at other locations. 9.6 PROVISIONS FOR SPECIAL SERVICE The following modifications shall apply to the provisions of this Section for all Special Service rate schedules and service under

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

special written agreements: a) Orifice meters shall be calibration tested at least four times per year at intervals not to exceed 120 days. Should the Customer so elect, tests shall be made in the presence of his representative. b) Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill either up or down shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate. i) By using registration of the Customer's check meter(s) if proved correct. ii) By correcting the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or iii) By estimating the quantity of gas delivered by comparison with deliveries during preceding period under similar conditions when accurate registration was obtained. 9.7 PERIODIC TESTS The Company shall make periodic tests of meters, associated devices and instruments to assure their accuracy. The basic periodic test interval shall not be longer than provided for in the following schedule.

Positive displacement meters:	401 to 1500 cubic feet per hour	7 years
	1501 to 3000 cubic feet per hour	5 years
	3001 to 5000 cubic feet per hour	2 years
	Over 5000 cubic feet per hour	1 year
Office meters		6 months
Turbine meters		1 year
Base pressure correction devices		2 years
Service pressure regulation devices		Quarterly

Positive displacement meters rated at 400 cubic feet per hour or less shall be replaced with new or remanufactured meters at intervals of not greater than 13 years in service. Meters removed under this program will be tested and records of the tests evaluated to determine if the accuracy of the sample group justifies adjustment of the replacement cycle. 9.8 METER TEST PROCEDURE AND ACCURACIES Meters and/or associated meter devices shall be tested at the points and adjusted to the tolerances prescribed below. The test of any unit of metering equipment shall consist of a comparison of its accuracy to a standard. Positive displacement meters: Accuracy at test points Flow Adjusted to Within Check flow 1.5% Not less than rated flow 1.5% Overall accuracy The overall accuracy at check flow and the overall accuracy at not less than full rated flow shall agree within one percent. Orifice meters: Accuracy at the test points must be within 2% plus or minus. General: i) All meters and/or associated metering devices when tested shall be adjusted as closely as possible to the condition of zero error. ii) All tolerances are to be interpreted as maximum permissible variations from the condition of zero error. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 10 SERVICE AREA North Texas SECTION 10 BILLING AND PAYMENT OF BILLS 10.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full within 15 days after the date the bill is rendered. Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of its authorized pay stations. If not paid by the date due, the bill shall be considered delinquent. 10.2 PARTIAL BILLING Whenever service is rendered for less than fifteen days during any monthly billing period, the Customer shall be billed for his actual consumption or the regular minimum charge in the applicable rate schedule, whichever is the larger amount. 10.3 ESTIMATED In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption. The next bill based on an actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for his actual consumption. 10.4 DISPUTED BILLS (i) In the event of a dispute between a Customer and the Company regarding any bill for service, the Company will make such investigation as is required by the particular case and report the results to the Customer. If the Customer wishes to obtain the benefits of subsection (ii) hereunder, notification of the dispute must be given to the Company prior to the date the bill becomes delinquent. In the event the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

dispute is not resolved, the Company shall inform the Customer of the complaint procedures of the appropriate regulatory authority. (ii) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: (1) resolution of the dispute, or (2) the expiration of the sixty day period beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period for the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar Customers and under similar conditions.

10.5 RETURNED CHECKS Whenever the payment for gas service or any other charge permitted under this Tariff is rendered by check and such check is refused by the bank on which it is drawn, the Company may make an additional charge to cover the costs of handling and rebilling. The Company must post a notice of the charge in its principal office in the service area at least ten days in advance of the institution hereof and keep such notice in place as long as the charge is in effect. Notice shall be posted adjacent to the place of acceptance of payment.

10.6 BILLING INFORMATION The Customer's bill shall show all the following information: a) The date and meter reading at the beginning and at the end of the period of which the bill is rendered; b) The number and kind of units metered; c) The applicable Rate Schedule or code; d) The monthly cost of gas adjustment, if authorized, together with the factor by which it is computed, if the total charge for gas service is billed separately from the cost of gas adjustment, if any; e) The total amount due for utility service and tax; f) The date by which the Customer must pay the bill in order to avoid penalty, delinquency, or termination proceedings; g) A distinct marking to identify an estimated bill; h) Any conversions from meter reading units to billing units, or any other calculations used to determine billing units from recording to other devices, or any other factors used in determining the bill; i) The information required in paragraph b, c, d, e, f, and h above shall be arranged to permit the Customer to compute his bill by using the applicable Rate Schedule which shall be supplied when requested by the Customer.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 11 SERVICE AREA North Texas SECTION 11 CURTAILMENTS 11.1 CURTAILMENTS Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.

11.2 PRIORITY CLASSES All Customers served by the Company shall be classified into one of the following priority groups: Priority 1 - All Domestic service. Priority 2 - All small Commercial and Industrial service (less than 50 Mcf on an average day). Priority 3 - All other Commercial service. Priority 4 - Industrial service, other than boiler fuel, for usage through one meter of more than 50 Mcf but less than 200 Mcf on an average day. Priority 5 - Industrial service, other than boiler fuel, for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 6 - Industrial service, other than boiler fuel, for usage through one meter of more than 1500 Mcf on an average day. Priority 7 - Industrial boiler fuel for usage through one meter or less than 200 Mcf on an average day. Priority 8 - Industrial boiler fuel for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 9 - Industrial boiler fuel for usage through one meter of more than 1500 Mcf on an average day. For the purpose of this classification each separately billed meter shall be considered a separate Customer. When service which may fall into more than one priority group is rendered through a single meter, the entire service shall be placed in the lowest (highest numbered) applicable priority group.

11.3 METHOD OF CURTAILMENT Curtailment shall be ordered ratable insofar as feasible within

GAS SERVICES DIVISION

------------------------	-----------------------------

each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class or other than Priorities 1 and 2. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup. 11.4 CLASS AND GROUP CURTAILMENTS No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e. higher numbered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service. 11.5 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any Customer (other than a Customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened. 11.6 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 12 SERVICE AREA North Texas SECTION 12 QUALITY OF GAS 12.1 HEATING VALUE Except as otherwise provided by local regulatory authority gas delivered to Consumers in all service areas shall have a gross heating value of at least 1,000 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered. 12.2 CHARACTER OF THE GAS All gas furnished to Consumers in Texas shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered. 12.3 ODORIZATIION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 13 SERVICE AREA North Texas SECTION 13 SERVICE WORK 13.1 FREE SERVICE When requested by the Consumer, the Company shall perform the following service work on the Consumer's premises and appliances on a no-charge basis: a) gas-air adjustments only, on standard domestic and commercial gas burning appliances when service is initiated; and b) leakage and pressure investigations to the point at which the condition is determined to exist in the Consumer's piping or equipment and service has been disconnected or the Consumer's facilities are free from leaks. No other work shall be performed on any Consumer's appliances or house piping on a no-charge basis. 13.2 OTHER SERVICE The Company may, at its option, undertake other service work for which it has trained personnel available on a charge basis. Charges shall be made at the Company's standard rate for the service area and such work and associated revenues and costs shall be considered non-utility. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 14 SERVICE AREA North Texas SECTION 14 MAINTENANCE OF EQUIPMENT 14.1 MAINTENANCE BY COMPANY The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter on the Customer's premises at any reasonable time or in the event of an emergency at any time, to read the meter or make any necessary inspection, repair, adjustment or replacement of any property owned by the Company. 14.2 MAINTENANCE BY THE CUSTOMER The Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the

GAS SERVICES DIVISION

-----------------	----------------------

gas after it passes the point of delivery. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Customer, he shall reimburse the Company for all costs of repairing or replacing the damaged property. 14.3 LEAKS - RIGHT TO DISCONNECT FOR The Customer shall give the Company notice of any escaping gas as soon as it is detected by him. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If any leakage is found to be from the Customer's facilities, the Company shall have the right to disconnect service immediately until the Customer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by Company forces. The Company shall have the right to disconnect service immediately if any of the Customer's appliances or equipment is, in Company's opinion, operating in an unsafe condition. 14.4 PRESENT CUSTOMER OWNED YARDLINES Any facilities upstream of the meter installed by the Customer prior to the effective date of this Tariff shall remain the property and responsibility of the Customer, providing whenever the condition of the facility is such that replacement is required, the work shall be done by the Company under the same terms and conditions as for a new service as described in Paragraph 4.1 of this Tariff. The Customer shall reimburse the Company in advance for the estimated cost of the new facility at the prices filed with the regulatory authority. Thereafter it shall become the property and responsibility of the Company. 14.5 RESPONSIBILITY Nothing in this Section shall make the Company responsible for the safe upkeep of Customer owned facilities. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 15 SERVICE AREA North Texas SECTION 15 DISCONTINUANCE OF SERVICE 15.1 BY CUSTOMER A Customer shall be responsible for all charges for gas service from the time he gives notice of the intention to discontinue service until the Company has read the meter or for three working days whichever is the shorter period of time. 15.2 FOR NON-PAYMENT A Customer's utility service may be disconnected if the bill has not been paid or a deferred payment plan has not been entered into within five working days after the bill has become delinquent and proper notice has been given. Proper notice consists of a deposit in the United States Mail, postage prepaid, or hand delivery to the Customer at least five working days prior to the stated date of disconnection, with the words Termination Notice or similar language prominently displayed on the notice. The notice shall be provided in English and Spanish as necessary to adequately inform the Customer, and shall include the date of termination, the hours, address, and telephone number where payment may be made, and a statement that if a health or other emergency exists, the Company may be contacted concerning the nature of the emergency and the relief available, if any, to meet such emergency. The Company will not discontinue service to a delinquent residential Customer permanently residing in an individually metered dwelling unit when that Customer establishes that the discontinuance of service will result in some person residing at that residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this section must make a written request supported by a written statement from a licensed physician. Both the request and the statement must be received by the Company not more than five working days after the date of the delinquency of the bill. The prohibition against service termination provided by this section shall last twenty days from the date of receipt by the Company of the request and statement of such lesser period as may be agreed upon by the Company and the Customer. The Customer who makes such request shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings. No Customer shall be disconnected for non-payment: a) After payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel

GAS SERVICES DIVISION

of the payment; or b) Before 8:00 AM or after 5:00 PM on any day or on Friday, Saturday, Sunday, holiday, or day before a holiday unless Company personnel are available on that day for the purpose of making collections or reconnecting service. 15.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any consumer for any of the following reasons: a) Without notice for the presence of what the Company considers to be a dangerous condition on the Consumer's premises or if any emergency exists. b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with his knowledge. c) Within five working days after written notice if the Consumer uses his equipment in any way which causes or creates a potential for adverse effect on the Company's service to others. d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class 1 or 2. e) Five working days after written notice for refusal to grant Company's personnel access to the Consumer's premises at any reasonable time for any lawful purpose. f) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of this Tariff or violation of any applicable laws, order or ordinances, provided that disconnection may be made without notice if the violation creates a dangerous condition. 15.4 RIGHT-OF-ENTRY The Company shall have the right to enter upon the Consumer's premises at any reasonable time to shut off service in accordance with this Tariff and to remove its meter and other property. 15.5 ABANDONMENT OF SERVICE Service shall not be abandoned (permanent disconnect of any but a temporary Customer), unless requested by the Customer(s), without permission of the regulatory authority. Failure of the Customer to reinstitute service after disconnection within a reasonable period of time shall be considered a request for permanent discontinuance of service. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 16 SERVICE AREA North Texas

SECTION 16 RE-ESTABLISHMENT OF SERVICE 16.1 FROM NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount of his account then due plus the prescribed reconnect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer re-establish satisfactory credit in accordance with this Tariff. The first time a Customer requests re-establishment of service after disconnection for non-payment, the Company may waive the deposit. Thereafter full compliance of this Section is required. 16.2 FROM OTHER REASONS When service has been disconnected for any other reason, the Customer shall be required to request reconnection in writing. If disconnection has been made by the Company, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a reconnect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment. 16.3 RECONNECTION The Company shall restore service as soon as feasible after receipt of the request and compliance with the requirements of this Section. The Company shall charge a non-refundable reconnect fee to all Customers. When the Customer requests reconnection at a time such that because of already scheduled work, reconnect cannot be made during working hours on the same day the request was made, the Company shall, upon the Customers' request, reconnect the service after working hours. For such after-hours reconnection the Customer shall pay an additional fee if the call can be completed in 15 minutes by a serviceman already on duty. If additional time is required on the standard rates for service work, provided however, the Consumer must be advised of the additional charge to be made before the work is done. The Company may then schedule the call at any time to fit its work schedule but the after-hours charge shall be collected as long as any other work is done on overtime. In the event the Company is required to make more than one call because the reason for disconnection has not

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 21336

been properly corrected, the appropriate reconnect fee shall be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operations. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 17 SERVICE AREA North Texas SECTION 17 BUDGET PAYMENT PLAN 17.1 DESCRIPTION Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner: (a) The Plan year shall be the 12 months pending each year with the Customer's June bill. The Plan monthly payment shall be determined as follows: (1) for Customers electing to commence with the July bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's Plan year. (2) for Customers electing to commence with the August or later bill, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year from commencement in the Plan until the next following June bill. Succeeding years shall be computed on an annual basis as in subparagraph (1) above. (b) The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon most recent available prior 12-month period at the same service location; or, if there is not at least 12 month prior service at the same service location, then the charges shall be based upon consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known changes. (c) The Company reserves the right to adjust the remaining monthly Plan payments of any Customer at any time for changes in condition or rates. (d) The Company shall advise each Customer in the Plan of the monthly Plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of that month's Plan payment. The Customer shall continue to pay the monthly Plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. (e) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly Plan payment. (f) The June gas bill for each Customer in the Plan shall be handled as follows: (1) any amount due the Company up to the monthly Plan payment shall be paid in full by the due date shown on the bill. (2) if the balance due the Company exceeds the monthly Plan payment, a payment equal to that amount will be paid and the excess shall be utilized in computing the next Plan year's monthly Plan payment. (3) any balance due the Customer shall also be utilized in computing the next Plan year's monthly Plan payment. (g) Interest will not be charged the Customer on accrued debit balances nor paid by the Company on accrued credit balances. (h) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan. (i) Any Customer's participation in the Plan may be discontinued by the Company if the monthly Plan payment has not been paid. (j) If any Customer in the Plan shall cease, for any reason, to participate in the Plan, then the Company may refuse that Customer's reentry in the Plan until the next following July. agreement was reached with the Railroad Commission of Texas Audit Staff on the interpretation of Tagged Door / Can't Get In / Reread / High Bill Investigation / or Special Scheduling Service Rates. The Company agreed that effective April 3, 1998, there will be no charge for these services until such time that changes are approved by the appropriate regulatory authority.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas

utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site. Adopted October 21, 2003

PoK2 d TEXAS GAS SERVICE COMPANY Texas Tariff - Possum Kingdom Service Area (Environs) QUALITY OF SERVICE RULE ADDENDUMS AND AGREEMENTS ON INTERPRETATION ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency (a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law. (b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to: (1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service. (2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service. (c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service. (d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows: (1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area. (2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area. (3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems. (4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers. (e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this

section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site. Adopted October 21, 2003

Service provided directly from the facilities of others may be provided only with the approval of the owning company and shall thereafter be continued only as long as gas of satisfactory quality is available at the location. 1.2 FEES AND CHARGES All fees and charges made by the Company for provision of utility service and that work necessary to maintain service, shall be provided for in this Tariff. All other fees and charges for service work done on Consumer's premises shall be done in accordance with the schedule of fees and charges on file and approved by the appropriate regulatory authority where required. 1.3 RESALE OF GAS No gas supplied by the Company shall be resold by any Customer unless expressly authorized by the Company in writing and approved by the Regulatory Authority. Gas delivered through a master meter and delivered to one or more consumers shall not be considered to be resold as long as it is not metered and billed on separate commodity or cost of service basis. 1.4 TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice. 1.5 CONTINUITY OF SERVICE The Company shall use reasonable diligence in providing continuous service to all of its Consumers except for those interruptions of service permitted under rate schedules providing for them. Under certain circumstances it may be necessary to curtail Consumers of any class. The procedure under which interruptions and curtailments of service will be made is described in Section 11 of this Tariff. The Company does not guarantee uninterrupted service to any consumer and shall not be liable for damages resulting from loss of service. 1.6 AVAILABILITY OF TARIFF A

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

-----------------	----------------------

copy of this Tariff including all applicable rate schedules shall be kept in each of the Company's Service Area offices and at its Corporate Office in Austin, Texas. A copy of the locally applicable Tariff shall be kept in each of the Company's offices. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it during reasonable office hours.

1.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. The Company shall provide each new Customer, when service is initiated, information as follows:

- a) Upon request, instructions as to the method of reading meters.
- b) At the time service is initiated or as an insert in the first billing, a pamphlet or packet containing the following information. This information shall be provided in English and Spanish as necessary to adequately inform Customers.
 - i) The Customers' right to information concerning rates and services and the Customer's right to inspect or obtain at reproduction cost a copy of the applicable tariffs and service rules;
 - ii) The Customer's right to have his or her meter checked without charge under Section 9.4 (Meter Testing-Customer Requests) of these Rules of Service, if applicable;
 - iii) The time allowed to pay outstanding bills;
 - iv) Grounds for termination of service;
 - v) The steps the Company must take before terminating service;
 - vi) How the Customer can resolve billing disputes with the Company and how disputes and health emergencies may affect termination of service;
 - vii) Information on alternative payment plans offered by the Company;
 - viii) The steps necessary to have service reconnected after involuntary termination;
 - ix) The appropriate regulatory authority with whom to register a complaint and how to contact such authority;
 - x) The hours, addresses, and telephone numbers of utility offices where bills may be paid and information may be obtained; and
 - xi) The Customer's right to be instructed by the Company how to read his or her meter.
- c) At least once each calendar year, notify Customers that information is available upon request, at no charge to the Customer, concerning the items listed in Subsection b. This notice may be accomplished by using the billing insert or a printed statement upon the bill itself.

1.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Upon receipt of a complaint from the regulatory authority on behalf of a Customer, the Company shall investigate and advise the regulatory authority and complainant of the results of the investigation. An initial response will be made the next working day with a final response completed within 15 days from the date of the complaint, unless additional time is granted within the 15 day period.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 2 SERVICE AREA North Texas

SECTION 2 INITIATION OF SERVICE 2.1 REGULAR SERVICE Application for service shall be made to the Company's office nearest to the premises to be served. Each Applicant must comply with appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for service under the standard provisions of this Tariff. Commencement of the service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply.

2.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply.

2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff. The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

2.4 ESTABLISHMENT OF SERVICE Each Applicant for residential service may be required to make a Security Deposit to establish a satisfactory credit standing. These deposits shall be computed in the same manner for the same class providing however, that a Deposit may be waived if

- a) The Applicant has been a Customer of any utility for the same kind of service within the last two years and is not delinquent in payment of any such utility service account and during the last 12 consecutive months of service did not have more than one occasion in which a bill for such utility service was paid after becoming delinquent and never had service disconnected for nonpayment;
- b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills for the service required;
- c) The Applicant furnishes in writing a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification, or ownership of substantial equity;
- d) The Applicant is 65 years of age or older provided they have no outstanding balance for utility service over two years old (applicable to residential Customers only);
- e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or
- f) The application is made for or guaranteed by an agency of the federal, state or local government.

2.5 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons:

- a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff;
- b) Failure of the Applicant to furnish any service or meter location specified by the Company as a condition for obtaining service;
- c) Existence of a potentially hazardous condition such as a leak in the Applicant's piping system which, in the Company's opinion, may endanger life or property;
- d) Failure to pay for gas service at the same or another service location within the Company's system; provided the amount billed is not then in dispute; or
- e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served.

The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for refusal to serve.

2.6 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending upon approvals and permits required, the extent of the facilities to be built, and the Company's work load at the time.

2.7 INSUFFICIENT GROUNDS FOR REFUSAL TO SERVE The Company may not refuse service to any Applicant for any of the following reasons -

- a) Failure to pay any bill of another Customer, except as provided above;
- b) Failure to pay for merchandise or other charges for non-utility service purchased from or through the Company.

TEXAS GAS
SERVICE COMPANY NORTH TEXAS REGION SECTION 3 SERVICE AREA North Texas SECTION 3
METERING AND DELIVERY OF GAS

3.1 METER LOCATIONS Each Applicant shall furnish and

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and protected from damage. Meters shall not be located within any enclosed structure not solely intended as a meter house. 3.2 POINT OF DELIVERY The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery. 3.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land shall be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately. 3.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 4 SERVICE AREA North Texas SECTION 4 INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him. 4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him. 4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary. 4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 5 SERVICE AREA North Texas SECTION 5 EXTENSION OF FACILITIES 5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 21336
-----------------	----------------------

or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation.

5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer.

5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension.

5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents).

5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served.

5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction.

5.8 DELIVERY OF REFUNDS When a refund

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 6 SERVICE AREA North Texas SECTION 6 CUSTOMER OWNED SYSTEMS 6.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. 6.2 MASTER METERS The Company shall provide service through a master meter into the piping system of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 7 SERVICE AREA North Texas SECTION 7 SECURITY DEPOSITS 7.1 REQUIREMENTS The Company may require a security deposit from any present or prospective Customer in accordance with Section 2 of these rules. The amount of the deposit for residential service shall not exceed 1/6 of the estimated annual billing except that when the actual usage exceeds twice the amount estimated, the amount of the required deposit may be increased proportionately. 7.2 RECEIPTS The Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of the receipt. 7.3 INTEREST The Company shall pay interest on all security deposits for the time held at the then lawfully established rate per annum except when - a) the deposit is held less than 30 days; b) notice is sent to the Customer's last known address that the deposit is no longer required; c) the service to which a deposit relates has been discontinued; or d) all or any part of the deposit has been applied to a Customer's account. Interest on deposits earned during the preceding year shall be paid annually either by check or as a credit on the monthly bill at the Company's option. Whenever the deposit of any Customer is returned, the Company shall pay all previously unpaid interest.

7.4 REFUND OF DEPOSITS Except where locally established regulations provide otherwise, deposits for residential service will be promptly refunded with accrued interest when: a) service is not connected or, after disconnection of service, the balance, if any, is in excess of the unpaid bills for service furnished. b) the Customer has paid bills for residential service for 12 consecutive months without having service disconnected and without having more than two occasions when a bill was delinquent and when the Customer is not delinquent in the payment of current bills.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 8 SERVICE AREA North Texas SECTION 8 GAS MEASUREMENT 8.1 PRESSURE The standard serving and measurement pressure shall be determined by the assumed average atmospheric pressure in the service area as follows: Standard Serving Atmospheric District or Service Area Pressure, PSIA Pressure, PSIA Mineral Wells Region 14.65 14.40 Weatherford Region 14.65 14.40 Jacksboro Region 14.65 14.40 Breckenridge Region 14.65 14.15 Graham Region 14.65 14.15 The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under normal load conditions. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted. 8.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one thousand cubic feet. A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at the pressure of gas in the meter and a temperature of 60 degrees Fahrenheit. Whenever the Company delivers any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 21336
-----------------	----------------------

pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation. 8.3 BILLING UNIT Unless otherwise specified on the rate schedule or by special agreement, Customers shall be billed on the basis of CCF measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. 8.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure compensating meters whenever the cost of this equipment is justified by the volumes served. Such meters shall be equipped with devices which mechanically correct the actual measured volumes in accordance with Boyles Law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 8.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units. 8.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing units or may be furnished with devices designed to correct the actual volumes to be standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correction devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculation based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specified gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 8.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter chart

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

MinW2b 8.7 BTU MEASUREMENT The heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.65 psia and temperature of 60 degrees F. on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period expressed in the same units and measured at or corrected to 14.65 psia and 60 degrees F., and multiplying by the factor necessary to convert the heating value/measurement units to the billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods: a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type. b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type. i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents.

8.8 CUSTOMER OWNED METERS Any Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for billing purposes. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 9 SERVICE AREA North Texas SECTION 9 METER READING AND ACCURACY 9.1 METER READING Meters shall be read as nearly as may be practical on the same day of each calendar month. 9.2 ACCESS TO THE METER The Customer shall permit the Company access to the meter at all times for readings thereof and at all reasonable times for maintenance, testing or replacement of the meter. 9.3 METER ACCURACY The nominal accuracy of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

Industrial Customer meter tests performed under these conditions shall be charged at the following fee schedule:

METER TYPE AND CAPACITY		SERVICE CHARGE	
		Positive	
Displacement	251 to 1500 cubic feet per hour	\$ 25.00	1501 to 3000 cubic
feet per hour	50.00 3001 to 5000 cubic feet per hour	50.00	Over 5000 cubic

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

If the test proves the meter is registering above or below the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter. 9.5 BILLING ADJUSTMENTS - GENERAL SERVICE If meter tests reveal more than a 2% error the previous readings will be corrected for the past six months or the time since the last test of the meter, whichever is shorter. Resulting over or underbillings will be corrected in subsequent bills. If a meter is found not to have registered for a period of time, the Company will charge for unmeasured consumption for a period of not longer than three months prior to the time the meter is found not to be registering. The amount used but not measured will be based upon consumption during a like period by the same Customer at the same location or, if this information is unavailable, on consumption under similar conditions at other locations. 9.6 PROVISIONS FOR SPECIAL SERVICE The following modifications shall apply to the provisions of this Section for all Special Service rate schedules and service under special written agreements: a) Orifice meters shall be calibration tested at least four times per year at intervals not to exceed 120 days. Should the Customer so elect, tests shall be made in the presence of his representative. b) Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill either up or down shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate. i) By using registration of the Customer's check meter(s) if proved correct. ii) By correcting the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or iii) By estimating the quantity of gas delivered by comparison with deliveries during preceding period under similar conditions when accurate registration was obtained. 9.7 PERIODIC TESTS The Company shall make periodic tests of meters, associated devices and instruments to assure their accuracy. The basic periodic test interval shall not be longer than provided for in the following schedule.

Positive displacement meters:	401 to 1500 cubic feet per hour	7 years
1501 to 3000 cubic feet per hour	5 years	3001 to 5000 cubic feet per hour
hour	2 years	Over 5000 cubic feet per hour
6 months	Turbine meters	1 year
	Base pressure correction devices	2 years
	Base volume correcting devices	2 years
	Service pressure regulation devices	Quarterly

Positive displacement meters rated at 400 cubic feet per hour or less shall be replaced with new or remanufactured meters at intervals of not greater than 13 years in service. Meters removed under this program will be tested and records of the tests evaluated to determine if the accuracy of the sample group justifies adjustment of the replacement cycle. 9.8 METER TEST PROCEDURE AND ACCURACIES Meters and/or associated meter devices shall be tested at the points and adjusted to the tolerances prescribed below. The test of any unit of metering equipment shall consist of a comparison of its accuracy to a standard. Positive displacement meters: Accuracy at test points Flow Adjusted to Within Check flow 1.5% Not less than rated flow 1.5% Overall accuracy The overall accuracy at check flow and the overall accuracy at not less than full rated flow shall agree within one percent. Orifice meters: Accuracy at the test points must be within 2% plus or minus. General: i) All meters and/or associated metering devices when tested shall be adjusted as closely as possible to the condition of zero error. ii) All tolerances are to be interpreted as maximum permissible variations from the condition of zero error. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 10 SERVICE AREA North Texas SECTION 10 BILLING AND PAYMENT OF BILLS 10.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full within 15 days after the date the bill is rendered. Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of its authorized pay stations. If not

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

paid by the date due, the bill shall be considered delinquent. 10.2 PARTIAL BILLING Whenever service is rendered for less than fifteen days during any monthly billing period, the Customer shall be billed for his actual consumption or the regular minimum charge in the applicable rate schedule, whichever is the larger amount. 10.3 ESTIMATED In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption. The next bill based on an actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for his actual consumption. 10.4 DISPUTED BILLS (i) In the event of a dispute between a Customer and the Company regarding any bill for service, the Company will make such investigation as is required by the particular case and report the results to the Customer. If the Customer wishes to obtain the benefits of subsection (ii) hereunder, notification of the dispute must be given to the Company prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the Company shall inform the Customer of the complaint procedures of the appropriate regulatory authority. (ii) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: (1) resolution of the dispute, or (2) the expiration of the sixty day period beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period for the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar Customers and under similar conditions. 10.5 RETURNED CHECKS Whenever the payment for gas service or any other charge permitted under this Tariff is rendered by check and such check is refused by the bank on which it is drawn, the Company may make an additional charge to cover the costs of handling and rebilling. The Company must post a notice of the charge in its principal office in the service area at least ten days in advance of the institution hereof and keep such notice in place as long as the charge is in effect. Notice shall be posted adjacent to the place of acceptance of payment. 10.6 BILLING INFORMATION The Customer's bill shall show all the following information: a) The date and meter reading at the beginning and at the end of the period of which the bill is rendered; b) The number and kind of units metered; c) The applicable Rate Schedule or code; d) The monthly cost of gas adjustment, if authorized, together with the factor by which it is computed, if the total charge for gas service is billed separately from the cost of gas adjustment, if any; e) The total amount due for utility service and tax; f) The date by which the Customer must pay the bill in order to avoid penalty, delinquency, or termination proceedings; g) A distinct marking to identify an estimated bill; h) Any conversions from meter reading units to billing units, or any other calculations to determine billing units from recording to other devices, or any other factors used in determining the bill; i) The information required in paragraph b, c, d, e, f, and h above shall be arranged to permit the Customer to compute his bill by using the applicable Rate Schedule which shall be supplied when requested by the Customer. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 11 SERVICE AREA North Texas SECTION 11 CURTAILMENTS 11.1 CURTAILMENTS Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section. 11.2 PRIORITY CLASSES All Customers served by the Company shall be classified into one of the following priority groups: Priority 1 - All Domestic service. Priority 2 - All small Commercial and Industrial service (less than 50 Mcf on an average day). Priority 3 - All other Commercial service. Priority 4 - Industrial service, other than boiler fuel,

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

for usage through one meter of more than 50 Mcf but less than 200 Mcf on an average day. Priority 5 - Industrial service, other than boiler fuel, for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 6 - Industrial service, other than boiler fuel, for usage through one meter of more than 1500 Mcf on an average day. Priority 7 - Industrial boiler fuel for usage through one meter or less than 200 Mcf on an average day. Priority 8 - Industrial boiler fuel for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 9 - Industrial boiler fuel for usage through one meter of more than 1500 Mcf on an average day. For the purpose of this classification each separately billed meter shall be considered a separate Customer. When service which may fall into more than one priority group is rendered through a single meter, the entire service shall be placed in the lowest (highest numbered) applicable priority group.

11.3 METHOD OF CURTAILMENT Curtailment shall be ordered ratable insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class or other than Priorities 1 and 2. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup. 11.4

CLASS AND GROUP CURTAILMENTS No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e. higher numbered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.

11.5 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any Customer (other than a Customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened. 11.6

SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 12 SERVICE AREA North Texas SECTION 12 QUALITY OF GAS 12.1 HEATING VALUE

Except as otherwise provided by local regulatory authority gas delivered to Consumers in all service areas shall have a gross heating value of at least 1,000 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered. 12.2 CHARACTER OF THE GAS All gas furnished to

Consumers in Texas shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered. 12.3 ODORIZATIION All gas shall be odorized with a chemical odorant at a

sufficient rate to make it readily detectable. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 13 SERVICE AREA North Texas SECTION 13 SERVICE WORK 13.1 FREE SERVICE When

requested by the Consumer, the Company shall perform the following service work on the Consumer's premises and appliances on a no-charge basis: a) gas-air adjustments only, on standard domestic and commercial gas burning appliances when service is initiated; and b) leakage and pressure investigations to the point at which the condition is determined to exist in the Consumer's piping or equipment and service has been disconnected or the Consumer's facilities are free from leaks. No other work shall be performed on any Consumer's

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 21336

appliances or house piping on a no-charge basis. 13.2 OTHER SERVICE The Company may, at its option, undertake other service work for which it has trained personnel available on a charge basis. Charges shall be made at the Company's standard rate for the service area and such work and associated revenues and costs shall be considered non-utility. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 14 SERVICE AREA North Texas SECTION 14 MAINTENANCE OF EQUIPMENT 14.1 MAINTENANCE BY COMPANY The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter on the Customer's premises at any reasonable time or in the event of an emergency at any time, to read the meter or make any necessary inspection, repair, adjustment or replacement of any property owned by the Company. 14.2 MAINTENANCE BY THE CUSTOMER The Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Customer, he shall reimburse the Company for all costs of repairing or replacing the damaged property. 14.3 LEAKS - RIGHT TO DISCONNECT FOR The Customer shall give the Company notice of any escaping gas as soon as it is detected by him. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If any leakage is found to be from the Customer's facilities, the Company shall have the right to disconnect service immediately until the Customer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by Company forces. The Company shall have the right to disconnect service immediately if any of the Customer's appliances or equipment is, in Company's opinion, operating in an unsafe condition. 14.4 PRESENT CUSTOMER OWNED YARDLINES Any facilities upstream of the meter installed by the Customer prior to the effective date of this Tariff shall remain the property and responsibility of the Customer, providing whenever the condition of the facility is such that replacement is required, the work shall be done by the Company under the same terms and conditions as for a new service as described in Paragraph 4.1 of this Tariff. The Customer shall reimburse the Company in advance for the estimated cost of the new facility at the prices filed with the regulatory authority. Thereafter it shall become the property and responsibility of the Company. 14.5 RESPONSIBILITY Nothing in this Section shall make the Company responsible for the safe upkeep of Customer owned facilities. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 15 SERVICE AREA North Texas SECTION 15 DISCONTINUANCE OF SERVICE 15.1 BY CUSTOMER A Customer shall be responsible for all charges for gas service from the time he gives notice of the intention to discontinue service until the Company has read the meter or for three working days whichever is the shorter period of time. 15.2 FOR NON-PAYMENT A Customer's utility service may be disconnected if the bill has not been paid or a deferred payment plan has not been entered into within five working days after the bill has become delinquent and proper notice has been given. Proper notice consists of a deposit in the United States Mail, postage prepaid, or hand delivery to the Customer at least five working days prior to the stated date of disconnection, with the words Termination Notice or similar language prominently displayed on the notice. The notice shall be provided in English and Spanish as necessary to adequately inform the Customer, and shall include the date of termination, the hours, address, and telephone number where payment may be made, and a statement that if a health or other emergency exists, the Company may be contacted concerning the nature of the emergency and the relief available, if any, to meet such emergency. The Company will not discontinue service to a delinquent residential Customer permanently residing in an individually metered dwelling

TARIFF CODE: DS	RRC TARIFF NO: 21336
-----------------	----------------------

unit when that Customer establishes that the discontinuance of service will result in some person residing at that residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this section must make a written request supported by a written statement from a licensed physician. Both the request and the statement must be received by the Company not more than five working days after the date of the delinquency of the bill. The prohibition against service termination provided by this section shall last twenty days from the date of receipt by the Company of the request and statement of such lesser period as may be agreed upon by the Company and the Customer. The Customer who makes such request shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings. No Customer shall be disconnected for non-payment: a) After payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel of the payment; or b) Before 8:00 AM or after 5:00 PM on any day or on Friday, Saturday, Sunday, holiday, or day before a holiday unless Company personnel are available on that day for the purpose of making collections or reconnecting service.

15.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any consumer for any of the following reasons: a) Without notice for the presence of what the Company considers to be a dangerous condition on the Consumer's premises or if any emergency exists. b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with his knowledge. c) Within five working days after written notice if the Consumer uses his equipment in any way which causes or creates a potential for adverse effect on the Company's service to others. d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class 1 or 2. e) Five working days after written notice for refusal to grant Company's personnel access to the Consumer's premises at any reasonable time for any lawful purpose. f) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of this Tariff or violation of any applicable laws, order or ordinances, provided that disconnection may be made without notice if the violation creates a dangerous condition.

15.4 RIGHT-OF-ENTRY The Company shall have the right to enter upon the Consumer's premises at any reasonable time to shut off service in accordance with this Tariff and to remove its meter and other property.

15.5 ABANDONMENT OF SERVICE Service shall not be abandoned (permanent disconnect of any but a temporary Customer), unless requested by the Customer(s), without permission of the regulatory authority. Failure of the Customer to reinstitute service after disconnection within a reasonable period of time shall be considered a request for permanent discontinuance of service.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 16 SERVICE AREA North Texas

SECTION 16 RE-ESTABLISHMENT OF SERVICE 16.1 FROM NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount of his account then due plus the prescribed reconnect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer re-establish satisfactory credit in accordance with this Tariff. The first time a Customer requests re-establishment of service after disconnection for non-payment, the Company may waive the deposit. Thereafter full compliance of this Section is required.

16.2 FROM OTHER REASONS When service has been disconnected for any other reason, the Customer shall be required to request reconnection in writing. If disconnection has been made by the Company, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a reconnect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment.

16.3 RECONNECTION

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

The Company shall restore service as soon as feasible after receipt of the request and compliance with the requirements of this Section. The Company shall charge a non-refundable reconnect fee to all Customers. When the Customer requests reconnection at a time such that because of already scheduled work, reconnect cannot be made during working hours on the same day the request was made, the Company shall, upon the Customers' request, reconnect the service after working hours. For such after-hours reconnection the Customer shall pay an additional fee if the call can be completed in 15 minutes by a serviceman already on duty. If additional time is required on the standard rates for service work, provided however, the Consumer must be advised of the additional charge to be made before the work is done. The Company may then schedule the call at any time to fit its work schedule but the after-hours charge shall be collected as long as any other work is done on overtime. In the event the Company is required to make more than one call because the reason for disconnection has not been properly corrected, the appropriate reconnect fee shall be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operations. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 17 SERVICE AREA North Texas SECTION 17 BUDGET PAYMENT PLAN 17.1 DESCRIPTION Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner: (a) The Plan year shall be the 12 months pending each year with the Customer's June bill. The Plan monthly payment shall be determined as follows: (1) for Customers electing to commence with the July bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's Plan year. (2) for Customers electing to commence with the August or later bill, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year from commencement in the Plan until the next following June bill. Succeeding years shall be computed on an annual basis as in subparagraph (1) above. (b) The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon most recent available prior 12-month period at the same service location; or, if there is not at least 12 month prior service at the same service location, then the charges shall be based upon consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known changes. (c) The Company reserves the right to adjust the remaining monthly Plan payments of any Customer at any time for changes in condition or rates. (d) The Company shall advise each Customer in the Plan of the monthly Plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of that month's Plan payment. The Customer shall continue to pay the monthly Plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. (e) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly Plan payment. (f) The June gas bill for each Customer in the Plan shall be handled as follows: (1) any amount due the Company up to the monthly Plan payment shall be paid in full by the due date shown on the bill. (2) if the balance due the Company exceeds the monthly Plan payment, a payment equal to that amount will be paid and the excess shall be utilized in computing the next Plan year's monthly Plan payment. (3) any balance due the Customer shall also be utilized in computing the next Plan year's monthly Plan payment. (g) Interest will not be charged the Customer on accrued debit balances nor paid by the Company on accrued credit balances. (h) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan. (i) Any Customer's participation in the Plan may be discontinued by the Company if the monthly Plan payment has not been paid. (j) If any Customer in the Plan shall cease, for any reason, to participate in the Plan, then the Company

The Company agreed that effective April 3, 1998, there will be no charge for these services until such time that changes are approved by the appropriate regulatory authority.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to

all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site. Adopted October 21, 2003

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

shall use reasonable diligence in providing continuous service to all of its Consumers except for those interruptions of service permitted under rate schedules providing for them. Under certain circumstances it may be necessary to curtail Consumers of any class. The procedure under which interruptions and curtailments of service will be made is described in Section 11 of this Tariff. The Company does not guarantee uninterrupted service to any consumer and shall not be liable for damages resulting from loss of service.

1.6 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in each of the Company's Service Area offices and at its Corporate Office in Austin, Texas. A copy of the locally applicable Tariff shall be kept in each of the Company's offices. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it during reasonable office hours.

1.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. The Company shall provide each new Customer, when service is initiated, information as follows:

- a) Upon request, instructions as to the method of reading meters.
- b) At the time service is initiated or as an insert in the first billing, a pamphlet or packet containing the following information. This information shall be provided in English and Spanish as necessary to adequately inform Customers.
 - i) The Customers' right to information concerning rates and services and the Customer's right to inspect or obtain at reproduction cost a copy of the applicable tariffs and service rules;
 - ii) The Customer's right to have his or her meter checked without charge under Section 9.4 (Meter Testing-Customer Requests) of these Rules of Service, if applicable;
 - iii) The time allowed to pay outstanding bills;
 - iv) Grounds for termination of service;
 - v) The steps the Company must take before terminating service;
 - vi) How the Customer can resolve billing disputes with the Company and how disputes and health emergencies may affect termination of service;
 - vii) Information on alternative payment plans offered by the Company;
 - viii) The steps necessary to have service reconnected after involuntary termination;
 - ix) The appropriate regulatory authority with whom to register a complaint and how to contact such authority;
 - x) The hours, addresses, and telephone numbers of utility offices where bills may be paid and information may be obtained; and
 - xi) The Customer's right to be instructed by the Company how to read his or her meter.
- c) At least once each calendar year, notify Customers that information is available upon request, at no charge to the Customer, concerning the items listed in Subsection b. This notice may be accomplished by using the billing insert or a printed statement upon the bill itself.

1.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Upon receipt of a complaint from the regulatory authority on behalf of a Customer, the Company shall investigate and advise the regulatory authority and complainant of the results of the investigation. An initial response will be made the next working day with a final response completed within 15 days from the date of the complaint, unless additional time is granted within the 15 day period.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 2 SERVICE AREA North Texas

SECTION 2 INITIATION OF SERVICE 2.1 REGULAR SERVICE Application for service shall be made to the Company's office nearest to the premises to be served. Each Applicant must comply with appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for service under the standard provisions of this Tariff. Commencement of the service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

designating those provisions which shall apply. 2.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply. 2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff. The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling. 2.4 ESTABLISHMENT OF SERVICE Each Applicant for residential service may be required to make a Security Deposit to establish a satisfactory credit standing. These deposits shall be computed in the same manner for the same class providing however, that a Deposit may be waived if a) The Applicant has been a Customer of any utility for the same kind of service within the last two years and is not delinquent in payment of any such utility service account and during the last 12 consecutive months of service did not have more than one occasion in which a bill for such utility service was paid after becoming delinquent and never had service disconnected for nonpayment; b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills for the service required; c) The Applicant furnishes in writing a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification, or ownership of substantial equity; d) The Applicant is 65 years of age or older provided they have no outstanding balance for utility service over two years old (applicable to residential Customers only); e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or f) The application is made for or guaranteed by an agency of the federal, state or local government. 2.5 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons: a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff; b) Failure of the Applicant to furnish any service or meter location specified by the Company as a condition for obtaining service; c) Existence of a potentially hazardous condition such as a leak in the Applicant's piping system which, in the Company's opinion, may endanger life or property; d) Failure to pay for gas service at the same or another service location within the Company's system; provided the amount billed is not then in dispute; or e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for refusal to serve. 2.6 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending upon approvals and permits required, the extent of the facilities to be built, and the Company's

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

work load at the time. 2.7 INSUFFICIENT GROUNDS FOR REFUSAL TO SERVE The Company may not refuse service to any Applicant for any of the following reasons - a) Failure to pay any bill of another Customer, except as provided above; b) Failure to pay for merchandise or other charges for non-utility service purchased from or through the Company. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 3 SERVICE AREA North Texas SECTION 3 METERING AND DELIVERY OF GAS 3.1 METER LOCATIONS Each Applicant shall furnish and subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and protected from damage. Meters shall not be located within any enclosed structure not solely intended as a meter house. 3.2 POINT OF DELIVERY The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery. 3.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land shall be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately. 3.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 4 SERVICE AREA North Texas SECTION 4 INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him. 4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him. 4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary. 4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 5 SERVICE AREA North Texas SECTION 5 EXTENSION OF FACILITIES 5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation. 5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer. 5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents). 5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served. 5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction.

5.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 6 SERVICE AREA North Texas SECTION 6 CUSTOMER OWNED SYSTEMS 6.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. 6.2 MASTER METERS The Company shall provide service through a master meter into the piping system of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 7 SERVICE AREA North Texas SECTION 7 SECURITY DEPOSITS 7.1 REQUIREMENTS The Company may require a security deposit from any present or prospective Customer in accordance with Section 2 of these rules. The amount of the deposit for residential service shall not exceed 1/6 of the estimated annual billing except that when the actual usage exceeds twice the amount estimated, the amount of the required deposit may be increased proportionately. 7.2 RECEIPTS The Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of the receipt. 7.3 INTEREST The Company shall pay interest on all security deposits for the time held at the then lawfully established rate per annum except when - a) the deposit is held less than 30 days; b) notice is sent to the Customer's last known address that the deposit is no longer required; c) the service to which a deposit relates has been discontinued; or d) all or any part of the deposit has been applied to a Customer's account. Interest on deposits earned during the preceding year shall be paid annually either by check or as a credit on the monthly bill at the Company's option. Whenever the deposit of any Customer is returned, the Company shall pay all previously unpaid interest.

7.4 REFUND OF DEPOSITS Except where locally established regulations provide otherwise, deposits for residential service will be promptly refunded with accrued interest when: a) service is not connected or, after disconnection of service, the balance, if any, is in excess of the unpaid bills for service furnished. b) the Customer has paid bills for residential service for 12 consecutive months without having service disconnected and without having more than two occasions when a bill was delinquent and when the Customer is not delinquent in the payment of current bills.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 8 SERVICE AREA North Texas SECTION 8 GAS MEASUREMENT 8.1 PRESSURE The standard serving and measurement pressure shall be determined by the assumed average atmospheric pressure in the service area as follows: Standard Serving Atmospheric District or Service Area Pressure, PSIA Pressure, PSIA Mineral Wells Region 14.65 14.40 Weatherford Region 14.65 14.40 Jacksboro Region 14.65 14.40 Breckenridge Region 14.65 14.15 Graham Region 14.65 14.15 The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 21336
-----------------	----------------------

serving pressure under normal load conditions. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted. 8.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one thousand cubic feet. A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at the pressure of gas in the meter and a temperature of 60 degrees Fahrenheit. Whenever the Company delivers any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation. 8.3 BILLING UNIT Unless otherwise specified on the rate schedule or by special agreement, Customers shall be billed on the basis of CCF measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. 8.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure compensating meters whenever the cost of this equipment is justified by the volumes served. Such meters shall be equipped with devices which mechanically correct the actual measured volumes in accordance with Boyles Law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 8.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units. 8.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing units or may be furnished with devices designed to correct the actual volumes to be standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correction devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculation based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specified gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 8.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter chart period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

BREC2b 8.7 BTU MEASUREMENT The heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.65 psia and temperature of 60 degrees F. on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period expressed in the same units and measured at or corrected to 14.65 psia and 60 degrees F., and multiplying by the factor necessary to convert the heating value/measurement units to the billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods: a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type. b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type. i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents.

8.8 CUSTOMER OWNED METERS Any Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for billing purposes. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 9 SERVICE AREA North Texas SECTION 9 METER READING AND ACCURACY 9.1 METER READING Meters shall be read as nearly as may be practical on the same day of each calendar month. 9.2 ACCESS TO THE METER The Customer shall permit the Company access to the meter at all times for readings thereof and at all reasonable times for maintenance, testing or replacement of the meter. 9.3 METER ACCURACY The nominal accuracy of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

years, a fee of \$15.00 will be charged. The Customer will be informed of the test results. Industrial Customer meter tests performed under these conditions shall be charged at the following fee schedule:

METER TYPE AND CAPACITY	SERVICE CHARGE	Positive
Displacement	251 to 1500 cubic feet per hour	\$ 25.00
feet per hour	50.00	1501 to 3000 cubic feet per hour
feet per hour	100.00	3001 to 5000 cubic feet per hour
		50.00
		Over 5000 cubic feet per hour
		100.00
		Turbine meters
		200.00
		Orifice
		All Sizes
		\$ 100.00

If the test proves the meter is registering above or below the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter.

9.5 BILLING ADJUSTMENTS - GENERAL SERVICE If meter tests reveal more than a 2% error the previous readings will be corrected for the past six months or the time since the last test of the meter, whichever is shorter. Resulting over or underbillings will be corrected in subsequent bills. If a meter is found not to have registered for a period of time, the Company will charge for unmeasured consumption for a period of not longer than three months prior to the time the meter is found not to be registering. The amount used but not measured will be based upon consumption during a like period by the same Customer at the same location or, if this information is unavailable, on consumption under similar conditions at other locations.

9.6 PROVISIONS FOR SPECIAL SERVICE The following modifications shall apply to the provisions of this Section for all Special Service rate schedules and service under special written agreements:

- a) Orifice meters shall be calibration tested at least four times per year at intervals not to exceed 120 days. Should the Customer so elect, tests shall be made in the presence of his representative.
- b) Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill either up or down shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate.
 - i) By using registration of the Customer's check meter(s) if proved correct.
 - ii) By correcting the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or
 - iii) By estimating the quantity of gas delivered by comparison with deliveries during preceding period under similar conditions when accurate registration was obtained.

9.7 PERIODIC TESTS The Company shall make periodic tests of meters, associated devices and instruments to assure their accuracy. The basic periodic test interval shall not be longer than provided for in the following schedule.

meter type	interval
Positive displacement meters:	
401 to 1500 cubic feet per hour	7 years
1501 to 3000 cubic feet per hour	5 years
3001 to 5000 cubic feet per hour	3 years
hour	2 years
Over 5000 cubic feet per hour	1 year
Office meters	6 months
Turbine meters	1 year
Base pressure correction devices	2 years
Base volume correcting devices	2 years
Service pressure regulation devices	Quarterly

Positive displacement meters rated at 400 cubic feet per hour or less shall be replaced with new or remanufactured meters at intervals of not greater than 13 years in service. Meters removed under this program will be tested and records of the tests evaluated to determine if the accuracy of the sample group justifies adjustment of the replacement cycle.

9.8 METER TEST PROCEDURE AND ACCURACIES Meters and/or associated meter devices shall be tested at the points and adjusted to the tolerances prescribed below. The test of any unit of metering equipment shall consist of a comparison of its accuracy to a standard.

Positive displacement meters:

Accuracy at test points	Flow	Adjusted to Within	Check flow	Not less than rated flow
1.5%	Overall accuracy	The overall accuracy at check flow and the overall accuracy at not less than full rated flow shall agree within one percent.	Orifice meters:	Accuracy at the test points must be within 2% plus or minus.
General:				
i) All meters and/or associated metering devices when tested shall be adjusted as closely as possible to the condition of zero error.				
ii) All tolerances are to be interpreted as maximum permissible variations from the condition of zero error.				

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 10 SERVICE

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

AREA North Texas SECTION 10 BILLING AND PAYMENT OF BILLS 10.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full within 15 days after the date the bill is rendered. Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of its authorized pay stations. If not paid by the date due, the bill shall be considered delinquent. 10.2 PARTIAL BILLING Whenever service is rendered for less than fifteen days during any monthly billing period, the Customer shall be billed for his actual consumption or the regular minimum charge in the applicable rate schedule, whichever is the larger amount. 10.3 ESTIMATED In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption. The next bill based on an actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for his actual consumption. 10.4 DISPUTED BILLS (i) In the event of a dispute between a Customer and the Company regarding any bill for service, the Company will make such investigation as is required by the particular case and report the results to the Customer. If the Customer wishes to obtain the benefits of subsection (ii) hereunder, notification of the dispute must be given to the Company prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the Company shall inform the Customer of the complaint procedures of the appropriate regulatory authority. (ii) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: (1) resolution of the dispute, or (2) the expiration of the sixty day period beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period for the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar Customers and under similar conditions. 10.5 RETURNED CHECKS Whenever the payment for gas service or any other charge permitted under this Tariff is rendered by check and such check is refused by the bank on which it is drawn, the Company may make an additional charge to cover the costs of handling and rebilling. The Company must post a notice of the charge in its principal office in the service area at least ten days in advance of the institution hereof and keep such notice in place as long as the charge is in effect. Notice shall be posted adjacent to the place of acceptance of payment. 10.6 BILLING INFORMATION The Customer's bill shall show all the following information: a) The date and meter reading at the beginning and at the end of the period of which the bill is rendered; b) The number and kind of units metered; c) The applicable Rate Schedule or code; d) The monthly cost of gas adjustment, if authorized, together with the factor by which it is computed, if the total charge for gas service is billed separately from the cost of gas adjustment, if any; e) The total amount due for utility service and tax; f) The date by which the Customer must pay the bill in order to avoid penalty, delinquency, or termination proceedings; g) A distinct marking to identify an estimated bill; h) Any conversions from meter reading units to billing units, or any other calculations to determine billing units from recording to other devices, or any other factors used in determining the bill; i) The information required in paragraph b, c, d, e, f, and h above shall be arranged to permit the Customer to compute his bill by using the applicable Rate Schedule which shall be supplied when requested by the Customer.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 11 SERVICE AREA North Texas SECTION 11 CURTAILMENTS 11.1 CURTAILMENTS Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.

11.2 PRIORITY CLASSES All Customers served by the Company shall be classified into one of the following priority groups: Priority 1 - All Domestic service. Priority 2 - All small Commercial and Industrial service (less than 50 Mcf on an average day). Priority 3 - All other Commercial service. Priority 4 - Industrial service, other than boiler fuel, for usage through one meter of more than 50 Mcf but less than 200 Mcf on an average day. Priority 5 - Industrial service, other than boiler fuel, for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 6 - Industrial service, other than boiler fuel, for usage through one meter of more than 1500 Mcf on an average day. Priority 7 - Industrial boiler fuel for usage through one meter or less than 200 Mcf on an average day. Priority 8 - Industrial boiler fuel for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 9 - Industrial boiler fuel for usage through one meter of more than 1500 Mcf on an average day. For the purpose of this classification each separately billed meter shall be considered a separate Customer. When service which may fall into more than one priority group is rendered through a single meter, the entire service shall be placed in the lowest (highest numbered) applicable priority group.

11.3 METHOD OF CURTAILMENT Curtailment shall be ordered ratable insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class or other than Priorities 1 and 2. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

11.4 CLASS AND GROUP CURTAILMENTS No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e. higher numbered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.

11.5 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any Customer (other than a Customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.

11.6 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 12 SERVICE AREA North Texas SECTION 12 QUALITY OF GAS 12.1 HEATING VALUE Except as otherwise provided by local regulatory authority gas delivered to Consumers in all service areas shall have a gross heating value of at least 1,000 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered.

12.2 CHARACTER OF THE GAS All gas furnished to Consumers in Texas shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered.

12.3 ODORIZATIION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 13 SERVICE AREA North Texas SECTION 13 SERVICE WORK 13.1 FREE SERVICE

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

When requested by the Consumer, the Company shall perform the following service work on the Consumer's premises and appliances on a no-charge basis: a) gas-air adjustments only, on standard domestic and commercial gas burning appliances when service is initiated; and b) leakage and pressure investigations to the point at which the condition is determined to exist in the Consumer's piping or equipment and service has been disconnected or the Consumer's facilities are free from leaks. No other work shall be performed on any Consumer's appliances or house piping on a no-charge basis. 13.2 OTHER SERVICE The Company may, at its option, undertake other service work for which it has trained personnel available on a charge basis. Charges shall be made at the Company's standard rate for the service area and such work and associated revenues and costs shall be considered non-utility. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 14 SERVICE AREA North Texas SECTION 14 MAINTENANCE OF EQUIPMENT 14.1 MAINTENANCE BY COMPANY The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter on the Customer's premises at any reasonable time or in the event of an emergency at any time, to read the meter or make any necessary inspection, repair, adjustment or replacement of any property owned by the Company. 14.2 MAINTENANCE BY THE CUSTOMER The Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Customer, he shall reimburse the Company for all costs of repairing or replacing the damaged property. 14.3 LEAKS - RIGHT TO DISCONNECT FOR The Customer shall give the Company notice of any escaping gas as soon as it is detected by him. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If any leakage is found to be from the Customer's facilities, the Company shall have the right to disconnect service immediately until the Customer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by Company forces. The Company shall have the right to disconnect service immediately if any of the Customer's appliances or equipment is, in Company's opinion, operating in an unsafe condition. 14.4 PRESENT CUSTOMER OWNED YARDLINES Any facilities upstream of the meter installed by the Customer prior to the effective date of this Tariff shall remain the property and responsibility of the Customer, providing whenever the condition of the facility is such that replacement is required, the work shall be done by the Company under the same terms and conditions as for a new service as described in Paragraph 4.1 of this Tariff. The Customer shall reimburse the Company in advance for the estimated cost of the new facility at the prices filed with the regulatory authority. Thereafter it shall become the property and responsibility of the Company. 14.5 RESPONSIBILITY Nothing in this Section shall make the Company responsible for the safe upkeep of Customer owned facilities. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 15 SERVICE AREA North Texas SECTION 15 DISCONTINUANCE OF SERVICE 15.1 BY CUSTOMER A Customer shall be responsible for all charges for gas service from the time he gives notice of the intention to discontinue service until the Company has read the meter or for three working days whichever is the shorter period of time. 15.2 FOR NON-PAYMENT A Customer's utility service may be disconnected if the bill has not been paid or a deferred payment plan has not been entered into within five working days after the bill has become delinquent and proper notice has been given. Proper notice consists of a deposit in the United States Mail, postage prepaid, or hand delivery to the Customer at least five working days prior to the stated date of disconnection, with the words Termination Notice or similar language prominently displayed on

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

the notice. The notice shall be provided in English and Spanish as necessary to adequately inform the Customer, and shall include the date of termination, the hours, address, and telephone number where payment may be made, and a statement that if a health or other emergency exists, the Company may be contacted concerning the nature of the emergency and the relief available, if any, to meet such emergency. The Company will not discontinue service to a delinquent residential Customer permanently residing in an individually metered dwelling unit when that Customer establishes that the discontinuance of service will result in some person residing at that residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this section must make a written request supported by a written statement from a licensed physician. Both the request and the statement must be received by the Company not more than five working days after the date of the delinquency of the bill. The prohibition against service termination provided by this section shall last twenty days from the date of receipt by the Company of the request and statement of such lesser period as may be agreed upon by the Company and the Customer. The Customer who makes such request shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings. No Customer shall be disconnected for non-payment: a) After payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel of the payment; or b) Before 8:00 AM or after 5:00 PM on any day or on Friday, Saturday, Sunday, holiday, or day before a holiday unless Company personnel are available on that day for the purpose of making collections or reconnecting service.

15.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any consumer for any of the following reasons: a) Without notice for the presence of what the Company considers to be a dangerous condition on the Consumer's premises or if any emergency exists. b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with his knowledge. c) Within five working days after written notice if the Consumer uses his equipment in any way which causes or creates a potential for adverse effect on the Company's service to others. d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class 1 or 2. e) Five working days after written notice for refusal to grant Company's personnel access to the Consumer's premises at any reasonable time for any lawful purpose. f) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of this Tariff or violation of any applicable laws, order or ordinances, provided that disconnection may be made without notice if the violation creates a dangerous condition.

15.4 RIGHT-OF-ENTRY The Company shall have the right to enter upon the Consumer's premises at any reasonable time to shut off service in accordance with this Tariff and to remove its meter and other property.

15.5 ABANDONMENT OF SERVICE Service shall not be abandoned (permanent disconnect of any but a temporary Customer), unless requested by the Customer(s), without permission of the regulatory authority. Failure of the Customer to reinstitute service after disconnection within a reasonable period of time shall be considered a request for permanent discontinuance of service.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 16 SERVICE AREA North Texas SECTION 16 RE-ESTABLISHMENT OF SERVICE 16.1 FROM NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount of his account then due plus the prescribed reconnect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer re-establish satisfactory credit in accordance with this Tariff. The first time a Customer requests re-establishment of service after disconnection for non-payment, the Company may waive the deposit. Thereafter full compliance of this Section is required.

16.2 FROM OTHER REASONS When service has been disconnected for any other reason, the Customer shall be required to request reconnection in writing. If disconnection has been

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

made by the Company, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a reconnect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment. 16.3 RECONNECTION The Company shall restore service as soon as feasible after receipt of the request and compliance with the requirements of this Section. The Company shall charge a non-refundable reconnect fee to all Customers. When the Customer requests reconnection at a time such that because of already scheduled work, reconnect cannot be made during working hours on the same day the request was made, the Company shall, upon the Customers' request, reconnect the service after working hours. For such after-hours reconnection the Customer shall pay an additional fee if the call can be completed in 15 minutes by a serviceman already on duty. If additional time is required on the standard rates for service work, provided however, the Consumer must be advised of the additional charge to be made before the work is done. The Company may then schedule the call at any time to fit its work schedule but the after-hours charge shall be collected as long as any other work is done on overtime. In the event the Company is required to make more than one call because the reason for disconnection has not been properly corrected, the appropriate reconnect fee shall be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operations. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 17 SERVICE AREA North Texas SECTION 17 BUDGET PAYMENT PLAN 17.1 DESCRIPTION Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner: (a) The Plan year shall be the 12 months pending each year with the Customer's June bill. The Plan monthly payment shall be determined as follows: (1) for Customers electing to commence with the July bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's Plan year. (2) for Customers electing to commence with the August or later bill, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year from commencement in the Plan until the next following June bill. Succeeding years shall be computed on an annual basis as in subparagraph (1) above. (b) The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon most recent available prior 12-month period at the same service location; or, if there is not at least 12 month prior service at the same service location, then the charges shall be based upon consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known changes. (c) The Company reserves the right to adjust the remaining monthly Plan payments of any Customer at any time for changes in condition or rates. (d) The Company shall advise each Customer in the Plan of the monthly Plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of that month's Plan payment. The Customer shall continue to pay the monthly Plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. (e) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly Plan payment. (f) The June gas bill for each Customer in the Plan shall be handled as follows: (1) any amount due the Company up to the monthly Plan payment shall be paid in full by the due date shown on the bill. (2) if the balance due the Company exceeds the monthly Plan payment, a payment equal to that amount will be paid and the excess shall be utilized in computing the next Plan year's monthly Plan payment. (3) any balance due the Customer shall

also be utilized in computing the next Plan year's monthly Plan payment. (g) Interest will not be charged the Customer on accrued debit balances nor paid by the Company on accrued credit balances. (h) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan. (i) Any Customer's participation in the Plan may be discontinued by the Company if the monthly Plan payment has not been paid. (j) If any Customer in the Plan shall cease, for any reason, to participate in the Plan, then the Company may refuse that Customer's reentry in the Plan until the next following July. The Company agreed that effective April 3, 1998, there will be no charge for these services until such time that changes are approved by the appropriate regulatory authority.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and

owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site. Adopted October 21, 2003

meter and delivered to one or more consumers shall not be considered to be resold as long as it is not metered and billed on separate commodity or cost of service basis. 1.4 TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice. 1.5 CONTINUITY OF SERVICE The Company shall use reasonable diligence in providing continuous service to all of its Consumers except for those interruptions of service permitted under rate schedules providing for them. Under certain circumstances it may be necessary to curtail Consumers of any class. The procedure under which interruptions and curtailments of service will be made is described in Section 11 of this Tariff. The Company does not guarantee uninterrupted service to any consumer and shall not be liable for damages resulting from loss of service. 1.6 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in each of the Company's Service Area offices and at its Corporate Office in Austin, Texas. A copy of the locally applicable Tariff shall be kept in each of the Company's offices. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it during reasonable office hours. 1.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. The Company shall provide each new Customer, when service is initiated, information as follows: a) Upon request, instructions as to the method of reading meters. b) At the time service is initiated or as an insert in the first billing, a pamphlet or packet containing the following information. This information shall be provided in English and Spanish as necessary to adequately inform Customers. i) The Customers' right to information concerning rates and services and the Customer's right to inspect or obtain at reproduction cost a copy of the applicable tariffs and service rules; ii) The Customer's right to have his or her meter checked without charge under Section 9.4 (Meter Testing-Customer Requests) of these Rules of Service, if applicable; iii) The time allowed to pay outstanding bills; iv) Grounds for termination of service; v) The steps the Company must take before terminating service; vi) How the Customer can resolve billing disputes with the Company and how disputes and health emergencies may affect termination of service; vii) Information on alternative payment plans offered by the Company; viii) The steps necessary to have service reconnected after involuntary termination; ix) The appropriate regulatory authority with whom to register a complaint and how to contact such authority; x) The hours, addresses, and telephone numbers of utility offices where bills may be paid and information may be obtained; and xi) The Customer's right to be instructed by the Company how to read his or her meter. c) At least once each calendar year, notify Customers that information is available upon request, at no charge to the Customer, concerning the items listed in Subsection b. This notice may be accomplished by using the billing insert or a printed statement upon the bill itself. 1.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Upon receipt of a complaint from the regulatory authority on behalf of a Customer, the Company shall investigate and advise the regulatory authority and complainant of the results of the investigation. An initial response will be made the next working day with a final response completed within 15 days from the date of the complaint, unless additional time is granted within the 15 day period. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 2 SERVICE AREA North Texas SECTION 2 INITIATION OF SERVICE 2.1 REGULAR SERVICE Application for service shall be made to the

-----------------	----------------------

Company's office nearest to the premises to be served. Each Applicant must comply with appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for service under the standard provisions of this Tariff. Commencement of the service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply.

2.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply.

2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff. The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

2.4 ESTABLISHMENT OF SERVICE Each Applicant for residential service may be required to make a Security Deposit to establish a satisfactory credit standing. These deposits shall be computed in the same manner for the same class providing however, that a Deposit may be waived if

- The Applicant has been a Customer of any utility for the same kind of service within the last two years and is not delinquent in payment of any such utility service account and during the last 12 consecutive months of service did not have more than one occasion in which a bill for such utility service was paid after becoming delinquent and never had service disconnected for nonpayment;
- The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills for the service required;
- The Applicant furnishes in writing a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification, or ownership of substantial equity;
- The Applicant is 65 years of age or older provided they have no outstanding balance for utility service over two years old (applicable to residential Customers only);
- The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or
- The application is made for or guaranteed by an agency of the federal, state or local government.

2.5 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons:

- Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff;
- Failure of the Applicant to furnish any service or meter location specified by the Company as a condition for obtaining service;
- Existence of a potentially hazardous condition such as a leak in the Applicant's piping system which, in the Company's opinion, may endanger life or property;
- Failure to pay for gas service at the same or another service location within the Company's system; provided the amount billed is not then in dispute; or
- Delinquency in

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 21336

payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for refusal to serve.

2.6 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending upon approvals and permits required, the extent of the facilities to be built, and the Company's work load at the time.

2.7 INSUFFICIENT GROUNDS FOR REFUSAL TO SERVE The Company may not refuse service to any Applicant for any of the following reasons - a) Failure to pay any bill of another Customer, except as provided above; b) Failure to pay for merchandise or other charges for non-utility service purchased from or through the Company.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 3 SERVICE AREA North Texas SECTION 3 METERING AND DELIVERY OF GAS

3.1 METER LOCATIONS Each Applicant shall furnish and subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and protected from damage. Meters shall not be located within any enclosed structure not solely intended as a meter house.

3.2 POINT OF DELIVERY The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery.

3.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land shall be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately.

3.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 4 SERVICE AREA North Texas SECTION 4 INSTALLATION OF EQUIPMENT

4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him.

4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him.

4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary. 4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 5 SERVICE AREA North Texas SECTION 5 EXTENSION OF FACILITIES 5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation. 5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer. 5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents). 5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

agreement shall be considered to be terminated and a complete refund made to the Applicant(s).

The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served. 5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction. 5.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 6 SERVICE AREA North Texas SECTION 6 CUSTOMER OWNED SYSTEMS 6.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. 6.2 MASTER METERS The Company shall provide service through a master meter into the piping system of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 7 SERVICE AREA North Texas SECTION 7 SECURITY DEPOSITS 7.1 REQUIREMENTS The Company may require a security deposit from any present or prospective Customer in accordance with Section 2 of these rules. The amount of the deposit for residential service shall not exceed 1/6 of the estimated annual billing except that when the actual usage exceeds twice the amount estimated, the amount of the required deposit may be increased proportionately. 7.2 RECEIPTS The Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of the receipt. 7.3 INTEREST The Company shall pay interest on all security deposits for the time held at the then lawfully established rate per annum except when - a) the deposit is held less than 30 days; b) notice is sent to the Customer's last known address that the deposit is no longer required; c) the service to which a deposit relates has been discontinued; or d) all or any part of the deposit has been applied to a Customer's account. Interest on deposits earned during the preceding year shall be paid annually either by check or as a credit on the monthly bill at the Company's option. Whenever the deposit of any Customer is returned, the Company shall pay all previously unpaid interest.

7.4 REFUND OF DEPOSITS Except where locally established regulations provide otherwise, deposits for residential service will be promptly refunded with accrued interest when: a) service is not connected or, after disconnection of service, the balance, if any, is in excess of the unpaid bills for service furnished. b) the Customer has paid bills for residential service for 12 consecutive months without having service disconnected and without having more than two occasions when a bill was delinquent and when the Customer is not delinquent in the payment of current bills. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 8 SERVICE AREA North Texas SECTION 8 GAS MEASUREMENT 8.1 PRESSURE The standard serving and

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

measurement pressure shall be determined by the assumed average atmospheric pressure in the service area as follows: Standard Serving Atmospheric District or Service Area Pressure, PSIA Pressure, PSIA Mineral Wells Region 14.65 14.40 Weatherford Region 14.65 14.40 Jacksboro Region 14.65 14.40 Breckenridge Region 14.65 14.15 Graham Region 14.65 14.15 The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under normal load conditions. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted.

8.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one thousand cubic feet. A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at the pressure of gas in the meter and a temperature of 60 degrees Fahrenheit. Whenever the Company delivers any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation.

8.3 BILLING UNIT Unless otherwise specified on the rate schedule or by special agreement, Customers shall be billed on the basis of CCF measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter.

8.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure compensating meters whenever the cost of this equipment is justified by the volumes served. Such meters shall be equipped with devices which mechanically correct the actual measured volumes in accordance with Boyles Law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 8.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units.

8.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing units or may be furnished with devices designed to correct the actual volumes to be standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correction devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculation based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specified gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 8.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter chart period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

GRAH2b 8.7 BTU MEASUREMENT The heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.65 psia and temperature of 60 degrees F. on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period expressed in the same units and measured at or corrected to 14.65 psia and 60 degrees F., and multiplying by the factor necessary to convert the heating value/measurement units to the billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods: a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type. b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type. i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents.

8.8 CUSTOMER OWNED METERS Any Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for billing purposes. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 9 SERVICE AREA North Texas SECTION 9 METER READING AND ACCURACY 9.1 METER READING Meters shall be read as nearly as may be practical on the same day of each calendar month. 9.2 ACCESS TO THE METER The Customer shall permit the Company access to the meter at all times for readings thereof and at all reasonable times for maintenance, testing or replacement of the meter. 9.3 METER ACCURACY The nominal accuracy of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results. Industrial Customer meter tests performed under these conditions shall be charged at the following fee schedule:

METER TYPE AND CAPACITY		SERVICE CHARGE	
		Positive	
Displacement	251 to 1500 cubic feet per hour	\$ 25.00	1501 to 3000 cubic feet per hour
	50.00	3001 to 5000 cubic feet per hour	50.00
	100.00	Turbine meters	200.00
		Orifice	All Sizes
			\$ 100.00

If the test proves the meter is registering above or below the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter.

9.5 BILLING ADJUSTMENTS - GENERAL SERVICE If meter tests reveal more than a 2% error the previous readings will be corrected for the past six months or the time since the last test of the meter, whichever is shorter. Resulting over or underbillings will be corrected in subsequent bills. If a meter is found not to have registered for a period of time, the Company will charge for unmeasured consumption for a period of not longer than three months prior to the time the meter is found not to be registering. The amount used but not measured will be based upon consumption during a like period by the same Customer at the same location or, if this information is unavailable, on consumption under similar conditions at other locations.

9.6 PROVISIONS FOR SPECIAL SERVICE The following modifications shall apply to the provisions of this Section for all Special Service rate schedules and service under special written agreements:

- a) Orifice meters shall be calibration tested at least four times per year at intervals not to exceed 120 days. Should the Customer so elect, tests shall be made in the presence of his representative.
- b) Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill either up or down shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate.
 - i) By using registration of the Customer's check meter(s) if proved correct.
 - ii) By correcting the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or
 - iii) By estimating the quantity of gas delivered by comparison with deliveries during preceding period under similar conditions when accurate registration was obtained.

9.7 PERIODIC TESTS The Company shall make periodic tests of meters, associated devices and instruments to assure their accuracy. The basic periodic test interval shall not be longer than provided for in the following schedule.

Positive displacement meters:			
401 to 1500 cubic feet per hour	7 years	1501 to 3000 cubic feet per hour	5 years
3001 to 5000 cubic feet per hour	1 year	Office meters	2 years
Turbine meters	1 year	Base pressure correction devices	2 years
Base volume correcting devices	2 years	Service pressure regulation devices	Quarterly

displacement meters rated at 400 cubic feet per hour or less shall be replaced with new or remanufactured meters at intervals of not greater than 13 years in service. Meters removed under this program will be tested and records of the tests evaluated to determine if the accuracy of the sample group justifies adjustment of the replacement cycle.

9.8 METER TEST PROCEDURE AND ACCURACIES Meters and/or associated meter devices shall be tested at the points and adjusted to the tolerances prescribed below. The test of any unit of metering equipment shall consist of a comparison of its accuracy to a standard.

Positive displacement meters:			
Accuracy at test points	Flow	Adjusted to Within	Check flow 1.5%
			Not less than rated

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY

-----------------	----------------------

flow 1.5% Overall accuracy The overall accuracy at check flow and the overall accuracy at not less than full rated flow shall agree within one percent. Orifice meters: Accuracy at the test points must be within 2% plus or minus. General: i) All meters and/or associated metering devices when tested shall be adjusted as closely as possible to the condition of zero error. ii) All tolerances are to be interpreted as maximum permissible variations from the condition of zero error. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 10 SERVICE AREA North Texas SECTION 10 BILLING AND PAYMENT OF BILLS 10.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full within 15 days after the date the bill is rendered. Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of its authorized pay stations. If not paid by the date due, the bill shall be considered delinquent. 10.2 PARTIAL BILLING Whenever service is rendered for less than fifteen days during any monthly billing period, the Customer shall be billed for his actual consumption or the regular minimum charge in the applicable rate schedule, whichever is the larger amount. 10.3 ESTIMATED In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption. The next bill based on an actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for his actual consumption. 10.4 DISPUTED BILLS (i) In the event of a dispute between a Customer and the Company regarding any bill for service, the Company will make such investigation as is required by the particular case and report the results to the Customer. If the Customer wishes to obtain the benefits of subsection (ii) hereunder, notification of the dispute must be given to the Company prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the Company shall inform the Customer of the complaint procedures of the appropriate regulatory authority. (ii) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: (1) resolution of the dispute, or (2) the expiration of the sixty day period beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period for the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar Customers and under similar conditions. 10.5 RETURNED CHECKS Whenever the payment for gas service or any other charge permitted under this Tariff is rendered by check and such check is refused by the bank on which it is drawn, the Company may make an additional charge to cover the costs of handling and rebilling. The Company must post a notice of the charge in its principal office in the service area at least ten days in advance of the institution hereof and keep such notice in place as long as the charge is in effect. Notice shall be posted adjacent to the place of acceptance of payment. 10.6 BILLING INFORMATION The Customer's bill shall show all the following information: a) The date and meter reading at the beginning and at the end of the period of which the bill is rendered; b) The number and kind of units metered; c) The applicable Rate Schedule or code; d) The monthly cost of gas adjustment, if authorized, together with the factor by which it is computed, if the total charge for gas service is billed separately from the cost of gas adjustment, if any; e) The total amount due for utility service and tax; f) The date by which the Customer must pay the bill in order to avoid penalty, delinquency, or termination proceedings; g) A distinct marking to identify an estimated bill; h) Any conversions from meter reading units to billing units, or any other calculations to determine billing units from recording to other devices, or any other factors used in determining the bill; i) The information required in paragraph

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

b, c, d, e, f, and h above shall be arranged to permit the Customer to compute his bill by using the applicable Rate Schedule which shall be supplied when requested by the Customer.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 11 SERVICE AREA North Texas SECTION 11 CURTAILMENTS 11.1 CURTAILMENTS Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section. 11.2 PRIORITY CLASSES All Customers served by the Company shall be classified into one of the following priority groups: Priority 1 - All Domestic service. Priority 2 - All small Commercial and Industrial service (less than 50 Mcf on an average day). Priority 3 - All other Commercial service. Priority 4 - Industrial service, other than boiler fuel, for usage through one meter of more than 50 Mcf but less than 200 Mcf on an average day. Priority 5 - Industrial service, other than boiler fuel, for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 6 - Industrial service, other than boiler fuel, for usage through one meter of more than 1500 Mcf on an average day. Priority 7 - Industrial boiler fuel for usage through one meter or less than 200 Mcf on an average day. Priority 8 - Industrial boiler fuel for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 9 - Industrial boiler fuel for usage through one meter of more than 1500 Mcf on an average day. For the purpose of this classification each separately billed meter shall be considered a separate Customer. When service which may fall into more than one priority group is rendered through a single meter, the entire service shall be placed in the lowest (highest numbered) applicable priority group.

11.3 METHOD OF CURTAILMENT Curtailment shall be ordered ratable insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class or other than Priorities 1 and 2. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup. 11.4 CLASS AND GROUP CURTAILMENTS No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e. higher numbered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service. 11.5 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any Customer (other than a Customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened. 11.6 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 12 SERVICE AREA North Texas SECTION 12 QUALITY OF GAS 12.1 HEATING VALUE Except as otherwise provided by local regulatory authority gas delivered to Consumers in all service areas shall have a gross heating value of at least 1,000 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered. 12.2 CHARACTER OF THE GAS All gas furnished to

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

Consumers in Texas shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered. 12.3 ODORIZATION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 13 SERVICE AREA North Texas SECTION 13 SERVICE WORK 13.1 FREE SERVICE When requested by the Consumer, the Company shall perform the following service work on the Consumer's premises and appliances on a no-charge basis: a) gas-air adjustments only, on standard domestic and commercial gas burning appliances when service is initiated; and b) leakage and pressure investigations to the point at which the condition is determined to exist in the Consumer's piping or equipment and service has been disconnected or the Consumer's facilities are free from leaks. No other work shall be performed on any Consumer's appliances or house piping on a no-charge basis. 13.2 OTHER SERVICE The Company may, at its option, undertake other service work for which it has trained personnel available on a charge basis. Charges shall be made at the Company's standard rate for the service area and such work and associated revenues and costs shall be considered non-utility. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 14 SERVICE AREA North Texas SECTION 14 MAINTENANCE OF EQUIPMENT 14.1 MAINTENANCE BY COMPANY The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter on the Customer's premises at any reasonable time or in the event of an emergency at any time, to read the meter or make any necessary inspection, repair, adjustment or replacement of any property owned by the Company. 14.2 MAINTENANCE BY THE CUSTOMER The Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Customer, he shall reimburse the Company for all costs of repairing or replacing the damaged property. 14.3 LEAKS - RIGHT TO DISCONNECT FOR The Customer shall give the Company notice of any escaping gas as soon as it is detected by him. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If any leakage is found to be from the Customer's facilities, the Company shall have the right to disconnect service immediately until the Customer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by Company forces. The Company shall have the right to disconnect service immediately if any of the Customer's appliances or equipment is, in Company's opinion, operating in an unsafe condition. 14.4 PRESENT CUSTOMER OWNED YARDLINES Any facilities upstream of the meter installed by the Customer prior to the effective date of this Tariff shall remain the property and responsibility of the Customer, providing whenever the condition of the facility is such that replacement is required, the work shall be done by the Company under the same terms and conditions as for a new service as described in Paragraph 4.1 of this Tariff. The Customer shall reimburse the Company in advance for the estimated cost of the new facility at the prices filed with the regulatory authority. Thereafter it shall become the property and responsibility of the Company. 14.5 RESPONSIBILITY Nothing in this Section shall make the Company responsible for the safe upkeep of Customer owned facilities. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 15 SERVICE AREA North Texas SECTION 15 DISCONTINUANCE OF SERVICE 15.1 BY CUSTOMER A Customer shall be responsible for all charges for gas service from the time he gives notice of the intention to discontinue service until the Company has read the meter or for three working days whichever

GAS SERVICES DIVISION

is the shorter period of time. 15.2 FOR NON-PAYMENT A Customer's utility service may be disconnected if the bill has not been paid or a deferred payment plan has not been entered into within five working days after the bill has become delinquent and proper notice has been given. Proper notice consists of a deposit in the United States Mail, postage prepaid, or hand delivery to the Customer at least five working days prior to the stated date of disconnection, with the words Termination Notice or similar language prominently displayed on the notice. The notice shall be provided in English and Spanish as necessary to adequately inform the Customer, and shall include the date of termination, the hours, address, and telephone number where payment may be made, and a statement that if a health or other emergency exists, the Company may be contacted concerning the nature of the emergency and the relief available, if any, to meet such emergency. The Company will not discontinue service to a delinquent residential Customer permanently residing in an individually metered dwelling unit when that Customer establishes that the discontinuance of service will result in some person residing at that residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this section must make a written request supported by a written statement from a licensed physician. Both the request and the statement must be received by the Company not more than five working days after the date of the delinquency of the bill. The prohibition against service termination provided by this section shall last twenty days from the date of receipt by the Company of the request and statement of such lesser period as may be agreed upon by the Company and the Customer. The Customer who makes such request shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings. No Customer shall be disconnected for non-payment: a) After payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel of the payment; or b) Before 8:00 AM or after 5:00 PM on any day or on Friday, Saturday, Sunday, holiday, or day before a holiday unless Company personnel are available on that day for the purpose of making collections or reconnecting service.

15.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any consumer for any of the following reasons: a) Without notice for the presence of what the Company considers to be a dangerous condition on the Consumer's premises or if any emergency exists. b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with his knowledge. c) Within five working days after written notice if the Consumer uses his equipment in any way which causes or creates a potential for adverse effect on the Company's service to others. d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class 1 or 2. e) Five working days after written notice for refusal to grant Company's personnel access to the Consumer's premises at any reasonable time for any lawful purpose. f) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of this Tariff or violation of any applicable laws, order or ordinances, provided that disconnection may be made without notice if the violation creates a dangerous condition.

15.4 RIGHT-OF-ENTRY The Company shall have the right to enter upon the Consumer's premises at any reasonable time to shut off service in accordance with this Tariff and to remove its meter and other property.

15.5 ABANDONMENT OF SERVICE Service shall not be abandoned (permanent disconnect of any but a temporary Customer), unless requested by the Customer(s), without permission of the regulatory authority. Failure of the Customer to reinstitute service after disconnection within a reasonable period of time shall be considered a request for permanent discontinuance of service.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 16 SERVICE AREA North Texas SECTION 16 RE-ESTABLISHMENT OF SERVICE 16.1 FROM NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount of his account then due plus the prescribed reconnect fee or make satisfactory arrangements

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

for that payment before service is reinstated. In addition, the Company shall require that the Customer re-establish satisfactory credit in accordance with this Tariff. The first time a Customer requests re-establishment of service after disconnection for non-payment, the Company may waive the deposit. Thereafter full compliance of this Section is required. 16.2 FROM OTHER REASONS When service has been disconnected for any other reason, the Customer shall be required to request reconnection in writing. If disconnection has been made by the Company, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a reconnect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment. 16.3 RECONNECTION The Company shall restore service as soon as feasible after receipt of the request and compliance with the requirements of this Section. The Company shall charge a non-refundable reconnect fee to all Customers. When the Customer requests reconnection at a time such that because of already scheduled work, reconnect cannot be made during working hours on the same day the request was made, the Company shall, upon the Customers' request, reconnect the service after working hours. For such after-hours reconnection the Customer shall pay an additional fee if the call can be completed in 15 minutes by a serviceman already on duty. If additional time is required on the standard rates for service work, provided however, the Consumer must be advised of the additional charge to be made before the work is done. The Company may then schedule the call at any time to fit its work schedule but the after-hours charge shall be collected as long as any other work is done on overtime. In the event the Company is required to make more than one call because the reason for disconnection has not been properly corrected, the appropriate reconnect fee shall be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operations. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 17 SERVICE AREA North Texas SECTION 17 BUDGET PAYMENT PLAN 17.1 DESCRIPTION Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner: (a) The Plan year shall be the 12 months pending each year with the Customer's June bill. The Plan monthly payment shall be determined as follows: (1) for Customers electing to commence with the July bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's Plan year. (2) for Customers electing to commence with the August or later bill, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year from commencement in the Plan until the next following June bill. Succeeding years shall be computed on an annual basis as in subparagraph (1) above. (b) The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon most recent available prior 12-month period at the same service location; or, if there is not at least 12 month prior service at the same service location, then the charges shall be based upon consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known changes. (c) The Company reserves the right to adjust the remaining monthly Plan payments of any Customer at any time for changes in condition or rates. (d) The Company shall advise each Customer in the Plan of the monthly Plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of that month's Plan payment. The Customer shall continue to pay the monthly Plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. (e) Any other charges incurred by the Customer shall

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

be paid monthly when due in addition to the monthly Plan payment. (f) The June gas bill for each Customer in the Plan shall be handled as follows: (1) any amount due the Company up to the monthly Plan payment shall be paid in full by the due date shown on the bill. (2) if the balance due the Company exceeds the monthly Plan payment, a payment equal to that amount will be paid and the excess shall be utilized in computing the next Plan year's monthly Plan payment. (3) any balance due the Customer shall also be utilized in computing the next Plan year's monthly Plan payment. (g) Interest will not be charged the Customer on accrued debit balances nor paid by the Company on accrued credit balances. (h) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan. (i) Any Customer's participation in the Plan may be discontinued by the Company if the monthly Plan payment has not been paid. (j) If any Customer in the Plan shall cease, for any reason, to participate in the Plan, then the Company may refuse that Customer's reentry in the Plan until the next following July. GRAH2c TEXAS GAS SERVICE COMPANY Texas Tariff - North Texas NORTH TEXAS REGION Graham Service Area (Environs) QUALITY OF SERVICE RULE ADDENDUMS AND AGREEMENTS ON INTERPRETATION [Note regarding Deposits: Per the information submitted by the Company to the Railroad Commission of Texas on 4/21/92, the current Residential Customer Deposit is \$50.00.] [Note regarding Service Fees: Per Company letter dated 4/3/98 to the Railroad Commission of Texas, an agreement was reached with the Railroad Commission of Texas Audit Staff on the interpretation of Tagged Door / Can't Get In / Reread / High Bill Investigation / or Special Scheduling Service Rates. The Company agreed that effective April 3, 1998, there will be no charge for these services until such time that changes are approved by the appropriate regulatory authority.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel

or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site. Adopted October 21, 2003

provision of utility service and that work necessary to maintain service, shall be provided for in this Tariff. All other fees and charges for service work done on Consumer's premises shall be done in accordance with the schedule of fees and charges on file and approved by the appropriate regulatory authority where required. 1.3 RESALE OF GAS No gas supplied by the Company shall be resold by any Customer unless expressly authorized by the Company in writing and approved by the Regulatory Authority. Gas delivered through a master meter and delivered to one or more consumers shall not be considered to be resold as long as it is not metered and billed on separate commodity or cost of service basis. 1.4 TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice. 1.5 CONTINUITY OF SERVICE The Company shall use reasonable diligence in providing continuous service to all of its Consumers except for those interruptions of service permitted under rate schedules providing for them. Under certain circumstances it may be necessary to curtail Consumers of any class. The procedure under which interruptions and curtailments of service will be made is described in Section 11 of this Tariff. The Company does not guarantee uninterrupted service to any consumer and shall not be liable for damages resulting from loss of service. 1.6 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in each of the Company's Service Area offices and at its Corporate Office in Austin, Texas. A copy of the locally applicable Tariff shall be kept in each of the Company's offices. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it during reasonable office hours. 1.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. The Company shall provide each new Customer, when service is initiated, information as follows: a) Upon request, instructions as to the method of reading meters. b) At the time service is initiated or as an insert in the first billing, a pamphlet or packet containing the following information. This information shall be provided in English and Spanish as necessary to adequately inform Customers. i) The Customers' right to information concerning rates and services and the Customer's right to inspect or obtain at reproduction cost a copy of the applicable tariffs and service rules; ii) The Customer's right to have his or her meter checked without charge under Section 9.4 (Meter Testing-Customer Requests) of these Rules of Service, if applicable; iii) The time allowed to pay outstanding bills; iv) Grounds for termination of service; v) The steps the Company must take before terminating service; vi) How the Customer can resolve billing disputes with the Company and how disputes and health emergencies may affect termination of service; vii) Information on alternative payment plans offered by the Company; viii) The steps necessary to have service reconnected after involuntary termination; ix) The appropriate regulatory authority with whom to register a complaint and how to contact such authority; x) The hours, addresses, and telephone numbers of utility offices where bills may be paid and information may be obtained; and xi) The Customer's right to be instructed by the Company how to read his or her meter. c) At least once each calendar year, notify Customers that information is available upon request, at no charge to the Customer, concerning the items listed in Subsection b. This notice may be accomplished by using the billing insert or a printed statement upon the bill itself. 1.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Upon receipt of a complaint from the regulatory authority on behalf of a

GAS SERVICES DIVISION

Customer, the Company shall investigate and advise the regulatory authority and complainant of the results of the investigation. An initial response will be made the next working day with a final response completed within 15 days from the date of the complaint, unless additional time is granted within the 15 day period. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 2 SERVICE AREA North Texas SECTION 2 INITIATION OF SERVICE 2.1 REGULAR SERVICE

Application for service shall be made to the Company's office nearest to the premises to be served. Each Applicant must comply with appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for service under the standard provisions of this Tariff. Commencement of the service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply. 2.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply. 2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff. The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling. 2.4 ESTABLISHMENT OF SERVICE Each Applicant for residential service may be required to make a Security Deposit to establish a satisfactory credit standing. These deposits shall be computed in the same manner for the same class providing however, that a Deposit may be waived if a) The Applicant has been a Customer of any utility for the same kind of service within the last two years and is not delinquent in payment of any such utility service account and during the last 12 consecutive months of service did not have more than one occasion in which a bill for such utility service was paid after becoming delinquent and never had service disconnected for nonpayment; b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills for the service required; c) The Applicant furnishes in writing a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification, or ownership of substantial equity; d) The Applicant is 65 years of age or older provided they have no outstanding balance for utility service over two years old (applicable to residential Customers only); e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or f) The application is made for or guaranteed by an agency of the federal, state or local government. 2.5 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons: a) Failure to pay fees, advances or contributions or to make any deposit required

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

for service under this Tariff; b) Failure of the Applicant to furnish any service or meter location specified by the Company as a condition for obtaining service; c) Existence of a potentially hazardous condition such as a leak in the Applicant's piping system which, in the Company's opinion, may endanger life or property; d) Failure to pay for gas service at the same or another service location within the Company's system; provided the amount billed is not then in dispute; or e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for refusal to serve.

2.6 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending upon approvals and permits required, the extent of the facilities to be built, and the Company's work load at the time.

2.7 INSUFFICIENT GROUNDS FOR REFUSAL TO SERVE The Company may not refuse service to any Applicant for any of the following reasons - a) Failure to pay any bill of another Customer, except as provided above; b) Failure to pay for merchandise or other charges for non-utility service purchased from or through the Company.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 3 SERVICE AREA North Texas SECTION 3 METERING AND DELIVERY OF GAS 3.1 METER LOCATIONS Each Applicant shall furnish and subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and protected from damage. Meters shall not be located within any enclosed structure not solely intended as a meter house.

3.2 POINT OF DELIVERY The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery.

3.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land shall be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately.

3.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 4 SERVICE AREA North Texas SECTION 4 INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him.

4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 21336
-----------------	----------------------

The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him. 4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary. 4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 5 SERVICE AREA North Texas

SECTION 5 EXTENSION OF FACILITIES 5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation. 5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer. 5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents).

5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served.

5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction.

5.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 6 SERVICE AREA North Texas SECTION 6 CUSTOMER OWNED SYSTEMS 6.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers.

6.2 MASTER METERS The Company shall provide service through a master meter into the piping system of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 7 SERVICE AREA North Texas SECTION 7 SECURITY DEPOSITS 7.1 REQUIREMENTS The Company may require a security deposit from any present or prospective Customer in accordance with Section 2 of these rules. The amount of the deposit for residential service shall not exceed 1/6 of the estimated annual billing except that when the actual usage exceeds twice the amount estimated, the amount of the required deposit may be increased proportionately.

7.2 RECEIPTS The Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of the receipt.

7.3 INTEREST The Company shall pay interest on all security deposits for the time held at the then lawfully established rate per annum except when - a) the deposit is held less than 30 days; b) notice is sent to the Customer's last known address that the deposit is no longer required; c) the service to which a deposit relates has been discontinued; or d) all or any part of the deposit has been applied to a Customer's account. Interest on deposits earned during the preceding year shall be paid annually either by check or as a credit on the monthly bill at the Company's option. Whenever the deposit of any Customer is returned, the Company shall pay all previously unpaid interest.

7.4 REFUND OF DEPOSITS Except where locally established regulations provide otherwise, deposits for residential service will be promptly refunded with accrued interest when: a)

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 21336

service is not connected or, after disconnection of service, the balance, if any, is in excess of the unpaid bills for service furnished. b) the Customer has paid bills for residential service for 12 consecutive months without having service disconnected and without having more than two occasions when a bill was delinquent and when the Customer is not delinquent in the payment of current bills. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 8 SERVICE AREA North Texas SECTION 8 GAS MEASUREMENT 8.1 PRESSURE The standard serving and measurement pressure shall be determined by the assumed average atmospheric pressure in the service area as follows: Standard Serving Atmospheric District or Service Area Pressure, PSIA Pressure, PSIA Mineral Wells Region 14.65 14.40 Weatherford Region 14.65 14.40 Jacksboro Region 14.65 14.40 Breckenridge Region 14.65 14.15 Graham Region 14.65 14.15 The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under normal load conditions. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted. 8.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one thousand cubic feet. A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at the pressure of gas in the meter and a temperature of 60 degrees Fahrenheit. Whenever the Company delivers any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation. 8.3 BILLING UNIT Unless otherwise specified on the rate schedule or by special agreement, Customers shall be billed on the basis of CCF measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. 8.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure compensating meters whenever the cost of this equipment is justified by the volumes served. Such meters shall be equipped with devices which mechanically correct the actual measured volumes in accordance with Boyles Law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 8.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units. 8.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing units or may be furnished with devices designed to correct the actual volumes to be standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correction devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculation based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specified gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 8.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter chart period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

JACK2c TEXAS GAS SERVICE COMPANY Texas Tariff - North Texas NORTH TEXAS REGION Jacksboro Service Area (Environs) QUALITY OF SERVICE RULE ADDENDUMS AND AGREEMENTS ON INTERPRETATION [Note regarding Deposits: Per the information submitted by the Company to the Railroad Commission of Texas on 4/21/92, the current Residential Customer Deposit is \$50.00.] [Note regarding Service Fees: Per Company letter dated 4/3/98 to the Railroad Commission of Texas, an agreement was reached with the Railroad Commission of Texas Audit Staff on the interpretation of Tagged Door / Can't Get In / Reread / High Bill Investigation / or Special Scheduling Service Rates. The Company agreed that effective April 3, 1998, there will be no charge for these services until such time that changes are approved by the appropriate regulatory authority.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An

extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site. Adopted October 21, 2003

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 21336
-----------------	----------------------

Tariff - Possum Kingdom GENERAL STATEMENT 1.1 TARIFF APPLICABILITY Texas Gas Service Company is a gas utility operating within the State of Texas. This Tariff is applicable in the unincorporated area of Palo Pinto County, Texas around Possum Kingdom Lake. Service under this Tariff is subject to the original jurisdiction of the Railroad Commission of Texas. The Company will provide service to any person and/or business within its service area in accordance with the prices, terms, and conditions provided for in its Tariff and regulations.

1.2 RATE SCHEDULES All Customers shall be served under rate schedules filed with the Railroad Commission. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer regarding the most advantageous rate for his usage if more than one rate is applicable. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error may be corrected immediately. In the event of a question regarding the Customer's classification, the questions shall be resolved by reference to the coding of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office Management and Budget.

1.3 DEFINITIONS The following definitions shall apply to the indicated words as used in this Tariff: Company: Texas Gas Service Company Applicant: Any person, organization or group of persons or organizations making a formal request either orally or in writing for gas service from the Company. Customer: Any person or organization now being billed for gas service whether used by him or her, or by others. The Commission: The Railroad Commission of Texas. The Regulatory Authority: The Railroad Commission of Texas. Consumer: Any person or organization receiving and using gas from the Company for his or her own appliances or equipment whether or not the gas is billed directly to him or her, or to a second party. (For example, in the case of a rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer.) Domestic Service: Service to any Consumer which consists of gas used directly for heating, air conditioning, cooking, water heating and similar purposes whether in a single or multiple dwelling units. Commercial Service: Service to Consumers engaged primarily in the sale or furnishing of goods and services and any usage not otherwise provided for. Industrial Service: Service to Consumers engaged primarily in a process which changes raw or unfinished materials into another form of product. This classification shall embrace all Consumers included in Division A (except Major Groups 01 and 02) and Division D of the Standard Industrial Classification Manual. Agricultural Service and Irrigation or Irrigation Pumping Service: Service to Consumers engaged in agricultural production (SIC Division A - Major Group 01) who use gas for operating engine driven pumping equipment. Power Generation Service: Service to Consumers for the purpose of generating electricity. This service may be further divided into direct generation in which the gas is used to power the prime mover and indirect generation in which the gas is burned in a boiler and the generator is steam powered. Firm Service: Service under any rate schedule which does not specifically provide for interruption of service for peak shaving purposes. Firm service is nevertheless subject to the curtailment provisions of this Tariff. Interruptible Service: Service under any rate schedule which specifically provides for interruption of service for peak shaving purposes. Temporary Service: Any service which will not be utilized continuously at the same location for a period of two or more years. General Rate Schedule: A rate schedule available to all Customers of the appropriate class or classes for usages indicated therein. Special Rate Schedule: A rate schedule designed for a specific Customer, but usually available to others of the same class similarly situated through negotiations with the Company. Optional Rate Schedule: A General Rate Schedule which may be selected by a Customer in lieu of another general schedule (may require installation of special equipment). Transportation Rate Schedule: A rate schedule designed for service to any

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 21336
-----------------	----------------------

Customer for the transportation of Customer owned natural gas through the Company's distribution system. Alternate or Standby Fuel: Any fuel and the facilities for generating, storing or using such fuel owned by a Consumer for the purpose of continuing the operating of his equipment during periods of interruption of service by the Company. Plant Protection Gas: The minimum gas volumes required to prevent physical harm to plant facilities or danger to plant personnel when such protection cannot be afforded through use of alternate fuel. Feedstock Gas: Gas used as a raw material for its chemical properties in creating an end product. Boiler Fuel Gas: Gas used for boiler fuel to generate steam or hot water regardless of the end use to which the steam or hot water is put. Average Day Usage: The demand of a given Customer for gas in any one month divided by 30. Demand is considered to be equivalent to consumption during each billing month, provided however, that when service has been curtailed, demand shall be considered to be actual consumption plus estimated curtailment during the period. System: Any group of interconnected pipelines or mains owned or operated by the Company and so situated that they will be unaffected by changes in operating of any other such group of facilities. Restricted Service Area: Any service area in which additions of Consumers and/or increases in existing usage is restricted by order of the Regulatory Authority.

TEXAS GAS SERVICE COMPANY Section 2 Texas Tariff - Possum Kingdom SECTION RESERVED FOR MAP OF SERVICE AREA TEXAS GAS SERVICE COMPANY Section 3 Texas Tariff - Possum Kingdom Note: Section 3 was originally reserved for filing of the Service Rate Schedules that are now filed separately. This page is inserted in the place of Rate Schedule No. 1A, Adjustments to Basic Rate. The adjustments, which are applied to the price for each Ccf delivered to Customers serviced in the Possum Kingdom Service Area under Rate Schedules 10, 20, 30, and 40 are filed monthly with the Railroad Commission of Texas. TEXAS GAS SERVICE COMPANY Section 4 Texas Tariff - Possum Kingdom CONDITION OF SERVICE 4.1 PROVISION OF SERVICE The Company will provide gas service to any person or organization located within the unincorporated area of Palo Pinto County, Texas around Possum Kingdom Lake from its facilities or in certain cases, the facilities of its supplier, in accordance with the provisions of this Tariff including Rate Schedules and Rules of Service. Service provided directly from the facilities of others may be provided only with the approval of the owning company and shall thereafter be continued only as long as gas of satisfactory quality and quantity is available at the location.

4.2 FEES AND CHARGES All fees and charges made by the Company for utility service - gas delivered and that work necessary to maintain service, shall be those provided for in this Tariff.

4.3 RESALE OF GAS Gas delivered by the Company shall not be redelivered or resold for the use thereof by others unless otherwise expressly agreed to in writing by the Company - except, however, that those Customers purchasing gas for redistribution to the Customer's tenants may separately meter each tenant distribution point for the purpose of prorating the Customer's actual purchase price of gas delivered among the various tenants on a per unit basis. Any other allocation will constitute resale and is prohibited.

4.4 TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without the express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice.

4.5 CONTINUITY OF SERVICE a) Service interruptions. i) The Company shall make all reasonable efforts to prevent interruptions of service. When interruptions occur, the Company shall reestablish service within the shortest possible time consistent with prudent operating principles so that the smallest number of Customers are affected. ii) The company shall make reasonable provisions to meet emergencies resulting from failure of service, and the Company shall issue instructions to its employees covering procedures to be followed in the event of an emergency in order to prevent or mitigate interruption or impairment of service. iii) In the event of national emergency or local disaster resulting in disruption of normal service, the Company may, in the public interest, interrupt service to other Customers to provide necessary

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

service to civil defense or other emergency service agencies on a temporary basis until normal service to these agencies can be restored. b) Record of interruption. Except for momentary interruptions which do not cause a major disruption of service, the Company shall keep a complete record of all interruptions, both emergency and scheduled. This record shall show the cause of interruptions, date, time duration, location, approximate number of Customers affected, and, in cases of emergency interruptions, the remedy and steps taken to prevent recurrence. c) Report to The Commission. The Commission shall be notified in writing within 48 hours of interruptions in service affecting the entire system or any major division thereof lasting more than four hours. The notice shall also state the cause of such interruptions. If any service interruption is reported to the Commission otherwise (for example, as a curtailment report or safety report), such other report is sufficient to comply with the terms of this paragraph. d) The procedure under which curtailments of service will be made is described in Section 14 of this Tariff. e) The Company does not guarantee uninterrupted service to any Customer and shall not be liable for damages resulting from loss of service.

4.6 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in the Company's Mineral Well's Office and its Division Office in Austin. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it and notice to this effect shall be posted in the office. Upon the request of any Customer or Applicant, the Company shall make copies of the Tariff which may be purchased by the Customer or Applicant at the Company's Mineral Well's Office. The Company may charge for each copy a fee which is not in excess of the Company's reasonable cost in reproducing the material.

4.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. Upon any Customer's request, the Company shall inform the Customer how to read the Company's meter. The Company shall annually provide each Customer with notice of the availability of a concise description in English and Spanish of the Customer's rights and the Company's obligations under this Tariff. The Company's new Customers shall be provided with a description at the time service is initiated.

4.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Complaints which require no further action by the Company need not be recorded. Each complainant shall be advised of his or her right to file the complaint with the Regulatory Authority if not satisfied by the Company. Upon receipt of a complaint, either by letter or by telephone, from the Regulatory Authority on behalf of a Customer, the Company will make a suitable investigation and advise the Regulatory Authority and complainant of the results thereof. An initial response must be made by the next working day. The Company must make a final and complete response within 15 days from the date of the complaint, unless additional time is granted within the 15 day period.

TEXAS GAS SERVICE COMPANY Section 5 Texas Tariff - Possum Kingdom INITIATION OF SERVICES

5.1 REGULAR SERVICE Application for service shall be made at either the local office or by telephone. Each Applicant must comply with the appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for residential service under the standard provisions of this Tariff; commencement of service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply. Each Applicant may be required to produce an identification card bearing a photograph of Applicant.

5.2 SPECIAL CONTRACTS Under certain

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 21336
-----------------	----------------------

special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply.

5.3 FEES AND CHARGES
The company shall charge a non-refundable fee to each Applicant to compensate for cost involved in connection of service as specified in Section 22.1 of this Tariff.

5.4 ESTABLISHMENT OF CREDIT
Each Applicant for service shall be required to make a Security Deposit in accordance with Section 10 of this Tariff to establish a satisfactory credit standing. These Deposits shall be computed in the same manner for the same class of service, providing however, that a Deposit may be waived if a) The Applicant has been a Customer for the same kind of service within the last two years and did not have more than one occasion in which a bill for service from any such utility service account was paid after becoming delinquent during the last 12 month period of service and no disconnection for non-payment was made; (applicable to residential Customers only); b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills; c) The Applicant demonstrates a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification (applicable to residential Customers only); d) The Applicant is 65 years of age or older provided they have no outstanding balance for natural gas utility service which accrued within the last two years (applicable to residential Customers only); e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or f) The application is made for or guaranteed by an agency of the Federal, State or local government.

5.5 GROUNDS FOR REFUSAL TO SERVE
The Company may refuse service to any Applicant for any of the following reasons; a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff; b) Failure of the Applicant to furnish any service or meter location specified for service under this Tariff; c) Existence of an unsafe condition such as a leak in the Applicant's piping system which, in Company's opinion, may endanger life or property; d) The Applicant is indebted to the Company for the same class of utility service at the same or another service location within the Company's system; e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for the refusal to serve.

5.6 REASONABLE TIME
The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending on approvals and permits required, the extent of the facilities to be built, and on the Company's workload at the time.

TEXAS GAS SERVICE COMPANY Section 6 Texas Tariff - Possum Kingdom

METERING AND DELIVERY OF GAS

6.1 METER LOCATION
Each Applicant shall furnish and subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and not be subject to damage. Meters shall not be located within any enclosed structure not solely intended as a meter house.

6.2 POINT OF DELIVERY
The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter, provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery.

6.3 MULTIPLE METERS
Each Customer or group of Customers located on the same lot or tract of land shall normally be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately, provided that any

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

combined billings in effect at the time of adoption of this Tariff may be continued until the affected Customer discontinues service or upon order by the Regulatory Authority.6.4 CONNECTION TO COMPANY FACILITIESNo Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection. TEXAS GAS SERVICE COMPANY Section 7 Texas Tariff - Possum Kingdom INSTALLATION OF EQUIPMENT7.1 FURNISHED BY THE COMPANYThe Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, the Company shall determine the estimated cost of that portion of the service between the property line and the meter set. This estimate shall be based on the size and footage to be installed. This amount shall then be contributed by the Applicant before construction. The entire service shall become the property of the Company and shall be operated and maintained by it.7.2 FURNISHED BY THE APPLICANTThe Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company as described in Paragraph 7.1 above. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility for the facilities installed by him or her.7.3 CODES AND ORDINANCESAll piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances and shall be properly designed for the pressures and volumes to be handled. In those locations where there are no appropriate ordinances the applicable provisions of the National Fuel Gas Code, Z223.1 or amendments thereto shall apply. 7.4 CHECKS AND TESTSThe Company shall have the right to check new installations prior to institution of service and to make any test of the Applicant's facilities it deems necessary.7.5 REFUSAL TO SERVEThe Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company.

PoK2 b TEXAS GAS SERVICE COMPANY Section 8 Texas Tariff - Possum Kingdom EXTENSION OF FACILITIES8.1 EXTENSION OF MAINSThe Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation.8.2 DESIGN AND COST OF FACILITIESAs soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.8.3 ALLOWANCE FOR NEW BUSINESSThe Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 150 feet of distribution main shall be given for each potential Customer whose premises exist at the time of application to be served from the proposed main extension. In order to qualify for this allowance, the Customer must file an application and agree to initiate gas service upon completion of the Company's facilities.8.4 ADVANCESThe difference between the total cost of facilities as determined in Paragraph 8.2 above and the initial allowance, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less.8.5 CONSTRUCTION OF FACILITIESAs soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of documents). 8.6 REVIEW OF ADVANCESThe Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Paragraph 8.3 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service.8.7 REFUND LIMITATIONSThe Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.8.8 DELIVERY OF REFUNDSWhen a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 21336

and remain unclaimed in the Company's possession for a period of six months following expiration of the five year period of the extension agreement shall be retained by the Company and considered a contribution in aid of construction. TEXAS GAS SERVICE COMPANY Section 9 Texas Tariff - Possum Kingdom CUSTOMER OWNED SYSTEMS9.1 INDIVIDUALLY METERED SYSTEMSThe Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers.9.2 MASTER METERSThe Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis; provided, however, that those Customers purchasing gas for redistribution to the Customer's own tenants only on the Consumer's premises may, separately meter each tenant distribution point for the purpose of prorating the Customer's actual purchase price of gas delivered among the various tenants on a per unit basis. TEXAS GAS SERVICE COMPANY Section 10 Texas Tariff - Possum Kingdom SECURITY DEPOSITS10.1 REQUIREMENTSThe Company shall require a security deposit from any present or prospective Customer in accordance with Paragraph 5.4 and 19.1 of this Tariff to guarantee payment of bills, and from any present Customer who during the last 12 consecutive months had on one or more occasion paid their utility bill after becoming delinquent. The amount of the deposit shall be as specified in Section 22.2. Residential deposits shall be retained by the Company until the Customer has paid bills for service for 12 consecutive bills without having service disconnected for non-payment of bill and without having more than two occasions in which a bill was delinquent and when the Customer is not delinquent in the payment of the current bills.10.2 RECEIPTSThe Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of receipt.10.3 INTERESTThe Company shall pay interest on all security deposits for the time held at the rate as set by the Public Utility Commission of Texas annually except when - a) the deposit is held 30 days or less;b) notice is sent to the Customer's last known address that the deposit is no longer required;c) the service to which the deposit relates has been discontinued; ord) all or any part of the deposit has been applied to a delinquent account. 10.3 INTEREST (Continued)Interest on deposits earned during the preceding year shall be paid during the first quarter of each calendar year. Payment shall be made either by check or as a credit on the monthly bill at the Company's option.10.4 RETURN OF DEPOSITSDeposits returned to the Customer in accordance with Paragraph 10.1 above shall be credited to the Customer's account once the good payment record is established. Whenever the deposit of any Customer is credited, the Company shall credit all previously unpaid interest. TEXAS GAS SERVICE COMPANY Section 11 Texas Tariff - Possum Kingdom GAS MEASUREMENT11.1 PRESSUREThe standard serving and measurement pressure shall be 4 ounces (0.25 psig) or 7 Water Column above the standard atmospheric pressure in the area served. Standard serving pressure and the atmospheric pressure determined to be the average in the Possum Kingdom Service Area, which applies to the environs of Possum Kingdom, are 14.65 psia and 14.40 psia, respectively. The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under a load condition of approximately 10 percent of meter capacity. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted.11.2 UNIT OF MEASUREMENTThe standard unit of measurement shall be one hundred cubic feet (Ccf). A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at 14.65 psia and at a temperature of 60 degrees Fahrenheit. Whenever the Company delivers gas at any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS	RRC TARIFF NO: 21336
-----------------	----------------------

provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation.11.3 BILLING UNITUnless otherwise specified on the rate schedules or by special agreement, Customers shall be billed on the basis of Ccf measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. Whenever the meter reads directly in hundreds or smaller units, a reading of one-half a billing unit or more (500 Cf or more) shall be considered a whole billing unit. Readings of less than one-half a unit shall be disregarded for billing. In those cases in which heating value is used as the billing unit, the calculation of the heating value in BTU's shall be made in accordance with Paragraph 11.7 of this Tariff. 11.4 PRESSURE CORRECTION - STANDARD METERINGWhenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods:a) The Company may install pressure or pressure and temperature compensating measurement whenever the cost of this equipment is justified by the volumes served. Such measurements shall be equipped with devices which mechanically or electronically correct the actual measured volumes in accordance with Boyles law. Variations in actual atmospheric pressure shall not be considered.b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 11.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units.11.5 METERING - SPECIAL POSITIVE DISPLACEMENTWhenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing unit or may be furnished with devices designed to correct the actual volumes to the standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correcting devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculations based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections.b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specific gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity.11.6 METERING - SPECIAL ORIFICEWhenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering:a) Correction for

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 21336
-----------------	----------------------

deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter charge period while the gas is flowing shall be used in the computations of volumes during the period.c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure.d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance, impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.11.7 BTU MEASUREMENTThe heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.65 psia and temperature of 60 degrees F on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period, expressed in the same units and measured at, or corrected to, 14.65 psia and 60 degrees F, and multiplying by the factor necessary to convert the heating value/measurement units to the billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods:a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type.b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type.i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents.11.8 CUSTOMER OWNED METERSAny Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for billing purposes. TEXAS GAS SERVICE COMPANY Section 12 Texas Tariff - Possum Kingdom

METER READING AND ACCURACY12.1 METER READINGMeters shall be read as nearly as may be practical on the same day of each calendar month. Whenever a reading of a general service meter is missed or the meter is not registering, the Company shall estimate the amount of gas used during the period. Such estimates shall be based on either - a) that Customer's use of gas during the same period(s) in previous years;b) that Customer's normal use of gas during preceding months;c) the use of a like Customer for the period missed.If practical, an actual reading shall be made after two consecutive estimated bills. All meters in Special Service shall be read at least once a month. Whenever such a meter fails to register or is misread, the amount of gas used during the preceding period shall be estimated using data applicable to that Special Service Customer only. 12.2 ACCESS TO THE METERThe Customer shall permit the Company access to the meter at all times for reading thereof and at all reasonable times for maintenance, testing or replacement of the meter.12.3 METER ACCURACYThe limits of accuracy of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set. 12.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Requests for such test shall be made in writing and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

present at the test of his or her meter. If the test is to be performed after the standard period of presumed accuracy for the meter type or if the test is to be performed for a residential or small commercial Customer for whom no such test has been performed within the previous four (4) years for the same Customer at the same location, no service charge will be assessed. If such a test has been performed for the same Customer at the same location within the previous four years, the utility is entitled to charge a fee for the test not to exceed \$15. If the test proves the meter is registering above the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter.12.5 BILLING ADJUSTMENTS - GENERAL SERVICE Whenever it has been determined that a meter reading and the subsequent billing has been in error, the Company shall recalculate the affected bill(s). If the date and amount of the error can be definitely fixed, the Company shall refund or may bill the affected Customer for the entire difference between the actual bills rendered and the amount which should have been billed. If the date and/or the amount of the error cannot be definitely fixed (such as a meter found to be registering fast or slow), the Company shall refund or bill an amount equal to the difference between the actual bills rendered and the amount which would have been billed if the meter was 100 percent accurate for one-half of the time since the last previous test or six months, at the Company's option. Rebilling for meters found not to register are limited to a three-month period previous to the time the meter is found not to be registering. Undercharges billed to the Customer may be repaid in a series of equal installments over a reasonable period of time. Meter errors found after a final bill has been rendered to any Customer shall not be refunded or collected. This Paragraph shall not apply to meter errors found as a result of routine testing in the Company's meter shop.12.6 PROVISIONS FOR SPECIAL SERVICE Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill either up or down shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate: i) by using registration of Customer's check meter(s); ii) by correcting the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or iii) by estimating the quantity of gas delivered by comparison with deliveries during preceding period under similar conditions when accurate registration was obtained.

PoK2 c TEXAS GAS SERVICE COMPANY Section 13 Texas Tariff - Possum Kingdom BILLING AND PAYMENT OF BILLS13.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full within 10 days after the date the bill is rendered. Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of authorized pay stations. If not paid by the date due, the bill shall be considered delinquent.13.2 PARTIAL BILLING Whenever service is rendered for less than fifteen days during any monthly billing period, the Customer shall be billed for his actual consumption or the regular minimum charge in the applicable rate schedule, whichever is the larger amount. 13.3 ESTIMATED BILLS In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption determined in accordance with Paragraph 12.1 of this Tariff. The next bill based on an actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for his actual consumption.13.4 DISPUTED BILLSa) In the event of a dispute between the Customer and the utility regarding the bill, the Company must forthwith make such investigation as is required by the particular case and report the results thereof to the Customer. If the Customer wishes to obtain the benefits of clause b) of this subparagraph,

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

notification of the dispute must be given to the utility prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the Company shall inform the Customer of the complaint procedures of the appropriate Regulatory Authority. b) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: resolution of the dispute or the expiration of the 60-day period beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period during the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar customers and under similar conditions. TEXAS GAS SERVICE COMPANY Section 14 Texas Tariff - Possum Kingdom CURTAILMENTS14.1 CURTAILMENTSwhenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.14.2 PRIORITY CLASSESAll Customers served by the Company shall be classified into one of the following priority groups: Priority 1 - All Domestic service. Priority 2 - All small Commercial and Industrial service (less than 50 Mcf on an average day). Priority 3 - All other Commercial service. Priority 4 - Industrial service, other than boiler fuel, for usage through one meter of more than 50 Mcf but less than 200 Mcf on an average day. Priority 5 - Industrial service, other than boiler fuel, for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 6 - Industrial service, other than boiler fuel, for usage through one meter of more than 1500 Mcf on an average day. Priority 7 - Industrial boiler fuel for usage through one meter of less than 200 Mcf on an average day. Priority 8 - Industrial boiler fuel for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 9 - Industrial boiler fuel for usage through one meter of more than 1500 Mcf on an average day. For the purpose of this classification, each separately billed meter shall be considered a separate Customer. When service which may fall into more than one priority group is rendered through a single meter, the entire service shall be placed in the lowest (highest numbered) applicable priority group.14.3 METHOD OF CURTAILMENTCurtailment shall be ordered ratably insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities 1 and 2. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority or subgroup.14.4 CLASS AND GROUP CURTAILMENTSNo curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher numbered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service. 14.5 NOTIFICATION AND PENALTIESThe Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any Customer (other than a Customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.14.6 SUSPENSION OF THIS SECTIONThis curtailment procedure may be suspended by the Company during any emergency when life or property is endangered. See Section 4.5. TEXAS GAS SERVICE

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21336

COMPANY Section 15 Texas Tariff - Possum Kingdom QUALITY OF GAS15.1 HEATING VALUE Gas delivered to Consumers in all service areas shall have a gross heating value of at least 900 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.65 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered.15.2 CHARACTER OF GAS All gas furnished to Consumers in the environs of Possum Kingdom shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered.15.3 ODORIZATIION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable. Gas containing enough natural odorant as prescribed by state regulatory agency need not be odorized unless the odorant level drops below the acceptable level. TEXAS GAS SERVICE COMPANY Section 16 Texas Tariff - Possum Kingdom SERVICE WORK16.1 FREE SERVICE When requested by the Consumer, the Company shall perform the following service work on the Consumer's premises and appliances on a no-charge basis:a) gas-air adjustments on standard domestic and commercial gas burning appliances when service is initiated; and b) Leakage and pressure investigations to assure that unsafe conditions do not exist. Where leakage is determined by the Company to be in the Consumer's piping or equipment, the Consumer will be so advised and service will be discontinued as required. Any other work performed on any Consumer's appliances or house piping will be on a charge basis.16.2 OTHER SERVICE The Company may have personnel available for and may undertake other service work on the Consumer's premises on a charge basis, as time permits. Charges shall be made at the Company's standard rate in the Service Area and such work and the associated revenues and costs shall be considered non-utility. TEXAS GAS SERVICE COMPANY Section 17 Texas Tariff - Possum Kingdom MAINTENANCE OF EQUIPMENT17.1 MAINTENANCE BY COMPANY The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter on the Customer's premises at any reasonable time or in the event of an emergency at any time to read the meter or make any necessary inspection, repair, adjustment, or replacement of any property owned by the Company.17.2 MAINTENANCE BY THE CUSTOMER The Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Consumer, the Customer will reimburse the Company for all costs of repairing or replacing the damaged property.17.3 LEAKS - RIGHT TO DISCONNECT FOR The Consumer shall give the Company notice of any escaping gas as soon as it is detected by him. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If the Company's test indicates leakage in the Consumer's facilities, the Company shall have the right to disconnect service immediately until the Consumer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by Company forces. The Company shall have the right to disconnect service immediately if any of the Consumer's appliances or equipment is, in Company's opinion, operating in an unsafe condition. 17.4 YARD LINES PRESENTLY OWNED BY THE CUSTOMER Any facilities upstream of the meter installed by the Customer prior to the effective date of this Tariff shall remain the property and responsibility of the Customer. Whenever the condition of the facility is such that replacement is required, the work shall be

done by the Company under the same terms and conditions as for a new service as described in Paragraph 7.1 of this Tariff. The Customer shall reimburse the Company in advance for the estimated cost of the new facility at the prices filed with the Regulatory Authority. Thereafter, it shall become the property and responsibility of the Company.17.5 RESPONSIBILITY

Nothing in this Section shall make the Company responsible for the safe upkeep of Consumer-owned facilities. TEXAS GAS SERVICE COMPANY Section 18 Texas Tariff - Possum Kingdom DISCONTINUANCE OF SERVICE18.1 BY CUSTOMER A Customer shall be responsible for all charges for gas service from the time he gives notice of the intention to discontinue service until the Company has read the meter or for three working days whichever is the shorter period of time.18.2 FOR NON-PAYMENT The Company shall have the right to discontinue service to any Customer for non-payment of bills or other charges authorized by this Tariff or the applicable rate schedules, following the due date specified in Section 13.1 hereof. Before discontinuing service for non-payment, the Company shall mail a separate written notice to the Customer with the words TERMINATION NOTICE or similar language prominently displayed. This notice shall include the hours, address, and telephone numbers where payments may be made; the amount of the delinquent bill and the date by which the bill must be paid to avoid disconnection, and a statement of how to contact the Company in case of illness or other emergencies. No Customer shall be disconnected for non-payment:a) Within a period of five working days after mailing of the notice or the day following the date indicated in the notice, whichever is the longer time;b) If the interest on his Security deposit, if any, is sufficient to cover the amount of the delinquent bill;c) After payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel of the payment; d) Before 8:00 AM or after 5:00 PM on any day or on Friday, Saturday, Sunday, Holiday, or day before a holiday unless Company personnel are available on that day for the purpose of making collections or reconnecting service;e) If within five working days after the date of delinquency of the bill the Company receives a written request from the Customer not to discontinue service for health reasons and the request is accompanied by a written statement from a licensed physician. Upon receipt of such request, the Company will suspend termination of service for a period of up to twenty days. The Customer shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings.18.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any Consumer for any of the following reasons:a) Without notice for the presence of what the Company considers to be an unsafe condition on the Consumer's premises or if an emergency exists.b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with his knowledge.c) Within five working days after written notice if the Consumer uses his equipment in any way which causes or creates a potential for adverse effect on the Company's service to others.d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class 1 or 2.e) Five working days after written notice for refusal to grant Company's personnel access to the Consumer's premises at any reasonable time for any lawful purpose. f) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of this Tariff or violation of any applicable laws, orders or ordinances, provided that disconnection may be made without notice if the violation creates an unsafe condition.18.4 RIGHT OF ENTRY The Company shall have the right to enter upon the Consumer's premises at any reasonable time to shut off service in accordance with this Tariff and to remove its meter and other property.18.5 ABANDONMENT OF SERVICE Service shall not be abandoned (permanent disconnect of any but a temporary Customer) unless requested by the Customer(s) without permission of the Regulatory Authority. Failure of the Customer to reinstitute service after disconnection within a reasonable period of time shall be considered a request for permanent discontinuance of service.18.6 TAMPERING Applies in all cases of tampering with Company equipment or meter

GAS SERVICES DIVISION

installations. Tampering includes any unauthorized turning on or off of a meter, removal of a meter seal or locking device, adjustment of a regulator, intentional damage to equipment, or any other intentional act which affects the accuracy of gas measurement. TEXAS GAS SERVICE COMPANY Section 19 Texas Tariff - Possum Kingdom RE-ESTABLISHMENT OF SERVICE

19.1 FOR NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount of his account then due plus the prescribed connect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer re-establish satisfactory credit in accordance with Section 5 of this Tariff. The first time a Customer requests re-establishment of service after disconnection for non-payment, the Company may waive the deposit. Thereafter, it shall be required in accordance with this Section.

19.2 FOR OTHER REASONS When service has been disconnected for any other reason, the Customer shall be required to request reconnection in writing. If disconnection has been made by the Company, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a connect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment.

19.3 RECONNECTION The Company shall restore service as soon as feasible after receipt of the request and compliance with the requirements of this Section. The Company shall charge a non-refundable connection fee for all Customers in accordance with Section 22.1. The restoration of service will be accomplished as expeditiously as scheduling permits. In the event the Company is required to make more than one call because the reason for disconnection has not been properly corrected, the connect fee may be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operations. See Section 22.1 for fees.

TEXAS GAS SERVICE COMPANY Section 20 Texas Tariff - Possum Kingdom NOTICE

20.1 GENERAL Notice is required for all matters in this Tariff other than billing and payment of bills, which shall be deemed to have been given by either Company or Customer when a letter with postage prepaid has been deposited in the United States mail addressed to the Company at the office specified on the front sheet of this Tariff or to the Customer at his or her known service address or when communicated in person or by telephone directly between the Company and Customer. TEXAS GAS SERVICE COMPANY Section 21 Texas Tariff - Possum Kingdom BUDGET PAYMENT PLAN

21.1 DESCRIPTION Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner:

a) The Plan year shall be the 12 months ending each year with the Customer's July bill. The Plan monthly payment shall be determined as follows:

i) for Customers electing to commence with the August bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's plan year.

ii) for Customers electing to commence with the September or later bills, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year from commencement in the Plan until the next following July bill. Succeeding years shall be computed on an annual basis as in subparagraph (i) above.

b) The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon the most recent available prior 12-month period at the same service location; or, if there is not at least 12-months prior service at the same service location, then the charges shall be based on consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known charges.

c) The Company reserves the right to adjust the remaining monthly plan payments of any Customer at any time for changes in condition or rates.

d) The Company shall advise each

Customer in the Plan of the monthly plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of the month's plan payment. The Customer shall continue to pay the monthly plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill.e) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly plan payment.f) The July gas bill for each Customer in the Plan shall be handled as follows:i) any amount due the Company up to the monthly plan payment shall be paid in full by the due date shown on the bill.ii) if the balance due the Company exceeds the monthly plan payment, a payment equal to that amount will be paid and the excess shall be utilized in computing the next plan year's monthly plan payment.iii) any balance due the Customer shall also be utilized in computing the next year's monthly plan payments.g) Interest will not be charged the Customer on accrued debit balances nor paid by the Company on accrued credit balances.h) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan.i) Any Customer's participation in the Plan may be discontinued by the Company if the monthly plan payment has not been paid on or before the due date of the next monthly plan payment. j) If any Customer in the Plan shall cease, for any reason, to participate in the Plan, then the Company may refuse that Customer's reentry in the Plan until the next following August. business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

275146 MinWells SvcA 2b

Mineral Wells Service Area - Environs (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-ENV-NTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-ENV COST OF GAS</p> <p>CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom, and Punkin Center, Texas. B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a Reconciliation Component and related fees and taxes, and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased of a general service customer during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the

DESCRIPTION

Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. 7. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. 8. Transition from the preceding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Meters Read On and After January 27, 2014 Supersedes Rate Schedule 1-ENV dated April 30, 2009

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

RATE SCHEDULESCHEDULE IDDESCRIPTION

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the environs areas of Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Mineral Wells, Graford, Millsap, Palo Pinto, Whitt, Perrin, Weatherford, Aledo, Hudson, Hudson Oaks, Willow Park, Punkin Center and Possum Kingdom, Texas. Applicable rate schedules include 1A, 2A, 2B, 3A, 3B, 4A, and 4B.

B. PURPOSE

Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

RATE SCHEDULE

SCHEDULE ID DESCRIPTION

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

DESCRIPTION

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services

GAS SERVICES DIVISION

Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and

WNA-NTX-05

TEXAS GAS SERVICE COMPANY
North Texas Area
RATE SCHEDULE WNA-ENV

WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom and Punkin Center, Texas: 1A, 2A, 2B, 4A, and 4B. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis.

The WNA for each billing cycle and rate schedule shall be based on the following

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

formula:

WNA Rate = $\frac{WNAD}{CV}$, where

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

WNAD = (HDD Diff * CB * WF) * COS rate, where

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case as listed below.

CV = Current Volumes for the billing period.

Weather Factors from most recent rate case by class:

- Residential 0.13197
- Commercial 0.37721
- Large Commercial 10.64749
- Public Authority 1.73743
- Large Public Authority 15.61800

Applicable weather station is Abilene, Texas.

D. FILING WITH THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file with the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the RRC an annual report verifying the past year's WNA collections or refunds.

The Commission may approve the program without a hearing; set the matter for a public hearing on its own motion or on the motion of any affected customer of said utility.</p>

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

The curtailment program to be filed shall include, in verified form, the following information:

A. Volume of gas reserves attached to its system together with a brief description of each separate source of gas reserves setting forth the following:

1. the name of the supplier,
2. the term of each contract in years, and the years remaining on said contract,
3. the volume of recoverable reserve contracted for, and
4. rated deliverability of such reserves in MCF.

B. Capacity and location of underground storage, if any, attached to its system with a statement of whether the company's storage balance is above or below its desired level for this time, and, if below, what plans has the company made to restore the balance.

C. Peak day and average daily deliverability on an annual basis of its wells, gas plants and underground storage attached to its system.

D. Peak day capacity of its system.

E. Forecast of additions to reserves for each of the next two succeeding years.

F. Location and size of the line pipes, compressor stations, operating maximum line pressures, and a map showing delivery points along the system.

G. Disposition of all gas entering its system, with names of all customers other than residential customers and volumes delivered to each during the past calendar year. Identify those customers using 3,000 MCF gas per day, or more, which are under a service contract, and if such contract includes an Interruptible Service clause, and if so, attach a reproduced copy of the relevant provisions of such contract.

H. Steps taken in past years, being taken at the present, and to be taken to alleviate curtailments.

RULE 2.

Until such time as the Commission has specifically approved a utilities curtailment program, the following priorities in descending order shall be observed:

A. Deliveries for residences, hospitals, schools, churches and other human needs customers.

B. Deliveries of gas to small industrials and regular commercial loads (defined as those customers using less than 3,000 MCF per day) and delivery of gas for use as pilot lights or in accessory or auxiliary equipment essential to avoid serious damage to industrial plants.

TARIFF CODE: DS RRC TARIFF NO: 21337

C. Large users of gas for fuel or as a raw material where an alternate cannot be used and operation and plant production would be curtailed or shut down completely when gas is curtailed.

D. Large users of gas for boiler fuel or other fuel users where alternate fuels can be used. This category is not to be determined by whether or not a user has actually installed alternate fuel facilities, but whether or not an alternate fuel could be used.

E. Interruptible sales made subject to interruption or curtailment at Seller's sole discretion under contracts or tariffs which provide in effect for the sale of such gas as Seller may be agreeable to selling and Buyer may be agreeable to buying from time to time.

RULE 3.

Each gas utility that has obtained Commission approval of a curtailment program shall conduct operations in compliance with such program. So long as any gas utility which has obtained Commission approval of a curtailment program continues to curtail deliveries to its customers, except as provided by contract or those customers included in Part E of Rule 2 above, it

(a) shall file on or before April 1 of each year, under oath, the information called for in Rule 1, for the preceeding year, and

(b) shall not, without Commission approval, make sales of gas to any new customers or increase volumes sold to existing customers, except those new or existing customers defined in Parts A & B of Rule 2 above.

IT IS FURTHER ORDERED that this cause be held open for such other and further orders as may be deemed necessary.

ENTERED AT AUSTIN, TEXAS, this 5th day of January, 1973.

LINE EXTENSION POLICY

<u>POLICY ID</u>	<u>DESCRIPTION</u>
1129	<p>TEXAS GAS SERVICE COMPANY Texas Tariff - North Texas NORTH TEXAS REGION ENVIRONS OF THE MINERAL WELLS SERVICE AREA (From Quality of Service Rules effective 01/28/91) INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him. 4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him. 4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary. 4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company.</p> <p>EXTENSION OF FACILITIES 5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation. 5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or</p>

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer. 5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents). 5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served. 5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction. 5.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction.

The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation. 5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer. 5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way

shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents). 5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served. 5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction. 5.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction.

1124 TEXAS GAS SERVICE COMPANY Texas Tariff - North Texas NORTH TEXAS REGION ENVIRONS OF THE JACKSBORO SERVICE AREA (From Quality of Service Rules effective 11/27/00) INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him. 4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him. 4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the

1135 TEXAS GAS SERVICE COMPANY Texas Tariff - Possum Kingdom Service Area ENVIRONS OF POSSUM KINGDOM, TEXAS SERVICE AREA (From Quality of Service Rules effective 10/19/95) INSTALLATION OF EQUIPMENT 7.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, the Company shall determine the estimated cost of that portion of the service between the property line and the meter set. This estimate shall be based on the size and footage to be installed. This amount shall then be contributed by the Applicant before construction. The entire service shall become the property of the Company and shall be operated and maintained by it. 7.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company as described in Paragraph 7.1 above. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility for the facilities installed by him or her. 7.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances and shall be properly designed for the pressures and volumes to be handled. In those locations where there are no appropriate ordinances the applicable provisions of the National Fuel Gas Code, Z223.1 or amendments thereto shall apply. 7.4 CHECKS AND TESTS The Company shall have the right to check new installations prior to institution of service and to make any test of the Applicant's facilities it deems necessary. 7.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company. EXTENSION OF FACILITIES 8.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation. 8.2 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 8.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance of 150 feet of distribution main shall be given for each potential Customer whose premises exist at the time of application to be served from the proposed main extension. In order to qualify for this allowance, the Customer must file an application and agree to initiate gas service upon completion of the Company's facilities.

8.4 ADVANCES The difference between the total cost of facilities as determined in Paragraph 8.2 above and the initial allowance, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less. [Note per Deposits Section 22.2 (A): Advances - Estimated expenditure to serve the premises of new business beyond the existing distribution facilities of the Company]

8.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

8.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Paragraph 8.3 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service.

8.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

Service provided directly from the facilities of others may be provided only with the approval of the owning company and shall thereafter be continued only as long as gas of satisfactory quality is available at the location. 1.2 FEES AND CHARGES All fees and charges made by the Company for provision of utility service and that work necessary to maintain service, shall be provided for in this Tariff. All other fees and charges for service work done on Consumer's premises shall be done in accordance with the schedule of fees and charges on file and approved by the appropriate regulatory authority where required. 1.3 RESALE OF GAS No gas supplied by the Company shall be resold by any Customer unless expressly authorized by the Company in writing and approved by the Regulatory Authority. Gas delivered through a master meter and delivered to one or more consumers shall not be considered to be resold as long as it is not metered and billed on separate commodity or cost of service basis. 1.4 TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice. 1.5 CONTINUITY OF SERVICE The Company shall use reasonable diligence in providing continuous service to all of its Consumers except for those interruptions of service permitted under rate schedules providing for them. Under certain circumstances it may be necessary to curtail Consumers of any class. The procedure under which interruptions and curtailments of service will be made is described in Section 11 of this Tariff. The Company does not guarantee uninterrupted service to any consumer and shall not be liable for damages resulting from loss of service. 1.6 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in each of the Company's Service Area offices and at its Corporate Office in Austin, Texas. A copy of the locally applicable Tariff shall be kept in each of the Company's offices. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it during reasonable office hours. 1.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. The Company shall provide each new Customer, when service is initiated, information as follows: a) Upon request, instructions as to the method of reading meters. b) At the time service is initiated or as an insert in the first billing, a pamphlet or packet containing the following information. This information shall be provided in English and Spanish as necessary to adequately inform Customers. i) The Customers' right to information concerning rates and services and the</p>

Customer's right to inspect or obtain at reproduction cost a copy of the applicable tariffs and service rules; ii) The Customer's right to have his or her meter checked without charge under Section 9.4 (Meter Testing-Customer Requests) of these Rules of Service, if applicable; iii) The time allowed to pay outstanding bills; iv) Grounds for termination of service; v) The steps the Company must take before terminating service; vi) How the Customer can resolve billing disputes with the Company and how disputes and health emergencies may affect termination of service; vii) Information on alternative payment plans offered by the Company; viii) The steps necessary to have service reconnected after involuntary termination; ix) The appropriate regulatory authority with whom to register a complaint and how to contact such authority; x) The hours, addresses, and telephone numbers of utility offices where bills may be paid and information may be obtained; and xi) The Customer's right to be instructed by the Company how to read his or her meter. c) At least once each calendar year, notify Customers that information is available upon request, at no charge to the Customer, concerning the items listed in Subsection b. This notice may be accomplished by using the billing insert or a printed statement upon the bill itself. 1.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Upon receipt of a complaint from the regulatory authority on behalf of a Customer, the Company shall investigate and advise the regulatory authority and complainant of the results of the investigation. An initial response will be made the next working day with a final response completed within 15 days from the date of the complaint, unless additional time is granted within the 15 day period. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 2 SERVICE AREA North Texas SECTION 2 INITIATION OF SERVICE 2.1 REGULAR SERVICE Application for service shall be made to the Company's office nearest to the premises to be served. Each Applicant must comply with appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for service under the standard provisions of this Tariff. Commencement of the service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply. 2.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply. 2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff. The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS	RRC TARIFF NO: 21337
-----------------	----------------------

on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

2.4 ESTABLISHMENT OF SERVICE Each Applicant for residential service may be required to make a Security Deposit to establish a satisfactory credit standing. These deposits shall be computed in the same manner for the same class providing however, that a Deposit may be waived if

- a) The Applicant has been a Customer of any utility for the same kind of service within the last two years and is not delinquent in payment of any such utility service account and during the last 12 consecutive months of service did not have more than one occasion in which a bill for such utility service was paid after becoming delinquent and never had service disconnected for nonpayment;
- b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills for the service required;
- c) The Applicant furnishes in writing a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification, or ownership of substantial equity;
- d) The Applicant is 65 years of age or older provided they have no outstanding balance for utility service over two years old (applicable to residential Customers only);
- e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or
- f) The application is made for or guaranteed by an agency of the federal, state or local government.

2.5 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons:

- a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff;
- b) Failure of the Applicant to furnish any service or meter location specified by the Company as a condition for obtaining service;
- c) Existence of a potentially hazardous condition such as a leak in the Applicant's piping system which, in the Company's opinion, may endanger life or property;
- d) Failure to pay for gas service at the same or another service location within the Company's system; provided the amount billed is not then in dispute; or
- e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for refusal to serve.

2.6 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending upon approvals and permits required, the extent of the facilities to be built, and the Company's work load at the time.

2.7 INSUFFICIENT GROUNDS FOR REFUSAL TO SERVE The Company may not refuse service to any Applicant for any of the following reasons -

- a) Failure to pay any bill of another Customer, except as provided above;
- b) Failure to pay for merchandise or other charges for non-utility service purchased from or through the Company.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 3 SERVICE AREA North Texas SECTION 3 METERING AND DELIVERY OF GAS

3.1 METER LOCATIONS Each Applicant shall furnish and subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and protected from damage. Meters shall not be located within any enclosed structure not solely intended as a meter house.

3.2 POINT OF DELIVERY The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery.

3.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land shall be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

is permitted for the same Customer, the Company shall bill the usage through each meter separately. 3.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 4 SERVICE AREA North Texas SECTION 4 INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him.

4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him. 4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary. 4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 5 SERVICE AREA North Texas SECTION 5 EXTENSION OF FACILITIES 5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation. 5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer.

5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension.

5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents).

5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served.

5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction.

5.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 6 SERVICE AREA North Texas SECTION 6 CUSTOMER OWNED SYSTEMS

6.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers.

6.2 MASTER METERS The Company shall provide service through a master meter into the piping system of others to be distributed to

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 7 SERVICE AREA North Texas SECTION 7 SECURITY DEPOSITS 7.1 REQUIREMENTS The Company may require a security deposit from any present or prospective Customer in accordance with Section 2 of these rules. The amount of the deposit for residential service shall not exceed 1/6 of the estimated annual billing except that when the actual usage exceeds twice the amount estimated, the amount of the required deposit may be increased proportionately. 7.2 RECEIPTS The Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of the receipt. 7.3 INTEREST The Company shall pay interest on all security deposits for the time held at the then lawfully established rate per annum except when - a) the deposit is held less than 30 days; b) notice is sent to the Customer's last known address that the deposit is no longer required; c) the service to which a deposit relates has been discontinued; or d) all or any part of the deposit has been applied to a Customer's account. Interest on deposits earned during the preceding year shall be paid annually either by check or as a credit on the monthly bill at the Company's option. Whenever the deposit of any Customer is returned, the Company shall pay all previously unpaid interest. 7.4 REFUND OF DEPOSITS Except where locally established regulations provide otherwise, deposits for residential service will be promptly refunded with accrued interest when: a) service is not connected or, after disconnection of service, the balance, if any, is in excess of the unpaid bills for service furnished. b) the Customer has paid bills for residential service for 12 consecutive months without having service disconnected and without having more than two occasions when a bill was delinquent and when the Customer is not delinquent in the payment of current bills. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 8 SERVICE AREA North Texas SECTION 8 GAS MEASUREMENT 8.1 PRESSURE The standard serving and measurement pressure shall be determined by the assumed average atmospheric pressure in the service area as follows: Standard Serving Atmospheric District or Service Area Pressure, PSIA Pressure, PSIA Mineral Wells Region 14.65 14.40 Weatherford Region 14.65 14.40 Jacksboro Region 14.65 14.40 Breckenridge Region 14.65 14.15 Graham Region 14.65 14.15 The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under normal load conditions. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted. 8.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one thousand cubic feet. A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at the pressure of gas in the meter and a temperature of 60 degrees Fahrenheit. Whenever the Company delivers any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation. 8.3 BILLING UNIT Unless otherwise specified on the rate schedule or by special agreement, Customers shall be billed on the basis of CCF measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. 8.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure compensating meters whenever the cost of this equipment is justified by the volumes

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

served. Such meters shall be equipped with devices which mechanically correct the actual measured volumes in accordance with Boyles Law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 8.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units. 8.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing units or may be furnished with devices designed to correct the actual volumes to be standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correction devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculation based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specified gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 8.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter chart period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

MinW2b 8.7 BTU MEASUREMENT The heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.65 psia and temperature of 60 degrees F. on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period expressed in the same units and measured at or corrected to 14.65

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

psia and 60 degrees F., and multiplying by the factor necessary to convert the heating value/measurement units to the billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods: a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type. b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type. i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents.

8.8 CUSTOMER OWNED METERS Any Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for billing purposes. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 9 SERVICE AREA North Texas SECTION 9 METER READING AND ACCURACY 9.1 METER READING Meters shall be read as nearly as may be practical on the same day of each calendar month. 9.2 ACCESS TO THE METER The Customer shall permit the Company access to the meter at all times for readings thereof and at all reasonable times for maintenance, testing or replacement of the meter. 9.3 METER ACCURACY The nominal accuracy of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results. Industrial Customer meter tests performed under these conditions shall be charged at the following fee schedule:

METER TYPE AND CAPACITY	SERVICE CHARGE
Displacement	Positive
251 to 1500 cubic feet per hour	\$ 25.00
1501 to 3000 cubic feet per hour	50.00
3001 to 5000 cubic feet per hour	100.00
Turbine meters	200.00
Orifice	All Sizes
	\$ 100.00

If the test proves the meter is registering above or below the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter. 9.5 BILLING ADJUSTMENTS - GENERAL SERVICE If meter tests reveal more than a 2% error the previous readings will be corrected for the past six months or the time since the last test of the meter, whichever is shorter. Resulting over or underbillings will be corrected in subsequent bills. If a meter is found not to have registered for a period of time, the Company will charge for unmeasured consumption for a period of not longer than three months prior to the time the meter is found not to be registering. The amount used but not measured will be based upon consumption during a like period by the same Customer at the same location or, if this information is unavailable, on consumption under similar conditions at other locations. 9.6 PROVISIONS FOR SPECIAL SERVICE The following modifications shall apply to the provisions of this Section for all Special Service rate schedules and service under

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

special written agreements: a) Orifice meters shall be calibration tested at least four times per year at intervals not to exceed 120 days. Should the Customer so elect, tests shall be made in the presence of his representative. b) Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill either up or down shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate. i) By using registration of the Customer's check meter(s) if proved correct. ii) By correcting the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or iii) By estimating the quantity of gas delivered by comparison with deliveries during preceding period under similar conditions when accurate registration was obtained. 9.7 PERIODIC TESTS The Company shall make periodic tests of meters, associated devices and instruments to assure their accuracy. The basic periodic test interval shall not be longer than provided for in the following schedule.

Positive displacement meters:	401 to 1500 cubic feet per hour	7 years
	1501 to 3000 cubic feet per hour	5 years
	3001 to 5000 cubic feet per hour	2 years
	Over 5000 cubic feet per hour	1 year
Office meters		6 months
Turbine meters		1 year
Base pressure correction devices		2 years
Service pressure regulation devices		Quarterly

Positive displacement meters rated at 400 cubic feet per hour or less shall be replaced with new or remanufactured meters at intervals of not greater than 13 years in service. Meters removed under this program will be tested and records of the tests evaluated to determine if the accuracy of the sample group justifies adjustment of the replacement cycle. 9.8 METER TEST PROCEDURE AND ACCURACIES Meters and/or associated meter devices shall be tested at the points and adjusted to the tolerances prescribed below. The test of any unit of metering equipment shall consist of a comparison of its accuracy to a standard. Positive displacement meters: Accuracy at test points Flow Adjusted to Within Check flow 1.5% Not less than rated flow 1.5% Overall accuracy The overall accuracy at check flow and the overall accuracy at not less than full rated flow shall agree within one percent. Orifice meters: Accuracy at the test points must be within 2% plus or minus. General: i) All meters and/or associated metering devices when tested shall be adjusted as closely as possible to the condition of zero error. ii) All tolerances are to be interpreted as maximum permissible variations from the condition of zero error. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 10 SERVICE AREA North Texas SECTION 10 BILLING AND PAYMENT OF BILLS 10.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full within 15 days after the date the bill is rendered. Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of its authorized pay stations. If not paid by the date due, the bill shall be considered delinquent. 10.2 PARTIAL BILLING Whenever service is rendered for less than fifteen days during any monthly billing period, the Customer shall be billed for his actual consumption or the regular minimum charge in the applicable rate schedule, whichever is the larger amount. 10.3 ESTIMATED In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption. The next bill based on an actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for his actual consumption. 10.4 DISPUTED BILLS (i) In the event of a dispute between a Customer and the Company regarding any bill for service, the Company will make such investigation as is required by the particular case and report the results to the Customer. If the Customer wishes to obtain the benefits of subsection (ii) hereunder, notification of the dispute must be given to the Company prior to the date the bill becomes delinquent. In the event the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

dispute is not resolved, the Company shall inform the Customer of the complaint procedures of the appropriate regulatory authority. (ii) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: (1) resolution of the dispute, or (2) the expiration of the sixty day period beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period for the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar Customers and under similar conditions. 10.5 RETURNED CHECKS Whenever the payment for gas service or any other charge permitted under this Tariff is rendered by check and such check is refused by the bank on which it is drawn, the Company may make an additional charge to cover the costs of handling and rebilling. The Company must post a notice of the charge in its principal office in the service area at least ten days in advance of the institution hereof and keep such notice in place as long as the charge is in effect. Notice shall be posted adjacent to the place of acceptance of payment. 10.6 BILLING INFORMATION The Customer's bill shall show all the following information: a) The date and meter reading at the beginning and at the end of the period of which the bill is rendered; b) The number and kind of units metered; c) The applicable Rate Schedule or code; d) The monthly cost of gas adjustment, if authorized, together with the factor by which it is computed, if the total charge for gas service is billed separately from the cost of gas adjustment, if any; e) The total amount due for utility service and tax; f) The date by which the Customer must pay the bill in order to avoid penalty, delinquency, or termination proceedings; g) A distinct marking to identify an estimated bill; h) Any conversions from meter reading units to billing units, or any other calculations used to determine billing units from recording to other devices, or any other factors used in determining the bill; i) The information required in paragraph b, c, d, e, f, and h above shall be arranged to permit the Customer to compute his bill by using the applicable Rate Schedule which shall be supplied when requested by the Customer.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 11 SERVICE AREA North Texas SECTION 11 CURTAILMENTS 11.1 CURTAILMENTS Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section. 11.2 PRIORITY CLASSES All Customers served by the Company shall be classified into one of the following priority groups: Priority 1 - All Domestic service. Priority 2 - All small Commercial and Industrial service (less than 50 Mcf on an average day). Priority 3 - All other Commercial service. Priority 4 - Industrial service, other than boiler fuel, for usage through one meter of more than 50 Mcf but less than 200 Mcf on an average day. Priority 5 - Industrial service, other than boiler fuel, for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 6 - Industrial service, other than boiler fuel, for usage through one meter of more than 1500 Mcf on an average day. Priority 7 - Industrial boiler fuel for usage through one meter or less than 200 Mcf on an average day. Priority 8 - Industrial boiler fuel for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 9 - Industrial boiler fuel for usage through one meter of more than 1500 Mcf on an average day. For the purpose of this classification each separately billed meter shall be considered a separate Customer. When service which may fall into more than one priority group is rendered through a single meter, the entire service shall be placed in the lowest (highest numbered) applicable priority group.

11.3 METHOD OF CURTAILMENT Curtailment shall be ordered ratable insofar as feasible within

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 21337

each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class or other than Priorities 1 and 2. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup. 11.4 CLASS AND GROUP CURTAILMENTS No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e. higher numbered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service. 11.5 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any Customer (other than a Customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened. 11.6 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 12 SERVICE AREA North Texas SECTION 12 QUALITY OF GAS 12.1 HEATING VALUE Except as otherwise provided by local regulatory authority gas delivered to Consumers in all service areas shall have a gross heating value of at least 1,000 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered. 12.2 CHARACTER OF THE GAS All gas furnished to Consumers in Texas shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered. 12.3 ODORIZATIION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 13 SERVICE AREA North Texas SECTION 13 SERVICE WORK 13.1 FREE SERVICE When requested by the Consumer, the Company shall perform the following service work on the Consumer's premises and appliances on a no-charge basis: a) gas-air adjustments only, on standard domestic and commercial gas burning appliances when service is initiated; and b) leakage and pressure investigations to the point at which the condition is determined to exist in the Consumer's piping or equipment and service has been disconnected or the Consumer's facilities are free from leaks. No other work shall be performed on any Consumer's appliances or house piping on a no-charge basis. 13.2 OTHER SERVICE The Company may, at its option, undertake other service work for which it has trained personnel available on a charge basis. Charges shall be made at the Company's standard rate for the service area and such work and associated revenues and costs shall be considered non-utility. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 14 SERVICE AREA North Texas SECTION 14 MAINTENANCE OF EQUIPMENT 14.1 MAINTENANCE BY COMPANY The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter on the Customer's premises at any reasonable time or in the event of an emergency at any time, to read the meter or make any necessary inspection, repair, adjustment or replacement of any property owned by the Company. 14.2 MAINTENANCE BY THE CUSTOMER The Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the

-----------------	----------------------

gas after it passes the point of delivery. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Customer, he shall reimburse the Company for all costs of repairing or replacing the damaged property. 14.3 LEAKS - RIGHT TO DISCONNECT FOR The Customer shall give the Company notice of any escaping gas as soon as it is detected by him. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If any leakage is found to be from the Customer's facilities, the Company shall have the right to disconnect service immediately until the Customer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by Company forces. The Company shall have the right to disconnect service immediately if any of the Customer's appliances or equipment is, in Company's opinion, operating in an unsafe condition. 14.4 PRESENT CUSTOMER OWNED YARDLINES Any facilities upstream of the meter installed by the Customer prior to the effective date of this Tariff shall remain the property and responsibility of the Customer, providing whenever the condition of the facility is such that replacement is required, the work shall be done by the Company under the same terms and conditions as for a new service as described in Paragraph 4.1 of this Tariff. The Customer shall reimburse the Company in advance for the estimated cost of the new facility at the prices filed with the regulatory authority. Thereafter it shall become the property and responsibility of the Company. 14.5 RESPONSIBILITY Nothing in this Section shall make the Company responsible for the safe upkeep of Customer owned facilities. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 15 SERVICE AREA North Texas SECTION 15 DISCONTINUANCE OF SERVICE 15.1 BY CUSTOMER A Customer shall be responsible for all charges for gas service from the time he gives notice of the intention to discontinue service until the Company has read the meter or for three working days whichever is the shorter period of time. 15.2 FOR NON-PAYMENT A Customer's utility service may be disconnected if the bill has not been paid or a deferred payment plan has not been entered into within five working days after the bill has become delinquent and proper notice has been given. Proper notice consists of a deposit in the United States Mail, postage prepaid, or hand delivery to the Customer at least five working days prior to the stated date of disconnection, with the words Termination Notice or similar language prominently displayed on the notice. The notice shall be provided in English and Spanish as necessary to adequately inform the Customer, and shall include the date of termination, the hours, address, and telephone number where payment may be made, and a statement that if a health or other emergency exists, the Company may be contacted concerning the nature of the emergency and the relief available, if any, to meet such emergency. The Company will not discontinue service to a delinquent residential Customer permanently residing in an individually metered dwelling unit when that Customer establishes that the discontinuance of service will result in some person residing at that residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this section must make a written request supported by a written statement from a licensed physician. Both the request and the statement must be received by the Company not more than five working days after the date of the delinquency of the bill. The prohibition against service termination provided by this section shall last twenty days from the date of receipt by the Company of the request and statement of such lesser period as may be agreed upon by the Company and the Customer. The Customer who makes such request shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings. No Customer shall be disconnected for non-payment: a) After payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel

GAS SERVICES DIVISION

of the payment; or b) Before 8:00 AM or after 5:00 PM on any day or on Friday, Saturday, Sunday, holiday, or day before a holiday unless Company personnel are available on that day for the purpose of making collections or reconnecting service. 15.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any consumer for any of the following reasons: a) Without notice for the presence of what the Company considers to be a dangerous condition on the Consumer's premises or if any emergency exists. b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with his knowledge. c) Within five working days after written notice if the Consumer uses his equipment in any way which causes or creates a potential for adverse effect on the Company's service to others. d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class 1 or 2. e) Five working days after written notice for refusal to grant Company's personnel access to the Consumer's premises at any reasonable time for any lawful purpose. f) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of this Tariff or violation of any applicable laws, order or ordinances, provided that disconnection may be made without notice if the violation creates a dangerous condition. 15.4 RIGHT-OF-ENTRY The Company shall have the right to enter upon the Consumer's premises at any reasonable time to shut off service in accordance with this Tariff and to remove its meter and other property. 15.5 ABANDONMENT OF SERVICE Service shall not be abandoned (permanent disconnect of any but a temporary Customer), unless requested by the Customer(s), without permission of the regulatory authority. Failure of the Customer to reinstitute service after disconnection within a reasonable period of time shall be considered a request for permanent discontinuance of service. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 16 SERVICE AREA North Texas

SECTION 16 RE-ESTABLISHMENT OF SERVICE 16.1 FROM NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount of his account then due plus the prescribed reconnect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer re-establish satisfactory credit in accordance with this Tariff. The first time a Customer requests re-establishment of service after disconnection for non-payment, the Company may waive the deposit. Thereafter full compliance of this Section is required. 16.2 FROM OTHER REASONS When service has been disconnected for any other reason, the Customer shall be required to request reconnection in writing. If disconnection has been made by the Company, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a reconnect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment. 16.3 RECONNECTION The Company shall restore service as soon as feasible after receipt of the request and compliance with the requirements of this Section. The Company shall charge a non-refundable reconnect fee to all Customers. When the Customer requests reconnection at a time such that because of already scheduled work, reconnect cannot be made during working hours on the same day the request was made, the Company shall, upon the Customers' request, reconnect the service after working hours. For such after-hours reconnection the Customer shall pay an additional fee if the call can be completed in 15 minutes by a serviceman already on duty. If additional time is required on the standard rates for service work, provided however, the Consumer must be advised of the additional charge to be made before the work is done. The Company may then schedule the call at any time to fit its work schedule but the after-hours charge shall be collected as long as any other work is done on overtime. In the event the Company is required to make more than one call because the reason for disconnection has not

TARIFF CODE: DS RRC TARIFF NO: 21337

been properly corrected, the appropriate reconnect fee shall be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operations. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 17 SERVICE AREA North Texas SECTION 17 BUDGET PAYMENT PLAN 17.1 DESCRIPTION Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner: (a) The Plan year shall be the 12 months pending each year with the Customer's June bill. The Plan monthly payment shall be determined as follows: (1) for Customers electing to commence with the July bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's Plan year. (2) for Customers electing to commence with the August or later bill, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year from commencement in the Plan until the next following June bill. Succeeding years shall be computed on an annual basis as in subparagraph (1) above. (b) The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon most recent available prior 12-month period at the same service location; or, if there is not at least 12 month prior service at the same service location, then the charges shall be based upon consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known changes. (c) The Company reserves the right to adjust the remaining monthly Plan payments of any Customer at any time for changes in condition or rates. (d) The Company shall advise each Customer in the Plan of the monthly Plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of that month's Plan payment. The Customer shall continue to pay the monthly Plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. (e) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly Plan payment. (f) The June gas bill for each Customer in the Plan shall be handled as follows: (1) any amount due the Company up to the monthly Plan payment shall be paid in full by the due date shown on the bill. (2) if the balance due the Company exceeds the monthly Plan payment, a payment equal to that amount will be paid and the excess shall be utilized in computing the next Plan year's monthly Plan payment. (3) any balance due the Customer shall also be utilized in computing the next Plan year's monthly Plan payment. (g) Interest will not be charged the Customer on accrued debit balances nor paid by the Company on accrued credit balances. (h) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan. (i) Any Customer's participation in the Plan may be discontinued by the Company if the monthly Plan payment has not been paid. (j) If any Customer in the Plan shall cease, for any reason, to participate in the Plan, then the Company may refuse that Customer's reentry in the Plan until the next following July. interpretation of Tagged Door / Can't Get In / Reread / High Bill Investigation / or Special Scheduling Service Rates. The Company agreed that effective April 3, 1998, there will be no charge for these services until such time that changes are approved by the appropriate regulatory authority.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant

Service provided directly from the facilities of others may be provided only with the approval of the owning company and shall thereafter be continued only as long as gas of satisfactory quality is available at the location. 1.2 FEES AND CHARGES All fees and charges made by the Company for provision of utility service and that work necessary to maintain service, shall be provided for in this Tariff. All other fees and charges for service work done on Consumer's premises shall be done in accordance with the schedule of fees and charges on file and approved by the appropriate regulatory authority where required. 1.3 RESALE OF GAS No gas supplied by the Company shall be resold by any Customer unless expressly authorized by the Company in writing and approved by the Regulatory Authority. Gas delivered through a master meter and delivered to one or more consumers shall not be considered to be resold as long as it is not metered and billed on separate commodity or cost of service basis. 1.4 TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice. 1.5 CONTINUITY OF SERVICE The Company shall use reasonable diligence in providing continuous service to all of its Consumers except for those interruptions of service permitted under rate schedules providing for them. Under certain circumstances it may be necessary to curtail Consumers of any class. The procedure under which interruptions and curtailments of service will be made is described in Section 11 of this Tariff. The Company does not guarantee uninterrupted service to any consumer and shall not be liable for damages resulting from loss of service. 1.6 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in each of the Company's Service Area offices and at its Corporate Office in Austin, Texas. A copy of the locally applicable Tariff shall be kept in each of the Company's offices. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it during reasonable office hours. 1.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and

Services as any Customer or Applicant may reasonably request. The Company shall provide each new Customer, when service is initiated, information as follows: a) Upon request, instructions as to the method of reading meters. b) At the time service is initiated or as an insert in the first billing, a pamphlet or packet containing the following information. This information shall be provided in English and Spanish as necessary to adequately inform Customers. i) The Customers' right to information concerning rates and services and the Customer's right to inspect or obtain at reproduction cost a copy of the applicable tariffs and service rules; ii) The Customer's right to have his or her meter checked without charge under Section 9.4 (Meter Testing-Customer Requests) of these Rules of Service, if applicable; iii) The time allowed to pay outstanding bills; iv) Grounds for termination of service; v) The steps the Company must take before terminating service; vi) How the Customer can resolve billing disputes with the Company and how disputes and health emergencies may affect termination of service; vii) Information on alternative payment plans offered by the Company; viii) The steps necessary to have service reconnected after involuntary termination; ix) The appropriate regulatory authority with whom to register a complaint and how to contact such authority; x) The hours, addresses, and telephone numbers of utility offices where bills may be paid and information may be obtained; and xi) The Customer's right to be instructed by the Company how to read his or her meter. c) At least once each calendar year, notify Customers that information is available upon request, at no charge to the Customer, concerning the items listed in Subsection b. This notice may be accomplished by using the billing insert or a printed statement upon the bill itself.

1.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Upon receipt of a complaint from the regulatory authority on behalf of a Customer, the Company shall investigate and advise the regulatory authority and complainant of the results of the investigation. An initial response will be made the next working day with a final response completed within 15 days from the date of the complaint, unless additional time is granted within the 15 day period.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 2 SERVICE AREA North Texas

SECTION 2 INITIATION OF SERVICE 2.1 REGULAR SERVICE Application for service shall be made to the Company's office nearest to the premises to be served. Each Applicant must comply with appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for service under the standard provisions of this Tariff. Commencement of the service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply.

2.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply.

2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff. The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service.

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

TARIFF CODE: DS RRC TARIFF NO: 21337

This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

2.4 ESTABLISHMENT OF SERVICE Each Applicant for residential service may be required to make a Security Deposit to establish a satisfactory credit standing. These deposits shall be computed in the same manner for the same class providing however, that a Deposit may be waived if

- a) The Applicant has been a Customer of any utility for the same kind of service within the last two years and is not delinquent in payment of any such utility service account and during the last 12 consecutive months of service did not have more than one occasion in which a bill for such utility service was paid after becoming delinquent and never had service disconnected for nonpayment;
- b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills for the service required;
- c) The Applicant furnishes in writing a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification, or ownership of substantial equity;
- d) The Applicant is 65 years of age or older provided they have no outstanding balance for utility service over two years old (applicable to residential Customers only);
- e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or
- f) The application is made for or guaranteed by an agency of the federal, state or local government.

2.5 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons:

- a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff;
- b) Failure of the Applicant to furnish any service or meter location specified by the Company as a condition for obtaining service;
- c) Existence of a potentially hazardous condition such as a leak in the Applicant's piping system which, in the Company's opinion, may endanger life or property;
- d) Failure to pay for gas service at the same or another service location within the Company's system; provided the amount billed is not then in dispute; or
- e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for refusal to serve.

2.6 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending upon approvals and permits required, the extent of the facilities to be built, and the Company's work load at the time.

2.7 INSUFFICIENT GROUNDS FOR REFUSAL TO SERVE The Company may not refuse service to any Applicant for any of the following reasons -

- a) Failure to pay any bill of another Customer, except as provided above;
- b) Failure to pay for merchandise or other charges for non-utility service purchased from or through the Company.

section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery. 3.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land shall be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately. 3.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 4 SERVICE AREA North Texas SECTION 4 INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him. 4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him. 4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary. 4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 5 SERVICE AREA North Texas SECTION 5 EXTENSION OF FACILITIES 5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation. 5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or

GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer. 5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents). 5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served. 5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction. 5.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the

TARIFF CODE: DS RRC TARIFF NO: 21337

five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 6 SERVICE AREA North Texas SECTION 6 CUSTOMER OWNED SYSTEMS 6.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. 6.2 MASTER METERS The Company shall provide service through a master meter into the piping system of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 7 SERVICE AREA North Texas SECTION 7 SECURITY DEPOSITS 7.1 REQUIREMENTS The Company may require a security deposit from any present or prospective Customer in accordance with Section 2 of these rules. The amount of the deposit for residential service shall not exceed 1/6 of the estimated annual billing except that when the actual usage exceeds twice the amount estimated, the amount of the required deposit may be increased proportionately. 7.2 RECEIPTS The Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of the receipt. 7.3 INTEREST The Company shall pay interest on all security deposits for the time held at the then lawfully established rate per annum except when - a) the deposit is held less than 30 days; b) notice is sent to the Customer's last known address that the deposit is no longer required; c) the service to which a deposit relates has been discontinued; or d) all or any part of the deposit has been applied to a Customer's account. Interest on deposits earned during the preceding year shall be paid annually either by check or as a credit on the monthly bill at the Company's option. Whenever the deposit of any Customer is returned, the Company shall pay all previously unpaid interest. 7.4 REFUND OF DEPOSITS Except where locally established regulations provide otherwise, deposits for residential service will be promptly refunded with accrued interest when: a) service is not connected or, after disconnection of service, the balance, if any, is in excess of the unpaid bills for service furnished. b) the Customer has paid bills for residential service for 12 consecutive months without having service disconnected and without having more than two occasions when a bill was delinquent and when the Customer is not delinquent in the payment of current bills. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 8 SERVICE AREA North Texas SECTION 8 GAS MEASUREMENT 8.1 PRESSURE The standard serving and measurement pressure shall be determined by the assumed average atmospheric pressure in the service area as follows: Standard Serving Atmospheric District or Service Area Pressure, PSIA Pressure, PSIA Mineral Wells Region 14.65 14.40 Weatherford Region 14.65 14.40 Jacksboro Region 14.65 14.40 Breckenridge Region 14.65 14.15 Graham Region 14.65 14.15 The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under normal load conditions. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted. 8.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one thousand cubic feet. A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at the pressure of gas in the meter and a temperature of 60 degrees Fahrenheit. Whenever the Company delivers any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation. 8.3 BILLING UNIT Unless otherwise specified on the rate schedule or by special agreement, Customers shall be billed on the basis of CCF measured at or corrected to the standard serving pressure. The index of the meter shall be the sole

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

determinant of volumes passing through the meter. 8.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure compensating meters whenever the cost of this equipment is justified by the volumes served. Such meters shall be equipped with devices which mechanically correct the actual measured volumes in accordance with Boyles Law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 8.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units. 8.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing units or may be furnished with devices designed to correct the actual volumes to be standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correction devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculation based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specified gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 8.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter chart period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

BREC2c TEXAS GAS SERVICE COMPANY Texas Tariff - North Texas NORTH TEXAS REGION Breckenridge Service Area (Environs) QUALITY OF SERVICE RULE ADDENDUMS AND AGREEMENTS ON INTERPRETATION [Note regarding Deposits: Per the information submitted by the Company to the Railroad Commission of Texas on 4/21/92, the current Residential Customer Deposit is \$50.00.] [Note regarding Service Fees: Per Company letter dated 4/3/98 to the Railroad Commission of Texas, an agreement was reached with the Railroad Commission of Texas Audit Staff on the interpretation of Tagged Door / Can't Get In / Reread / High Bill Investigation / or Special Scheduling Service Rates. The Company agreed that effective April 3, 1998, there will be no charge for these services until such time that changes are approved by the appropriate regulatory authority.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum

Service provided directly from the facilities of others may be provided only with the approval of the owning company and shall thereafter be continued only as long as gas of satisfactory quality is available at the location. 1.2 FEES AND CHARGES All fees and charges made by the Company for provision of utility service and that work necessary to maintain service, shall be provided for in this Tariff. All other fees and charges for service work done on Consumer's premises shall be done in accordance with the schedule of fees and charges on file and approved by the appropriate regulatory authority where required. 1.3 RESALE OF GAS No gas supplied by the Company shall be resold by any Customer unless expressly authorized by the Company in writing and approved by the Regulatory Authority. Gas delivered through a master meter and delivered to one or more consumers shall not be considered to be resold as long as it is not metered and billed on separate commodity or cost of service basis. 1.4 TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice. 1.5 CONTINUITY OF SERVICE The Company shall use reasonable diligence in providing continuous service to all of its Consumers except for those interruptions of service permitted under rate schedules providing for them. Under certain circumstances it may be necessary to curtail Consumers of any class. The procedure under which interruptions and curtailments of service will be made is described in Section 11 of this Tariff. The Company does not guarantee uninterrupted service to any consumer and shall not be liable for damages resulting from loss of service. 1.6 AVAILABILITY OF TARIFF A copy of this Tariff including all

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

applicable rate schedules shall be kept in each of the Company's Service Area offices and at its Corporate Office in Austin, Texas. A copy of the locally applicable Tariff shall be kept in each of the Company's offices. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it during reasonable office hours.

1.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. The Company shall provide each new Customer, when service is initiated, information as follows: a) Upon request, instructions as to the method of reading meters. b) At the time service is initiated or as an insert in the first billing, a pamphlet or packet containing the following information. This information shall be provided in English and Spanish as necessary to adequately inform Customers. i) The Customers' right to information concerning rates and services and the Customer's right to inspect or obtain at reproduction cost a copy of the applicable tariffs and service rules; ii) The Customer's right to have his or her meter checked without charge under Section 9.4 (Meter Testing-Customer Requests) of these Rules of Service, if applicable; iii) The time allowed to pay outstanding bills; iv) Grounds for termination of service; v) The steps the Company must take before terminating service; vi) How the Customer can resolve billing disputes with the Company and how disputes and health emergencies may affect termination of service; vii) Information on alternative payment plans offered by the Company; viii) The steps necessary to have service reconnected after involuntary termination; ix) The appropriate regulatory authority with whom to register a complaint and how to contact such authority; x) The hours, addresses, and telephone numbers of utility offices where bills may be paid and information may be obtained; and xi) The Customer's right to be instructed by the Company how to read his or her meter. c) At least once each calendar year, notify Customers that information is available upon request, at no charge to the Customer, concerning the items listed in Subsection b. This notice may be accomplished by using the billing insert or a printed statement upon the bill itself.

1.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Upon receipt of a complaint from the regulatory authority on behalf of a Customer, the Company shall investigate and advise the regulatory authority and complainant of the results of the investigation. An initial response will be made the next working day with a final response completed within 15 days from the date of the complaint, unless additional time is granted within the 15 day period. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 2 SERVICE AREA North Texas SECTION 2 INITIATION OF SERVICE 2.1 REGULAR SERVICE Application for service shall be made to the Company's office nearest to the premises to be served. Each Applicant must comply with appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for service under the standard provisions of this Tariff. Commencement of the service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply. 2.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply. 2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff. The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

2.4 ESTABLISHMENT OF SERVICE Each Applicant for residential service may be required to make a Security Deposit to establish a satisfactory credit standing. These deposits shall be computed in the same manner for the same class providing however, that a Deposit may be waived if

- a) The Applicant has been a Customer of any utility for the same kind of service within the last two years and is not delinquent in payment of any such utility service account and during the last 12 consecutive months of service did not have more than one occasion in which a bill for such utility service was paid after becoming delinquent and never had service disconnected for nonpayment;
- b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills for the service required;
- c) The Applicant furnishes in writing a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification, or ownership of substantial equity;
- d) The Applicant is 65 years of age or older provided they have no outstanding balance for utility service over two years old (applicable to residential Customers only);
- e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or
- f) The application is made for or guaranteed by an agency of the federal, state or local government.

2.5 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons:

- a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff;
- b) Failure of the Applicant to furnish any service or meter location specified by the Company as a condition for obtaining service;
- c) Existence of a potentially hazardous condition such as a leak in the Applicant's piping system which, in the Company's opinion, may endanger life or property;
- d) Failure to pay for gas service at the same or another service location within the Company's system; provided the amount billed is not then in dispute; or
- e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for refusal to serve.

2.6 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending upon approvals and permits required, the extent of the facilities to be built, and the Company's work load at the time.

2.7 INSUFFICIENT GROUNDS FOR REFUSAL TO SERVE The Company may not refuse service to any Applicant for any of the following reasons -

- a) Failure to pay any bill of another Customer, except as provided above;
- b) Failure to pay for merchandise or other charges for non-utility service purchased from or through the Company.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 3 SERVICE AREA North Texas SECTION 3

METERING AND DELIVERY OF GAS 3.1 METER LOCATIONS Each Applicant shall furnish and

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and protected from damage. Meters shall not be located within any enclosed structure not solely intended as a meter house. 3.2 POINT OF DELIVERY The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery. 3.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land shall be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately. 3.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 4 SERVICE AREA North Texas SECTION 4 INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him. 4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him. 4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary. 4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 5 SERVICE AREA North Texas SECTION 5 EXTENSION OF FACILITIES 5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 21337
-----------------	----------------------

or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation.

5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer.

5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension.

5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents).

5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served.

5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction.

5.8 DELIVERY OF REFUNDS When a refund

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 6 SERVICE AREA North Texas SECTION 6 CUSTOMER OWNED SYSTEMS 6.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. 6.2 MASTER METERS The Company shall provide service through a master meter into the piping system of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 7 SERVICE AREA North Texas SECTION 7 SECURITY DEPOSITS 7.1 REQUIREMENTS The Company may require a security deposit from any present or prospective Customer in accordance with Section 2 of these rules. The amount of the deposit for residential service shall not exceed 1/6 of the estimated annual billing except that when the actual usage exceeds twice the amount estimated, the amount of the required deposit may be increased proportionately. 7.2 RECEIPTS The Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of the receipt. 7.3 INTEREST The Company shall pay interest on all security deposits for the time held at the then lawfully established rate per annum except when - a) the deposit is held less than 30 days; b) notice is sent to the Customer's last known address that the deposit is no longer required; c) the service to which a deposit relates has been discontinued; or d) all or any part of the deposit has been applied to a Customer's account. Interest on deposits earned during the preceding year shall be paid annually either by check or as a credit on the monthly bill at the Company's option. Whenever the deposit of any Customer is returned, the Company shall pay all previously unpaid interest. 7.4 REFUND OF DEPOSITS Except where locally established regulations provide otherwise, deposits for residential service will be promptly refunded with accrued interest when: a) service is not connected or, after disconnection of service, the balance, if any, is in excess of the unpaid bills for service furnished. b) the Customer has paid bills for residential service for 12 consecutive months without having service disconnected and without having more than two occasions when a bill was delinquent and when the Customer is not delinquent in the payment of current bills. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 8 SERVICE AREA North Texas SECTION 8 GAS MEASUREMENT 8.1 PRESSURE The standard serving and measurement pressure shall be determined by the assumed average atmospheric pressure in the service area as follows: Standard Serving Atmospheric District or Service Area Pressure, PSIA Pressure, PSIA Mineral Wells Region 14.65 14.40 Weatherford Region 14.65 14.40 Jacksboro Region 14.65 14.40 Breckenridge Region 14.65 14.15 Graham Region 14.65 14.15 The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under normal load conditions. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted. 8.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one thousand cubic feet. A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at the pressure of gas in the meter and a temperature of 60 degrees Fahrenheit. Whenever the Company delivers any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS	RRC TARIFF NO: 21337
-----------------	----------------------

pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation. 8.3 BILLING UNIT Unless otherwise specified on the rate schedule or by special agreement, Customers shall be billed on the basis of CCF measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. 8.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure compensating meters whenever the cost of this equipment is justified by the volumes served. Such meters shall be equipped with devices which mechanically correct the actual measured volumes in accordance with Boyles Law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 8.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units. 8.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing units or may be furnished with devices designed to correct the actual volumes to be standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correction devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculation based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specified gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 8.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter chart

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

GRAH2c TEXAS GAS SERVICE COMPANY Texas Tariff - North Texas NORTH TEXAS REGION Graham Service Area (Environs) QUALITY OF SERVICE RULE ADDENDUMS AND AGREEMENTS ON INTERPRETATION [Note regarding Deposits: Per the information submitted by the Company to the Railroad Commission of Texas on 4/21/92, the current Residential Customer Deposit is \$50.00.] [Note regarding Service Fees: Per Company letter dated 4/3/98 to the Railroad Commission of Texas, an agreement was reached with the Railroad Commission of Texas Audit Staff on the interpretation of Tagged Door / Can't Get In / Reread / High Bill Investigation / or Special Scheduling Service Rates. The Company agreed that effective April 3, 1998, there will be no charge for these services until such time that changes are approved by the appropriate regulatory authority.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's

service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site. Adopted October 21, 2003

 CONDITION OF SERVICE 1.1 PROVISIONS OF SERVICE The Company will provide gas service to any person or organization located within its service areas, from its facilities or facilities of its supplier in certain cases, in accordance with the provisions of this Tariff including Rate Schedules and Rules of Service approved by the Railroad Commission of Texas. Service provided directly from the facilities of others may be provided only with the approval of the owning company and shall thereafter be continued only as long as gas of satisfactory quality is available at the location. 1.2 FEES AND CHARGES All fees and charges made by the Company for provision of utility service and that work necessary to maintain service, shall be provided for in this Tariff. All other fees and charges for service work done on Consumer's premises shall be done in accordance with the schedule of fees and charges on file and approved by the appropriate regulatory authority where required. 1.3 RESALE OF GAS No gas supplied by the Company shall be resold by any Customer unless expressly authorized by the Company in writing and approved by the Regulatory Authority. Gas delivered through a master meter and delivered to one or more consumers shall not be considered to be resold as long as it is not metered and billed on separate commodity or cost of service basis. 1.4 TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice. 1.5 CONTINUITY OF SERVICE The

----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 21337
-----------------	----------------------

Company shall use reasonable diligence in providing continuous service to all of its Consumers except for those interruptions of service permitted under rate schedules providing for them. Under certain circumstances it may be necessary to curtail Consumers of any class. The procedure under which interruptions and curtailments of service will be made is described in Section 11 of this Tariff. The Company does not guarantee uninterrupted service to any consumer and shall not be liable for damages resulting from loss of service.

1.6 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in each of the Company's Service Area offices and at its Corporate Office in Austin, Texas. A copy of the locally applicable Tariff shall be kept in each of the Company's offices. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it during reasonable office hours.

1.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. The Company shall provide each new Customer, when service is initiated, information as follows:

- a) Upon request, instructions as to the method of reading meters.
- b) At the time service is initiated or as an insert in the first billing, a pamphlet or packet containing the following information. This information shall be provided in English and Spanish as necessary to adequately inform Customers.
 - i) The Customers' right to information concerning rates and services and the Customer's right to inspect or obtain at reproduction cost a copy of the applicable tariffs and service rules;
 - ii) The Customer's right to have his or her meter checked without charge under Section 9.4 (Meter Testing-Customer Requests) of these Rules of Service, if applicable;
 - iii) The time allowed to pay outstanding bills;
 - iv) Grounds for termination of service;
 - v) The steps the Company must take before terminating service;
 - vi) How the Customer can resolve billing disputes with the Company and how disputes and health emergencies may affect termination of service;
 - vii) Information on alternative payment plans offered by the Company;
 - viii) The steps necessary to have service reconnected after involuntary termination;
 - ix) The appropriate regulatory authority with whom to register a complaint and how to contact such authority;
 - x) The hours, addresses, and telephone numbers of utility offices where bills may be paid and information may be obtained; and
 - xi) The Customer's right to be instructed by the Company how to read his or her meter.
- c) At least once each calendar year, notify Customers that information is available upon request, at no charge to the Customer, concerning the items listed in Subsection b. This notice may be accomplished by using the billing insert or a printed statement upon the bill itself.

1.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Upon receipt of a complaint from the regulatory authority on behalf of a Customer, the Company shall investigate and advise the regulatory authority and complainant of the results of the investigation. An initial response will be made the next working day with a final response completed within 15 days from the date of the complaint, unless additional time is granted within the 15 day period.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION
SECTION 2 SERVICE AREA North Texas SECTION 2 INITIATION OF SERVICE 2.1 REGULAR SERVICE

Application for service shall be made to the Company's office nearest to the premises to be served. Each Applicant must comply with appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for service under the standard provisions of this Tariff. Commencement of the service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS	RRC TARIFF NO: 21337
------------------------	-----------------------------

form prescribed by the Company designating those provisions which shall apply. 2.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply. 2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff. The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling. 2.4 ESTABLISHMENT OF SERVICE Each Applicant for residential service may be required to make a Security Deposit to establish a satisfactory credit standing. These deposits shall be computed in the same manner for the same class providing however, that a Deposit may be waived if a) The Applicant has been a Customer of any utility for the same kind of service within the last two years and is not delinquent in payment of any such utility service account and during the last 12 consecutive months of service did not have more than one occasion in which a bill for such utility service was paid after becoming delinquent and never had service disconnected for nonpayment; b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills for the service required; c) The Applicant furnishes in writing a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification, or ownership of substantial equity; d) The Applicant is 65 years of age or older provided they have no outstanding balance for utility service over two years old (applicable to residential Customers only); e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or f) The application is made for or guaranteed by an agency of the federal, state or local government. 2.5 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons: a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff; b) Failure of the Applicant to furnish any service or meter location specified by the Company as a condition for obtaining service; c) Existence of a potentially hazardous condition such as a leak in the Applicant's piping system which, in the Company's opinion, may endanger life or property; d) Failure to pay for gas service at the same or another service location within the Company's system; provided the amount billed is not then in dispute; or e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for refusal to serve. 2.6 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending upon approvals and permits required, the extent of the

GAS SERVICES DIVISION

facilities to be built, and the Company's work load at the time. 2.7 INSUFFICIENT GROUNDS FOR REFUSAL TO SERVE The Company may not refuse service to any Applicant for any of the following reasons - a) Failure to pay any bill of another Customer, except as provided above; b) Failure to pay for merchandise or other charges for non-utility service purchased from or through the Company. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 3 SERVICE AREA North Texas SECTION 3 METERING AND DELIVERY OF GAS 3.1 METER LOCATIONS Each Applicant shall furnish and subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and protected from damage. Meters shall not be located within any enclosed structure not solely intended as a meter house. 3.2 POINT OF DELIVERY The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery. 3.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land shall be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately. 3.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 4 SERVICE AREA North Texas SECTION 4 INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him. 4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him. 4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary. 4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 5 SERVICE AREA North Texas

SECTION 5 EXTENSION OF FACILITIES 5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation. 5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer. 5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents). 5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

Customer served. 5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction. 5.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 6 SERVICE AREA North Texas SECTION 6 CUSTOMER OWNED SYSTEMS 6.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. 6.2 MASTER METERS The Company shall provide service through a master meter into the piping system of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 7 SERVICE AREA North Texas SECTION 7 SECURITY DEPOSITS 7.1 REQUIREMENTS The Company may require a security deposit from any present or prospective Customer in accordance with Section 2 of these rules. The amount of the deposit for residential service shall not exceed 1/6 of the estimated annual billing except that when the actual usage exceeds twice the amount estimated, the amount of the required deposit may be increased proportionately. 7.2 RECEIPTS The Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of the receipt. 7.3 INTEREST The Company shall pay interest on all security deposits for the time held at the then lawfully established rate per annum except when - a) the deposit is held less than 30 days; b) notice is sent to the Customer's last known address that the deposit is no longer required; c) the service to which a deposit relates has been discontinued; or d) all or any part of the deposit has been applied to a Customer's account. Interest on deposits earned during the preceding year shall be paid annually either by check or as a credit on the monthly bill at the Company's option. Whenever the deposit of any Customer is returned, the Company shall pay all previously unpaid interest.

7.4 REFUND OF DEPOSITS Except where locally established regulations provide otherwise, deposits for residential service will be promptly refunded with accrued interest when: a) service is not connected or, after disconnection of service, the balance, if any, is in excess of the unpaid bills for service furnished. b) the Customer has paid bills for residential service for 12 consecutive months without having service disconnected and without having more than two occasions when a bill was delinquent and when the Customer is not delinquent in the payment of current bills.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 8 SERVICE AREA North Texas SECTION 8 GAS MEASUREMENT 8.1 PRESSURE The standard serving and measurement pressure shall be determined by the assumed average atmospheric pressure in the service area as follows: Standard Serving Atmospheric District or Service Area Pressure, PSIA Pressure, PSIA Mineral Wells Region 14.65 14.40 Weatherford Region 14.65 14.40 Jacksboro Region 14.65 14.40 Breckenridge Region 14.65 14.15 Graham Region 14.65 14.15 The Consumer and the Company may, at the Company's option, agree to a higher

GAS SERVICES DIVISION

----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 21337
-----------------	----------------------

serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under normal load conditions. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted. 8.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one thousand cubic feet. A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at the pressure of gas in the meter and a temperature of 60 degrees Fahrenheit. Whenever the Company delivers any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation. 8.3 BILLING UNIT Unless otherwise specified on the rate schedule or by special agreement, Customers shall be billed on the basis of CCF measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. 8.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure compensating meters whenever the cost of this equipment is justified by the volumes served. Such meters shall be equipped with devices which mechanically correct the actual measured volumes in accordance with Boyles Law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 8.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units. 8.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing units or may be furnished with devices designed to correct the actual volumes to be standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correction devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculation based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specified gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 8.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter chart period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

JACK2b 8.7 BTU MEASUREMENT The heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.65 psia and temperature of 60 degrees F. on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period expressed in the same units and measured at or corrected to 14.65 psia and 60 degrees F., and multiplying by the factor necessary to convert the heating value/measurement units to the billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods: a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type. b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type. i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents.

8.8 CUSTOMER OWNED METERS Any Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for billing purposes. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 9 SERVICE AREA North Texas SECTION 9 METER READING AND ACCURACY 9.1 METER READING Meters shall be read as nearly as may be practical on the same day of each calendar month. 9.2 ACCESS TO THE METER The Customer shall permit the Company access to the meter at all times for readings thereof and at all reasonable times for maintenance, testing or replacement of the meter. 9.3 METER ACCURACY The nominal accuracy of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results. Industrial Customer meter tests performed under these conditions shall be charged at the following fee schedule:

METER TYPE AND CAPACITY	SERVICE CHARGE	Positive
Displacement	251 to 1500 cubic feet per hour	\$ 25.00
feet per hour	50.00	1501 to 3000 cubic feet per hour
feet per hour	100.00	50.00
		Over 5000 cubic feet per hour
		200.00
		Orifice
		All Sizes
		\$ 100.00

If the test proves the meter is registering above or below the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter.

9.5 BILLING ADJUSTMENTS - GENERAL SERVICE If meter tests reveal more than a 2% error the previous readings will be corrected for the past six months or the time since the last test of the meter, whichever is shorter. Resulting over or underbillings will be corrected in subsequent bills. If a meter is found not to have registered for a period of time, the Company will charge for unmeasured consumption for a period of not longer than three months prior to the time the meter is found not to be registering. The amount used but not measured will be based upon consumption during a like period by the same Customer at the same location or, if this information is unavailable, on consumption under similar conditions at other locations.

9.6 PROVISIONS FOR SPECIAL SERVICE The following modifications shall apply to the provisions of this Section for all Special Service rate schedules and service under special written agreements:

- a) Orifice meters shall be calibration tested at least four times per year at intervals not to exceed 120 days. Should the Customer so elect, tests shall be made in the presence of his representative.
- b) Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill either up or down shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate.
 - i) By using registration of the Customer's check meter(s) if proved correct.
 - ii) By correcting the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or
 - iii) By estimating the quantity of gas delivered by comparison with deliveries during preceding period under similar conditions when accurate registration was obtained.

9.7 PERIODIC TESTS The Company shall make periodic tests of meters, associated devices and instruments to assure their accuracy. The basic periodic test interval shall not be longer than provided for in the following schedule.

meter type	interval
Positive displacement meters:	
401 to 1500 cubic feet per hour	7 years
1501 to 3000 cubic feet per hour	5 years
3001 to 5000 cubic feet per hour	3 years
Over 5000 cubic feet per hour	1 year
Office meters	6 months
Turbine meters	1 year
Base pressure correction devices	2 years
Base volume correcting devices	2 years
Service pressure regulation devices	Quarterly

Positive displacement meters rated at 400 cubic feet per hour or less shall be replaced with new or remanufactured meters at intervals of not greater than 13 years in service. Meters removed under this program will be tested and records of the tests evaluated to determine if the accuracy of the sample group justifies adjustment of the replacement cycle.

9.8 METER TEST PROCEDURE AND ACCURACIES Meters and/or associated meter devices shall be tested at the points and adjusted to the tolerances prescribed below. The test of any unit of metering equipment shall consist of a comparison of its accuracy to a standard.

Positive displacement meters:

Accuracy at test points	Flow	Adjusted to Within	Check flow	Not less than rated flow
1.5%	Overall accuracy	The overall accuracy at check flow and the overall accuracy at not less than full rated flow shall agree within one percent.	Orifice meters:	Accuracy at the test points must be within 2% plus or minus.

General:

- i) All meters and/or associated metering devices when tested shall be adjusted as closely as possible to the condition of zero error.
- ii) All tolerances are to be interpreted as maximum permissible variations from the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

condition of zero error. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 10 SERVICE AREA North Texas SECTION 10 BILLING AND PAYMENT OF BILLS 10.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full within 15 days after the date the bill is rendered. Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of its authorized pay stations. If not paid by the date due, the bill shall be considered delinquent. 10.2 PARTIAL BILLING Whenever service is rendered for less than fifteen days during any monthly billing period, the Customer shall be billed for his actual consumption or the regular minimum charge in the applicable rate schedule, whichever is the larger amount. 10.3 ESTIMATED In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption. The next bill based on an actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for his actual consumption. 10.4 DISPUTED BILLS (i) In the event of a dispute between a Customer and the Company regarding any bill for service, the Company will make such investigation as is required by the particular case and report the results to the Customer. If the Customer wishes to obtain the benefits of subsection (ii) hereunder, notification of the dispute must be given to the Company prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the Company shall inform the Customer of the complaint procedures of the appropriate regulatory authority. (ii) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: (1) resolution of the dispute, or (2) the expiration of the sixty day period beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period for the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar Customers and under similar conditions. 10.5 RETURNED CHECKS Whenever the payment for gas service or any other charge permitted under this Tariff is rendered by check and such check is refused by the bank on which it is drawn, the Company may make an additional charge to cover the costs of handling and rebilling. The Company must post a notice of the charge in its principal office in the service area at least ten days in advance of the institution hereof and keep such notice in place as long as the charge is in effect. Notice shall be posted adjacent to the place of acceptance of payment. 10.6 BILLING INFORMATION The Customer's bill shall show all the following information: a) The date and meter reading at the beginning and at the end of the period of which the bill is rendered; b) The number and kind of units metered; c) The applicable Rate Schedule or code; d) The monthly cost of gas adjustment, if authorized, together with the factor by which it is computed, if the total charge for gas service is billed separately from the cost of gas adjustment, if any; e) The total amount due for utility service and tax; f) The date by which the Customer must pay the bill in order to avoid penalty, delinquency, or termination proceedings; g) A distinct marking to identify an estimated bill; h) Any conversions from meter reading units to billing units, or any other calculations to determine billing units from recording to other devices, or any other factors used in determining the bill; i) The information required in paragraph b, c, d, e, f, and h above shall be arranged to permit the Customer to compute his bill by using the applicable Rate Schedule which shall be supplied when requested by the Customer.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 11 SERVICE AREA North Texas SECTION 11 CURTAILMENTS 11.1 CURTAILMENTS Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.

11.2 PRIORITY CLASSES All Customers served by the Company shall be classified into one of the following priority groups: Priority 1 - All Domestic service. Priority 2 - All small Commercial and Industrial service (less than 50 Mcf on an average day). Priority 3 - All other Commercial service. Priority 4 - Industrial service, other than boiler fuel, for usage through one meter of more than 50 Mcf but less than 200 Mcf on an average day. Priority 5 - Industrial service, other than boiler fuel, for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 6 - Industrial service, other than boiler fuel, for usage through one meter of more than 1500 Mcf on an average day. Priority 7 - Industrial boiler fuel for usage through one meter or less than 200 Mcf on an average day. Priority 8 - Industrial boiler fuel for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 9 - Industrial boiler fuel for usage through one meter of more than 1500 Mcf on an average day. For the purpose of this classification each separately billed meter shall be considered a separate Customer. When service which may fall into more than one priority group is rendered through a single meter, the entire service shall be placed in the lowest (highest numbered) applicable priority group.

11.3 METHOD OF CURTAILMENT Curtailment shall be ordered ratable insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class or other than Priorities 1 and 2. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup.

11.4 CLASS AND GROUP CURTAILMENTS No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e. higher numbered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.

11.5 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any Customer (other than a Customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.

11.6 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 12 SERVICE AREA North Texas SECTION 12 QUALITY OF GAS 12.1 HEATING VALUE Except as otherwise provided by local regulatory authority gas delivered to Consumers in all service areas shall have a gross heating value of at least 1,000 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered.

12.2 CHARACTER OF THE GAS All gas furnished to Consumers in Texas shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered.

12.3 ODORIZATIION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable.

TEXAS GAS SERVICE COMPANY NORTH TEXAS

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

REGION SECTION 13 SERVICE AREA North Texas SECTION 13 SERVICE WORK 13.1 FREE SERVICE
When requested by the Consumer, the Company shall perform the following service work on the Consumer's premises and appliances on a no-charge basis: a) gas-air adjustments only, on standard domestic and commercial gas burning appliances when service is initiated; and b) leakage and pressure investigations to the point at which the condition is determined to exist in the Consumer's piping or equipment and service has been disconnected or the Consumer's facilities are free from leaks. No other work shall be performed on any Consumer's appliances or house piping on a no-charge basis. 13.2 OTHER SERVICE The Company may, at its option, undertake other service work for which it has trained personnel available on a charge basis. Charges shall be made at the Company's standard rate for the service area and such work and associated revenues and costs shall be considered non-utility. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 14 SERVICE AREA North Texas SECTION 14 MAINTENANCE OF EQUIPMENT 14.1 MAINTENANCE BY COMPANY The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter on the Customer's premises at any reasonable time or in the event of an emergency at any time, to read the meter or make any necessary inspection, repair, adjustment or replacement of any property owned by the Company. 14.2 MAINTENANCE BY THE CUSTOMER The Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Customer, he shall reimburse the Company for all costs of repairing or replacing the damaged property. 14.3 LEAKS - RIGHT TO DISCONNECT FOR The Customer shall give the Company notice of any escaping gas as soon as it is detected by him. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If any leakage is found to be from the Customer's facilities, the Company shall have the right to disconnect service immediately until the Customer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by Company forces. The Company shall have the right to disconnect service immediately if any of the Customer's appliances or equipment is, in Company's opinion, operating in an unsafe condition. 14.4 PRESENT CUSTOMER OWNED YARDLINES Any facilities upstream of the meter installed by the Customer prior to the effective date of this Tariff shall remain the property and responsibility of the Customer, providing whenever the condition of the facility is such that replacement is required, the work shall be done by the Company under the same terms and conditions as for a new service as described in Paragraph 4.1 of this Tariff. The Customer shall reimburse the Company in advance for the estimated cost of the new facility at the prices filed with the regulatory authority. Thereafter it shall become the property and responsibility of the Company. 14.5 RESPONSIBILITY Nothing in this Section shall make the Company responsible for the safe upkeep of Customer owned facilities. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 15 SERVICE AREA North Texas SECTION 15 DISCONTINUANCE OF SERVICE 15.1 BY CUSTOMER A Customer shall be responsible for all charges for gas service from the time he gives notice of the intention to discontinue service until the Company has read the meter or for three working days whichever is the shorter period of time. 15.2 FOR NON-PAYMENT A Customer's utility service may be disconnected if the bill has not been paid or a deferred payment plan has not been entered into within five working days after the bill has become delinquent and proper notice has been given. Proper notice consists of a deposit in the United States Mail, postage prepaid, or hand delivery to the Customer at least five working days prior to the stated date of

TARIFF CODE: DS RRC TARIFF NO: 21337

disconnection, with the words Termination Notice or similar language prominently displayed on the notice. The notice shall be provided in English and Spanish as necessary to adequately inform the Customer, and shall include the date of termination, the hours, address, and telephone number where payment may be made, and a statement that if a health or other emergency exists, the Company may be contacted concerning the nature of the emergency and the relief available, if any, to meet such emergency. The Company will not discontinue service to a delinquent residential Customer permanently residing in an individually metered dwelling unit when that Customer establishes that the discontinuance of service will result in some person residing at that residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this section must make a written request supported by a written statement from a licensed physician. Both the request and the statement must be received by the Company not more than five working days after the date of the delinquency of the bill. The prohibition against service termination provided by this section shall last twenty days from the date of receipt by the Company of the request and statement of such lesser period as may be agreed upon by the Company and the Customer. The Customer who makes such request shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings. No Customer shall be disconnected for non-payment: a) After payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel of the payment; or b) Before 8:00 AM or after 5:00 PM on any day or on Friday, Saturday, Sunday, holiday, or day before a holiday unless Company personnel are available on that day for the purpose of making collections or reconnecting service.

15.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any consumer for any of the following reasons: a) Without notice for the presence of what the Company considers to be a dangerous condition on the Consumer's premises or if any emergency exists. b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with his knowledge. c) Within five working days after written notice if the Consumer uses his equipment in any way which causes or creates a potential for adverse effect on the Company's service to others. d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class 1 or 2. e) Five working days after written notice for refusal to grant Company's personnel access to the Consumer's premises at any reasonable time for any lawful purpose. f) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of this Tariff or violation of any applicable laws, order or ordinances, provided that disconnection may be made without notice if the violation creates a dangerous condition.

15.4 RIGHT-OF-ENTRY The Company shall have the right to enter upon the Consumer's premises at any reasonable time to shut off service in accordance with this Tariff and to remove its meter and other property.

15.5 ABANDONMENT OF SERVICE Service shall not be abandoned (permanent disconnect of any but a temporary Customer), unless requested by the Customer(s), without permission of the regulatory authority. Failure of the Customer to reinstitute service after disconnection within a reasonable period of time shall be considered a request for permanent discontinuance of service.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 16 SERVICE AREA North Texas SECTION 16 RE-ESTABLISHMENT OF SERVICE 16.1 FROM NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount of his account then due plus the prescribed reconnect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer re-establish satisfactory credit in accordance with this Tariff. The first time a Customer requests re-establishment of service after disconnection for non-payment, the Company may waive the deposit. Thereafter full compliance of this Section is required.

16.2 FROM OTHER REASONS When service has been disconnected for any other reason,

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

the Customer shall be required to request reconnection in writing. If disconnection has been made by the Company, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a reconnect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment.

16.3 RECONNECTION The Company shall restore service as soon as feasible after receipt of the request and compliance with the requirements of this Section. The Company shall charge a non-refundable reconnect fee to all Customers. When the Customer requests reconnection at a time such that because of already scheduled work, reconnect cannot be made during working hours on the same day the request was made, the Company shall, upon the Customers' request, reconnect the service after working hours. For such after-hours reconnection the Customer shall pay an additional fee if the call can be completed in 15 minutes by a serviceman already on duty. If additional time is required on the standard rates for service work, provided however, the Consumer must be advised of the additional charge to be made before the work is done. The Company may then schedule the call at any time to fit its work schedule but the after-hours charge shall be collected as long as any other work is done on overtime. In the event the Company is required to make more than one call because the reason for disconnection has not been properly corrected, the appropriate reconnect fee shall be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operations.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 17 SERVICE AREA North Texas SECTION 17 BUDGET PAYMENT PLAN 17.1 DESCRIPTION Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner: (a) The Plan year shall be the 12 months pending each year with the Customer's June bill. The Plan monthly payment shall be determined as follows: (1) for Customers electing to commence with the July bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's Plan year. (2) for Customers electing to commence with the August or later bill, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year from commencement in the Plan until the next following June bill. Succeeding years shall be computed on an annual basis as in subparagraph (1) above. (b) The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon most recent available prior 12-month period at the same service location; or, if there is not at least 12 month prior service at the same service location, then the charges shall be based upon consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known changes. (c) The Company reserves the right to adjust the remaining monthly Plan payments of any Customer at any time for changes in condition or rates. (d) The Company shall advise each Customer in the Plan of the monthly Plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of that month's Plan payment. The Customer shall continue to pay the monthly Plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill. (e) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly Plan payment. (f) The June gas bill for each Customer in the Plan shall be handled as follows: (1) any amount due the Company up to the monthly Plan payment shall be paid in full by the due date shown on the bill. (2) if the balance due the Company exceeds the monthly Plan payment, a payment equal to that amount will be paid and the excess shall be utilized in

computing the next Plan year's monthly Plan payment. (3) any balance due the Customer shall also be utilized in computing the next Plan year's monthly Plan payment. (g) Interest will not be charged the Customer on accrued debit balances nor paid by the Company on accrued credit balances. (h) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan. (i) Any Customer's participation in the Plan may be discontinued by the Company if the monthly Plan payment has not been paid. (j) If any Customer in the Plan shall cease, for any reason, to participate in the Plan, then the Company may refuse that Customer's reentry in the Plan until the next following July. JACK2c TEXAS GAS SERVICE COMPANY Texas Tariff - North Texas NORTH TEXAS REGION Jacksboro Service Area (Environs) QUALITY OF SERVICE RULE ADDENDUMS AND AGREEMENTS ON INTERPRETATION [Note regarding Deposits: Per the information submitted by the Company to the Railroad Commission of Texas on 4/21/92, the current Residential Customer Deposit is \$50.00.] [Note regarding Service Fees: Per Company letter dated 4/3/98 to the Railroad Commission of Texas, an agreement was reached with the Railroad Commission of Texas Audit Staff on the interpretation of Tagged Door / Can't Get In / Reread / High Bill Investigation / or Special Scheduling Service Rates. The Company agreed that effective April 3, 1998, there will be no charge for these services until such time that changes are approved by the appropriate regulatory authority.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of

Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site. Adopted October 21, 2003

Customer unless expressly authorized by the Company in writing and approved by the Regulatory Authority. Gas delivered through a master meter and delivered to one or more consumers shall not be considered to be resold as long as it is not metered and billed on separate commodity or cost of service basis.

1.4 TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice.

1.5 CONTINUITY OF SERVICE The Company shall use reasonable diligence in providing continuous service to all of its Consumers except for those interruptions of service permitted under rate schedules providing for them. Under certain circumstances it may be necessary to curtail Consumers of any class. The procedure under which interruptions and curtailments of service will be made is described in Section 11 of this Tariff. The Company does not guarantee uninterrupted service to any consumer and shall not be liable for damages resulting from loss of service.

1.6 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in each of the Company's Service Area offices and at its Corporate Office in Austin, Texas. A copy of the locally applicable Tariff shall be kept in each of the Company's offices. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it during reasonable office hours.

1.7 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. The Company shall provide each new Customer, when service is initiated, information as follows:

- a) Upon request, instructions as to the method of reading meters.
- b) At the time service is initiated or as an insert in the first billing, a pamphlet or packet containing the following information. This information shall be provided in English and Spanish as necessary to adequately inform Customers.
 - i) The Customers' right to information concerning rates and services and the Customer's right to inspect or obtain at reproduction cost a copy of the applicable tariffs and service rules;
 - ii) The Customer's right to have his or her meter checked without charge under Section 9.4 (Meter Testing-Customer Requests) of these Rules of Service, if applicable;
 - iii) The time allowed to pay outstanding bills;
 - iv) Grounds for termination of service;
 - v) The steps the Company must take before terminating service;
 - vi) How the Customer can resolve billing disputes with the Company and how disputes and health emergencies may affect termination of service;
 - vii) Information on alternative payment plans offered by the Company;
 - viii) The steps necessary to have service reconnected after involuntary termination;
 - ix) The appropriate regulatory authority with whom to register a complaint and how to contact such authority;
 - x) The hours, addresses, and telephone numbers of utility offices where bills may be paid and information may be obtained; and
 - xi) The Customer's right to be instructed by the Company how to read his or her meter.
- c) At least once each calendar year, notify Customers that information is available upon request, at no charge to the Customer, concerning the items listed in Subsection b. This notice may be accomplished by using the billing insert or a printed statement upon the bill itself.

1.8 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Upon receipt of a complaint from the regulatory authority on behalf of a Customer, the Company shall investigate and advise the regulatory authority and complainant of the results of the investigation. An initial response will be made the next working day with a final response completed within 15 days from the date of the complaint, unless additional time is granted within the 15 day period.

TARIFF CODE: DS	RRC TARIFF NO: 21337
-----------------	----------------------

SECTION 2 INITIATION OF SERVICE 2.1 REGULAR SERVICE Application for service shall be made to the Company's office nearest to the premises to be served. Each Applicant must comply with appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for service under the standard provisions of this Tariff. Commencement of the service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply. 2.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply. 2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff. The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling. 2.4 ESTABLISHMENT OF SERVICE Each Applicant for residential service may be required to make a Security Deposit to establish a satisfactory credit standing. These deposits shall be computed in the same manner for the same class providing however, that a Deposit may be waived if a) The Applicant has been a Customer of any utility for the same kind of service within the last two years and is not delinquent in payment of any such utility service account and during the last 12 consecutive months of service did not have more than one occasion in which a bill for such utility service was paid after becoming delinquent and never had service disconnected for nonpayment; b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills for the service required; c) The Applicant furnishes in writing a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification, or ownership of substantial equity; d) The Applicant is 65 years of age or older provided they have no outstanding balance for utility service over two years old (applicable to residential Customers only); e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or f) The application is made for or guaranteed by an agency of the federal, state or local government. 2.5 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons: a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff; b) Failure of the Applicant to furnish any service or meter location specified by the Company as a condition for obtaining service; c) Existence of a potentially hazardous condition such as a leak in the Applicant's piping system which, in the Company's opinion, may endanger life or property; d) Failure to pay for gas service at the same or another service location within

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 21337

the Company's system; provided the amount billed is not then in dispute; or e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for refusal to serve.

2.6 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending upon approvals and permits required, the extent of the facilities to be built, and the Company's work load at the time.

2.7 INSUFFICIENT GROUNDS FOR REFUSAL TO SERVE The Company may not refuse service to any Applicant for any of the following reasons - a) Failure to pay any bill of another Customer, except as provided above; b) Failure to pay for merchandise or other charges for non-utility service purchased from or through the Company.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 3 SERVICE AREA North Texas SECTION 3 METERING AND DELIVERY OF GAS 3.1 METER LOCATIONS Each Applicant shall furnish and subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and protected from damage. Meters shall not be located within any enclosed structure not solely intended as a meter house.

3.2 POINT OF DELIVERY The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery.

3.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land shall be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately.

3.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 4 SERVICE AREA North Texas SECTION 4 INSTALLATION OF EQUIPMENT 4.1 FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, installation of the underground piping between the property line and the inlet side of the meter shall be handled in accordance with the following requirements: The Applicant shall have the underground piping from the property line to the meter location constructed at his own expense. The Company may, at its option, furnish the service cock and any necessary regulator and require that the Applicant include construction of the meter installation in the work done by him at his expense. All facilities installed by the Applicant shall comply with the specifications of the Company applicable to the particular portion thereof. That portion of the service line from the property line to the meter set shall remain the Applicant's property and shall thereafter be maintained by him.

4.2 FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall relieve the Applicant of the responsibility for the facilities installed by him.

4.3 CODES AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances

TARIFF CODE: DS	RRC TARIFF NO: 21337
-----------------	----------------------

including any requirements for inspection by appropriate regulatory authority, and shall be properly designed for the pressure and volumes to be handled. 4.4 CHECKS AND TESTS The Company shall have the right to inspect new installations prior to institution of service and make any test of the Applicant's facilities it deems necessary. 4.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 5 SERVICE AREA North Texas SECTION 5 EXTENSION OF FACILITIES 5.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance or submit an acceptable bond to guarantee payment of the amount necessary to justify the installation. 5.2 DESIGN AND COST OF FACILITIES As soon as practical after the application for service is received, the Company shall determine the extent of the facilities required to serve the Applicant and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the location for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant. 5.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed in dedicated streets or rights-of-way provided to the Company on its form. Unless prohibited or otherwise limited by local authority, an allowance of 150 feet of main shall be given for each potential Customer to be served from the proposed main extension. Extensions beyond the 150 foot limit will be installed at cost and charged to the Customer. 5.4 ADVANCES The difference between the total cost of facilities as determined above and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 5.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall commence construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-ways across the Applicant(s) land(s), these right-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of the documents). 5.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 21337

provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s).

The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given shall be given for each additional Customer served. 5.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five-year period, any remaining amount of the advance shall be retained by the Company as a Contribution in Aid of Construction. 5.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting out the method of calculation of the refund and the balance remaining unrefunded shall be mailed to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five-year period of the extension agreement shall be retained by the Company and considered a Contribution in Aid of Construction. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 6 SERVICE AREA North Texas SECTION 6 CUSTOMER OWNED SYSTEMS 6.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of its suppliers. 6.2 MASTER METERS The Company shall provide service through a master meter into the piping system of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 7 SERVICE AREA North Texas SECTION 7 SECURITY DEPOSITS 7.1 REQUIREMENTS The Company may require a security deposit from any present or prospective Customer in accordance with Section 2 of these rules. The amount of the deposit for residential service shall not exceed 1/6 of the estimated annual billing except that when the actual usage exceeds twice the amount estimated, the amount of the required deposit may be increased proportionately. 7.2 RECEIPTS The Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of the receipt. 7.3 INTEREST The Company shall pay interest on all security deposits for the time held at the then lawfully established rate per annum except when - a) the deposit is held less than 30 days; b) notice is sent to the Customer's last known address that the deposit is no longer required; c) the service to which a deposit relates has been discontinued; or d) all or any part of the deposit has been applied to a Customer's account. Interest on deposits earned during the preceding year shall be paid annually either by check or as a credit on the monthly bill at the Company's option. Whenever the deposit of any Customer is returned, the Company shall pay all previously unpaid interest.

7.4 REFUND OF DEPOSITS Except where locally established regulations provide otherwise, deposits for residential service will be promptly refunded with accrued interest when: a) service is not connected or, after disconnection of service, the balance, if any, is in excess of the unpaid bills for service furnished. b) the Customer has paid bills for residential service for 12 consecutive months without having service disconnected and without having more than two occasions when a bill was delinquent and when the Customer is not delinquent in the payment of current bills. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 8 SERVICE

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

AREA North Texas SECTION 8 GAS MEASUREMENT 8.1 PRESSURE The standard serving and measurement pressure shall be determined by the assumed average atmospheric pressure in the service area as follows: Standard Serving Atmospheric District or Service Area Pressure, PSIA Pressure, PSIA Mineral Wells Region 14.65 14.40 Weatherford Region 14.65 14.40 Jacksboro Region 14.65 14.40 Breckenridge Region 14.65 14.15 Graham Region 14.65 14.15 The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under normal load conditions. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted. 8.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one thousand cubic feet. A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at the pressure of gas in the meter and a temperature of 60 degrees Fahrenheit. Whenever the Company delivers any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation. 8.3 BILLING UNIT Unless otherwise specified on the rate schedule or by special agreement, Customers shall be billed on the basis of CCF measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. 8.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure compensating meters whenever the cost of this equipment is justified by the volumes served. Such meters shall be equipped with devices which mechanically correct the actual measured volumes in accordance with Boyles Law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 8.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units. 8.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing units or may be furnished with devices designed to correct the actual volumes to be standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correction devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculation based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specified gravity of the gas shall be assumed to be the value last indicated by test or reported by the

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 8.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter chart period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

WTH2 b 8.7 BTU MEASUREMENT The heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.65 psia and temperature of 60 degrees F. on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period expressed in the same units and measured at or corrected to 14.65 psia and 60 degrees F., and multiplying by the factor necessary to convert the heating value/measurement units to the billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods: a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type. b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type. i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents.

8.8 CUSTOMER OWNED METERS Any Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for billing purposes. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 9 SERVICE AREA North Texas SECTION 9 METER READING AND ACCURACY 9.1 METER READING Meters shall be read as nearly as may be practical on the same day of each calendar month. 9.2 ACCESS TO THE METER The Customer shall permit the Company access to the meter at all times for readings thereof and at all reasonable times for maintenance, testing or replacement of the meter. 9.3 METER ACCURACY The nominal accuracy of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results. Industrial Customer meter tests performed under these conditions shall be charged at the following fee schedule:

METER TYPE AND CAPACITY	SERVICE CHARGE	Positive
Displacement 251 to 1500 cubic feet per hour	\$ 25.00	1501 to 3000 cubic feet per hour
50.00	3001 to 5000 cubic feet per hour	50.00
100.00	Turbine meters	200.00
	Orifice	All Sizes
		\$ 100.00

If the test proves the meter is registering above or below the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter.

9.5 BILLING ADJUSTMENTS - GENERAL SERVICE If meter tests reveal more than a 2% error the previous readings will be corrected for the past six months or the time since the last test of the meter, whichever is shorter. Resulting over or underbillings will be corrected in subsequent bills. If a meter is found not to have registered for a period of time, the Company will charge for unmeasured consumption for a period of not longer than three months prior to the time the meter is found not to be registering. The amount used but not measured will be based upon consumption during a like period by the same Customer at the same location or, if this information is unavailable, on consumption under similar conditions at other locations.

9.6 PROVISIONS FOR SPECIAL SERVICE The following modifications shall apply to the provisions of this Section for all Special Service rate schedules and service under special written agreements: a) Orifice meters shall be calibration tested at least four times per year at intervals not to exceed 120 days. Should the Customer so elect, tests shall be made in the presence of his representative. b) Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill either up or down shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate. i) By using registration of the Customer's check meter(s) if proved correct. ii) By correcting the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or iii) By estimating the quantity of gas delivered by comparison with deliveries during preceding period under similar conditions when accurate registration was obtained.

9.7 PERIODIC TESTS The Company shall make periodic tests of meters, associated devices and instruments to assure their accuracy. The basic periodic test interval shall not be longer than provided for in the following schedule.

Positive displacement meters:	401 to 1500 cubic feet per hour	7 years
1501 to 3000 cubic feet per hour	5 years	3001 to 5000 cubic feet per hour
2 years	Over 5000 cubic feet per hour	1 year
6 months	Turbine meters	1 year
	Base pressure correction devices	2 years
	Service pressure regulation devices	Quarterly

displacement meters rated at 400 cubic feet per hour or less shall be replaced with new or remanufactured meters at intervals of not greater than 13 years in service. Meters removed under this program will be tested and records of the tests evaluated to determine if the accuracy of the sample group justifies adjustment of the replacement cycle.

9.8 METER TEST PROCEDURE AND ACCURACIES Meters and/or associated meter devices shall be tested at the points and adjusted to the tolerances prescribed below. The test of any unit of metering equipment shall consist of a comparison of its accuracy to a standard. Positive displacement meters:

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

Accuracy at test points Flow Adjusted to Within Check flow 1.5% Not less than rated flow 1.5% Overall accuracy The overall accuracy at check flow and the overall accuracy at not less than full rated flow shall agree within one percent. Orifice meters: Accuracy at the test points must be within 2% plus or minus. General: i) All meters and/or associated metering devices when tested shall be adjusted as closely as possible to the condition of zero error. ii) All tolerances are to be interpreted as maximum permissible variations from the condition of zero error. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 10 SERVICE AREA North Texas SECTION 10 BILLING AND PAYMENT OF BILLS 10.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full within 15 days after the date the bill is rendered. Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of its authorized pay stations. If not paid by the date due, the bill shall be considered delinquent. 10.2 PARTIAL BILLING Whenever service is rendered for less than fifteen days during any monthly billing period, the Customer shall be billed for his actual consumption or the regular minimum charge in the applicable rate schedule, whichever is the larger amount. 10.3 ESTIMATED In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption. The next bill based on an actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for his actual consumption. 10.4 DISPUTED BILLS (i) In the event of a dispute between a Customer and the Company regarding any bill for service, the Company will make such investigation as is required by the particular case and report the results to the Customer. If the Customer wishes to obtain the benefits of subsection (ii) hereunder, notification of the dispute must be given to the Company prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the Company shall inform the Customer of the complaint procedures of the appropriate regulatory authority. (ii) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: (1) resolution of the dispute, or (2) the expiration of the sixty day period beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period for the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar Customers and under similar conditions. 10.5 RETURNED CHECKS Whenever the payment for gas service or any other charge permitted under this Tariff is rendered by check and such check is refused by the bank on which it is drawn, the Company may make an additional charge to cover the costs of handling and rebilling. The Company must post a notice of the charge in its principal office in the service area at least ten days in advance of the institution hereof and keep such notice in place as long as the charge is in effect. Notice shall be posted adjacent to the place of acceptance of payment. 10.6 BILLING INFORMATION The Customer's bill shall show all the following information: a) The date and meter reading at the beginning and at the end of the period of which the bill is rendered; b) The number and kind of units metered; c) The applicable Rate Schedule or code; d) The monthly cost of gas adjustment, if authorized, together with the factor by which it is computed, if the total charge for gas service is billed separately from the cost of gas adjustment, if any; e) The total amount due for utility service and tax; f) The date by which the Customer must pay the bill in order to avoid penalty, delinquency, or termination proceedings; g) A distinct marking to identify an estimated bill; h) Any conversions from meter reading units to billing units, or any other calculations to determine billing units from recording to other devices,

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

or any other factors used in determining the bill; i) The information required in paragraph b, c, d, e, f, and h above shall be arranged to permit the Customer to compute his bill by using the applicable Rate Schedule which shall be supplied when requested by the Customer.

TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 11 SERVICE AREA North Texas SECTION 11 CURTAILMENTS 11.1 CURTAILMENTS Whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section. 11.2 PRIORITY CLASSES All Customers served by the Company shall be classified into one of the following priority groups: Priority 1 - All Domestic service. Priority 2 - All small Commercial and Industrial service (less than 50 Mcf on an average day). Priority 3 - All other Commercial service. Priority 4 - Industrial service, other than boiler fuel, for usage through one meter of more than 50 Mcf but less than 200 Mcf on an average day. Priority 5 - Industrial service, other than boiler fuel, for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 6 - Industrial service, other than boiler fuel, for usage through one meter of more than 1500 Mcf on an average day. Priority 7 - Industrial boiler fuel for usage through one meter or less than 200 Mcf on an average day. Priority 8 - Industrial boiler fuel for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 9 - Industrial boiler fuel for usage through one meter of more than 1500 Mcf on an average day. For the purpose of this classification each separately billed meter shall be considered a separate Customer. When service which may fall into more than one priority group is rendered through a single meter, the entire service shall be placed in the lowest (highest numbered) applicable priority group.

11.3 METHOD OF CURTAILMENT Curtailment shall be ordered ratable insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class or other than Priorities 1 and 2. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority group or subgroup. 11.4 CLASS AND GROUP CURTAILMENTS No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e. higher numbered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service. 11.5 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any Customer (other than a Customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened. 11.6 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 12 SERVICE AREA North Texas SECTION 12 QUALITY OF GAS 12.1 HEATING VALUE Except as otherwise provided by local regulatory authority gas delivered to Consumers in all service areas shall have a gross heating value of at least 1,000 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics

GAS SERVICES DIVISION

-----------------	----------------------

of the gas are not significantly altered. 12.2 CHARACTER OF THE GAS All gas furnished to Consumers in Texas shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered. 12.3 ODORIZATION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 13 SERVICE AREA North Texas SECTION 13 SERVICE WORK 13.1 FREE SERVICE When requested by the Consumer, the Company shall perform the following service work on the Consumer's premises and appliances on a no-charge basis: a) gas-air adjustments only, on standard domestic and commercial gas burning appliances when service is initiated; and b) leakage and pressure investigations to the point at which the condition is determined to exist in the Consumer's piping or equipment and service has been disconnected or the Consumer's facilities are free from leaks. No other work shall be performed on any Consumer's appliances or house piping on a no-charge basis. 13.2 OTHER SERVICE The Company may, at its option, undertake other service work for which it has trained personnel available on a charge basis. Charges shall be made at the Company's standard rate for the service area and such work and associated revenues and costs shall be considered non-utility. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 14 SERVICE AREA North Texas SECTION 14 MAINTENANCE OF EQUIPMENT 14.1 MAINTENANCE BY COMPANY The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter on the Customer's premises at any reasonable time or in the event of an emergency at any time, to read the meter or make any necessary inspection, repair, adjustment or replacement of any property owned by the Company. 14.2 MAINTENANCE BY THE CUSTOMER The Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Customer, he shall reimburse the Company for all costs of repairing or replacing the damaged property. 14.3 LEAKS - RIGHT TO DISCONNECT FOR The Customer shall give the Company notice of any escaping gas as soon as it is detected by him. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If any leakage is found to be from the Customer's facilities, the Company shall have the right to disconnect service immediately until the Customer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by Company forces. The Company shall have the right to disconnect service immediately if any of the Customer's appliances or equipment is, in Company's opinion, operating in an unsafe condition. 14.4 PRESENT CUSTOMER OWNED YARDLINES Any facilities upstream of the meter installed by the Customer prior to the effective date of this Tariff shall remain the property and responsibility of the Customer, providing whenever the condition of the facility is such that replacement is required, the work shall be done by the Company under the same terms and conditions as for a new service as described in Paragraph 4.1 of this Tariff. The Customer shall reimburse the Company in advance for the estimated cost of the new facility at the prices filed with the regulatory authority. Thereafter it shall become the property and responsibility of the Company. 14.5 RESPONSIBILITY Nothing in this Section shall make the Company responsible for the safe upkeep of Customer owned facilities. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 15 SERVICE AREA North Texas SECTION 15 DISCONTINUANCE OF SERVICE 15.1 BY CUSTOMER A Customer shall be responsible for all charges for gas service from the time he gives notice of the intention to

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS	RRC TARIFF NO: 21337
-----------------	----------------------

discontinue service until the Company has read the meter or for three working days whichever is the shorter period of time. 15.2 FOR NON-PAYMENT A Customer's utility service may be disconnected if the bill has not been paid or a deferred payment plan has not been entered into within five working days after the bill has become delinquent and proper notice has been given. Proper notice consists of a deposit in the United States Mail, postage prepaid, or hand delivery to the Customer at least five working days prior to the stated date of disconnection, with the words Termination Notice or similar language prominently displayed on the notice. The notice shall be provided in English and Spanish as necessary to adequately inform the Customer, and shall include the date of termination, the hours, address, and telephone number where payment may be made, and a statement that if a health or other emergency exists, the Company may be contacted concerning the nature of the emergency and the relief available, if any, to meet such emergency. The Company will not discontinue service to a delinquent residential Customer permanently residing in an individually metered dwelling unit when that Customer establishes that the discontinuance of service will result in some person residing at that residence becoming seriously ill or more seriously ill if service is discontinued. Any Customer seeking to avoid termination of service under this section must make a written request supported by a written statement from a licensed physician. Both the request and the statement must be received by the Company not more than five working days after the date of the delinquency of the bill. The prohibition against service termination provided by this section shall last twenty days from the date of receipt by the Company of the request and statement of such lesser period as may be agreed upon by the Company and the Customer. The Customer who makes such request shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings. No Customer shall be disconnected for non-payment: a) After payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel of the payment; or b) Before 8:00 AM or after 5:00 PM on any day or on Friday, Saturday, Sunday, holiday, or day before a holiday unless Company personnel are available on that day for the purpose of making collections or reconnecting service. 15.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any consumer for any of the following reasons: a) Without notice for the presence of what the Company considers to be a dangerous condition on the Consumer's premises or if any emergency exists. b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with his knowledge. c) Within five working days after written notice if the Consumer uses his equipment in any way which causes or creates a potential for adverse effect on the Company's service to others. d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class 1 or 2. e) Five working days after written notice for refusal to grant Company's personnel access to the Consumer's premises at any reasonable time for any lawful purpose. f) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of this Tariff or violation of any applicable laws, order or ordinances, provided that disconnection may be made without notice if the violation creates a dangerous condition. 15.4 RIGHT-OF-ENTRY The Company shall have the right to enter upon the Consumer's premises at any reasonable time to shut off service in accordance with this Tariff and to remove its meter and other property. 15.5 ABANDONMENT OF SERVICE Service shall not be abandoned (permanent disconnect of any but a temporary Customer), unless requested by the Customer(s), without permission of the regulatory authority. Failure of the Customer to reinstitute service after disconnection within a reasonable period of time shall be considered a request for permanent discontinuance of service. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 16 SERVICE AREA North Texas SECTION 16 RE-ESTABLISHMENT OF SERVICE 16.1 FROM NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

of his account then due plus the prescribed reconnect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer re-establish satisfactory credit in accordance with this Tariff. The first time a Customer requests re-establishment of service after disconnection for non-payment, the Company may waive the deposit. Thereafter full compliance of this Section is required. 16.2 FROM OTHER REASONS When service has been disconnected for any other reason, the Customer shall be required to request reconnection in writing. If disconnection has been made by the Company, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a reconnect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment. 16.3 RECONNECTION The Company shall restore service as soon as feasible after receipt of the request and compliance with the requirements of this Section. The Company shall charge a non-refundable reconnect fee to all Customers. When the Customer requests reconnection at a time such that because of already scheduled work, reconnect cannot be made during working hours on the same day the request was made, the Company shall, upon the Customers' request, reconnect the service after working hours. For such after-hours reconnection the Customer shall pay an additional fee if the call can be completed in 15 minutes by a serviceman already on duty. If additional time is required on the standard rates for service work, provided however, the Consumer must be advised of the additional charge to be made before the work is done. The Company may then schedule the call at any time to fit its work schedule but the after-hours charge shall be collected as long as any other work is done on overtime. In the event the Company is required to make more than one call because the reason for disconnection has not been properly corrected, the appropriate reconnect fee shall be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operations. TEXAS GAS SERVICE COMPANY NORTH TEXAS REGION SECTION 17 SERVICE AREA North Texas SECTION 17 BUDGET PAYMENT PLAN 17.1 DESCRIPTION Residential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner: (a) The Plan year shall be the 12 months pending each year with the Customer's June bill. The Plan monthly payment shall be determined as follows: (1) for Customers electing to commence with the July bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's Plan year. (2) for Customers electing to commence with the August or later bill, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year from commencement in the Plan until the next following June bill. Succeeding years shall be computed on an annual basis as in subparagraph (1) above. (b) The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon most recent available prior 12-month period at the same service location; or, if there is not at least 12 month prior service at the same service location, then the charges shall be based upon consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known changes. (c) The Company reserves the right to adjust the remaining monthly Plan payments of any Customer at any time for changes in condition or rates. (d) The Company shall advise each Customer in the Plan of the monthly Plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of that month's Plan payment. The Customer shall continue to pay the monthly Plan payment amount each month for gas service, notwithstanding the current

gas service charge shown on the bill. (e) Any other charges incurred by the Customer shall be paid monthly when due in addition to the monthly Plan payment. (f) The June gas bill for each Customer in the Plan shall be handled as follows: (1) any amount due the Company up to the monthly Plan payment shall be paid in full by the due date shown on the bill. (2) if the balance due the Company exceeds the monthly Plan payment, a payment equal to that amount will be paid and the excess shall be utilized in computing the next Plan year's monthly Plan payment. (3) any balance due the Customer shall also be utilized in computing the next Plan year's monthly Plan payment. (g) Interest will not be charged the Customer on accrued debit balances nor paid by the Company on accrued credit balances. (h) Any amount due the Customer or due the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the Plan. (i) Any Customer's participation in the Plan may be discontinued by the Company if the monthly Plan payment has not been paid. (j) If any Customer in the Plan shall cease, for any reason, to participate in the Plan, then the Company may refuse that Customer's reentry in the Plan until the next following July. WTH2 c TEXAS GAS SERVICE COMPANY Texas Tariff - North Texas NORTH TEXAS REGION Weatherford Service Area (Environs) QUALITY OF SERVICE RULE ADDENDUMS AND AGREEMENTS ON INTERPRETATION [Note regarding Deposits: Per the information submitted by the Company to the Railroad Commission of Texas on 4/21/92, the current Residential Customer Deposit is \$50.00.] [Note regarding Service Fees: Per Company letter dated 4/3/98 to the Railroad Commission of Texas, an agreement was reached with the Railroad Commission of Texas Audit Staff on the interpretation of Tagged Door / Can't Get In / Reread / High Bill Investigation / or Special Scheduling Service Rates. The Company agreed that effective April 3, 1998, there will be no charge for these services until such time that changes are approved by the appropriate regulatory authority.] ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written

notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over, and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site. Adopted October 21, 2003

-----------------	----------------------

accordance with the prices, terms, and conditions provided for in its Tariff and regulations.1.2 RATE SCHEDULES All Customers shall be served under rate schedules filed with the Railroad Commission. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer regarding the most advantageous rate for his usage if more than one rate is applicable. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error may be corrected immediately. In the event of a question regarding the Customer's classification, the questions shall be resolved by reference to the coding of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office Management and Budget.1.3 DEFINITIONSThe following definitions shall apply to the indicated words as used in this Tariff: Company: Texas Gas Service Company Applicant: Any person, organization or group of persons or organizations making a formal request either orally or in writing for gas service from the Company. Customer: Any person or organization now being billed for gas service whether used by him or her, or by others. The Commission: The Railroad Commission of Texas. The Regulatory Authority: The Railroad Commission of Texas. Consumer: Any person or organization receiving and using gas from the Company for his or her own appliances or equipment whether or not the gas is billed directly to him or her, or to a second party. (For example, in the case of a rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer.) Domestic Service: Service to any Consumer which consists of gas used directly for heating, air conditioning, cooking, water heating and similar purposes whether in a single or multiple dwelling units. Commercial Service: Service to Consumers engaged primarily in the sale or furnishing of goods and services and any usage not otherwise provided for. Industrial Service: Service to Consumers engaged primarily in a process which changes raw or unfinished materials into another form of product. This classification shall embrace all Consumers included in Division A (except Major Groups 01 and 02) and Division D of the Standard Industrial Classification Manual. Agricultural Service and Irrigation or Irrigation Pumping Service: Service to Consumers engaged in agricultural production (SIC Division A - Major Group 01) who use gas for operating engine driven pumping equipment. Power Generation Service: Service to Consumers for the purpose of generating electricity. This service may be further divided into direct generation in which the gas is used to power the prime mover and indirect generation in which the gas is burned in a boiler and the generator is steam powered. Firm Service: Service under any rate schedule which does not specifically provide for interruption of service for peak shaving purposes. Firm service is nevertheless subject to the curtailment provisions of this Tariff. Interruptible Service: Service under any rate schedule which specifically provides for interruption of service for peak shaving purposes. Temporary Service: Any service which will not be utilized continuously at the same location for a period of two or more years.General Rate Schedule: A rate schedule available to all Customers of the appropriate class or classes for usages indicated therein. Special Rate Schedule: A rate schedule designed for a specific Customer, but usually available to others of the same class similarly situated through negotiations with the Company. Optional Rate Schedule: A General Rate Schedule which may be selected by a Customer in lieu of another general schedule (may require installation of special equipment). Transportation Rate Schedule: A rate schedule designed for service to any Customer for the transportation of Customer owned natural gas through the Company's distribution system. Alternate or Standby Fuel: Any fuel and the facilities for generating, storing or using such fuel owned by a Consumer for the purpose of continuing the operating of his equipment during periods of interruption of service by the Company. Plant Protection Gas: The minimum gas volumes required to prevent physical harm to plant facilities or danger to

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

plant personnel when such protection cannot be afforded through use of alternate fuel. Feedstock Gas: Gas used as a raw material for its chemical properties in creating an end product. Boiler Fuel Gas: Gas used for boiler fuel to generate steam or hot water regardless of the end use to which the steam or hot water is put. Average Day Usage: The demand of a given Customer for gas in any one month divided by 30. Demand is considered to be equivalent to consumption during each billing month, provided however, that when service has been curtailed, demand shall be considered to be actual consumption plus estimated curtailment during the period. System: Any group of interconnected pipelines or mains owned or operated by the Company and so situated that they will be unaffected by changes in operating of any other such group of facilities. Restricted Service Area: Any service area in which additions of Consumers and/or increases in existing usage is restricted by order of the Regulatory Authority.

TEXAS GAS SERVICE COMPANY Section 2 Texas Tariff - Possum Kingdom SECTION RESERVED FOR MAP OF SERVICE AREA TEXAS GAS SERVICE COMPANY Section 3 Texas Tariff - Possum Kingdom

Note: Section 3 was originally reserved for filing of the Service Rate Schedules that are now filed separately. This page is inserted in the place of Rate Schedule No. 1A, Adjustments to Basic Rate. The adjustments, which are applied to the price for each Ccf delivered to Customers serviced in the Possum Kingdom Service Area under Rate Schedules 10, 20, 30, and 40 are filed monthly with the Railroad Commission of Texas. TEXAS GAS SERVICE COMPANY Section 4 Texas Tariff - Possum Kingdom

CONDITION OF SERVICE 4.1 PROVISION OF SERVICE The Company will provide gas service to any person or organization located within the unincorporated area of Palo Pinto County, Texas around Possum Kingdom Lake from its facilities or in certain cases, the facilities of its supplier, in accordance with the provisions of this Tariff including Rate Schedules and Rules of Service. Service provided directly from the facilities of others may be provided only with the approval of the owning company and shall thereafter be continued only as long as gas of satisfactory quality and quantity is available at the location.

4.2 FEES AND CHARGES All fees and charges made by the Company for utility service - gas delivered and that work necessary to maintain service, shall be those provided for in this Tariff.

4.3 RESALE OF GAS Gas delivered by the Company shall not be redelivered or resold for the use thereof by others unless otherwise expressly agreed to in writing by the Company - except, however, that those Customers purchasing gas for redistribution to the Customer's tenants may separately meter each tenant distribution point for the purpose of prorating the Customer's actual purchase price of gas delivered among the various tenants on a per unit basis. Any other allocation will constitute resale and is prohibited.

4.4 TRANSPORTATION ACROSS STATE LINES No gas supplied by the Company shall be transported across state lines for any purpose without the express written permission of the Company. Violation of this Paragraph shall be considered cause for immediate disconnection of service without notice.

4.5 CONTINUITY OF SERVICE a) Service interruptions. i) The Company shall make all reasonable efforts to prevent interruptions of service. When interruptions occur, the Company shall reestablish service within the shortest possible time consistent with prudent operating principles so that the smallest number of Customers are affected. ii) The company shall make reasonable provisions to meet emergencies resulting from failure of service, and the Company shall issue instructions to its employees covering procedures to be followed in the event of an emergency in order to prevent or mitigate interruption or impairment of service. iii) In the event of national emergency or local disaster resulting in disruption of normal service, the Company may, in the public interest, interrupt service to other Customers to provide necessary service to civil defense or other emergency service agencies on a temporary basis until normal service to these agencies can be restored. b) Record of interruption. Except for momentary interruptions which do not cause a major disruption of service, the Company shall keep a complete record of all interruptions, both emergency and scheduled. This record shall show the cause of interruptions, date, time duration, location, approximate number of Customers

TARIFF CODE: DS RRC TARIFF NO: 21337

affected, and, in cases of emergency interruptions, the remedy and steps taken to prevent recurrence.c) Report to The Commission. The Commission shall be notified in writing within 48 hours of interruptions in service affecting the entire system or any major division thereof lasting more than four hours. The notice shall also state the cause of such interruptions. If any service interruption is reported to the Commission otherwise (for example, as a curtailment report or safety report), such other report is sufficient to comply with the terms of this paragraph. d) The procedure under which curtailments of service will be made is described in Section 14 of this Tariff.e) The Company does not guarantee uninterrupted service to any Customer and shall not be liable for damages resulting from loss of service.4.6 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in the Company's Mineral Well's Office and its Division Office in Austin. The Tariff shall be available for examination in the locations above to any Customer or Applicant requesting it and notice to this effect shall be posted in the office. Upon the request of any Customer or Applicant, the Company shall make copies of the Tariff which may be purchased by the Customer or Applicant at the Company's Mineral Well's Office. The Company may charge for each copy a fee which is not in excess of the Company's reasonable cost in reproducing the material.4.7 CUSTOMER INFORMATIONThe Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. Upon any Customer's request, the Company shall inform the Customer how to read the Company's meter. The Company shall annually provide each Customer with notice of the availability of a concise description in English and Spanish of the Customer's rights and the Company's obligations under this Tariff. The Company's new Customers shall be provided with a description at the time service is initiated. 4.8 CUSTOMER COMPLAINTSUpon complaint to the Company by a Customer either at the Company's office, by letter, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final settlement of the complaint. Complaints which require no further action by the Company need not be recorded. Each complainant shall be advised of his or her right to file the complaint with the Regulatory Authority if not satisfied by the Company.Upon receipt of a complaint, either by letter or by telephone, from the Regulatory Authority on behalf of a Customer, the Company will make a suitable investigation and advise the Regulatory Authority and complainant of the results thereof. An initial response must be made by the next working day. The Company must make a final and complete response within 15 days from the date of the complaint, unless additional time is granted within the 15 day period. TEXAS GAS SERVICE COMPANY Section 5 Texas Tariff - Possum Kingdom INITIATION OF SERVICES5.1 REGULAR SERVICEApplication for service shall be made at either the local office or by telephone. Each Applicant must comply with the appropriate requirements of this Tariff before service shall be instituted. No written agreement shall be required for residential service under the standard provisions of this Tariff; commencement of service by the Company and the use of gas by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply. Each Applicant may be required to produce an identification card bearing a photograph of Applicant.5.2 SPECIAL CONTRACTSUnder certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply.5.3 FEES AND CHARGES The company shall charge a non-refundable fee to each Applicant to compensate for cost

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 21337

involved in connection of service as specified in Section 22.1 of this Tariff. 5.4 ESTABLISHMENT OF CREDIT Each Applicant for service shall be required to make a Security Deposit in accordance with Section 10 of this Tariff to establish a satisfactory credit standing. These Deposits shall be computed in the same manner for the same class of service, providing however, that a Deposit may be waived if a) The Applicant has been a Customer for the same kind of service within the last two years and did not have more than one occasion in which a bill for service from any such utility service account was paid after becoming delinquent during the last 12 month period of service and no disconnection for non-payment was made; (applicable to residential Customers only); b) The Applicant furnishes in writing a satisfactory guarantee to secure payment of bills; c) The Applicant demonstrates a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification (applicable to residential Customers only); d) The Applicant is 65 years of age or older provided they have no outstanding balance for natural gas utility service which accrued within the last two years (applicable to residential Customers only); e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis; or f) The application is made for or guaranteed by an agency of the Federal, State or local government.

5.5 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons: a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff; b) Failure of the Applicant to furnish any service or meter location specified for service under this Tariff; c) Existence of an unsafe condition such as a leak in the Applicant's piping system which, in Company's opinion, may endanger life or property; d) The Applicant is indebted to the Company for the same class of utility service at the same or another service location within the Company's system; e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for the refusal to serve.

5.6 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending on approvals and permits required, the extent of the facilities to be built, and on the Company's workload at the time. TEXAS GAS SERVICE COMPANY Section 6 Texas Tariff - Possum Kingdom METERING AND DELIVERY OF GAS

6.1 METER LOCATION Each Applicant shall furnish and subsequently maintain a suitable location on his premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be accessible for reading, adequately ventilated and not be subject to damage. Meters shall not be located within any enclosed structure not solely intended as a meter house.

6.2 POINT OF DELIVERY The point of delivery of gas from the Company to the Customer shall be at the outlet side of the Company's meter, provided however, that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas delivered to the Consumer shall pass from the Company at the point of delivery.

6.3 MULTIPLE METER Each Customer or group of Customers located on the same lot or tract of land shall normally be served from a single meter location. The Company may at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately, provided that any combined billings in effect at the time of adoption of this Tariff may be continued until the affected Customer discontinues service or upon order by the Regulatory Authority.

6.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection of any kind on any of the Company's facilities upstream of the Company's meter or shall knowingly permit any other person to make such connection. TEXAS GAS SERVICE COMPANY Section 7 Texas Tariff - Possum

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

Kingdom INSTALLATION OF EQUIPMENT7.1 FURNISHED BY THE COMPANYThe Company shall furnish and install at its expense, the service pipe from the Company's main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, the Company shall determine the estimated cost of that portion of the service between the property line and the meter set. This estimate shall be based on the size and footage to be installed. This amount shall then be contributed by the Applicant before construction. The entire service shall become the property of the Company and shall be operated and maintained by it.7.2 FURNISHED BY THE APPLICANTThe Applicant shall furnish and install at his expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company as described in Paragraph 7.1 above. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility for the facilities installed by him or her.7.3 CODES AND ORDINANCESAll piping and installations owned by the Applicant shall comply with all applicable federal, state, city or town ordinances and shall be properly designed for the pressures and volumes to be handled. In those locations where there are no appropriate ordinances the applicable provisions of the National Fuel Gas Code, Z223.1 or amendments thereto shall apply. 7.4 CHECKS AND TESTSThe Company shall have the right to check new installations prior to institution of service and to make any test of the Applicant's facilities it deems necessary.7.5 REFUSAL TO SERVEThe Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Institution of service, however, shall not be considered to be acceptance or approval of such facilities by the Company.

PoK2 b TEXAS GAS SERVICE COMPANY Section 8 Texas Tariff - Possum Kingdom EXTENSION OF FACILITIES8.1 EXTENSION OF MAINSThe Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation.8.2 DESIGN AND COST OF FACILITIESAs soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.8.3 ALLOWANCE FOR NEW BUSINESSThe Company shall also determine the number of existing potential permanent Customers located along the route of the extension which are expected to be served therefrom. To be included, the occupant of each premises must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

agreement executed on the Company's form. An allowance of 150 feet of distribution main shall be given for each potential Customer whose premises exist at the time of application to be served from the proposed main extension. In order to qualify for this allowance, the Customer must file an application and agree to initiate gas service upon completion of the Company's facilities.

8.4 ADVANCE The difference between the total cost of facilities as determined in Paragraph 8.2 above and the initial allowance, if any, shall constitute the required advance. The monetary value of the allowance shall be determined by multiplying the number of Applicants for whom the allowance was given by the cost of facilities divided by the footage allowance per Customer. All advances must be made in cash. The Applicant shall have 90 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance of \$50.00 or less.

8.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been made or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s) these rights-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

8.6 REVIEW OF ADVANCE The Company shall review each extension agreement on the first anniversary of the signing of that agreement. If the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). The Company shall thereafter review the extension agreement at its second through fifth in-service anniversary dates. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund equal to the standard amount then being given as specified in Paragraph 8.3 hereof, shall be given for each additional Customer served. In addition, the Company shall refund up to \$1000 for each non-residential Customer served under a general service rate schedule which does not specifically provide for interruptible service. The amount of the special refund shall be \$100 for each sales unit (the annual average volume per residential Customer) sold to that particular Customer during the first year of service.

8.7 REFUND LIMITATIONS The Company may, at its sole option, make refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

8.8 DELIVERY OF REFUNDS When a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made or his assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five year period of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

TEXAS GAS SERVICE COMPANY Section 9 Texas Tariff - Possum Kingdom CUSTOMER OWNED SYSTEMS

9.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

system owned by the Company or one of its suppliers.9.2 MASTER METERSThe Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis; provided, however, that those Customers purchasing gas for redistribution to the Customer's own tenants only on the Consumer's premises may, separately meter each tenant distribution point for the purpose of prorating the Customer's actual purchase price of gas delivered among the various tenants on a per unit basis. TEXAS GAS SERVICE COMPANY Section 10 Texas Tariff - Possum Kingdom SECURITY DEPOSITS10.1 REQUIREMENTSThe Company shall require a security deposit from any present or prospective Customer in accordance with Paragraph 5.4 and 19.1 of this Tariff to guarantee payment of bills, and from any present Customer who during the last 12 consecutive months had on one or more occasion paid their utility bill after becoming delinquent. The amount of the deposit shall be as specified in Section 22.2. Residential deposits shall be retained by the Company until the Customer has paid bills for service for 12 consecutive bills without having service disconnected for non-payment of bill and without having more than two occasions in which a bill was delinquent and when the Customer is not delinquent in the payment of the current bills.10.2 RECEIPTSThe Company shall provide each Customer from whom a deposit has been taken with a non-assignable receipt for his deposit. The Company shall also maintain such records as may be necessary to permit any Customer to receive any deposit return to which he is entitled without presentation of receipt.10.3 INTERESTThe Company shall pay interest on all security deposits for the time held at the rate as set by the Public Utility Commission of Texas annually except when - a) the deposit is held 30 days or less;b) notice is sent to the Customer's last known address that the deposit is no longer required;c) the service to which the deposit relates has been discontinued; ord) all or any part of the deposit has been applied to a delinquent account. 10.3 INTEREST (Continued)Interest on deposits earned during the preceding year shall be paid during the first quarter of each calendar year. Payment shall be made either by check or as a credit on the monthly bill at the Company's option.10.4 RETURN OF DEPOSITSDeposits returned to the Customer in accordance with Paragraph 10.1 above shall be credited to the Customer's account once the good payment record is established. Whenever the deposit of any Customer is credited, the Company shall credit all previously unpaid interest. TEXAS GAS SERVICE COMPANY Section 11 Texas Tariff - Possum Kingdom GAS MEASUREMENT11.1 PRESSUREThe standard serving and measurement pressure shall be 4 ounces (0.25 psig) or 7 Water Column above the standard atmospheric pressure in the area served. Standard serving pressure and the atmospheric pressure determined to be the average in the Possum Kingdom Service Area, which applies to the environs of Possum Kingdom, are 14.65 psia and 14.40 psia, respectively. The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under a load condition of approximately 10 percent of meter capacity. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted.11.2 UNIT OF MEASUREMENTThe standard unit of measurement shall be one hundred cubic feet (Ccf). A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at 14.65 psia and at a temperature of 60 degrees Fahrenheit. Whenever the Company delivers gas at any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation.11.3 BILLING UNITUnless otherwise specified on the rate schedules or by special agreement, Customers shall be billed on the basis of Ccf measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS	RRC TARIFF NO: 21337
-----------------	----------------------

passing through the meter. Whenever the meter reads directly in hundreds or smaller units, a reading of one-half a billing unit or more (500 Cf or more) shall be considered a whole billing unit. Readings of less than one-half a unit shall be disregarded for billing. In those cases in which heating value is used as the billing unit, the calculation of the heating value in BTU's shall be made in accordance with Paragraph 11.7 of this Tariff. 11.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods: a) The Company may install pressure or pressure and temperature compensating measurement whenever the cost of this equipment is justified by the volumes served. Such measurements shall be equipped with devices which mechanically or electronically correct the actual measured volumes in accordance with Boyles law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 11.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units. 11.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing unit or may be furnished with devices designed to correct the actual volumes to the standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correcting devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculations based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specific gravity of the gas shall be assumed to be the value last indicated by test or reported by the Company's supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed to reflect the new gravity. 11.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, dated September, 1969, and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature. The arithmetical average of the temperature recorded during each meter charge period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure.d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance, impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.11.7 BTU MEASUREMENTThe heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.65 psia and temperature of 60 degrees F on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period, expressed in the same units and measured at, or corrected to, 14.65 psia and 60 degrees F, and multiplying by the factor necessary to convert the heating value/measurement units to the billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods:a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type.b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type.i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents.11.8 CUSTOMER OWNED METERSAny Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for billing purposes. TEXAS GAS SERVICE COMPANY Section 12 Texas Tariff - Possum Kingdom

METER READING AND ACCURACY12.1 METER READINGMeters shall be read as nearly as may be practical on the same day of each calendar month. Whenever a reading of a general service meter is missed or the meter is not registering, the Company shall estimate the amount of gas used during the period. Such estimates shall be based on either - a) that Customer's use of gas during the same period(s) in previous years;b) that Customer's normal use of gas during preceding months;c) the use of a like Customer for the period missed.If practical, an actual reading shall be made after two consecutive estimated bills. All meters in Special Service shall be read at least once a month. Whenever such a meter fails to register or is misread, the amount of gas used during the preceding period shall be estimated using data applicable to that Special Service Customer only. 12.2 ACCESS TO THE METERThe Customer shall permit the Company access to the meter at all times for reading thereof and at all reasonable times for maintenance, testing or replacement of the meter.12.3 METER ACCURACYThe limits of accuracy of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set. 12.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Requests for such test shall be made in writing and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his or her meter. If the test is to be performed after the standard period of presumed accuracy for the meter type or if the test is to be performed for a residential or small commercial Customer for whom no such test has been performed within the previous four (4) years for the same Customer at the same location, no service charge will be assessed. If such a test has been performed for the same Customer at the same location within

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

the previous four years, the utility is entitled to charge a fee for the test not to exceed \$15. If the test proves the meter is registering above the limits of accuracy, the Company shall refund the service charge to the Customer and, if not already done, promptly replace or adjust the meter. 12.5 BILLING ADJUSTMENTS - GENERAL SERVICE Whenever it has been determined that a meter reading and the subsequent billing has been in error, the Company shall recalculate the affected bill(s). If the date and amount of the error can be definitely fixed, the Company shall refund or may bill the affected Customer for the entire difference between the actual bills rendered and the amount which should have been billed. If the date and/or the amount of the error cannot be definitely fixed (such as a meter found to be registering fast or slow), the Company shall refund or bill an amount equal to the difference between the actual bills rendered and the amount which would have been billed if the meter was 100 percent accurate for one-half of the time since the last previous test or six months, at the Company's option. Rebilling for meters found not to register are limited to a three-month period previous to the time the meter is found not to be registering. Undercharges billed to the Customer may be repaid in a series of equal installments over a reasonable period of time. Meter errors found after a final bill has been rendered to any Customer shall not be refunded or collected. This Paragraph shall not apply to meter errors found as a result of routine testing in the Company's meter shop. 12.6 PROVISIONS FOR SPECIAL SERVICE Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill either up or down shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate: i) by using registration of Customer's check meter(s); ii) by correcting the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or iii) by estimating the quantity of gas delivered by comparison with deliveries during preceding period under similar conditions when accurate registration was obtained.

PoK2 c TEXAS GAS SERVICE COMPANY Section 13 Texas Tariff - Possum Kingdom BILLING AND PAYMENT OF BILLS 13.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full within 10 days after the date the bill is rendered. Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of authorized pay stations. If not paid by the date due, the bill shall be considered delinquent. 13.2 PARTIAL BILLING Whenever service is rendered for less than fifteen days during any monthly billing period, the Customer shall be billed for his actual consumption or the regular minimum charge in the applicable rate schedule, whichever is the larger amount. 13.3 ESTIMATED BILLS In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption determined in accordance with Paragraph 12.1 of this Tariff. The next bill based on an actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for his actual consumption. 13.4 DISPUTED BILLS a) In the event of a dispute between the Customer and the utility regarding the bill, the Company must forthwith make such investigation as is required by the particular case and report the results thereof to the Customer. If the Customer wishes to obtain the benefits of clause b) of this subparagraph, notification of the dispute must be given to the utility prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the Company shall inform the Customer of the complaint procedures of the appropriate Regulatory Authority. b) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS	RRC TARIFF NO: 21337
-----------------	----------------------

period at current rates until the earlier of the following: resolution of the dispute or the expiration of the 60-day period beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period during the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar customers and under similar conditions. TEXAS GAS SERVICE COMPANY Section 14 Texas Tariff - Possum Kingdom CURTAILMENTS14.1 CURTAILMENTS whenever the capacity of the Company's system(s) or limitations of the gas supplied to the Company from any source, is not sufficient to meet its total service commitments, interruptions or curtailments of service shall be made at such times and to the extent necessary to reduce the anticipated demand to the available supply. All such interruptions and curtailments shall be made in accordance with the provisions of this Section.14.2 PRIORITY CLASSES All Customers served by the Company shall be classified into one of the following priority groups: Priority 1 - All Domestic service. Priority 2 - All small Commercial and Industrial service (less than 50 Mcf on an average day). Priority 3 - All other Commercial service. Priority 4 - Industrial service, other than boiler fuel, for usage through one meter of more than 50 Mcf but less than 200 Mcf on an average day. Priority 5 - Industrial service, other than boiler fuel, for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 6 - Industrial service, other than boiler fuel, for usage through one meter of more than 1500 Mcf on an average day. Priority 7 - Industrial boiler fuel for usage through one meter of less than 200 Mcf on an average day. Priority 8 - Industrial boiler fuel for usage through one meter of more than 200 Mcf but less than 1500 Mcf on an average day. Priority 9 - Industrial boiler fuel for usage through one meter of more than 1500 Mcf on an average day. For the purpose of this classification, each separately billed meter shall be considered a separate Customer. When service which may fall into more than one priority group is rendered through a single meter, the entire service shall be placed in the lowest (highest numbered) applicable priority group.14.3 METHOD OF CURTAILMENT Curtailment shall be ordered ratably insofar as feasible within each priority group served by the same system; provided however, that the Company may provide by rate schedule for two or more subgroups within any priority class other than Priorities 1 and 2. Total curtailment during any calendar year shall be made to the end, insofar as feasible, that all Customers within a priority group or subgroup served by the same system may be curtailed in the same proportion that each Customer's total requirements during the year bears to the total requirements of all Consumers in that priority or subgroup.14.4 CLASS AND GROUP CURTAILMENTS No curtailment shall be applied to any Customer at any time when any Consumer in a lower (i.e., higher numbered) priority group or subgroup, who is served by the same system, has not been directed by the Company to effect full curtailment of service.14.5 NOTIFICATION AND PENALTIES The Company shall notify in advance each Customer to be curtailed under the provisions of this Section, the extent and amount of the curtailment required from him. If, after notification, any Customer (other than a Customer in Priority 1) fails to curtail during the required period or to the amount required, such Customer shall pay any penalty provided for in the rate schedules under which he or she is served. In addition, the Company shall have the right to disconnect any Customer who fails to curtail as notified without further notice if service to Consumers in Priority 1 and 2 is threatened.14.6 SUSPENSION OF THIS SECTION This curtailment procedure may be suspended by the Company during any emergency when life or property is endangered. See Section 4.5. TEXAS GAS SERVICE COMPANY Section 15 Texas Tariff - Possum Kingdom QUALITY OF GAS15.1 HEATING VALUE Gas delivered to Consumers in all service areas shall have a gross heating value of at least 900 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.65 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered.15.2 CHARACTER OF GAS All gas furnished to Consumers in the environs of Possum Kingdom shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered.15.3 ODORIZATIION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable. Gas containing enough natural odorant as prescribed by state regulatory agency need not be odorized unless the odorant level drops below the acceptable level. TEXAS GAS SERVICE COMPANY Section 16 Texas Tariff - Possum Kingdom SERVICE WORK16.1 FREE SERVICEwhen requested by the Consumer, the Company shall perform the following service work on the Consumer's premises and appliances on a no-charge basis:a) gas-air adjustments on standard domestic and commercial gas burning appliances when service is initiated; andb) Leakage and pressure investigations to assure that unsafe conditions do not exist. Where leakage is determined by the Company to be in the Consumer's piping or equipment, the Consumer will be so advised and service will be discontinued as required.Any other work performed on any Consumer's appliances or house piping will be on a charge basis.16.2 OTHER SERVICEThe Company may have personnel available for and may undertake other service work on the Consumer's premises on a charge basis, as time permits. Charges shall be made at the Company's standard rate in the Service Area and such work and the associated revenues and costs shall be considered non-utility. TEXAS GAS SERVICE COMPANY Section 17 Texas Tariff - Possum Kingdom MAINTENANCE OF EQUIPMENT17.1 MAINTENANCE BY COMPANYThe Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter on the Customer's premises at any reasonable time or in the event of an emergency at any time to read the meter or make any necessary inspection, repair, adjustment, or replacement of any property owned by the Company.17.2 MAINTENANCE BY THE CUSTOMERThe Customer shall maintain all facilities owned by him and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Consumer, the Customer will reimburse the Company for all costs of repairing or replacing the damaged property.17.3 LEAKS - RIGHT TO DISCONNECT FORThe Consumer shall give the Company notice of any escaping gas as soon as it is detected by him. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If the Company's test indicates leakage in the Consumer's facilities, the Company shall have the right to disconnect service immediately until the Consumer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by Company forces. The Company shall have the right to disconnect service immediately if any of the Consumer's appliances or equipment is, in Company's opinion, operating in an unsafe condition. 17.4 YARDLINES PRESENTLY OWNED BY THE CUSTOMER Any facilities upstream of the meter installed by the Customer prior to the effective date of this Tariff shall remain the property and responsibility of the Customer. Whenever the condition of the facility is such that replacement is required, the work shall be done by the Company under the same terms and conditions as for a new service as described in Paragraph 7.1 of this Tariff. The Customer shall reimburse the Company in advance for the estimated cost of the new facility at the prices filed with the Regulatory Authority. Thereafter, it shall become the property and responsibility of the Company.17.5 RESPONSIBILITY Nothing in this Section shall make the Company responsible for the safe upkeep of

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

Consumer-owned facilities. TEXAS GAS SERVICE COMPANY Section 18 Texas Tariff - Possum Kingdom DISCONTINUANCE OF SERVICE

18.1 BY CUSTOMER A Customer shall be responsible for all charges for gas service from the time he gives notice of the intention to discontinue service until the Company has read the meter or for three working days whichever is the shorter period of time.

18.2 FOR NON-PAYMENT The Company shall have the right to discontinue service to any Customer for non-payment of bills or other charges authorized by this Tariff or the applicable rate schedules, following the due date specified in Section 13.1 hereof. Before discontinuing service for non-payment, the Company shall mail a separate written notice to the Customer with the words TERMINATION NOTICE or similar language prominently displayed. This notice shall include the hours, address, and telephone numbers where payments may be made; the amount of the delinquent bill and the date by which the bill must be paid to avoid disconnection, and a statement of how to contact the Company in case of illness or other emergencies. No Customer shall be disconnected for non-payment:

a) Within a period of five working days after mailing of the notice or the day following the date indicated in the notice, whichever is the longer time;

b) If the interest on his Security deposit, if any, is sufficient to cover the amount of the delinquent bill;

c) After payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel of the payment;

d) Before 8:00 AM or after 5:00 PM on any day or on Friday, Saturday, Sunday, Holiday, or day before a holiday unless Company personnel are available on that day for the purpose of making collections or reconnecting service;

e) If within five working days after the date of delinquency of the bill the Company receives a written request from the Customer not to discontinue service for health reasons and the request is accompanied by a written statement from a licensed physician. Upon receipt of such request, the Company will suspend termination of service for a period of up to twenty days. The Customer shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings.

18.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any Consumer for any of the following reasons:

a) Without notice for the presence of what the Company considers to be an unsafe condition on the Consumer's premises or if an emergency exists.

b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with his knowledge.

c) Within five working days after written notice if the Consumer uses his equipment in any way which causes or creates a potential for adverse effect on the Company's service to others.

d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class 1 or 2.

e) Five working days after written notice for refusal to grant Company's personnel access to the Consumer's premises at any reasonable time for any lawful purpose.

f) Five working days after written notice for use, sale or delivery of gas in violation of the provisions of this Tariff or violation of any applicable laws, orders or ordinances, provided that disconnection may be made without notice if the violation creates an unsafe condition.

18.4 RIGHT OF ENTRY The Company shall have the right to enter upon the Consumer's premises at any reasonable time to shut off service in accordance with this Tariff and to remove its meter and other property.

18.5 ABANDONMENT OF SERVICE Service shall not be abandoned (permanent disconnect of any but a temporary Customer) unless requested by the Customer(s) without permission of the Regulatory Authority. Failure of the Customer to reinstitute service after disconnection within a reasonable period of time shall be considered a request for permanent discontinuance of service.

18.6 TAMPERING Applies in all cases of tampering with Company equipment or meter installations. Tampering includes any unauthorized turning on or off of a meter, removal of a meter seal or locking device, adjustment of a regulator, intentional damage to equipment, or any other intentional act which affects the accuracy of gas measurement. TEXAS GAS SERVICE COMPANY Section 19 Texas Tariff - Possum Kingdom RE-ESTABLISHMENT OF SERVICE

19.1 FOR NON-PAYMENT When service has been disconnected for non-payment, the Company

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21337

shall require that the Customer pay the total amount of his account then due plus the prescribed connect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer re-establish satisfactory credit in accordance with Section 5 of this Tariff. The first time a Customer requests re-establishment of service after disconnection for non-payment, the Company may waive the deposit. Thereafter, it shall be required in accordance with this Section.19.2 FOR OTHER REASONSWhen service has been disconnected for any other reason, the Customer shall be required to request reconnection in writing. If disconnection has been made by the Company, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a connect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment.19.3 RECONNECTIONThe Company shall restore service as soon as feasible after receipt of the request and compliance with the requirements of this Section. The Company shall charge a non-refundable connection fee for all Customers in accordance with Section 22.1. The restoration of service will be accomplished as expeditiously as scheduling permits. In the event the Company is required to make more than one call because the reason for disconnection has not been properly corrected, the connect fee may be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operations. See Section 22.1 for fees.

TEXAS GAS SERVICE COMPANY Section 20 Texas Tariff - Possum Kingdom NOTICE20.1 GENERAL Notice is required for all matters in this Tariff other than billing and payment of bills, which shall be deemed to have been given by either Company or Customer when a letter with postage prepaid has been deposited in the United States mail addressed to the Company at the office specified on the front sheet of this Tariff or to the Customer at his or her known service address or when communicated in person or by telephone directly between the Company and Customer. TEXAS GAS SERVICE COMPANY Section 21 Texas Tariff - Possum Kingdom BUDGET PAYMENT PLAN21.1 DESCRIPTIONResidential Customers may elect to participate in the Company's Budget Payment Plan for payment of charges for gas service. The Plan shall be developed in the following manner:a) The Plan year shall be the 12 months ending each year with the Customer's July bill. The Plan monthly payment shall be determined as follows:i) for Customers electing to commence with the August bill, the monthly payment shall be 1/11th of the estimated charges for the Customer's plan year.ii) for Customers electing to commence with the September or later bills, the monthly payment shall be 1/10th, 1/9th, 1/8th, declining successively each month as applicable, of the estimated charges for gas service for the remaining number of months of the Plan year from commencement in the Plan until the next following July bill. Succeeding years shall be computed on an annual basis as in subparagraph (i) above.b) The estimated charges for gas service for the Plan year, or the remainder of the Plan year, shall be based upon the most recent available prior 12-month period at the same service location; or, if there is not at least 12-months prior service at the same service location, then the charges shall be based on consumption of similar residential units in the same area. The estimated charges for service shall be adjusted to current rates and for known charges.c) The Company reserves the right to adjust the remaining monthly plan payments of any Customer at any time for changes in condition or rates.d) The Company shall advise each Customer in the Plan of the monthly plan payment to be paid by the Customer. Each Customer in the Plan will receive a regular monthly gas bill which will reflect actual consumption and charges for that billing month and the amount of any debit or credit balance before the payment of the month's plan payment. The Customer shall continue to pay the monthly plan payment amount each month for gas service, notwithstanding the current gas service charge

PoK2 d TEXAS GAS SERVICE COMPANY Texas Tariff - Possum Kingdom Service Area (Environs) QUALITY OF SERVICE RULE ADDENDUMS AND AGREEMENTS ON INTERPRETATION ADDENDUM TO SERVICE RULES EFFECTIVE MAY 12, 2002, THE FOLLOWING RULE APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER D, RULE 7.460 Suspension of Gas Utility Service Disconnection During an Extreme Weather Emergency(a) Applicability and scope. This rule applies to gas utilities, as defined in Texas Utilities Code, Section 101.003(7) and Section 121.001, and to owners, operators, and managers of mobile home parks or apartment houses who purchase natural gas through a master meter for delivery to a dwelling unit in a mobile home park or apartment house, pursuant to Texas Utilities Code, Sections 124.001-124.002, within the jurisdiction of the Railroad Commission pursuant to Texas Utilities Code, Section 102.001. For purposes of this section, all such gas utilities and owners, operators and managers of master meter systems shall be referred to as providers. Providers shall comply with the following service standards. A gas distribution utility shall file amended service rules incorporating these standards with the Railroad Commission in the manner prescribed by law.(b) Disconnection prohibited. Except where there is a known dangerous condition or a use of natural gas service in a manner that is dangerous or unreasonably interferes with service to others, a provider shall not disconnect natural gas service to:(1) a delinquent residential customer during an extreme weather emergency. An extreme weather emergency means a day when the previous day's highest temperature did not exceed 32 degrees Fahrenheit and the temperature is predicted to remain at or below that level for the next 24 hours according to the nearest National Weather Station for the county where the customer takes service.(2) a delinquent residential customer for a billing period in which the provider receives a written pledge, letter of intent, purchase order, or other written notification from an energy assistance provider that it is forwarding sufficient payment to continue service; or (3) a delinquent residential customer on a weekend day, unless personnel or agents of the provider are available for the purpose of receiving payment or making collections and reconnecting service.(c) Payment plans. Providers shall defer collection of the full payment of bills that are due during an extreme weather emergency until after the emergency is over,

and shall work with customers to establish a payment schedule for deferred bills as set forth in paragraph (2)(D) of Section 7.45 of this title, relating to Quality of Service.(d) Notice. Beginning in the September or October billing periods utilities and owners, operators, or managers of master metered systems shall give notice as follows:(1) Each utility shall provide a copy of this rule to the social services agencies that distribute funds from the Low Income Home Energy Assistance Program within the utility's service area.(2) Each utility shall provide a copy of this rule to any other social service agency of which the provider is aware that provides financial assistance to low income customers in the utility's service area.(3) Each utility shall provide a copy of this rule to all residential customers of the utility and customers who are owners, operators, or managers of master metered systems.(4) Owners, operators, or managers of master metered systems shall provide a copy of this rule to all of their customers.(e) In addition to the minimum standards specified in this section, providers may adopt additional or alternative requirements if the provider files a tariff with the Commission pursuant to Section 7.44 of this title (relating to Filing of Tariffs). The Commission shall review the tariff to ensure that at least the minimum standards of this section are met. Effective May 12, 2002 ADDENDUM TO SERVICE RULES ADOPTED OCTOBER 21, 2003, THE FOLLOWING RULE (PER DOCKET 9449) APPLIES TO ENVIRONS CUSTOMERS IN THE SERVICE AREA: TAC, TITLE 16, PART 1, CHAPTER 7, SUBCHAPTER B, RULE 7.45 (5)(C)(i) Quality of Service - (Rule on Waiver of Deposit for Victims of Family Violence) (5) (C) Amount of deposit and interest for residential service, and exemption from deposit. (i) Each gas utility shall waive any deposit requirement for residential service for an applicant who has been determined to be a victim of family violence as defined in Texas Family Code, Section 71.004, by a family violence center, by treating medical personnel, or by law enforcement agency personnel. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site. Adopted October 21, 2003

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-ENV-NTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-ENV COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom, and Punkin Center, Texas. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a Reconciliation Component and related fees and taxes, and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased of a general service customer during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21338

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the

Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. 7. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. 8. Transition from the preceeding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Meters Read On and After January 27, 2014 Supersedes Rate Schedule 1-ENV dated April 30, 2009

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21338

RATE SCHEDULESCHEDULE IDDESCRIPTION

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the environs areas of Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Mineral Wells, Graford, Millsap, Palo Pinto, Whitt, Perrin, Weatherford, Aledo, Hudson, Hudson Oaks, Willow Park, Punkin Center and Possum Kingdom, Texas. Applicable rate schedules include 1A, 2A, 2B, 3A, 3B, 4A, and 4B.

B. PURPOSE

Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21338

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

DESCRIPTION

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year.

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services

GAS SERVICES DIVISION

Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and

(D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-NTX-05

TEXAS GAS SERVICE COMPANY
 North Texas Area
 RATE SCHEDULE WNA-ENV

WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom and Punkin Center, Texas: 1A, 2A, 2B, 4A, and 4B. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis.

The WNA for each billing cycle and rate schedule shall be based on the following

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21338

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

formula:

WNA Rate = $\frac{WNAD}{CV}$, where

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

WNAD = (HDD Diff * CB * WF) * COS rate, where

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case as listed below.

CV = Current Volumes for the billing period.

Weather Factors from most recent rate case by class:

- Residential 0.13197
- Commercial 0.37721
- Large Commercial 10.64749
- Public Authority 1.73743
- Large Public Authority 15.61800

Applicable weather station is Abilene, Texas.

D. FILING WITH THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file with the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the RRC an annual report verifying the past year's WNA collections or refunds.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-ENV-NTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-ENV COST OF GAS</p> <p>CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom, and Punkin Center, Texas. B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a Reconciliation Component and related fees and taxes, and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased of a general service customer during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation</p>

DESCRIPTION

of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the

DESCRIPTION

Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. 7. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. 8. Transition from the preceeding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Meters Read On and After January 27, 2014 Supersedes Rate Schedule 1-ENV dated April 30, 2009

DESCRIPTION

INTERIM RATE ADJUSTMENT

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the environs areas of Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Mineral Wells, Graford, Millsap, Palo Pinto, Whitt, Perrin, Weatherford, Aledo, Hudson, Hudson Oaks, Willow Park, Punkin Center and Possum Kingdom, Texas. Applicable rate schedules include 1A, 2A, 2B, 3A, 3B, 4A, and 4B.

B. PURPOSE

Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21339

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

TARIFF CODE: DS RRC TARIFF NO: 21339

RATE SCHEDULESCHEDULE IDDESCRIPTION

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

TEXAS GAS SERVICE COMPANY
 North Texas Area
 RATE SCHEDULE WNA-ENV

WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom and Punkin Center, Texas: 1A, 2A, 2B, 4A, and 4B. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue

TARIFF CODE: DS RRC TARIFF NO: 21339

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

adjustment, which is spread to the customers in the billing cycle on a prorata basis.
 The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \frac{\text{WNAD}}{\text{CV}}, \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate}, \quad \text{where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case as listed below.

CV = Current Volumes for the billing period.

Weather Factors from most recent rate case by class:

- Residential 0.13197
- Commercial 0.37721
- Large Commercial 10.64749
- Public Authority 1.73743
- Large Public Authority 15.61800

Applicable weather station is Abilene, Texas.

D. FILING WITH THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file with the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the RRC an annual report verifying the past year's WNA collections or refunds.

2.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind. Before Temporary Service is instituted, however, the Applicant shall make a contribution of \$50.00 or the amount of the estimated cost of the installation and removal (or abandonment) of the required service pipe and metering facilities less any expected salvage, whichever is greater. Extension of distribution mains shall be made in accordance with the provisions of this Tariff.

The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-ENV-NTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-ENV COST OF GAS</p> <p>CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom, and Punkin Center, Texas. B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a Reconciliation Component and related fees and taxes, and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased of a general service customer during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21340

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the

DESCRIPTION

Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. 7. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. 8. Transition from the preceeding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Meters Read On and After January 27, 2014 Supersedes Rate Schedule 1-ENV dated April 30, 2009

DESCRIPTION

INTERIM RATE ADJUSTMENT

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the environs areas of Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Mineral Wells, Graford, Millsap, Palo Pinto, Whitt, Perrin, Weatherford, Aledo, Hudson, Hudson Oaks, Willow Park, Punkin Center and Possum Kingdom, Texas. Applicable rate schedules include 1A, 2A, 2B, 3A, 3B, 4A, and 4B.

B. PURPOSE

Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21340

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

DESCRIPTION

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21340

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-NTX-OS

TEXAS GAS SERVICE COMPANY
 North Texas Area
 RATE SCHEDULE WNA-ENV

WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom and Punkin Center, Texas: 1A, 2A, 2B, 4A, and 4B. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue

TARIFF CODE: DS RRC TARIFF NO: 21340

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

adjustment, which is spread to the customers in the billing cycle on a prorata basis.
 The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \frac{\text{WNAD}}{\text{CV}}, \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate}, \quad \text{where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case as listed below.

CV = Current Volumes for the billing period.

Weather Factors from most recent rate case by class:

- Residential 0.13197
- Commercial 0.37721
- Large Commercial 10.64749
- Public Authority 1.73743
- Large Public Authority 15.61800

Applicable weather station is Abilene, Texas.

D. FILING WITH THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file with the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the RRC an annual report verifying the past year's WNA collections or refunds.

Breckenridge Service Area - Environs (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21340

shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-ENV-NTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-ENV COST OF GAS CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom, and Punkin Center, Texas. B. DEFINITIONS 1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a Reconciliation Component and related fees and taxes, and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased of a general service customer during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21341

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the

Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. 7. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. 8. Transition from the preceding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Meters Read On and After January 27, 2014 Supersedes Rate Schedule 1-ENV dated April 30, 2009

RATE SCHEDULESCHEDULE IDDESCRIPTION

INTERIM RATE ADJUSTMENT

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the environs areas of Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Mineral Wells, Graford, Millsap, Palo Pinto, Whitt, Perrin, Weatherford, Aledo, Hudson, Hudson Oaks, Willow Park, Punkin Center and Possum Kingdom, Texas. Applicable rate schedules include 1A, 2A, 2B, 3A, 3B, 4A, and 4B.

B. PURPOSE

Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the

GAS SERVICES DIVISION

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21341

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

(A) the pipeline safety and regulatory program fee amount paid to the Commission;
 (B) the unit rate and total amount of the surcharge billed to each customer;
 (C) the date or dates on which the surcharge was billed to customers; and
 (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-NTX-OS

TEXAS GAS SERVICE COMPANY
 North Texas Area
 RATE SCHEDULE WNA-ENV

WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom and Punkin Center, Texas: 1A, 2A, 2B, 4A, and 4B. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue

DESCRIPTION

adjustment, which is spread to the customers in the billing cycle on a prorata basis.
 The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \frac{\text{WNAD}}{\text{CV}}, \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate}, \quad \text{where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case as listed below.

CV = Current Volumes for the billing period.

Weather Factors from most recent rate case by class:

- Residential 0.13197
- Commercial 0.37721
- Large Commercial 10.64749
- Public Authority 1.73743
- Large Public Authority 15.61800

Applicable weather station is Abilene, Texas.

D. FILING WITH THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file with the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the RRC an annual report verifying the past year's WNA collections or refunds.

Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

275220 Graham SvcA 2b

Graham Service Area - Environs (From Quality of Service Rules effective 1/28/91) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has

RATE SCHEDULE

SCHEDULE ID	DESCRIPTION
1-ENV-NTX-OS-COG	<p>TEXAS GAS SERVICE COMPANY North Texas Area RATE SCHEDULE 1-ENV COST OF GAS</p> <p>CLAUSE A. APPLICABILITY This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom, and Punkin Center, Texas. B. DEFINITIONS</p> <p>1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a Reconciliation Component and related fees and taxes, and other purchased gas expenses. 2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio. 3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's citygate delivery points. The Cost of Purchased Gas shall also include gains or losses from the utilization of natural gas financial instruments that are executed by the Company for the purpose of mitigating high prices and price volatility. 4. Reconciliation Component - The amount to be returned to or recovered from customers each month from December through August as a result of the Reconciliation Audit. 5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of August to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases. 6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased of a general service customer during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority. 7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation</p>

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21342

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records, (per Section B(3) above) (b) the revenues produced by the operation of this cost of gas clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, not to exceed 0.82% of cost of gas revenues and (e) an adjustment, if necessary, to exclude lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules. C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill. D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the December billing cycle last preceding through the August billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following December billing cycle and continuing through the next following August billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during November an amount equal to the average balance multiplied by nine percent (9%). F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. G. COST OF GAS STATEMENT The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the

DESCRIPTION

Reconciliation Component; and (e) the Cost of Gas which is the total of items (b) through (d). The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas. Along with the Cost of Gas Statement, the Company shall include a detailed description of financial instruments executed by the Company as described in Section B.3. Definition of Cost of Purchased Gas. The date on which billing using the Cost of Gas is to begin is to be specified in the statement. H. ANNUAL RECONCILIATION REPORT The Company shall file an annual report with the Regulatory Authority which shall include but not necessarily be limited to: 1. A tabulation of volumes of gas purchased and costs incurred by month for the twelve months ending August 31. 2. A tabulation of gas units sold to general service customers and related Cost of Gas clause revenues. 3. A summary of all other costs and refunds made during the year and the status of the operations of the Cost of Gas Clause to date. 4. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. 5. A detailed description of the settlement and impact of financial instruments utilized by the Company as described in Section B.3. 6. An affidavit signed by an officer of the utility stating that neither TGS nor an affiliate has made a profit on the utilization of financial instruments that are executed by the Company for the purpose of mitigating price volatility, as described in Section B.3. 7. This report shall be filed concurrently with the Cost of Gas Statement for October. If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination. 8. Transition from the preceding Cost of Gas Clauses to this Cost of Gas Clause will occur simultaneously with the effective date of this tariff. All existing under or over recoveries will be aggregated to an area wide reconciliation. The first reconciliation under this new tariff will be filed on a North Texas Area wide basis for 12 months ending August in the next reconciliation report. This report shall be filed concurrently with the Cost of Gas Statement for December. Meters Read On and After January 27, 2014 Supersedes Rate Schedule 1-ENV dated April 30, 2009

 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21342

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

A. APPLICABILITY

This Interim Rate Adjustment (IRA) applies to all general service rate schedules of Texas Gas Service Company (Company) currently in force in the environs areas of Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Mineral Wells, Graford, Millsap, Palo Pinto, Whitt, Perrin, Weatherford, Aledo, Hudson, Hudson Oaks, Willow Park, Punkin Center and Possum Kingdom, Texas. Applicable rate schedules include 1A, 2A, 2B, 3A, 3B, 4A, and 4B.

B. PURPOSE

Section 104.301, Subchapter G of the Texas Utility Code, effective on September 1, 2003, provides for an interim adjustment in a gas utility's monthly customer charge or initial block usage rate to recover the cost of changes in the utility's infrastructure investment and related expenses and revenues for providing gas utility service. The filing date of the utility's most recent rate case establishing rates for the area in which the interim rate adjustment will apply shall be no more than two years prior to the date the utility files its initial interim rate adjustment application for that area. The interim adjustment shall be recalculated on an annual basis, unless the utility files a written request and obtains approval from the regulatory authority to suspend the operation of the interim adjustment rate schedule for any year. This rate schedule establishes the interim adjustment provisions consistent with Section 104.301, Subchapter G of the Texas Utility Code.

C. COMPUTATION OF IRA RATE

The amount the Company shall adjust its utility rates upward or downward under this rate schedule each calendar year is based on the difference between the value of the invested capital for the preceding calendar year and the value of the invested capital for the calendar year preceding that calendar year. The value of the invested capital is equal to the original cost of the investment at the time the investment was first dedicated to public use minus the accumulated depreciation related to that investment. Based on the difference between the values of the invested capital amounts as determined above, the Company may adjust only the following related components of its revenue requirement: return on investment, depreciation expense, ad valorem taxes, revenue related taxes and incremental federal income taxes. The factors for these components shall be the same as those established in the Company's most recent rate case for the service area in which this interim rate adjustment is to be implemented. The revenue requirement calculated pursuant to this rate schedule shall be allocated among the Company's customer classes for this service area in the same manner as the cost of service was allocated among customer classes in the Company's latest effective rates for this area.

D. FILING WITH THE REGULATORY AUTHORITY

1. The Company shall file either the initial interim adjustment or the annual interim adjustment with the regulatory authority at least 60 days before the proposed implementation date. During the 60-day period, the regulatory authority may act to suspend implementation of the adjustment.

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21342

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

2. The Company shall provide notice to customers by bill insert or direct mail not later than the 45th day after the date of filing the interim adjustment.

3. The Company shall file with the regulatory authority an annual report describing the investment projects completed and placed in service during the preceding calendar year and the investments retired or abandoned during the preceding calendar year. The annual report shall also state the cost, need, and customers benefited by the change in investment.

4. In addition, the Company shall file with the regulatory authority an annual earnings monitoring report demonstrating the Company's earnings during the preceding calendar year. Should the Company earn a return of more than 75 basis points above the return established in the latest effective rates implemented under this rate schedule, the Company shall file a statement stating the reasons why the rates are not unreasonable or in violation of the law.

5. After the issuance of a final order or decision by a regulatory authority in a rate case that is filed after the implementation of a tariff or rate schedule under this section, any change in investment that has been included in an approved interim adjustment shall no longer be subject to subsequent review for reasonableness or prudence. All amounts collected under this rate schedule are subject to refund until the issuance of a final decision in the next rate case filing for this service area.

6. The Company shall file a rate case no later than the 180th day after the fifth anniversary date its initial interim rate adjustment for this service area became effective.

7. The provisions under Section 104.301, Subchapter G of the Texas Utility Code for this interim adjustment do not limit the power of the regulatory authority under Section 104.151.

DESCRIPTION

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services

GAS SERVICES DIVISION

RATE SCHEDULESCHEDULE IDDESCRIPTION

Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and

DESCRIPTION

(D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-NTX-05

TEXAS GAS SERVICE COMPANY
 North Texas Area
 RATE SCHEDULE WNA-ENV

WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the unincorporated areas of Weatherford, Aledo, Hudson Oaks, Willow Park, Mineral Wells, Graford, Millsap, Breckenridge, Graham, Jacksboro, Bryson, Jermyn, Palo Pinto, Perrin, Whitt, Possum Kingdom and Punkin Center, Texas: 1A, 2A, 2B, 4A, and 4B. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis.

The WNA for each billing cycle and rate schedule shall be based on the following

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21342

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

formula:

WNA Rate = $\frac{WNAD}{CV}$, where

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

WNAD = (HDD Diff * CB * WF) * COS rate, where

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case as listed below.

CV = Current Volumes for the billing period.

Weather Factors from most recent rate case by class:

- Residential 0.13197
- Commercial 0.37721
- Large Commercial 10.64749
- Public Authority 1.73743
- Large Public Authority 15.61800

Applicable weather station is Abilene, Texas.

D. FILING WITH THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file with the RRC monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the RRC an annual report verifying the past year's WNA collections or refunds.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21342

The Company shall charge a non-refundable fee to each Applicant to compensate for cost involved in commencement of service. This fee shall be assessed when a meter is set and/or the Applicant's appliances lighted and when a meter reading only is required, if the call can be scheduled in the normal course of business. Whenever the Applicant requests special handling of his request, the Company shall charge an additional fee unless a special callout is required, in which case the charge shall be for one hour at the Company's then prevailing after hours rate for service work on Customer's premises. Special handling of calls and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying company, the Applicant shall reimburse the Company for such charge plus twenty percent for handling.

275239 Jacksboro SvcA 2b

Jacksboro Service Area - Environs (From Quality of Service Rules effective 11/27/00) (Fees and Deposits continued) 5.4 ADVANCES The difference between the total cost of facilities as determined in Section 5 and the initial allowance, if any, shall constitute the required advance. All advances must be made in cash. The Company may waive collection of any advance of \$50 or less. At the time the advance is made, the Applicant(s) and the Company shall enter into a written agreement on the Company's standard form. All advances made in accordance with this Section are refundable during the first five years of the life of the extension. 9.4 METER TESTING - CUSTOMER REQUESTS The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Request for such tests shall be made in writing, and the Company shall have ten days after receipt of the request to remove the meter for test or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. The Customer may have a witness present at the test of his meter. If no such test has been performed within the previous four years for the same residential or commercial Customer at the same location, the test will be performed at no charge. If such a test has been performed for the same residential or commercial Customer at the same location within the past four years, a fee of \$15.00 will be charged. The Customer will be informed of the test results.

TEXAS GAS SERVICE COMPANY
 Central Texas Service Area
 RATE SCHEDULE CNG-1

COMPRESSED NATURAL GAS SERVICE RATE

APPLICABILITY
 Applicable to any non-residential customer for usage where customer purchases natural gas which will be compressed and used as a motor fuel. Service will be separately metered. This rate does not include compression by the Company beyond normal meter sales pressure.

TERRITORY
 The incorporated areas of the Central Texas Service Area which includes Austin, Bee Cave, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.

COST OF SERVICE RATE
 During each monthly billing period: A customer charge per meter per month of \$50.00 plus -
 All Ccf per monthly billing period @ \$0.07148 per Ccf

OTHER ADJUSTMENTS
 Cost of Gas Component: The basic rates for cost of service set forth above shall be increased by the amount of the Cost of Gas Component for the billing month computed in accordance with the provisions of Rate Schedule 1.

Pipeline Integrity Testing Rider: The billing shall reflect adjustments in accordance with provisions of the Pipeline Integrity Testing Rider, Rate Schedule PIT.

Rate Schedule RCE: Adjustments in accordance with provisions of the Rate Case Expense Surcharge Rider.

Taxes: Plus applicable taxes and fees (including franchise fees) related to above.

CONDITIONS
 Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

The Company's ABC Plan is not available to customers taking this service.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21465

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

This rate does not include any road use fees, permits, or taxes etc. It provides for the delivery of uncompressed natural gas only.

Customer must provide affidavit to the Company certifying that the gas delivered will be compressed for use as motor fuel. Compressor station subject to inspection by Company engineers.

Meters Read On and After:

October 26, 2016 (Cities of Austin, Bee Cave, Cedar Park, Dripping Springs, Kyle, Lakeway, Rollingwood, Sunset Valley, and West Lake Hills, TX

Eff. Date TBD (Cities of Cuero, Gonzales, Lockhart, Luling, Nixon, Shiner, and Yoakum, TX)

Supersedes Rate Schedule Dated: Central Texas June 3, 2015 (CNG-1)

1-CTX-ISOS-COG

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE 1
 Central Texas Service Area
 COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated and unincorporated areas of its Central Texas Service Area including Austin, Bee Cave, Buda (environs only), Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and

DESCRIPTION

transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after August 25, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas or a municipal regulatory authority. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission or municipal regulatory no later than June 15.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, including prudently incurred gains or losses on the approved use of natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), including prudently incurred gains or losses on the use of approved natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of

DESCRIPTION

imbalances under any transportation rate schedule(s), and (e) total amount of Uncollectible Cost of Gas during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return of 7.308% per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21465

RATE SCHEDULESCHEDULE IDDESCRIPTION

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including gains and losses from approved hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the hedging activities conducted each month during the twelve months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of hedging activities stated as costs to the average residential and commercial customer during the period.
5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

TARIFF CODE: DS RRC TARIFF NO: 21465

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

TEXAS GAS SERVICE COMPANY
 Central Texas Service Area
 RATE SCHEDULE CAC
 CONSERVATION ADJUSTMENT CLAUSE

PURPOSE

Texas Gas Service provides a Conservation and Energy Efficiency program which offers assistance to residential and commercial customers to encourage the most efficient use of energy, reduce net energy consumption, and lower energy utility bills. A customer rate component will provide funding for the program, and shall be included as a tariff on the customers' monthly utility bill.

The programs offered under the Conservation Adjustment Clause (CAC) will be consistent with similar conservation and energy efficiency programs in other Texas Gas Service areas and may include, but are not limited to, residential, new construction and commercial customer rebates for high-efficiency appliances and equipment, as well as a low-income appliance program.

APPLICATION

The CAC rate shall apply to the applicable residential and commercial rate schedules served by Texas Gas Service Company (Company) in all incorporated areas of the Central Texas Service Area, including the cities of Austin, Bee Cave, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum. The Regulatory Body is defined as the City of Austin.

COMPUTATION OF CAC RATE

The CAC rate for a given year will be separately calculated for each individual customer class according to the following:

$$\text{CAC Rate} = \text{BCD} + \text{BA}$$

NV

BCD = The Budgeted Conservation Dollars (BCD) shall include all expected costs attributable to the Company's Conservation and Energy Efficiency program for the 12-month period ending December 31st of each year, including but not limited to rebates paid; material costs; the cost of educational and consumer awareness materials related to energy conservation/efficiency; the planning, development, implementation and administration of the CAC program; and two months of working program expenses (calculated by dividing the total expected annual expenses by 12 and multiplying by two).

Direct program costs will be identified by class and common administrative costs will be allocated to each rate class pro-rata based upon the proportion of direct costs. Administrative costs shall not exceed 15% of total CAC program costs.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21465

RATE SCHEDULESCHEDULE IDDESCRIPTION

BA = Balance adjustment. The BA shall compute differences between Rider CAC collections by class and expenditures by class for the 12-month period ending the prior (date) and collect the over/under recovery during the 12-month period beginning (date) of the following year.

NV = Actual volumes from the prior fiscal year (normalized for weather and growth/attrition) listed in Ccf for each rate class.

PROGRAM SELECTION

Program selection will be determined on an annual basis and a summary of programs selected for the upcoming 12-month period will be provided to the Regulatory Body by October 15th of each calendar year. The overall portfolio of program offerings will be designed to be impactful and cost-effective based on Texas Gas Service's knowledge of its customer base and experience administering various conservation and energy efficiency program initiatives.

REPORTING

The following documents will be filed with the Regulatory Body:

a) A schedule indicating the new CAC rate for each of the affected rate classes, to be filed within 20 days of implementation.

b) An annual report of the prior fiscal year collections and disbursements, to be filed within the 120 days following the prior fiscal year end. The annual report will also be made available on the company's website. The annual filing shall include detailed calculations of the BCD and the Balancing Adjustments, as well as data on the total cost of the Energy Efficiency Program. Detailed tracking and reporting of program administration costs is also provided.

c) An annual budget for the following year will be provided to the Regulatory Body by the Company by October 15 each calendar year. If no action is taken by the Regulatory Body by November 30, the budget will automatically be approved for the next calendar year.

PIPELINE SAFETY REGULATIONS
SUBCHAPTER C
REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section 101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section 7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas

master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

WNA-CTX-ISOS

TEXAS GAS SERVICE COMPANY
 Central Texas Service Area
 RATE SCHEDULE WNA
 WEATHER NORMALIZATION ADJUSTMENT

CLAUSE

APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated areas served in the Central Texas Area including Austin, Bee Cave, Buda (environs Only), Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills, and Yoakum: Rate Schedules 10, 1Z, 20, 2Z, 40, 4Z, 48 and 4H. The WNA shall be effective during the September through May billing cycles.

PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing. WNA MECHANISM In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 21465

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \frac{\text{WNAD}}{\text{CV}}, \text{ where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate}, \text{ where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

Austin, Bee Cave, Cedar Park, Dripping Springs, Kyle, Lakeway, Rollingwood, Sunset Valley, and West Lake Hills:

Residential 0.15429; Commercial 0.39358; Public Authority 1.97830; Public Schools 4.27513

Cuero, Gonzales, Lockhart, Luling, Nixon, Shiner, and Yoakum

Residential 0.13457; Commercial 0.29094

CV = Current Volumes for the billing period.

FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC)

The Company will file monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

21.1 FEES All fees and charges shall be adjusted by taxes and fees (including franchise fees) where applicable.

a) Initiation of Service

i) Connect (Section 5.4) \$35.00

A connection fee shall be charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set and/or gas turned on.

ii) Read-In (Section 5.4) \$10.00

A read-in fee shall be charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when only a meter reading is required.

iii) Special Handling & Expedited Service (Section 5.4 and 15.3)

In addition to initiation of service fee above, a fee may be charged to any Applicant whose request to initiate service cannot be worked during normal business hours or requires special handling. Applicant must be advised that an additional fee will be charged and must agree to pay such charge.

These charges include:

1) Special Handling \$6.00

The Company may, at Applicant or Customer's request, provide special handling in order to meet the Applicant or Customer's requirements. Special handling does not include calling the Applicant/Customer in advance or A.M. or P.M. scheduling

2) Expedited Service and Overtime Rate \$67.50

The Applicant or Customer's request for expedited service may be scheduled at any time to fit the Company's work schedule, and an Expedited Service charge shall be collected. The Company shall not be obligated to provide Expedited Service when the personnel and resources to do so are not reasonably available.

b) Services - Others As stated below Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying Company, the Applicant may be requested to reimburse the Company for such charge.

DESCRIPTION

surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

GAS SERVICES DIVISION

DESCRIPTION

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE 1
 Central Texas Service Area
 COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in all incorporated and unincorporated areas of its Central Texas Service Area including Austin, Bee Cave, Buda (environs only),

RAILROAD COMMISSION OF TEXAS
 GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 25159

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the Commodity Cost, the Reconciliation Component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase/Sales Ratio plus an adjustment for any known and quantifiable under or over collection prior to the end of the reconciliation period.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its suppliers or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable costs for services such as gathering, treating, processing, transportation, capacity and/or supply reservation, storage, balancing including penalties, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after August 25, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas or a municipal regulatory authority. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission or municipal regulatory no later than June 15.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve-month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve-month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, including prudently incurred gains or losses on the approved use of natural gas financial instruments, (b) the revenues received from operation of the provisions of this Cost of Gas Clause reduced by the amount of revenue associated fees and taxes paid by the Company on those revenues, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued for imbalances under the

GAS SERVICES DIVISION

TARIFF CODE: DS RRC TARIFF NO: 25159

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

transportation rate schedule(s) net of fees and applicable taxes, (e) the total amount of Uncollectible Cost of Gas during the period, and (f) an adjustment, if necessary, to remove lost and unaccounted for gas costs during the period for volumes in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased by general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers. For the purpose of this computation all volumes shall be stated at 14.65 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the applicable regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the Cost of Gas Clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), including prudently incurred gains or losses on the use of approved natural gas financial instruments, (b) the revenues produced by the operation of this Cost of Gas Clause, (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority, (d) amounts accrued pursuant to the treatment of imbalances under any transportation rate schedule(s), and (e) total amount of Uncollectible Cost of Gas during the period.

8. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT
 If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle through the June billing cycle preceding the filing of the Reconciliation Audit. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied, subject to refund, for a nine (9) month period beginning with the October billing cycle and continuing through the next June billing cycle at which time it will terminate.

E. INTEREST ON FUNDS
 Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month within the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 25159

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

period of audit. The Company shall debit or credit to the Reconciliation Account for each month of the reconciliation period: (1) an amount equal to the outstanding over collected balance multiplied by interest of 6% per annum compounded monthly; or (2) an amount equal to the outstanding under collected balance multiplied by interest of 6% per annum compounded monthly. The Company shall also be allowed to recover a carrying charge calculated based on the arithmetic average of the beginning and ending balance of gas in storage inventory for the prior calendar month times the authorized rate of return of 7.308% per annum.

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Interest on Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the Cost of Gas caused by any surcharge or refund; (d) the Reconciliation Component; (e) the revenue associated fees and taxes to be applied to revenues generated by the Cost of Gas; (f) the Cost of Gas calculation, including gains and losses from approved hedging activities for the month; and (g) the beginning and ending date of the billing period. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculations of the Cost of Gas.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the hedging activities conducted each month during the twelve

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 25159

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

months ending June 30, including the types of transaction used, resulting gains and losses, any changes in the hedging program implemented during the period and the rationale for the changes. The report should include the customer impact of hedging activities stated as costs to the average residential and commercial customer during the period.

5. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly balances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.

6. A description of uncollectible cost of gas during the period and its effect on the Cost of Gas Clause to date.

This report shall be filed concurrently with the Cost of Gas Statement for October.

If the Regulatory Authority thereafter determines that an adjustment to the Reconciliation Component is required, such adjustment shall be included in the Reconciliation Component for the next annual Reconciliation Audit following the date of such determination.

TEXAS GAS SERVICE COMPANY
 Central Texas Service Area
 RATE SCHEDULE C-1
 ELECTRICAL COGENERATION RATE

APPLICABILITY

Service under this rate schedule is available to any customers who use natural gas for the purpose of cogeneration or the use of fuel cell technology. Cogeneration is defined as the use of thermal energy to produce electricity with recapture of by-product heat in the form of steam, exhaust heat, etc. for industrial process use, space heating, food processing or other purposes.

DESCRIPTION

TERRITORY

The incorporated areas of the Central Texas Service Area, which includes, Austin, Bee Cave, Cedar Park, Cuero, Dripping Springs, Gonzales, Kyle, Lakeway, Lockhart, Luling, Nixon, Rollingwood, Shiner, Sunset Valley, West Lake Hills and Yoakum, Texas.

COST OF SERVICE RATE

During each monthly billing period:

A customer charge per meter per month of \$70.00 plus

For the First 5,000 Ccf/Month \$0.08708 per Ccf

For the Next 35,000 Ccf/Month \$0.07838 per Ccf

For the Next 60,000 Ccf/Month \$0.06512 per Ccf

All Over 100,000 Ccf/Month \$0.05004 per Ccf

OTHER ADJUSTMENTS

Cost of Gas Component: The basic rates for cost of service set forth above shall be increased by the amount of the Cost of Gas Component for the billing month computed in accordance with the provisions of Rate Schedule 1.

Pipeline Integrity Testing Rider: The billing shall reflect adjustments in accordance with provisions of the Pipeline Integrity Testing Rider, Rate Schedule PIT.

Rate Schedule RCE: Adjustments in accordance with provisions of the Rate Case Expense Surcharge Rider.

Taxes: Plus applicable taxes and fees (including franchise fees) related to above.

CONDITIONS

Gas taken under this rate shall be used exclusively for the purpose of cogeneration and fuel cell technology as defined in the Applicability section of this rate schedule and not for other purposes. The gas taken under this rate will be separately metered.

This rate will not be available for standby use.

The curtailment priority of any customer served under this rate schedule shall be the same as the curtailment priority which would pertain if gas were used directly to provide energy for uses as defined and listed in the Company's curtailment plan.

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

IKE-Rider GalSvA-IS

TEXAS GAS SERVICE COMPANY
Galveston Service Area - Gulf Coast Region
RATE SCHEDULE IKE-RIDER
HURRICANE IKE SURCHARGE

A. APPLICABILITY
The Hurricane Ike Surcharge (IKE) rate as set forth in Section (B) below is for the recovery of losses incurred by the Company as a direct result of Hurricane Ike and not recoverable from any other source. These losses include insurance deductibles under the property damage and business interruption policies.

The IKE rate shall apply to the following gas sales and transportation rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas: 10, 12, 13, 20, 21, 22, 23, 24, 25, 30, 31, 32, 33, 34, 35, 40, 41, 42, 43, 44, 45, C-1, CNG-1, and T-1.

B. IKE RATE
The following rate will be added to the applicable Rate Schedule Cost of Service rate per Ccf for each monthly billing period:

Hurricane Ike Surcharge - All Ccf during each billing period:
\$0.0273 per Ccf (gas sales and standard transport customers)

This rate will be in effect until all approved and expended Hurricane Ike costs and associated rate case expenses are recovered under the applicable rate schedules. This Rider does not limit the legal rights and duties of the Cities and is subject to all applicable laws and orders and the Company's rules and regulations on file with the regulatory authority.

DESCRIPTION

RAILROAD COMMISSION OF TEXAS
CHAPTER 8
PIPELINE SAFETY REGULATIONS
SUBCHAPTER C
REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after

TARIFF CODE: DS RRC TARIFF NO: 28841

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

DESCRIPTION

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

 RATE SCHEDULE WNA

WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated and unincorporated areas served in the Gulf Coast Service Area including Galveston, Bayou Vista, Jamaica Beach, Port Arthur, Nederland, Groves & Port Neches: Rate Schedules 10, 1Z, 20, 2Z, 40 and 4Z. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \frac{\text{WNAD}}{\text{CV}}, \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

WNAD = (HDD Diff * CB * WF) * COS rate, where
HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

Residential 0.169485; Commercial 0.359253; Public Authority 2.504963

CV = Current Volumes for the billing period.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request. By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

Vista and Jamaica Beach, Texas in the Gulf Coast Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after March 1, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission no later than June 15th.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period,

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 28841

RATE SCHEDULESCHEDULE IDDESCRIPTION

and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

9. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

GAS SERVICES DIVISION

DESCRIPTION

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance

writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission no later than June 15th.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause,

5. (cont.) (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

8. General Service Customers - those customers served under general service rate schedules.

9. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

RATE SCHEDULE

DESCRIPTION

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any.

This report shall be filed concurrently with the Cost of Gas Statement for October.

<u>PLAN ID</u>	<u>DESCRIPTION</u>
489	<p style="text-align: right;">RAILROAD COMMISSION OF TEXAS OIL AND GAS GAS UTILITIES</p> <p>DIVISION</p> <p>DIVISION OIL AND GAS DOCKET</p> <p style="text-align: center;">GAS UTILITIES</p> <p>DIVISION</p> <p>NO. 20-62, 505</p> <p style="text-align: center;">DOCKET NO. 489</p> <p>ORDER RELATING TO THE APPROVAL BY THE COMMISSION OF CURTAILMENT PROGRAMS FOR NATURAL GAS TRANSPORTED AND SOLD WITHIN THE STATE OF TEXAS</p> <p>After due notice the Railroad Commission of Texas on the 30th day of November, 1972, heard testimony and requested written curtailment priorities from representatives of investor owned and municipal gas utilities companies, private industry consumers and others responsible for directing available natural gas supplies to the consumers of natural gas in the State of Texas.</p> <p>WHEREAS, pursuant to the authority granted to the Railroad Commission of Texas in Article 6050 to 6066, inclusive, R.C.S., as amended; and</p> <p>WHEREAS, the Commission has determined the need for a curtailment program to assure effective control of the flow of natural gas to the proper destinations to avoid suffering and hardship of domestic consumers; and</p> <p>WHEREAS, the Commission has determined a need to make natural gas available to all gas consumers on a reasonable but limited basis during times of needed curtailment to the end that the public will be best served; and</p> <p>WHEREAS, the Commission has determined that the transportation delivery and/or sale of natural gas in the State of Texas for any purpose other than human need consumption will be curtailed to whatever extent and for whatever periods the Commission may find necessary for the primary benefit of human needs customers (domestic and commercial consumption) and such small industries as cannot practically be curtailed without curtailing human needs.</p> <p>IT IS THEREFORE, ORDERED BY THE RAILROAD COMMISSION OF TEXAS that the following rules relating to the approval by the Commission of curtailment programs for gas transported and sold within the State of Texas shall apply to all parties responsible for directing available and future natural gas supplies to the consumers of natural gas in the State of Texas.</p> <p style="text-align: right;">RULE 1.</p> <p>Every natural gas utility, as that term is defined in Article 6050, R.C.S. of Texas, as amended, intrastate operations only, shall file with the Railroad Commission on or before Feb. 12, 1973, its curtailment program. The Commission may approve the program without a hearing; set the matter for a public hearing on its own motion or on the motion of any affected customer of said utility.</p>

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

The curtailment program to be filed shall include, in verified form, the following information:

A. Volume of gas reserves attached to its system together with a brief description of each separate source of gas reserves setting forth the following:

1. the name of the supplier,
2. the term of each contract in years, and the years remaining on said contract,
3. the volume of recoverable reserve contracted for, and
4. rated deliverability of such reserves in MCF.

B. Capacity and location of underground storage, if any, attached to its system with a statement of whether the company's storage balance is above or below its desired level for this time, and, if below, what plans has the company made to restore the balance.

C. Peak day and average daily deliverability on an annual basis of its wells, gas plants and underground storage attached to its system.

D. Peak day capacity of its system.

E. Forecast of additions to reserves for each of the next two succeeding years.

F. Location and size of the line pipes, compressor stations, operating maximum line pressures, and a map showing delivery points along the system.

G. Disposition of all gas entering its system, with names of all customers other than residential customers and volumes delivered to each during the past calendar year. Identify those customers using 3,000 MCF gas per day, or more, which are under a service contract, and if such contract includes an Interruptible Service clause, and if so, attach a reproduced copy of the relevant provisions of such contract.

H. Steps taken in past years, being taken at the present, and to be taken to alleviate curtailments.

RULE 2.

Until such time as the Commission has specifically approved a utilities curtailment program, the following priorities in descending order shall be observed:

A. Deliveries for residences, hospitals, schools, churches and other human needs customers.

B. Deliveries of gas to small industrials and regular commercial loads (defined as those customers using less than 3,000 MCF per day) and delivery of gas for use as pilot lights or in accessory or auxiliary equipment essential to avoid serious damage to industrial plants.

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

C. Large users of gas for fuel or as a raw material where an alternate cannot be used and operation and plant production would be curtailed or shut down completely when gas is curtailed.

D. Large users of gas for boiler fuel or other fuel users where alternate fuels can be used. This category is not to be determined by whether or not a user has actually installed alternate fuel facilities, but whether or not an alternate fuel could be used.

E. Interruptible sales made subject to interruption or curtailment at Seller's sole discretion under contracts or tariffs which provide in effect for the sale of such gas as Seller may be agreeable to selling and Buyer may be agreeable to buying from time to time.

RULE 3.

Each gas utility that has obtained Commission approval of a curtailment program shall conduct operations in compliance with such program. So long as any gas utility which has obtained Commission approval of a curtailment program continues to curtail deliveries to its customers, except as provided by contract or those customers included in Part E of Rule 2 above, it

(a) shall file on or before April 1 of each year, under oath, the information called for in Rule 1, for the preceeding year, and

(b) shall not, without Commission approval, make sales of gas to any new customers or increase volumes sold to existing customers, except those new or existing customers defined in Parts A & B of Rule 2 above.

IT IS FURTHER ORDERED that this cause be held open for such other and further orders as may be deemed necessary.

ENTERED AT AUSTIN, TEXAS, this 5th day of January, 1973.

LINE EXTENSION POLICY

<u>POLICY ID</u>	<u>DESCRIPTION</u>
1228	<p>TEXAS GAS SERVICE COMPANY Texas Tariff - GULF COAST SERVICE AREA INCORPORATED AND ENVIRONS AREAS OF THE GULF COAST SERVICE AREA</p> <p>(From Quality of Service Rules effective May 9, 2016)</p> <p>INSTALLATION OF EQUIPMENT</p> <p>7.1 EQUIPMENT FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's existing main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, the Company shall determine the estimated cost of that portion of the service between the property line and the meter set. This estimate shall be based on the size and footage to be installed, and charged in accordance with Section 8 and other applicable provisions of this Tariff. This estimated amount shall be contributed by the Applicant to the Company before construction, unless the Applicant is a qualified Blanket Builder. Although affixed to or buried in the Customer's property, the entire service and meter set shall become the property of the Company and shall be operated and maintained by the Company.</p> <p>7.2 EQUIPMENT FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his or her expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company as described in Paragraph 7.1 above. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility for the facilities installed by him or her.</p> <p>7.3 STATUTES, CODES, AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable legal requirements, whether federal, state, county, municipal, or otherwise, and shall be properly designed for the pressures and volumes to be handled. In those locations where there are no applicable state or local requirements, the applicable provisions of the National Fuel Gas Code 54, ANSI Z223.1, and any amendments thereto shall apply.</p> <p>7.4 CHECKS AND TESTS The Company shall have the right to check new installations prior to initiation of service and to make any test of the Applicant's facilities it deems necessary.</p> <p>7.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Initiation of service, however, shall not be considered to be acceptance or approval by the Company of such facilities.</p> <p>EXTENSION OF FACILITIES</p> <p>8.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify</p>

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 28841
-----------------	----------------------

the installation.

8.2 DESIGN AND COST OF FACILITIES

As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

8.3 ALLOWANCE FOR NEW BUSINESS

The Company shall also determine the number of existing permanent Customers located along the route of the extension expected to be served there from. To be included, the occupant of each premise must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance to be determined by the Company may be given for each Customer whose premises exist at the time of application to be served from the proposed main extension. In order to qualify for this allowance, the Customer must file an application and agree to initiate gas service upon completion of the Company's facilities.

8.4 ADVANCES

The mutually agreed upon financial terms will determine the amount of advance required. The Applicant shall have 30 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance based on an economic analysis of the project.

8.5 CONSTRUCTION OF FACILITIES

As soon as practical after the advance has been paid or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s), these rights-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

8.6 REVIEW OF ADVANCES

The Company shall review each extension agreement on the first anniversary of the signing of that agreement. Upon the Applicant(s) request if the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

terminated and a complete refund made to the Applicant(s). Once the extension has been installed and service has been initiated, the Company shall thereafter review the extension agreement at its second through fifth anniversary date. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund, shall be given for each additional Customer served, based on mutually agreed upon financial terms provided that the total of the refunds given does not exceed the cost of the extension of facilities.

8.7 REFUND LIMITATIONS

The Company may, at its sole option, make a refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

8.8 DELIVERY OF REFUNDS

Upon Applicant(s) request, when a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made or to his or her assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five year period of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

TARIFF CODE: DS	RRC TARIFF NO: 28841
------------------------	-----------------------------

Galveston, Bayou Vista, Jamaica Beach, Groves, Port Neches, Nederland, and Port Arthur, and their environs. This Tariff supersedes and replaces all tariffs previously approved and applied in said cities. Service under this Tariff is subject to the original jurisdiction of the municipalities in the Gulf Coast Service Area and the Railroad Commission of Texas. The Company will provide service to any person and/or business within its service area in accordance with the rates, terms and conditions provided for in its Tariff and regulations.

1.2 RATE SCHEDULES All Customers shall be served under rate schedules filed with the municipality or Railroad Commission of Texas. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer regarding the most advantageous rate for his usage if more than one rate is applicable. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error may be corrected immediately. In the event of a question regarding the Customer's classification, the questions shall be resolved by reference to the coding of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office Management and Budget.

1.3 DEFINITIONS The following definitions shall apply to the indicated words as used in this Tariff:

Adder: Shall mean the Company's incremental cost to purchase natural gas.

Aggregation Areas: Shall mean aggregation pools established by the Company within geographic, operational, administrative, and/or other appropriate parameters, for the purposes of nominating and imbalances. **Agricultural Service and Service to Consumers engaged in agricultural production Irrigation or Irrigation (SIC Division A - Major Group 01) who use gas for Pumping Service:** operating engine-driven pumping equipment.

Applicant: Any person, organization or group of persons or organizations making a formal request either orally or in writing for gas service from the Company.

Automated Meter Reading (AMR): A device that remotely reads a gas meter.

Average Day Usage: The gas demand of a given Customer for gas in any one month divided by 30.

Gas demand is considered to be equivalent to consumption during each billing month, provided however, that when service has been curtailed, demand shall be considered to be actual consumption plus estimated curtailment during the period. **Blanket Builder:** A builder or someone acting for a builder who is invoiced for the installation of yardlines.

Btu: Shall mean British thermal unit(s) and shall be computed on a temperature base of sixty degrees (60 degrees) Fahrenheit and at the standard pressure base of the applicable service area and on a gross-real-dry basis and shall not be corrected for real water vapor as obtained by means commonly acceptable to the industry, and MMBtu shall mean one million (1,000,000) Btu.

Commercial Service: Service to Consumers engaged primarily in the sale or furnishing of goods and services and any usage not otherwise provided for.

Commission or The Commission: The Railroad Commission of Texas.

Company: Texas Gas Service Company, a division of ONE Gas, Inc.

Consumer: Any person or organization receiving gas service from the Company for his or her own appliances or equipment whether or not the gas is billed directly to him or her. (For example, a rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer.)

Customer: Any person or organization now being billed for gas service whether used by him or her, or by others.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 28841
-----------------	----------------------

Cumulative Tolerance Limit: Shall mean the percent of aggregate historical annual deliveries of a Qualified Supplier's Aggregation Area pool of customers for the most recent year ended on June 30. The Company, at its sole discretion, may make adjustments to the Cumulative Tolerance Limit.

Consumption Period: Shall mean a volumetric billing period.

Day or Gas Day: Shall mean the 24-hour period commencing at 9:00 a.m. (central clock time) on one calendar day and ending at 9:00 a.m. (central clock time) the following calendar day.

Dekatherm (Dth): Shall mean 1,000,000 Btu's (1 MMBtu). This unit will be on a dry basis.

Domestic Service: Service to any Consumer which consists of gas service used directly for heating, air conditioning, cooking, water heating and similar purposes whether in a single or multiple dwelling unit.

Electronic Document: Any document sent electronically via email or internet.

Electronic Fund Transfer (EFT): The process to convert a paper check or electronic bill payment request to an electronic transfer. Paper checks received by Company or their agents are destroyed.

Electronic Flow Measurement (EFM) A device that remotely reads a gas meter.

Electronic Radio Transponder (ERT) A device that remotely reads a gas meter.

Expedited Service: Customer request for same day service or service during non-business hours for connect or reconnect of gas service.

Gas or Natural Gas: Shall mean the effluent vapor stream in its natural, gaseous state, including gas-well gas, casing head gas, residue gas resulting from processing both casing head gas and gas-well gas, and all other hydrocarbon and non-hydrocarbon components thereof.

General Rate Schedule: A rate schedule available to all Customers of the appropriate class or classes for usages indicated therein.

Industrial Service: Service to Consumers engaged primarily in a process which changes raw or unfinished materials into another form of product. This classification shall embrace all Consumers included in Division A (except Major Groups 01 and 02) and Division D of the Standard Industrial Classification Manual.

Mcf: Shall mean one thousand (1,000) cubic feet of Gas

Month: Shall mean the period beginning at 9:00 a.m. central clock time on the first Day of each calendar month and ending at 9:00 a.m. Central clock time on the first Day of the next succeeding calendar month.

Monthly Tolerance Limit: Shall mean five percent (5%) of the aggregate deliveries for a Qualified Suppliers Aggregation Area pool of customers for such month.

Optional Rate Schedule: A General Rate Schedule which may be selected by a Customer in lieu of another general schedule but which may require the installation of special equipment.

Overtime Rate: The fee charged by Company to perform work outside its normal business hours or on holidays and includes changes to previously scheduled work that must be performed outside Company's normal business hours.

Payment in Kind (PIK): Shall mean a reimbursement for lost and unaccounted for gas.

PDA: Shall mean a predetermined allocation method.

Pipeline System: Shall mean the current existing utility distribution facilities of Company located in the State of Texas.

Point of Delivery: Shall mean the point or points where gas is delivered from the Pipeline System to Customer.

Point of Receipt: Shall mean the point or points where Company shall receive Gas into the Pipeline System from Customer.

Point Operator: Shall mean the person or entity that controls the Point of Receipt or Point of Delivery. Power Generation Service: Service to Consumers for the purpose of generating electricity. This service may be further divided into

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

direct generation in which the gas is used to power the prime mover and indirect generation in which the gas is burned in a boiler and the generator is steam powered.

Qualified Supplier: Shall mean an approved supplier of natural gas for transportation to customers through the Company's pipeline system.

Regulatory Authority: The City Council or equivalent municipal governing body of each respective city in the Gulf Coast Service Area, or the Railroad Commission of Texas, as applicable.

Service Area: The area receiving gas utility service provided by the Company under the terms of this Tariff.

Special Rate Schedule: A rate schedule designed for a specific Customer.

System: Any group of interconnected pipelines and appurtenances owned or operated by the Company and independent from any other such group of facilities.

Tariff: Shall mean every rate schedule, or provision thereof, and all terms, conditions, rules and regulations for furnishing gas service filed with the regulatory authorities or agencies having jurisdiction over Company or the services provided hereunder.

Temporary Service: Any service which will not be utilized continuously at the same location for a period of two or more years. Transportation Form: Shall mean the Company approved selection of transportation service document.

Transportation Rate Schedule: A rate schedule designed for service to any Customer for the transportation of Customer-owned natural gas through the Company's distribution system.

Transportation Service: The transportation by the Company of natural gas owned by someone other than the Company through the Company's distribution system.

Week: Shall mean a period of seven (7) consecutive Days beginning at 9:00 a.m. central clock time on each Monday and ending at the same time on the next succeeding Monday.

Year: Shall mean a period of three hundred sixty-five (365) consecutive Days, or three hundred sixty-six (366) consecutive Days when such period includes a February 29.

Section 2. [Reserved for future rules]

Section 3: RATES AND UTILITY CHARGES

Please see current Rate Schedules on file with each applicable Regulatory Authority.

CONDITION OF SERVICE

4.1 PROVISION OF SERVICE The Company will provide gas service to any person or organization located within the Gulf Coast Service Area from Company's facilities, or in certain cases, the facilities of its supplier, in accordance with the provisions of this Tariff, including the Company's Rate Schedules and Rules of Service.

4.2 FEES AND CHARGES All fees and charges made by the Company to provide and maintain utility services as provided for in this Tariff. If the Customer elects transportation service, the commodity cost of gas shall be determined between the Customer and the Customer's selected supplier.

4.3 RESALE OF GAS Gas delivered by the Company shall not be redelivered or resold for the use thereof by others unless otherwise expressly agreed to in writing by the Company; provided, however, that those Customers receiving gas for redistribution to the Customer's tenants may separately meter each tenant's distribution point for the purpose of prorating the Customer's actual amount of gas delivered among the various tenants on a per unit basis.

4.4 CONTINUITY OF SERVICE

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 28841
-----------------	----------------------

a) Service interruptions

i) The Company shall make all reasonable efforts to prevent interruptions of service. When interruptions occur, the Company will reestablish service within the shortest possible time consistent with prudent operating principles so that the smallest number of Customers is affected.

ii) The Company shall make reasonable provisions to meet emergencies resulting from failure of service, and will issue instructions to its employees covering procedures to be followed in the event of an emergency in order to prevent or mitigate interruption or impairment of service.

iii) In the event of emergency or disaster resulting in disruption of normal service, the Company may, in the public interest, interrupt service to other Customers to provide necessary service to civil defense or other emergency service agencies on a temporary basis until normal service to these agencies can be restored.

b) Record of interruption. Except for momentary interruptions which do not cause a major disruption of service, the Company shall keep a complete record of all interruptions, both emergency and scheduled. This record shall show the cause of interruptions, date, time duration, location, approximate number of Customers affected, and, in cases of emergency interruptions, the remedy and steps taken to prevent recurrence, if applicable.

c) Report to Railroad Commission of Texas. The Commission shall be notified in writing within 48 hours of interruptions in service affecting the entire system or any major division thereof lasting more than four hours. The notice shall also state the Company's belief as to the cause of such interruptions. If any service interruption is reported to the Commission otherwise (for example, as a curtailment report or safety report), such other report is sufficient to comply with the terms of this paragraph.

d) The procedure under which curtailments of service will be made is described in the Curtailment Plan on file with the Railroad Commission of Texas.

e) The Company does not guarantee uninterrupted service to any Customer and shall not be liable for damages resulting from any loss of service to any Customer.

4.5 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in the Company's Gulf Coast Office and its Division Office in Austin. The Tariff shall be available for examination in the referenced locations to any Customer or Applicant requesting it, during Company's normal business hours and upon reasonable notice to Company, and notice to this effect shall be posted in the Company's office. Upon the request of any Customer or Applicant, the Company shall make copies of the Tariff which may be purchased by the Customer or Applicant at the Company's Gulf Coast office. The Company may charge for each copy a fee which is not in excess of the Company's reasonable cost to reproduce the material.

4.6 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. Upon any Customer's request, the Company shall inform the Customer how to read the Customer's meter. The Company shall annually provide each Customer with notice of the availability of a concise description in English and Spanish of the Customer's rights and the Company's obligations under this Tariff. A new Customer shall be provided with a description at the time service is initiated.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS	RRC TARIFF NO: 28841
-----------------	----------------------

4.7 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, in writing, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final disposition of the complaint. However, complaints which require no further action by the Company need not be recorded. Each complainant shall be advised of his or her right to file the complaint with the Regulatory Authority if not satisfied by the Company. Upon receipt of a complaint, either in writing or by telephone, from the Regulatory Authority on behalf of a Customer, the Company will make a suitable investigation and advise the Regulatory Authority and complainant of the results thereof. An initial response must be made by the next business day. The Company will make a final and complete response within 15 days from the date of the complaint, unless additional time is granted within the 15 day period.

4.8 LIMITATION OF LIABILITY The Customer assumes all responsibility for all facilities and their installation, maintenance, operation, functionality, testing and condition thereof on the Customer's side of the point of delivery of gas to the property of the Customer or to the premises of the Consumer, as defined in Section 6.2. Customer shall indemnify, hold harmless, and defend the Company and its employees or agents from any and all claims or liability for personal injury, damage to property, or any incidental, consequential, business interruption, or other economic damages or losses in any manner directly or indirectly connected to, arising from, or caused by acts or omissions of any person or party on the Customer's side of said point of delivery, as defined in Section 6.2.

The Company shall be liable to the Customer or Consumer only for personal injury or property damage arising directly from or caused directly by the negligent acts or omissions of the Company or its employees occurring on the Company's side of the point of delivery. The Company shall not be liable or responsible for personal injury, property damages, or any other loss or damages arising from or caused by the negligent or intentional act or omission of any person, other than an employee of the Company, who adjusts, repairs, disconnects, changes, alters, or tampers with the Company's meter or facilities in any way.

The Company shall be liable to third parties only for personal injury or property damage directly arising from the negligence or gross negligence of the Company or its employees when acting within the scope of their employment.

In no event shall the Company or its employees be liable for incidental, consequential, business interruption, or other economic damages or losses of Customer, Consumer, or third parties in any manner, directly or indirectly, arising from, caused by, or growing out of the interruption or termination of gas utility service.

CONDITION OF SERVICE (Continued)

4.8 LIMITATION OF LIABILITY (Continued) The Customer shall make or procure conveyance to the Company of perpetual right-of-way across the property owned or controlled by the Customer that is satisfactory to the Company, provides clear access to Company's facilities, and enables the Company to provide service to Customer's property or the premises of Consumer.

INITIATION OF SERVICE

5.1 REGULAR SERVICE Application for service can be made by telephone or through the Internet. Each Applicant must comply with the appropriate requirements of this Tariff before service

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

shall be instituted. No written agreement shall be required for residential service under the standard provisions of this Tariff; commencement of service by the Company and the use of gas service by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply. Each Applicant may be required to produce an identification card bearing a photograph of Applicant and verifiable proof of their right to occupy a specific service address as of a specific date of occupancy.

5.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply.

5.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind.

5.4 FEES AND CHARGES The Company shall charge a non-refundable fee to each Applicant to compensate for the cost involved in initiation or reconnection of service or when service is transferred from one name to another at any location, or whenever a meter is reset or relocated on the same premises at the request of the Customer, all as specified in Section 21.1 of this Tariff. Whenever the Applicant requests expedited service, the Company will accomplish the work as expeditiously as possible and the Customer will be charged at the Company's approved rate for service work. Expedited service and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of a third party and the Company must pay any special fees to that third party, the Company may, at its option, pass that charge through to the Applicant requesting service. See Section 21.1 relating to fees for the above.

5.5 ESTABLISHMENT OF CREDIT Each Applicant for service shall be required to make a security deposit in accordance with Section 10 of this Tariff to establish and maintain a satisfactory credit standing. The amount of deposit required shall be computed in the same manner for the same class of service; provided however, that a deposit shall be waived if:

- a) The Applicant has been a Customer for the same kind of service within the last two years and did not have more than one occasion in which a bill for service from any such utility service account was delinquent and no disconnection for non-payment was made;
- b) The Applicant furnishes an acceptable letter of credit;
- c) The Applicant demonstrates a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification (applicable to residential Customers only);
- d) The Applicant is 65 years of age or older and has had no outstanding balance for natural gas utility service which accrued within the last two years (applicable to residential Customers only);
- e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis;
- f) The application is made for or guaranteed by an agency of the federal, state or local government.
- g) The Applicant has been determined to be a victim of family violence as defined in Texas

-----------------	----------------------

Family Code, Section 71.004. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site; or

5.6 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons: a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff;

b) Failure of the Applicant to furnish any service or meter location specified for service under this Tariff;

c) Existence of an unsafe condition such as a leak in the Applicant's piping system which, in Company's sole opinion, may endanger life or property;

d) The Applicant is indebted to the Company for the same class of utility service at the same or another service location within the Company's system; or

e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for the refusal to serve.

5.7 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending on approvals and permits required, the extent of the facilities to be built, and the Company's workload at the time.

METERING AND DELIVERY OF GAS

6.1 METER LOCATION The Company shall have the sole right to determine the location of the meter in accordance with the needs of the service. Each Applicant shall furnish and subsequently maintain a suitable location on his or her premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be safely accessible for reading and service, adequately ventilated, and not subject to damage. Meters shall not be located within any enclosed area unless the enclosure is solely intended as a meter house. It may be necessary for the Company to install bollards or guard posts around the meters for safety.

6.2 POINT OF DELIVERY The point of delivery of gas sold by the Company to the Customer shall be at the outlet side of the Company's meter, provided that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas sold by the Company to the Consumer shall pass from the Company at the point of delivery. The point(s) of delivery and point(s) of redelivery for Transportation Service shall be as provided in the contract entered into between the Customer and the Company.

6.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land may be served from a single meter location. The Company may, at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately, provided that any combined billings in effect at the time of adoption of this Tariff may be continued until the affected Customer discontinues service or upon order by the Regulatory Authority.

6.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection or alteration of any kind on or to any of the Company's facilities upstream of the Company's meter or shall permit any other person to make such connection or alteration.

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

INSTALLATION OF EQUIPMENT

7.1 EQUIPMENT FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's existing main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, the Company shall determine the estimated cost of that portion of the service between the property line and the meter set. This estimate shall be based on the size and footage to be installed, and charged in accordance with Section 8 and other applicable provisions of this Tariff. This estimated amount shall be contributed by the Applicant to the Company before construction, unless the Applicant is a qualified Blanket Builder. Although affixed to or buried in the Customer's property, the entire service and meter set shall become the property of the Company and shall be operated and maintained by the Company.

7.2 EQUIPMENT FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his or her expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company as described in Paragraph 7.1 above. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility for the facilities installed by him or her.

7.3 STATUTES, CODES, AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable legal requirements, whether federal, state, county, municipal, or otherwise, and shall be properly designed for the pressures and volumes to be handled. In those locations where there are no applicable state or local requirements, the applicable provisions of the National Fuel Gas Code 54, ANSI Z223.1, and any amendments thereto shall apply.

7.4 CHECKS AND TESTS The Company shall have the right to check new installations prior to initiation of service and to make any test of the Applicant's facilities it deems necessary.

7.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Initiation of service, however, shall not be considered to be acceptance or approval by the Company of such facilities.

GCst1b

TEXAS GAS SERVICE COMPANY Gas Tariff - Gulf Coast Service Area

EXTENSION OF FACILITIES

8.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation.

8.2 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

8.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing permanent Customers located along the route of the extension expected to be served there from. To be included, the occupant of each premise must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance to be determined by the Company may be given for each Customer whose premises exist at the time of application to be served from the proposed main extension. In order to qualify for this allowance, the Customer must file an application and agree to initiate gas service upon completion of the Company's facilities.

8.4 ADVANCES The mutually agreed upon financial terms will determine the amount of advance required. The Applicant shall have 30 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance based on an economic analysis of the project.

8.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been paid or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s), these rights-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

8.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. Upon the Applicant(s) request if the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). Once the extension has been installed and service has been initiated, the Company shall thereafter review the extension agreement at its second through fifth anniversary date. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund, shall be given for each additional Customer served, based on mutually agreed upon financial terms provided that the total of the refunds given does not exceed the cost of the extension of facilities.

8.7 REFUND LIMITATIONS The Company may, at its sole option, make a refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

8.8 DELIVERY OF REFUNDS Upon Applicant(s) request, when hen a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made or to his or her assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five year period of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

CUSTOMER-OWNED SYSTEMS

9.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of the Company's suppliers.

9.2 MASTER METERS The Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis; provided, however, that those Customers purchasing gas for redistribution to the Customer's own tenants only on the Customer's premises may separately meter each tenant distribution point for the purpose of prorating the Consumer's actual purchase price of gas delivered among the various tenants on a per unit basis, and further provided that the provisions of this Section 9 shall not preclude the Company from supplying natural gas to a third party for resale to the public as fuel for natural gas powered vehicles (NGV's).

SECURITY DEPOSITS

10.1 REQUIREMENTS The Company shall require a security deposit from any present or prospective Customer in accordance with Paragraph 5.5 and 18.1 of this Tariff to guarantee payment of bills, and from any present Customer who during the last 12 consecutive months has on more than one occasion paid its utility bill after becoming delinquent. The amount of the deposit shall not exceed one-sixth of the estimated annual billings for similar Customers. However, the deposit requirement may, at the option of the Company be based on annual usage experienced at the particular address with application of one-sixth of the annual amount as determined as the required deposit. If actual use is at least twice the amount of the estimated billings, a new deposit requirement may be calculated and an additional deposit may be required within two days. The deposit shall be refunded to residential Customers when the Customer has paid 12 consecutive bills without having service disconnected for non-payment, and without having one or more occasion in which a bill was delinquent or a payment was returned, and the Customer is not currently delinquent.

10.2 RECEIPTS The Company shall maintain such records as may be necessary to permit any Customer to receive any deposit return to which he or she is entitled without presentation of the receipt. A record of any unclaimed deposits shall be maintained by the Company for at least 4 years.

10.3 INTEREST The Company shall pay interest on all security deposits for the time held at

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 28841
-----------------	----------------------

the rate as set by the Public Utility Commission annually except when: a) The deposit is held 30 days or less; b) Notice is sent to the Customer's last known address that the deposit is no longer required; c) The service to which the deposit relates has been discontinued; or d) All or any part of the deposit has been applied to a delinquent account. Interest on deposits earned during the preceding year shall be paid to the Customer during the first quarter of each calendar year. Payment shall be made either by check or as a credit on the monthly bill at the Company's option.

10.4 RETURN OF DEPOSITS Deposits on residential accounts returned to the Customer in accordance with Paragraph 10.1 above shall be applied in the first calendar quarter following the month in which the good payment record is established. Whenever the deposit of any Customer is returned to the Customer, the Company shall pay all previously unpaid interest with the payment.

10.5 ACCEPTABLE FORMS OF DEPOSIT Any one of the following forms of credit security may be accepted from Customers and Applicants for service:

- a) A cash deposit of as much as one-sixth (1/6) the estimated annual billings for service requested; but no less than the minimum deposit set forth in Section 21.2;
- b) A nontransferable, irrevocable letter of credit from an established financial institution, payable for as much as one-sixth (1/6) the estimated annual billings for services requested and, which can be drawn on for a minimum of two (2) years; but no less than the minimum deposit set forth in Section 21.2; or
- c) A surety bond issued by a reputable insurance company which can be drawn on for a minimum of two years.

GAS MEASUREMENT

11.1 PRESSURE The standard serving and measurement pressure shall be 4 ounces (0.25 psig) or 7 Water Column above the standard atmospheric pressure in the area served. Standard serving pressure and the atmospheric pressure determined to be the average in the Gulf Coast Service Area, are 14.95 psia and 14.70 psia, respectively. The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under a load condition of approximately 10 percent of meter capacity. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted.

11.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one hundred cubic feet (Ccf). A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at 14.95 psia and at a temperature of 60 degrees Fahrenheit. Whenever the Company delivers gas at any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation.

11.3 BILLING UNIT Unless otherwise specified on the rate schedules or by special agreement, Customers shall be billed on the basis of Ccf measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. Whenever the meter reads directly in hundreds or smaller units, a reading of one-half a billing unit or more (500 Cf or more) shall be considered a whole billing unit. Readings of less than one-half a unit shall be disregarded for billing. In those cases in which heating

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 28841
-----------------	----------------------

value is used as the billing unit, the calculation of the heating value in BTU's shall be made in accordance with Paragraph 11.7 of this Tariff.

11.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods. a) The Company may install pressure or pressure and temperature compensating measurement equipment whenever the cost of this equipment is justified by the volumes served. Such measurements shall be equipped with devices which mechanically or electronically correct the actual measured volumes in accordance with Boyle's Law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 11.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units.

11.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing unit or may be furnished with devices designed to correct the actual volumes to the standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correcting devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculations based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specific gravity of the gas shall be assumed to be the value last indicated by test or reported by the upstream pipeline supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed prospectively to reflect the new gravity.

11.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, Orifice Metering of Natural Gas (1992), and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 28841
-----------------	----------------------

The arithmetical average of the temperature recorded during each meter charge period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance, impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

11.7 BTU MEASUREMENT The heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period, expressed in the same units and measured at, or corrected to 14.73 psia and 60 degrees Fahrenheit, and multiplying by the factor necessary to convert the heating value/measurement units to the billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods: a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type; b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type; i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents.

11.8 CUSTOMER-OWNED METERS A Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for Company's billing purposes.

METER READING AND ACCURACY

12.1 METERING READING Meters shall be read as nearly as may be practical on the same day of each calendar month. Whenever a reading of a general service meter is missed or the meter is not registering, the Company shall estimate the amount of gas used during the period. Such estimates shall be based on: a) That Customer's use of gas during the same period(s) in previous years; b) That Customer's normal use of gas during preceding months; or c) The use of a similar Customer for the period missed. If practical, an actual reading shall be made after two consecutive estimated bills. All meters in Special Service shall be read at least once a month. Whenever such a meter fails to register or is misread, the amount of gas used during the preceding period shall be estimated using data applicable to that Special Service Customer only. The Company will make a special reading of any meter upon request and payment of a service charge will be made in accordance with Section 21.1. The time of the special reading shall be agreed upon with the Customer so that he or she may be present. If the original reading was in error (subject to consumption between the two readings) the service charge will be refunded to the Customer.

12.2 ACCESS TO THE METER The Customer shall permit the Company safe access to the meter at all reasonable times for reading thereof and at all reasonable times for reading, maintenance, testing, or replacement of the meter. Upon the Customer's failure or refusal to grant such

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

access, the Company may issue a written notice to the Customer, advising them the situation must be corrected and access granted within 10 days and that failure to do so can result in the disconnection of service and removal of the meter. Additional fees may apply and will be assessed to such Customer as specified in Section 21.1.

12.3 METER ACCURACY The accuracy limit of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set.

12.4 METER TESTING AT CUSTOMER REQUEST The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Requests for such tests shall be made in writing and the Company shall have 10 days after receipt of the request to remove the meter for testing or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. If the test is to be performed after the period of presumed accuracy listed by the manufacturer or if the test is to be performed for a residential or small commercial Customer for whom no such test have been performed within the previous four (4) years for the same Customer at the same location, no service charge will be assessed. Otherwise, the Customer shall pay a service charge for such test as specified in Section 21.1.

12.5 BILLING ADJUSTMENTS - GENERAL SERVICE Whenever it has been determined that a meter reading and the subsequent billing has been in error, the Company shall recalculate the affected bill(s). If the date and amount of the error can be definitely fixed, the Company shall refund or may bill the affected Customer for the entire difference between the actual bills rendered and the amount which should have been billed. If a meter is found to have registered inaccurately (such as a meter found to be registering fast or slow), the Company shall refund or bill an amount equal to the difference between the actual bills rendered and the amount which would have been billed if the meter had been 100 percent accurate during the time since the last previous test or the last six months, whichever is less. If the meter is found not to have registered, then the rebilling shall be limited to a three-month period previous to the time the meter is found not to be registering. The determination of amounts used but not metered is to be based on consumption during other like periods by the same Customer at the same location, when available, and on consumption under similar conditions at the same location or of other similarly situated Customers, when not available. Undercharges billed to the Customer may be repaid in a series of equal installments over a reasonable period of time. This Paragraph shall not apply to meter errors found as a result of routine testing in the Company's or its designee's meter shop.

12.6 PROVISIONS FOR SPECIAL SERVICE The following modifications shall apply to the provisions of this Section for all Special Service rate schedules and service under special written agreements: a) Orifice and turbine meters shall be tested at least four times per year at intervals not to exceed 120 days. Should the Customer so elect, tests shall be made in the presence of his or her representative. b) Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill (either up or down) shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate: i) by using registration of Customer's check meter(s); ii) by correcting

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 28841
-----------------	----------------------

the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or iii) by estimating the quantity of gas delivered by comparison with deliveries during the preceding period under similar conditions when accurate registration was obtained.

12.7 PERIODIC TESTS The Company shall make periodic tests of meters, associated devices and instruments to assure their accuracy. Such tests shall be scheduled within the calendar year or earlier, when the interval is stated in years; or within the calendar month, or earlier when the interval is stated in months. The basic periodic test interval shall be no longer than provided for in the manufacturer's recommendations, a copy of which is available upon request.

BILLING AND PAYMENT OF BILLS

13.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full on or before the due date, which shall be stated on the face of the bill and shall not be earlier than fifteen (15) days after the bill is mailed (including electronic mail). Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid thereon or, when the customer has elected to receive billings via electronic mail, when the electronic document has been sent. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of its authorized pay stations. If not paid in full by the date due, the bill shall be considered delinquent.

13.2 BILLING PERIOD Bills shall be rendered at regular monthly intervals unless otherwise authorized or unless service is rendered for a period of less than a month.

13.3 ESTIMATED BILLS In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption determined in accordance with Paragraph 12.1 of this Tariff. The next bill based on actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for the actual consumption.

13.4 DISPUTED BILLS a) In the event of a dispute between the Customer and the Company regarding the bill, the Company will make such investigation as is required by the particular case and report the results to the Customer. If the Customer wishes to obtain the benefits of Paragraph b) of this subsection, notification of the dispute must be given to the Company prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the Company shall inform the Customer of the complaint procedures of the appropriate regulatory authority. b) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: resolution of the dispute or the expiration of the 60 day period beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period during the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar Customers and under similar conditions.

13.5 PAYMENT RE-PROCESSING FEE The Company may charge or add to the Customer's account and collect a fee (as provided in Section 21.1 d) to recover costs for reprocessing any payment,

GAS SERVICES DIVISION

TARIFF CODE: DS	RRC TARIFF NO: 28841
-----------------	----------------------

including paper check, electronic transfer payment, and debit or credit card payment, that has been rejected or returned to the Company by the bank for any reason other than bank error.

13.6 E-BILL The Customer may at its option receive bills and notices via electronic mail, thereby eliminating paper bills and notices.

13.7 ALTERNATIVE PAYMENT OPTIONS The Company may, at its option and discretion, contract with vendors to provide various payment options to Customers for paying their bills for gas service and to collect such payments. These alternative payment options may be performed electronically, telephonically, and/or in person and may include payment by automatic bank draft, credit card, check or cash.

QUALITY OF GAS

14.1 HEATING VALUE Gas delivered to Consumers in all service areas shall have an average gross heating value of at least 900 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered.

14.2 CHARACTER OF GAS All gas furnished to Consumers in the Gulf Coast Service Area shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered.

14.3 ODORIZATIION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable. Gas containing enough natural odorant as prescribed by the Railroad Commission of Texas need not be odorized unless the odorant level drops below the acceptable level.

GCst1c

TEXAS GAS SERVICE COMPANY Gas Tariff - Gulf Coast Service Area
SERVICE WORK

15.1 CERTAIN SERVICES PROVIDED AT NO CHARGE When a Customer or Consumer smells or detects natural gas and contacts the Company, the Company shall provide to the Consumer at no-charge to the Customer or Consumer leakage and pressure investigations to ensure that unsafe conditions do not exist. Where leakage or unsafe conditions are determined by the Company to be in the Customer's or Consumer's piping or equipment, the Customer or Consumer will be so advised and service will be discontinued until such time that all leakage and other unsafe conditions have been properly corrected by the Customer or Consumer. In addition, when service is initiated, gas air adjustments on a standard domestic and commercial gas range and water heater will be made. Any other work performed on any Consumer's appliances or house piping will be on a charge basis.

15.2 OTHER SERVICE The Company may have personnel available for and may undertake other service work on the Consumer's premises on a charge basis, as time permits. Charges shall be made at the Company's standard rate in the Service Area and such work and the associated revenues and costs shall be considered non-utility.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

15.3 EXPEDITED SERVICE A Customer may request expedited service initiation. (See Section 21 - Fees and Deposits).

15.4 NO ACCESS Charged to any Customer who requests a specific time for service, if the Company agrees to the time, sends appropriate personnel to the appointed location and the Customer is not present to allow access to the premises. (See Section 21 - Fees and Deposits)

15.5 MATERIALS OR EQUIPMENT FURNISHED BY THE COMPANY The Company shall furnish and install the service pipe, and equipment related thereto, including meter valve and service regulator, from the Company's main to the Customer's meter. Although affixed to or buried in the Customer's property, the entire service line and meter set shall become the property of the Company and shall be operated and maintained by the Company.

15.6 MATERIALS OR EQUIPMENT FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his or her expense all piping, conversions of existing equipment, and appliances required to conduct and utilize the gas furnished by the Company. The adequacy, safety, and compliance with applicable codes and ordinances of piping, conversion equipment and appliances shall remain the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility to furnish and install the facilities required by this section.

15.7 CODES AND ORDINANCES All piping, installations, and conversion equipment owned by the Applicant shall comply with all applicable federal, state, and city ordinances and shall be properly designed for the pressures and volumes to be handled. Where there are no appropriate ordinances, the applicable provisions of the National Fuels Gas Code 54; ANSI Z223.1, and any amendments thereto shall apply.

15.8 INSPECTIONS AND TESTS The Company shall have the right to inspect new installations and/or conversions of appliances and equipment prior to initiation of service and to require any test or repair of the Applicant's facilities it deems necessary.

15.9 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses Company or Company's representatives access to or entry for observation or whose facilities do not comply with the applicable provision of this Tariff. The right to refuse service shall terminate upon satisfactory correction of the condition that was the cause for refusal. Initiation of service, however, shall not be considered acceptance or approval by the Company of such facilities.

MAINTENANCE OF EQUIPMENT

16.1 MAINTENANCE BY COMPANY The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter the Customer's premises at any reasonable time, in the event of an emergency at any time, to read the meter or make any necessary inspection, repair, adjustment, or replacement of any property owned by the Company.

16.2 MAINTENANCE BY THE CUSTOMER The Customer shall maintain all facilities owned by him or her and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Customer shall remove, repair or adjust any Customer-owned property

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

which may pose a threat of damage to the property of the Company. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Customer or Consumer or the Customer's or Consumer's representatives, the Customer will reimburse the Company for all costs of repairing or replacing the damaged property, including any costs of collection such as attorney's fees.

16.3 LEAKS - RIGHT TO DISCONNECT FOR The Customer or Consumer shall give the Company notice of any leaking or escaping gas as soon as it is detected. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If the Company's test indicates leakage in the Customer's or Consumer's facilities, the Company shall have the right to disconnect service immediately until the Customer or Consumer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by the Company. The Company shall have the right to disconnect service immediately if any of the Customer's or Consumer's appliances or equipment is, in the Company's opinion, operating in an unsafe manner.

16.4 FACILITIES CURRENTLY OWNED BY THE CUSTOMER Any facilities downstream of the meter installed by the Customer shall remain the property and responsibility of the Customer. Whenever the condition of the facility is such that replacement is required, the work shall be done by the Company pursuant to the provisions of subsection 16.7 of this Tariff. New facilities will continue to be installed pursuant to subsections 7.1 and 7.2 of this Tariff.

16.5 RESPONSIBILITY Nothing in this Section shall make the Company responsible for the safe upkeep of any Customer or Consumer owned facilities.

16.6 RELOCATION OF COMPANY FACILITIES

- a) A charge of not more than actual cost may be made for relocating a meter or other Company equipment on the same premises at the request of the Customer or Consumer.
- b) If the Company shall for its own convenience and not for the safety or convenience of the Customer, change the point of delivery or change the location of its equipment on private property, the Company shall bear the expense.

16.7 REPLACEMENT OF CUSTOMER-OWNED PIPING

- a) When repair or replacement of Customer-owned piping becomes necessary due to deterioration of the line, damage to the line (except when caused by Customer or Customer's agent), relocation of the Company's distribution main, or for other safety reasons, the Company will relocate Customer's meter to the exterior of the building wall, as close as possible to the existing stub out (where piping exits the structure), and will replace the service piping up to the stub out. The Company will own and be responsible for all service piping from the main line to the meter, and Customer will own and be responsible for all piping from the meter to the building.
- b) The Customer may be billed for all costs of the meter relocate and pipeline replacement.
- c) In the absence of any provision contained in a deed of dedication authorizing the Company to install the service piping and meter on the Customer's premises, the owner of the premises shall execute an agreement establishing the meter location, authorizing the Company to install or replace the line, and granting Company access for such work. If the Customer or owner of the premises refuses to give Company personnel or Company-authorized personnel appropriate

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

access to the property for purposes of installation, the Customer will retain responsibility for his/her facilities and shall bear the expense of any replacement or repairs.

DISCONTINUANCE OF SERVICE

17.1 BY CUSTOMER The Customer shall be responsible for all charges for gas service from the time Customer gives notice of the intention to discontinue service until the Company has read the meter, or for 5 working days from the date of such notice, whichever is the shorter period of time.

17.2 FOR NON-PAYMENT The Company shall have the right to discontinue service to any Customer for non-payment of bills or other charges authorized by this Tariff or the applicable rate schedules, following the due date specified in Section 13.1 hereof. Before discontinuing service for non-payment, the Company shall mail a separate written notice to the Customer in English and Spanish with the words TERMINATION NOTICE or similar language prominently displayed. This notice shall include a telephone number to contact the Company, the amount of the delinquent bill and the date by which the bill must be paid to avoid disconnection, and a statement of how to contact the Company in case of illness or other emergency. If a representative of the Company makes an attempt to collect a past due amount, a collection fee per visit shall be assessed to such Customers as specified in Section 21.1.

No Customer shall be disconnected for non-payment:

- a) Within a period of 5 working days after mailing of the notice or the day following the date indicated in the notice, whichever is the later time.
- b) After full payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel of receipt of the payment.
 - c) Before 7:00 AM or after 7:00 PM on any day or on Friday, Saturday, Sunday, holiday, or day before a holiday unless Company personnel are available the following day for the purpose of reconnecting service.
 - d) If within 5 working days after the date of delinquency of the bill the Company receives a written request from the Customer not to discontinue service for health reasons and the request is accompanied by a written statement from a licensed physician. Upon receipt of such request, the Company will suspend termination of service for a period up to 20 days. The Customer shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings.

17.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any Consumer for any of the following reasons:

- a) Without notice for the presence of what the Company considers to be an unsafe condition on the Consumer's premises or if an emergency exists;
- b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with knowledge or negligence of the Consumer;
- c) Within 5 working days after written notice if the Consumer uses his or her equipment in any way which causes or creates a potential for adverse effect on the Company's service to others;
- d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class A or B;
- e) 5 working days after written notice from the Company for refusal to grant Company personnel or its designee's access to the Consumer's premises at any reasonable time for any lawful purpose;
- f) 5 working days after written notice from the Company for use, sale or delivery of gas in

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

violation of the provisions of this Tariff or violation of any applicable laws, orders or ordinances, provided that disconnection may be made without notice if the violation creates an unsafe condition;

g) For Customers on transportation service, the Company may discontinue service upon request of a Qualified Supplier, provided however, that the Qualified Supplier represents to the Company that notice has been given to the Customer by the Qualified Supplier of delinquency in payment at least 5 working days prior to Qualified Supplier's request for disconnection, and provided that Qualified Supplier agrees to indemnify and hold harmless the Company from any potential resulting liability;

h) If a Customer fails to uphold the terms of an individual installment agreement or contract; or

i) Within 5 working days after written or electronic notice, for Consumers enrolled in e-bill, that any payment including paper check, electronic transfer payment, and debit or credit card payment, that has been rejected or returned to the Company by the bank.

17.4 RIGHT OF ENTRY The Company shall have the right to enter the Consumer's premises at any reasonable time to shut off service in accordance with this Tariff and to remove its meter and any other Company property. If the Company is required to take legal action to enforce its rights hereunder, the Company shall be entitled to recover all of its necessary expenses and fees including, but not limited to attorneys' fees, police escort fees and/or the cost to relocate the meter at the Customer's expense.

17.5 ABANDONMENT OF SERVICE Unless requested by the Customer, service shall not be abandoned (permanent disconnection of any Customer other than a temporary Customer) without permission of the Regulatory Authority. Failure of the Customer to request reinstatement of service within a reasonable period of time after disconnection shall be considered a request for permanent discontinuance of service.

RE-ESTABLISHMENT OF SERVICE

18.1 FOR NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount of his account then due plus the prescribed reconnect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer reestablish satisfactory credit in accordance with Section 5 of this Tariff.

18.2 FOR OTHER REASONS

If disconnection has been made by the Company for reasons other than non-payment, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a reconnect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment.

18.3 RECONNECTION The Company shall restore service as soon as feasible after receipt of a reconnection request and compliance with the requirements of this Section. The Company shall charge a non-refundable reconnection fee for all Customers in accordance with Section 21.1. The restoration of service will be accomplished as expeditiously as scheduling permits. If the Customer requests service after hours or earlier than reconnection would otherwise be scheduled, the Company shall offer expedited service in accordance with Section 21.1. Customer shall be advised that an additional fee will be charged and must agree to pay such

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 28841

charge. In the event the Company is required to make more than one call because the reason for disconnection has not been properly corrected, the reconnect fee may be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operation. See Section 21.1 for fees.

NOTICE

19.1 GENERAL Notice is required for all matters in this Tariff other than billing and payment of bills, which shall be deemed to have been given by the Customer when a letter with postage prepaid has been deposited in the United States Mail addressed to the Company at the office specified on the front sheet of this Tariff, and to the Customer when addressed to Customer at his or her last known service address, or to either party when directly communicated to the other party in person or by telephone.

AVERAGE BILL CALCULATION PLAN

20.1 DESCRIPTION-RESIDENTIAL Any residential Customer may elect to participate in the Company's Average Bill Calculation Plan (ABC Plan), or as such ABC Plan may be modified from time to time for payment of charges for gas service. In the event the Company modifies the ABC Plan, the Company shall notify individual Customers of those changes when the Customer requests enrollment. In general, the conditions under which a Customer may participate in the ABC Plan are set forth below: a) The Company reserves the right to adjust the monthly ABC Plan payments of any Customer at any time for changes in conditions or rates; b) The Company shall advise each Customer participating in the ABC Plan of the monthly ABC Plan payment to be paid by the Customer. Each participating Customer will receive a regular monthly gas bill that reflects actual consumption and the charges for that billing month and the amount of any debit or credit balance before the payment of that month's ABC Plan payment. The Customer shall continue to pay the monthly ABC Plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill; c) In addition to the monthly ABC Plan payment any other charges incurred by the Customer shall be paid monthly when due; d) Interest shall neither be charged to the Customer on accrued on ABC Plan debit balances nor paid by the Company on accrued ABC Plan credit balances; e) Any amount due to the Customer or the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the ABC Plan; f) Any Customer's participation in the ABC Plan may be discontinued by the Company if the monthly plan payment has not been paid on or before the due date of the monthly payment; g) If any Customer in the ABC Plan shall cease, for any reason, to participate in the ABC Plan, then the Company may deny that Customer's reentry into the ABC Plan until the following August.

FEES AND DEPOSITS

21.1 FEES All fees and charges shall be adjusted by taxes and fees (including franchise fees) where applicable.

a) Initiation of Service

i) Connect (Section 5.4) \$35.00

A connection fee shall be charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set and/or gas turned on.

ii) Read-In (Section 5.4) \$10.00

A read-in fee shall be charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when only a meter reading is required.

iii) Special Handling & Expedited Service (Section 5.4 and 15.3)

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28841

In addition to initiation of service fee above, a fee may be charged to any Applicant whose request to initiate service cannot be worked during normal business hours or requires special handling. Applicant must be advised that an additional fee will be charged and must agree to pay such charge. These charges include:

1) Special Handling \$6.00 The Company may, at Applicant or Customer's request, provide special handling in order to meet the Applicant or Customer's requirements. Special handling does not include calling the Applicant/Customer in advance or A.M. or P.M. scheduling

2) Expedited Service and Overtime Rate \$67.50 The Applicant or Customer's request for expedited service may be scheduled at any time to fit the Company's work schedule, and an Expedited Service charge shall be collected. The Company shall not be obligated to provide Expedited Service when the personnel and resources to do so are not reasonably available.

b) Services - Others As stated below Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying Company, the Applicant may be requested to reimburse the Company for such charge.

c) Customer Requested Meter Test (Section 12.4)

Positive Displacement Charge

Up to 1500 cubic feet per hour \$80.00

Over 1500 cubic feet per hour \$100.00

Orifice Meters All sizes \$100.00

d) Payment Re-processing Fee (Section 13.5) \$25.00

e) Collection Fee (Section 17.2) \$12.00

A Collection Fee shall be charged to any Customer whose failure to respond to a termination notice results in the dispatch of a Company representative to attempt collection of payment from Customer.

f) Reconnect Fees (Section 18.3) \$35.00 A reconnect fee shall be charged to any Customer whose service is terminated and then re-initiated unless terminated in error by the Company. This fee is the same as the Standard Initiation Fee charged for new service.

(i) Regular Labor and After Hours Rates \$45.00 (Regular) \$67.50 (After Hours)

Charge for non-routine services including but not limited to repeat high bill investigations and building meter loops.

g) Special Read (Section 12.1) \$10.00

A special read fee shall be charged for customer requested reading of a meter of which estimated billing has been made. This is not in connection with Section 12.4.

h) Meter Exchange (Customer Request) (Section 16.6) \$100.00 without ERT \$150.00 with ERT

A fee will be charged for customers requested meter exchanges when a meter working properly or done for the Customers convenience.

i) Meter Tampering - Residential (Section 16.2) \$100.00 A fee will be charged to Customers who knowingly tamper with Company property (i.e. broken meter locks, broken stop cocks, tampered meter dials, and broken meter blind seals).

TEXAS GAS SERVICE COMPANY
RATE SCHEDULE 1-INC(GALV)
Gulf Coast Service Area

COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas in the Gulf Coast Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after March 1, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission no later than June 15th.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

RATE SCHEDULESCHEDULE IDDESCRIPTION

Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

9. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible).

The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. This report shall be filed concurrently with the Cost of Gas Statement for October.

for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after March 1, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission no later than June 15th.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause,

5. (cont.) (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the appropriate regulatory authority.

DESCRIPTION

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

9. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%).

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any.

This report shall be filed concurrently with the Cost of Gas Statement for October.

RATE SCHEDULE IKE-RIDER

HURRICANE IKE SURCHARGE

A. APPLICABILITY

The Hurricane Ike Surcharge (IKE) rate as set forth in Section (B) below is for the recovery of losses incurred by the Company as a direct result of Hurricane Ike and not recoverable from any other source. These losses include insurance deductibles under the property damage and business interruption policies.

The IKE rate shall apply to the following gas sales and transportation rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas: 10, 12, 13, 20, 21, 22, 23, 24, 25, 30, 31, 32, 33, 34, 35, 40, 41, 42, 43, 44, 45, C-1, CNG-1, and T-1.

B. IKE RATE

The following rate will be added to the applicable Rate Schedule Cost of Service rate per Ccf for each monthly billing period:

Hurricane Ike Surcharge - All Ccf during each billing period:
 \$0.0273 per Ccf (gas sales and standard transport customers)

This rate will be in effect until all approved and expended Hurricane Ike costs and associated rate case expenses are recovered under the applicable rate schedules. This Rider does not limit the legal rights and duties of the Cities and is subject to all applicable laws and orders and the Company's rules and regulations on file with the regulatory authority.

 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8
 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission

DESCRIPTION

under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter

DESCRIPTION

system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

DESCRIPTION

Vista, Port Neches, Port Arthur, Nederland and Groves, Texas (collectively, the Cities). This rate shall apply to the following rate schedules of Texas Gas Service Company in the incorporated areas of the Cities served in TGS's Gulf Coast Service Area: 10, 20, 30, 40 and T-1.

B. RCE RATE

All Ccf during each billing period:
\$0.0172 per Ccf

This rate will be in effect until all approved and expended rate case expenses are recovered under the applicable rate schedules. Texas Gas Service Company will recover \$706,179 in actual expense and up to \$147,645 in estimated expense, not to exceed actual expense. The Rate Case Expense Surcharge will be a separate line item on the bill.

C. OTHER ADJUSTMENTS

Taxes: Plus applicable taxes and fees (including franchise fees) related to above.

D. CONDITIONS

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

E. COMPLIANCE

TGS shall file a reconciliation report annually on or before December 31st, commencing in 2016. TGS shall file the report with the Commission, Addressed to the Director of the Oversight and Safety Division and referencing Gas Utilities Docket No. 10488, Rate Case Expense Recovery Report. The report shall include: - The volumes used by month by customer class during the applicable period, - The amount of Rate Case Expense recovered, by month - The outstanding balance, by month

RATE SCHEDULE WNA

WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated and unincorporated areas served in the Gulf Coast Service Area including Galveston, Bayou Vista, Jamaica Beach, Port Arthur, Nederland, Groves & Port Neches: Rate Schedules 10, 1Z, 20, 2Z, 40 and 4Z. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

RATE SCHEDULE

SCHEDULE ID DESCRIPTION

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule.

The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \frac{\text{WNAD}}{\text{CV}}, \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

$$\text{WNAD} = (\text{HDD Diff} * \text{CB} * \text{WF}) * \text{COS rate}, \quad \text{where}$$

HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

Residential 0.169485; Commercial 0.359253; Public Authority 2.504963

CV = Current Volumes for the billing period.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request.

By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

CURTAILMENT PLAN

<u>PLAN ID</u>	<u>DESCRIPTION</u>
489	RAILROAD COMMISSION OF TEXAS OIL AND GAS DIVISION GAS UTILITIES
	DIVISION OIL AND GAS DOCKET GAS UTILITIES
	DIVISION NO. 20-62, 505 DOCKET NO. 489
	ORDER RELATING TO THE APPROVAL BY THE COMMISSION OF CURTAILMENT PROGRAMS FOR NATURAL GAS TRANSPORTED AND SOLD WITHIN THE STATE OF TEXAS
	After due notice the Railroad Commission of Texas on the 30th day of November, 1972, heard testimony and requested written curtailment priorities from representatives of investor owned and municipal gas utilities companies, private industry consumers and others responsible for directing available natural gas supplies to the consumers of natural gas in the State of Texas.
	WHEREAS, pursuant to the authority granted to the Railroad Commission of Texas in Article 6050 to 6066, inclusive, R.C.S., as amended; and
	WHEREAS, the Commission has determined the need for a curtailment program to assure effective control of the flow of natural gas to the proper destinations to avoid suffering and hardship of domestic consumers; and
	WHEREAS, the Commission has determined a need to make natural gas available to all gas consumers on a reasonable but limited basis during times of needed curtailment to the end that the public will be best served; and
	WHEREAS, the Commission has determined that the transportation delivery and/or sale of natural gas in the State of Texas for any purpose other than human need consumption will be curtailed to whatever extent and for whatever periods the Commission may find necessary for the primary benefit of human needs customers (domestic and commercial consumption) and such small industries as cannot practically be curtailed without curtailing human needs.
	IT IS THEREFORE, ORDERED BY THE RAILROAD COMMISSION OF TEXAS that the following rules relating to the approval by the Commission of curtailment programs for gas transported and sold within the State of Texas shall apply to all parties responsible for directing available and future natural gas supplies to the consumers of natural gas in the State of Texas.
	RULE 1.
	Every natural gas utility, as that term is defined in Article 6050, R.C.S. of Texas, as amended, intrastate operations only, shall file with the Railroad Commission on or before Feb. 12, 1973, its curtailment program. The Commission may approve the program without a hearing; set the matter for a public hearing on its own motion or on the motion of any affected customer of said utility.

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

The curtailment program to be filed shall include, in verified form, the following information:

A. Volume of gas reserves attached to its system together with a brief description of each separate source of gas reserves setting forth the following:

1. the name of the supplier,
2. the term of each contract in years, and the years remaining on said contract,
3. the volume of recoverable reserve contracted for, and
4. rated deliverability of such reserves in MCF.

B. Capacity and location of underground storage, if any, attached to its system with a statement of whether the company's storage balance is above or below its desired level for this time, and, if below, what plans has the company made to restore the balance.

C. Peak day and average daily deliverability on an annual basis of its wells, gas plants and underground storage attached to its system.

D. Peak day capacity of its system.

E. Forecast of additions to reserves for each of the next two succeeding years.

F. Location and size of the line pipes, compressor stations, operating maximum line pressures, and a map showing delivery points along the system.

G. Disposition of all gas entering its system, with names of all customers other than residential customers and volumes delivered to each during the past calendar year. Identify those customers using 3,000 MCF gas per day, or more, which are under a service contract, and if such contract includes an Interruptible Service clause, and if so, attach a reproduced copy of the relevant provisions of such contract.

H. Steps taken in past years, being taken at the present, and to be taken to alleviate curtailments.

RULE 2.

Until such time as the Commission has specifically approved a utilities curtailment program, the following priorities in descending order shall be observed:

A. Deliveries for residences, hospitals, schools, churches and other human needs customers.

B. Deliveries of gas to small industrials and regular commercial loads (defined as those customers using less than 3,000 MCF per day) and delivery of gas for use as pilot lights or in accessory or auxiliary equipment essential to avoid serious damage to industrial plants.

C. Large users of gas for fuel or as a raw material where an alternate cannot be used and operation and plant production would be curtailed or shut down completely when gas is curtailed.

D. Large users of gas for boiler fuel or other fuel users where alternate fuels can be used. This category is not to be determined by whether or not a user has actually installed alternate fuel facilities, but whether or not an alternate fuel could be used.

E. Interruptible sales made subject to interruption or curtailment at Seller's sole discretion under contracts or tariffs which provide in effect for the sale of such gas as Seller may be agreeable to selling and Buyer may be agreeable to buying from time to time.

RULE 3.

Each gas utility that has obtained Commission approval of a curtailment program shall conduct operations in compliance with such program. So long as any gas utility which has obtained Commission approval of a curtailment program continues to curtail deliveries to its customers, except as provided by contract or those customers included in Part E of Rule 2 above, it

(a) shall file on or before April 1 of each year, under oath, the information called for in Rule 1, for the preceeding year, and

(b) shall not, without Commission approval, make sales of gas to any new customers or increase volumes sold to existing customers, except those new or existing customers defined in Parts A & B of Rule 2 above.

IT IS FURTHER ORDERED that this cause be held open for such other and further orders as may be deemed necessary.

ENTERED AT AUSTIN, TEXAS, this 5th day of January, 1973.

the installation.

8.2 DESIGN AND COST OF FACILITIES

As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

8.3 ALLOWANCE FOR NEW BUSINESS

The Company shall also determine the number of existing permanent Customers located along the route of the extension expected to be served there from. To be included, the occupant of each premise must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance to be determined by the Company may be given for each Customer whose premises exist at the time of application to be served from the proposed main extension. In order to qualify for this allowance, the Customer must file an application and agree to initiate gas service upon completion of the Company's facilities.

8.4 ADVANCES

The mutually agreed upon financial terms will determine the amount of advance required. The Applicant shall have 30 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance based on an economic analysis of the project.

8.5 CONSTRUCTION OF FACILITIES

As soon as practical after the advance has been paid or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s), these rights-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

8.6 REVIEW OF ADVANCES

The Company shall review each extension agreement on the first anniversary of the signing of that agreement. Upon the Applicant(s) request if the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be

RAILROAD COMMISSION OF TEXAS

TARIFF CODE: DS	RRC TARIFF NO: 28842
-----------------	----------------------

terminated and a complete refund made to the Applicant(s). Once the extension has been installed and service has been initiated, the Company shall thereafter review the extension agreement at its second through fifth anniversary date. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund, shall be given for each additional Customer served, based on mutually agreed upon financial terms provided that the total of the refunds given does not exceed the cost of the extension of facilities.

8.7 REFUND LIMITATIONS

The Company may, at its sole option, make a refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

8.8 DELIVERY OF REFUNDS

Upon Applicant(s) request, when hen a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made or to his or her assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five year period of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

TARIFF CODE: DS	RRC TARIFF NO: 28842
-----------------	----------------------

Galveston, Bayou Vista, Jamaica Beach, Groves, Port Neches, Nederland, and Port Arthur, and their environs. This Tariff supersedes and replaces all tariffs previously approved and applied in said cities. Service under this Tariff is subject to the original jurisdiction of the municipalities in the Gulf Coast Service Area and the Railroad Commission of Texas. The Company will provide service to any person and/or business within its service area in accordance with the rates, terms and conditions provided for in its Tariff and regulations.

1.2 RATE SCHEDULES All Customers shall be served under rate schedules filed with the municipality or Railroad Commission of Texas. Customers shall be assigned to rate schedules in accordance with the class of the particular Customer, the usage which will be made of the gas and that Customer's volume requirements. The Company shall advise the Applicant or Customer regarding the most advantageous rate for his usage if more than one rate is applicable. A Customer assigned to a rate schedule shall remain on that schedule for a minimum of one year except that an assignment made in error may be corrected immediately. In the event of a question regarding the Customer's classification, the questions shall be resolved by reference to the coding of the Customer's primary business in the latest edition of the Standard Industrial Classification Manual of the United States Government's Office Management and Budget.

1.3 DEFINITIONS The following definitions shall apply to the indicated words as used in this Tariff:

Adder: Shall mean the Company's incremental cost to purchase natural gas.

Aggregation Areas: Shall mean aggregation pools established by the Company within geographic, operational, administrative, and/or other appropriate parameters, for the purposes of nominating and imbalances. Agricultural Service and Service to Consumers engaged in agricultural production Irrigation or Irrigation (SIC Division A - Major Group 01) who use gas for Pumping Service: operating engine-driven pumping equipment.

Applicant: Any person, organization or group of persons or organizations making a formal request either orally or in writing for gas service from the Company.

Automated Meter Reading (AMR): A device that remotely reads a gas meter.

Average Day Usage: The gas demand of a given Customer for gas in any one month divided by 30.

Gas demand is considered to be equivalent to consumption during each billing month, provided however, that when service has been curtailed, demand shall be considered to be actual consumption plus estimated curtailment during the period. Blanket Builder: A builder or someone acting for a builder who is invoiced for the installation of yardlines.

Btu: Shall mean British thermal unit(s) and shall be computed on a temperature base of sixty degrees (60 degrees) Fahrenheit and at the standard pressure base of the applicable service area and on a gross-real-dry basis and shall not be corrected for real water vapor as obtained by means commonly acceptable to the industry, and MMBtu shall mean one million (1,000,000) Btu.

Commercial Service: Service to Consumers engaged primarily in the sale or furnishing of goods and services and any usage not otherwise provided for.

Commission or The Commission: The Railroad Commission of Texas.

Company: Texas Gas Service Company, a division of ONE Gas, Inc.

Consumer: Any person or organization receiving gas service from the Company for his or her own appliances or equipment whether or not the gas is billed directly to him or her. (For example, a rental unit where the utilities are part of the rent, the landlord is a Customer and the tenant is a Consumer.)

Customer: Any person or organization now being billed for gas service whether used by him or her, or by others.

TARIFF CODE: DS	RRC TARIFF NO: 28842
-----------------	----------------------

Cumulative Tolerance Limit: Shall mean the percent of aggregate historical annual deliveries of a Qualified Supplier's Aggregation Area pool of customers for the most recent year ended on June 30. The Company, at its sole discretion, may make adjustments to the Cumulative Tolerance Limit.

Consumption Period: Shall mean a volumetric billing period.

Day or Gas Day: Shall mean the 24-hour period commencing at 9:00 a.m. (central clock time) on one calendar day and ending at 9:00 a.m. (central clock time) the following calendar day.

Dekatherm (Dth): Shall mean 1,000,000 Btu's (1 MMBtu). This unit will be on a dry basis.

Domestic Service: Service to any Consumer which consists of gas service used directly for heating, air conditioning, cooking, water heating and similar purposes whether in a single or multiple dwelling unit.

Electronic Document: Any document sent electronically via email or internet.

Electronic Fund Transfer (EFT): The process to convert a paper check or electronic bill payment request to an electronic transfer. Paper checks received by Company or their agents are destroyed.

Electronic Flow Measurement (EFM) A device that remotely reads a gas meter.

Electronic Radio Transponder (ERT) A device that remotely reads a gas meter.

Expedited Service: Customer request for same day service or service during non-business hours for connect or reconnect of gas service.

Gas or Natural Gas: Shall mean the effluent vapor stream in its natural, gaseous state, including gas-well gas, casing head gas, residue gas resulting from processing both casing head gas and gas-well gas, and all other hydrocarbon and non-hydrocarbon components thereof.

General Rate Schedule: A rate schedule available to all Customers of the appropriate class or classes for usages indicated therein.

Industrial Service: Service to Consumers engaged primarily in a process which changes raw or unfinished materials into another form of product. This classification shall embrace all Consumers included in Division A (except Major Groups 01 and 02) and Division D of the Standard Industrial Classification Manual.

Mcf: Shall mean one thousand (1,000) cubic feet of Gas

Month: Shall mean the period beginning at 9:00 a.m. central clock time on the first Day of each calendar month and ending at 9:00 a.m. Central clock time on the first Day of the next succeeding calendar month.

Monthly Tolerance Limit: Shall mean five percent (5%) of the aggregate deliveries for a Qualified Suppliers Aggregation Area pool of customers for such month.

Optional Rate Schedule: A General Rate Schedule which may be selected by a Customer in lieu of another general schedule but which may require the installation of special equipment.

Overtime Rate: The fee charged by Company to perform work outside its normal business hours or on holidays and includes changes to previously scheduled work that must be performed outside Company's normal business hours.

Payment in Kind (PIK): Shall mean a reimbursement for lost and unaccounted for gas.

PDA: Shall mean a predetermined allocation method.

Pipeline System: Shall mean the current existing utility distribution facilities of Company located in the State of Texas.

Point of Delivery: Shall mean the point or points where gas is delivered from the Pipeline System to Customer.

Point of Receipt: Shall mean the point or points where Company shall receive Gas into the Pipeline System from Customer.

Point Operator: Shall mean the person or entity that controls the Point of Receipt or Point of Delivery. Power Generation Service: Service to Consumers for the purpose of generating electricity. This service may be further divided into

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

TARIFF CODE: DS RRC TARIFF NO: 28842

direct generation in which the gas is used to power the prime mover and indirect generation in which the gas is burned in a boiler and the generator is steam powered.

Qualified Supplier: Shall mean an approved supplier of natural gas for transportation to customers through the Company's pipeline system.

Regulatory Authority: The City Council or equivalent municipal governing body of each respective city in the Gulf Coast Service Area, or the Railroad Commission of Texas, as applicable.

Service Area: The area receiving gas utility service provided by the Company under the terms of this Tariff.

Special Rate Schedule: A rate schedule designed for a specific Customer.

System: Any group of interconnected pipelines and appurtenances owned or operated by the Company and independent from any other such group of facilities.

Tariff: Shall mean every rate schedule, or provision thereof, and all terms, conditions, rules and regulations for furnishing gas service filed with the regulatory authorities or agencies having jurisdiction over Company or the services provided hereunder.

Temporary Service: Any service which will not be utilized continuously at the same location for a period of two or more years. Transportation Form: Shall mean the Company approved selection of transportation service document.

Transportation Rate Schedule: A rate schedule designed for service to any Customer for the transportation of Customer-owned natural gas through the Company's distribution system.

Transportation Service: The transportation by the Company of natural gas owned by someone other than the Company through the Company's distribution system.

Week: Shall mean a period of seven (7) consecutive Days beginning at 9:00 a.m. central clock time on each Monday and ending at the same time on the next succeeding Monday.

Year: Shall mean a period of three hundred sixty-five (365) consecutive Days, or three hundred sixty-six (366) consecutive Days when such period includes a February 29.

Section 2. [Reserved for future rules]

Section 3: RATES AND UTILITY CHARGES

Please see current Rate Schedules on file with each applicable Regulatory Authority.

CONDITION OF SERVICE

4.1 PROVISION OF SERVICE The Company will provide gas service to any person or organization located within the Gulf Coast Service Area from Company's facilities, or in certain cases, the facilities of its supplier, in accordance with the provisions of this Tariff, including the Company's Rate Schedules and Rules of Service.

4.2 FEES AND CHARGES All fees and charges made by the Company to provide and maintain utility services as provided for in this Tariff. If the Customer elects transportation service, the commodity cost of gas shall be determined between the Customer and the Customer's selected supplier.

4.3 RESALE OF GAS Gas delivered by the Company shall not be redelivered or resold for the use thereof by others unless otherwise expressly agreed to in writing by the Company; provided, however, that those Customers receiving gas for redistribution to the Customer's tenants may separately meter each tenant's distribution point for the purpose of prorating the Customer's actual amount of gas delivered among the various tenants on a per unit basis.

4.4 CONTINUITY OF SERVICE

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

a) Service interruptions

i) The Company shall make all reasonable efforts to prevent interruptions of service. When interruptions occur, the Company will reestablish service within the shortest possible time consistent with prudent operating principles so that the smallest number of Customers is affected.

ii) The Company shall make reasonable provisions to meet emergencies resulting from failure of service, and will issue instructions to its employees covering procedures to be followed in the event of an emergency in order to prevent or mitigate interruption or impairment of service.

iii) In the event of emergency or disaster resulting in disruption of normal service, the Company may, in the public interest, interrupt service to other Customers to provide necessary service to civil defense or other emergency service agencies on a temporary basis until normal service to these agencies can be restored.

b) Record of interruption. Except for momentary interruptions which do not cause a major disruption of service, the Company shall keep a complete record of all interruptions, both emergency and scheduled. This record shall show the cause of interruptions, date, time duration, location, approximate number of Customers affected, and, in cases of emergency interruptions, the remedy and steps taken to prevent recurrence, if applicable.

c) Report to Railroad Commission of Texas. The Commission shall be notified in writing within 48 hours of interruptions in service affecting the entire system or any major division thereof lasting more than four hours. The notice shall also state the Company's belief as to the cause of such interruptions. If any service interruption is reported to the Commission otherwise (for example, as a curtailment report or safety report), such other report is sufficient to comply with the terms of this paragraph.

d) The procedure under which curtailments of service will be made is described in the Curtailment Plan on file with the Railroad Commission of Texas.

e) The Company does not guarantee uninterrupted service to any Customer and shall not be liable for damages resulting from any loss of service to any Customer.

4.5 AVAILABILITY OF TARIFF A copy of this Tariff including all applicable rate schedules shall be kept in the Company's Gulf Coast Office and its Division Office in Austin. The Tariff shall be available for examination in the referenced locations to any Customer or Applicant requesting it, during Company's normal business hours and upon reasonable notice to Company, and notice to this effect shall be posted in the Company's office. Upon the request of any Customer or Applicant, the Company shall make copies of the Tariff which may be purchased by the Customer or Applicant at the Company's Gulf Coast office. The Company may charge for each copy a fee which is not in excess of the Company's reasonable cost to reproduce the material.

4.6 CUSTOMER INFORMATION The Company shall make available, during normal business hours at its local office, such additional information on Rates and Services as any Customer or Applicant may reasonably request. Upon any Customer's request, the Company shall inform the Customer how to read the Customer's meter. The Company shall annually provide each Customer with notice of the availability of a concise description in English and Spanish of the Customer's rights and the Company's obligations under this Tariff. A new Customer shall be provided with a description at the time service is initiated.

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

4.7 CUSTOMER COMPLAINTS Upon complaint to the Company by a Customer either at the Company's office, in writing, or by telephone, the Company shall promptly make a suitable investigation and advise the complainant of the results thereof. It shall keep a record which shows the name and address of all complainants, the date and nature of each complaint, and the adjustment or disposition thereof for a period of one year subsequent to the final disposition of the complaint. However, complaints which require no further action by the Company need not be recorded. Each complainant shall be advised of his or her right to file the complaint with the Regulatory Authority if not satisfied by the Company. Upon receipt of a complaint, either in writing or by telephone, from the Regulatory Authority on behalf of a Customer, the Company will make a suitable investigation and advise the Regulatory Authority and complainant of the results thereof. An initial response must be made by the next business day. The Company will make a final and complete response within 15 days from the date of the complaint, unless additional time is granted within the 15 day period.

4.8 LIMITATION OF LIABILITY The Customer assumes all responsibility for all facilities and their installation, maintenance, operation, functionality, testing and condition thereof on the Customer's side of the point of delivery of gas to the property of the Customer or to the premises of the Consumer, as defined in Section 6.2. Customer shall indemnify, hold harmless, and defend the Company and its employees or agents from any and all claims or liability for personal injury, damage to property, or any incidental, consequential, business interruption, or other economic damages or losses in any manner directly or indirectly connected to, arising from, or caused by acts or omissions of any person or party on the Customer's side of said point of delivery, as defined in Section 6.2.

The Company shall be liable to the Customer or Consumer only for personal injury or property damage arising directly from or caused directly by the negligent acts or omissions of the Company or its employees occurring on the Company's side of the point of delivery. The Company shall not be liable or responsible for personal injury, property damages, or any other loss or damages arising from or caused by the negligent or intentional act or omission of any person, other than an employee of the Company, who adjusts, repairs, disconnects, changes, alters, or tampers with the Company's meter or facilities in any way.

The Company shall be liable to third parties only for personal injury or property damage directly arising from the negligence or gross negligence of the Company or its employees when acting within the scope of their employment.

In no event shall the Company or its employees be liable for incidental, consequential, business interruption, or other economic damages or losses of Customer, Consumer, or third parties in any manner, directly or indirectly, arising from, caused by, or growing out of the interruption or termination of gas utility service.

CONDITION OF SERVICE (Continued)

4.8 LIMITATION OF LIABILITY (Continued) The Customer shall make or procure conveyance to the Company of perpetual right-of-way across the property owned or controlled by the Customer that is satisfactory to the Company, provides clear access to Company's facilities, and enables the Company to provide service to Customer's property or the premises of Consumer.

INITIATION OF SERVICE

5.1 REGULAR SERVICE Application for service can be made by telephone or through the Internet. Each Applicant must comply with the appropriate requirements of this Tariff before service

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

shall be instituted. No written agreement shall be required for residential service under the standard provisions of this Tariff; commencement of service by the Company and the use of gas service by the Customer shall be evidence of such agreement. Any Customer requesting service under any special provision of this Tariff must execute a written agreement for service in the form prescribed by the Company designating those provisions which shall apply. Each Applicant may be required to produce an identification card bearing a photograph of Applicant and verifiable proof of their right to occupy a specific service address as of a specific date of occupancy.

5.2 SPECIAL CONTRACTS Under certain special conditions, the Company may agree to rates, terms or conditions of service other than those provided in this Tariff. Such service must be established under the terms of a special contract or service agreement. To the extent that the provisions of any special contract are at variance with this Tariff, the provisions of the contract shall apply.

5.3 TEMPORARY SERVICE Temporary Service shall be furnished under the same rate schedules applicable to regular service of a similar kind.

5.4 FEES AND CHARGES The Company shall charge a non-refundable fee to each Applicant to compensate for the cost involved in initiation or reconnection of service or when service is transferred from one name to another at any location, or whenever a meter is reset or relocated on the same premises at the request of the Customer, all as specified in Section 21.1 of this Tariff. Whenever the Applicant requests expedited service, the Company will accomplish the work as expeditiously as possible and the Customer will be charged at the Company's approved rate for service work. Expedited service and the charges therefore shall be made only on request of the Applicant. Whenever service is furnished from the facilities of a third party and the Company must pay any special fees to that third party, the Company may, at its option, pass that charge through to the Applicant requesting service. See Section 21.1 relating to fees for the above.

5.5 ESTABLISHMENT OF CREDIT Each Applicant for service shall be required to make a security deposit in accordance with Section 10 of this Tariff to establish and maintain a satisfactory credit standing. The amount of deposit required shall be computed in the same manner for the same class of service; provided however, that a deposit shall be waived if:

- a) The Applicant has been a Customer for the same kind of service within the last two years and did not have more than one occasion in which a bill for service from any such utility service account was delinquent and no disconnection for non-payment was made;
- b) The Applicant furnishes an acceptable letter of credit;
- c) The Applicant demonstrates a satisfactory credit rating by presentation of satisfactory credit references capable of quick, inexpensive verification (applicable to residential Customers only);
- d) The Applicant is 65 years of age or older and has had no outstanding balance for natural gas utility service which accrued within the last two years (applicable to residential Customers only);
- e) The application is made for and in the name of an organization with an acceptable credit rating from an agency providing a credit rating service on a national basis;
- f) The application is made for or guaranteed by an agency of the federal, state or local government.
- g) The Applicant has been determined to be a victim of family violence as defined in Texas

-----------------	----------------------

Family Code, Section 71.004. This determination shall be evidenced by the applicant's submission of a certification letter developed by the Texas Council on Family Violence and made available on its web site; or

5.6 GROUNDS FOR REFUSAL TO SERVE The Company may refuse service to any Applicant for any of the following reasons: a) Failure to pay fees, advances or contributions or to make any deposit required for service under this Tariff;

b) Failure of the Applicant to furnish any service or meter location specified for service under this Tariff;

c) Existence of an unsafe condition such as a leak in the Applicant's piping system which, in Company's sole opinion, may endanger life or property;

d) The Applicant is indebted to the Company for the same class of utility service at the same or another service location within the Company's system; or

e) Delinquency in payment for gas service by another occupant if that person still resides at the premises to be served. The right to refuse service shall terminate when the Applicant has complied with the Company's requirements or corrected the cause for the refusal to serve.

5.7 REASONABLE TIME The Company shall have a reasonable amount of time to institute service following application therefore or execution of an agreement for service. The time may vary depending on approvals and permits required, the extent of the facilities to be built, and the Company's workload at the time.

METERING AND DELIVERY OF GAS

6.1 METER LOCATION The Company shall have the sole right to determine the location of the meter in accordance with the needs of the service. Each Applicant shall furnish and subsequently maintain a suitable location on his or her premises for the Company's meter and related facilities at a point selected by the Company. Meters shall be located where they will be safely accessible for reading and service, adequately ventilated, and not subject to damage. Meters shall not be located within any enclosed area unless the enclosure is solely intended as a meter house. It may be necessary for the Company to install bollards or guard posts around the meters for safety.

6.2 POINT OF DELIVERY The point of delivery of gas sold by the Company to the Customer shall be at the outlet side of the Company's meter, provided that in those cases in which the Customer owns a section of the underground pipe between the Customer's property line and the meter, the point of delivery shall be at the property line. The title of all gas sold by the Company to the Consumer shall pass from the Company at the point of delivery. The point(s) of delivery and point(s) of redelivery for Transportation Service shall be as provided in the contract entered into between the Customer and the Company.

6.3 MULTIPLE METERS Each Customer or group of Customers located on the same lot or tract of land may be served from a single meter location. The Company may, at its option, permit additional meter locations to simplify installation of facilities or provide better service. Whenever more than one meter location is permitted for the same Customer, the Company shall bill the usage through each meter separately, provided that any combined billings in effect at the time of adoption of this Tariff may be continued until the affected Customer discontinues service or upon order by the Regulatory Authority.

6.4 CONNECTION TO COMPANY FACILITIES No Consumer shall make any connection or alteration of any kind on or to any of the Company's facilities upstream of the Company's meter or shall permit any other person to make such connection or alteration.

**GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT**

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

INSTALLATION OF EQUIPMENT

7.1 EQUIPMENT FURNISHED BY THE COMPANY The Company shall furnish and install at its expense, the service pipe from the Company's existing main to the property line nearest the meter and the equipment related thereto, including meter valve and service regulator. Whenever the meter is located at any point other than the property line, the Company shall determine the estimated cost of that portion of the service between the property line and the meter set. This estimate shall be based on the size and footage to be installed, and charged in accordance with Section 8 and other applicable provisions of this Tariff. This estimated amount shall be contributed by the Applicant to the Company before construction, unless the Applicant is a qualified Blanket Builder. Although affixed to or buried in the Customer's property, the entire service and meter set shall become the property of the Company and shall be operated and maintained by the Company.

7.2 EQUIPMENT FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his or her expense, all piping and equipment required to conduct and utilize the gas furnished, from the outlet of the meter set to the point(s) of utilization and those portions of the service line and meter set not furnished by the Company as described in Paragraph 7.1 above. The adequacy, safety and compliance with applicable codes and ordinances shall be the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility for the facilities installed by him or her.

7.3 STATUTES, CODES, AND ORDINANCES All piping and installations owned by the Applicant shall comply with all applicable legal requirements, whether federal, state, county, municipal, or otherwise, and shall be properly designed for the pressures and volumes to be handled. In those locations where there are no applicable state or local requirements, the applicable provisions of the National Fuel Gas Code 54, ANSI Z223.1, and any amendments thereto shall apply.

7.4 CHECKS AND TESTS The Company shall have the right to check new installations prior to initiation of service and to make any test of the Applicant's facilities it deems necessary.

7.5 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses entry for observation or whose facilities do not comply with the applicable provisions of this Tariff. The right to refuse service shall terminate with the correction of the condition(s) which was cause for refusal. Initiation of service, however, shall not be considered to be acceptance or approval by the Company of such facilities.

GCst1b

TEXAS GAS SERVICE COMPANY Gas Tariff - Gulf Coast Service Area

EXTENSION OF FACILITIES

8.1 EXTENSION OF MAINS The Company shall install the necessary facilities to provide service to Applicants whose premises are located beyond the Company's existing distribution facilities in accordance with the provisions of this Section. The expenditure for such extensions must either be cost justified or the Applicant(s) must make a refundable advance in the amount necessary to justify the installation.

8.2 DESIGN AND COST OF FACILITIES As soon as practical after an application for service is received, the Company shall determine the extent of the facilities required to serve the new business and the cost thereof. This cost shall include all amounts to be spent for system improvements necessary to deliver the required gas, such as mains, regulator and meter stations, upgrading and/or reinforcement, all in accordance with the Company's current

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

practice. Whenever the Company chooses to install facilities of greater capacity than would be required to serve the new business for which the application is being made or to permit supply from another source, the estimate of costs shall be based on only the size and capacity normally used to serve requirements similar to that of the Applicant.

8.3 ALLOWANCE FOR NEW BUSINESS The Company shall also determine the number of existing permanent Customers located along the route of the extension expected to be served there from. To be included, the occupant of each premise must request service and demonstrate capability for using such service through a major gas burning appliance. Single or groups of individually owned mobile homes shall be included only if the wheels and hitch have been removed from each mobile home and/or substantial improvements have been made to the property. Mobile home parks may be served either through a master meter or individual meters served by a Company-owned system, provided that required mains can be installed and dedicated streets or rights-of-way have been provided to the Company for installation of facilities as evidenced by agreement executed on the Company's form. An allowance to be determined by the Company may be given for each Customer whose premises exist at the time of application to be served from the proposed main extension. In order to qualify for this allowance, the Customer must file an application and agree to initiate gas service upon completion of the Company's facilities.

8.4 ADVANCES The mutually agreed upon financial terms will determine the amount of advance required. The Applicant shall have 30 calendar days after notification of the amount required to execute an extension agreement on the Company's form and pay the required advance. At the end of that time, the Company may revise its estimates to reflect any changes in costs or conditions which will affect the amount of the advance. The Company may waive collection of any advance based on an economic analysis of the project.

8.5 CONSTRUCTION OF FACILITIES As soon as practical after the advance has been paid or it has been determined that no advance will be required, the Company shall begin construction of the required facilities and thereafter prosecute the work with reasonable diligence. The Company shall not be responsible for delays in the construction of the facilities occasioned by events or conditions reasonably beyond the Company's control. Whenever the construction of the new facilities requires the acquisition of rights-of-way across the Applicant(s) land(s), these rights-of-way shall be provided by the Applicant(s) in the Company's name and on its form at no cost to the Company (except for fees involved in the recording of documents).

8.6 REVIEW OF ADVANCES The Company shall review each extension agreement on the first anniversary of the signing of that agreement. Upon the Applicant(s) request if the extension provided for in the agreement has not been installed through no fault of the Company, the agreement shall be considered to be terminated and a complete refund made to the Applicant(s). Once the extension has been installed and service has been initiated, the Company shall thereafter review the extension agreement at its second through fifth anniversary date. At each review, the number of Customers then served directly from the extension shall be compared with the number served on the last prior anniversary date. A refund, shall be given for each additional Customer served, based on mutually agreed upon financial terms provided that the total of the refunds given does not exceed the cost of the extension of facilities.

8.7 REFUND LIMITATIONS The Company may, at its sole option, make a refund at any time. In no case, however, shall a refund be given unless the number of Customers then served is greater than the number for whom refunds have previously been given. No refund shall be given which shall cause the total refunds to be greater than the total amount of the advance. No interest

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

shall be paid on any advance made under the provisions of this Section. At the end of the five year period, any remaining amount of the advance shall be retained by the Company as a contribution in aid of construction.

8.8 DELIVERY OF REFUNDS Upon Applicant(s) request, when hen a refund is due, a check in the appropriate amount and a letter setting forth the method of calculation of the refund and the balance remaining unrefunded shall be made to the person or business in whose name the extension agreement is made or to his or her assignee. If that letter is returned undelivered, the check shall be cancelled and the next review made without regard to that refund. All sums described in this Paragraph which are returned undelivered and remain unclaimed in the Company's possession for a period of six months following expiration of the five year period of the extension agreement shall be retained by the Company and considered a contribution in aid of construction.

CUSTOMER-OWNED SYSTEMS

9.1 INDIVIDUALLY METERED SYSTEMS The Company shall not render service to any Customer through a meter not connected to a system owned by the Company or one of the Company's suppliers.

9.2 MASTER METERS The Company shall provide service through a master meter into the piping systems of others to be distributed to more than one Consumer, except when the gas served is resold to those Consumers on either a commodity or separate cost of service basis; provided, however, that those Customers purchasing gas for redistribution to the Customer's own tenants only on the Customer's premises may separately meter each tenant distribution point for the purpose of prorating the Consumer's actual purchase price of gas delivered among the various tenants on a per unit basis, and further provided that the provisions of this Section 9 shall not preclude the Company from supplying natural gas to a third party for resale to the public as fuel for natural gas powered vehicles (NGV's).

SECURITY DEPOSITS

10.1 REQUIREMENTS The Company shall require a security deposit from any present or prospective Customer in accordance with Paragraph 5.5 and 18.1 of this Tariff to guarantee payment of bills, and from any present Customer who during the last 12 consecutive months has on more than one occasion paid its utility bill after becoming delinquent. The amount of the deposit shall not exceed one-sixth of the estimated annual billings for similar Customers. However, the deposit requirement may, at the option of the Company be based on annual usage experienced at the particular address with application of one-sixth of the annual amount as determined as the required deposit. If actual use is at least twice the amount of the estimated billings, a new deposit requirement may be calculated and an additional deposit may be required within two days. The deposit shall be refunded to residential Customers when the Customer has paid 12 consecutive bills without having service disconnected for non-payment, and without having one or more occasion in which a bill was delinquent or a payment was returned, and the Customer is not currently delinquent.

10.2 RECEIPTS The Company shall maintain such records as may be necessary to permit any Customer to receive any deposit return to which he or she is entitled without presentation of the receipt. A record of any unclaimed deposits shall be maintained by the Company for at least 4 years.

10.3 INTEREST The Company shall pay interest on all security deposits for the time held at

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS	RRC TARIFF NO: 28842
-----------------	----------------------

the rate as set by the Public Utility Commission annually except when: a) The deposit is held 30 days or less; b) Notice is sent to the Customer's last known address that the deposit is no longer required; c) The service to which the deposit relates has been discontinued; or d) All or any part of the deposit has been applied to a delinquent account. Interest on deposits earned during the preceding year shall be paid to the Customer during the first quarter of each calendar year. Payment shall be made either by check or as a credit on the monthly bill at the Company's option.

10.4 RETURN OF DEPOSITS Deposits on residential accounts returned to the Customer in accordance with Paragraph 10.1 above shall be applied in the first calendar quarter following the month in which the good payment record is established. Whenever the deposit of any Customer is returned to the Customer, the Company shall pay all previously unpaid interest with the payment.

10.5 ACCEPTABLE FORMS OF DEPOSIT Any one of the following forms of credit security may be accepted from Customers and Applicants for service:

- a) A cash deposit of as much as one-sixth (1/6) the estimated annual billings for service requested; but no less than the minimum deposit set forth in Section 21.2;
- b) A nontransferable, irrevocable letter of credit from an established financial institution, payable for as much as one-sixth (1/6) the estimated annual billings for services requested and, which can be drawn on for a minimum of two (2) years; but no less than the minimum deposit set forth in Section 21.2; or
- c) A surety bond issued by a reputable insurance company which can be drawn on for a minimum of two years.

GAS MEASUREMENT

11.1 PRESSURE The standard serving and measurement pressure shall be 4 ounces (0.25 psig) or 7 Water Column above the standard atmospheric pressure in the area served. Standard serving pressure and the atmospheric pressure determined to be the average in the Gulf Coast Service Area, are 14.95 psia and 14.70 psia, respectively. The Consumer and the Company may, at the Company's option, agree to a higher serving pressure. Service regulators shall be set as close as practical to the standard serving pressure under a load condition of approximately 10 percent of meter capacity. Increases in serving pressure because of the inadequacy of the Consumer's facilities shall not be permitted.

11.2 UNIT OF MEASUREMENT The standard unit of measurement shall be one hundred cubic feet (Ccf). A cubic foot shall be defined as the amount of gas which occupies a volume of one cubic foot at 14.95 psia and at a temperature of 60 degrees Fahrenheit. Whenever the Company delivers gas at any pressure other than the standard serving pressure, volumes shall be corrected to the standard serving pressure in the manner provided in this Tariff, provided however, that such correction may be made to any other standard provided in the rate schedules or special agreement under which the Customer is served. The Company may, at its sole option, waive the correction of measurement for temperature deviation.

11.3 BILLING UNIT Unless otherwise specified on the rate schedules or by special agreement, Customers shall be billed on the basis of Ccf measured at or corrected to the standard serving pressure. The index of the meter shall be the sole determinant of volumes passing through the meter. Whenever the meter reads directly in hundreds or smaller units, a reading of one-half a billing unit or more (500 Cf or more) shall be considered a whole billing unit. Readings of less than one-half a unit shall be disregarded for billing. In those cases in which heating

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 28842
-----------------	----------------------

value is used as the billing unit, the calculation of the heating value in BTU's shall be made in accordance with Paragraph 11.7 of this Tariff.

11.4 PRESSURE CORRECTION - STANDARD METERING Whenever gas is delivered to any Customer served under a rate schedule which provides for standard metering, the Company shall correct actual volumes measured to volumes which would have been measured if the gas had been delivered at the standard serving pressure. Corrections shall be made by one of the following methods. a) The Company may install pressure or pressure and temperature compensating measurement equipment whenever the cost of this equipment is justified by the volumes served. Such measurements shall be equipped with devices which mechanically or electronically correct the actual measured volumes in accordance with Boyle's Law. Variations in actual atmospheric pressure shall not be considered. b) The Company may use factor billing whenever the volumes to be delivered are too small to justify special metering. The factor shall be determined by dividing the actual serving pressure by the standard serving pressure, both expressed in absolute units based on the standard atmospheric pressure in the area as specified in Paragraph 11.1 hereof. This factor shall be applied to the measured volumes to determine the correct number of billing units.

11.5 METERING - SPECIAL POSITIVE DISPLACEMENT Whenever gas is delivered to any Customer served under a rate schedule which provides for special metering and positive displacement or turbine type metering is used, all volumes shall be determined in accordance with the recommendations of the manufacturer of the meter. Meters may be read in actual volumes which shall then be corrected to the standard billing unit or may be furnished with devices designed to correct the actual volumes to the standard billing units. The following criteria shall be used in the correction of volumes or design and calibration of correcting devices. a) Pressure correction shall be made in accordance with Boyle's Law. Calculations based on pressure reading on a continuously recording chart shall use the average pressure indicated thereon applied to the measured volumes. Correcting devices shall be set at the specified serving pressure and the service regulators shall be adjusted as close to that pressure as practical. Corrections for deviations from Boyle's Law (supercompressibility) may be made whenever the volumes delivered justify the cost of making such corrections. b) The flowing temperature of the gas shall be assumed to be 60 degrees Fahrenheit unless temperature correction is provided. Corrections shall be made in accordance with Charles' Law. Whenever a continuously recording instrument is used, the average temperature indicated thereon shall be applied to the measured volumes. c) The specific gravity of the gas shall be assumed to be the value last indicated by test or reported by the upstream pipeline supplier prior to the installation of the metering facilities. Whenever subsequent reports or test indicate significant changes in gravity, volume calculations shall be changed prospectively to reflect the new gravity.

11.6 METERING - SPECIAL ORIFICE Whenever gas is delivered to any Customer served under a rate schedule with provisions for special metering and orifice metering is used, all volumes shall be determined in accordance with the recommendations for measuring gas contained in the American Gas Association's Gas Measurement Committee Report No. 3, Orifice Metering of Natural Gas (1992), and subsequent revisions thereof. Orifice meter charts shall be calculated using a standard integrating device or other method recognized in the industry. The following criteria shall be used in the correction of volumes or design and calibration of orifice metering: a) Correction for deviation of gas from Boyle's Law shall be made in accordance with Report No. 3. b) Temperature of gas passing the meter shall be assumed to be 60 degrees Fahrenheit unless suitable equipment has been installed to measure actual flowing temperature.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 28842
-----------------	----------------------

The arithmetical average of the temperature recorded during each meter charge period while the gas is flowing shall be used in the computations of volumes during the period. c) The standard atmospheric pressure for the area served shall be used for measurement irrespective of any variation in the actual barometric pressure. d) The specific gravity of the gas shall be assumed to be the value last obtained in a spot test made with a gravity balance, impact type unit or other acceptable method. Tests shall be made as frequently as found necessary to assure accurate measurement.

11.7 BTU MEASUREMENT The heating value of gas for use in billing shall be defined as the gross thermal value of one cubic foot of gas at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit on a dry basis. The number of billing units delivered shall be determined by multiplying the heating value determined in accordance with this Section by the volumes delivered during the period, expressed in the same units and measured at, or corrected to 14.73 psia and 60 degrees Fahrenheit, and multiplying by the factor necessary to convert the heating value/measurement units to the billing units provided in the appropriate rate schedule. The heating value of the gas shall be determined using one of the following methods: a) Processing a continuous sample of the main stream at the meter location through a recording calorimeter of a standard type; b) Analysis of gas samples accumulated from the main stream at the meter location in a sample bottle of an approved type; i) passing the sample through a recording calorimeter of a standard type; ii) passing the sample through a flow calorimeter of a standard type; or iii) passing the sample through a chromatograph to determine the chemical composition and calculating the total heating value from the sum of the constituents.

11.8 CUSTOMER-OWNED METERS A Customer may install and operate a meter or any other device to measure gas volumes, pressure, temperature, BTU content or specific gravity downstream of the point of delivery. Unless expressly otherwise agreed to by the Company and Customer, however, the Company's meter and equipment shall be the sole determinant of volumes for Company's billing purposes.

METER READING AND ACCURACY

12.1 METERING READING Meters shall be read as nearly as may be practical on the same day of each calendar month. Whenever a reading of a general service meter is missed or the meter is not registering, the Company shall estimate the amount of gas used during the period. Such estimates shall be based on: a) That Customer's use of gas during the same period(s) in previous years; b) That Customer's normal use of gas during preceding months; or c) The use of a similar Customer for the period missed. If practical, an actual reading shall be made after two consecutive estimated bills. All meters in Special Service shall be read at least once a month. Whenever such a meter fails to register or is misread, the amount of gas used during the preceding period shall be estimated using data applicable to that Special Service Customer only. The Company will make a special reading of any meter upon request and payment of a service charge will be made in accordance with Section 21.1. The time of the special reading shall be agreed upon with the Customer so that he or she may be present. If the original reading was in error (subject to consumption between the two readings) the service charge will be refunded to the Customer.

12.2 ACCESS TO THE METER The Customer shall permit the Company safe access to the meter at all reasonable times for reading thereof and at all reasonable times for reading, maintenance, testing, or replacement of the meter. Upon the Customer's failure or refusal to grant such

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

access, the Company may issue a written notice to the Customer, advising them the situation must be corrected and access granted within 10 days and that failure to do so can result in the disconnection of service and removal of the meter. Additional fees may apply and will be assessed to such Customer as specified in Section 21.1.

12.3 METER ACCURACY The accuracy limit of all Company meters is established at two percent (2%) fast or slow. Any meter found to be registering outside of the limits of accuracy shall immediately be removed or repaired. As long as the meter is operating within the limits of accuracy, it shall be the conclusive determination as to the quantities of gas delivered to the Customer on whose service it is set.

12.4 METER TESTING AT CUSTOMER REQUEST The Company shall have the right to remove and/or test the meter used to determine the quantity of gas delivered. The Customer may request that the Company make a special test of the meter through which he or she is served. Requests for such tests shall be made in writing and the Company shall have 10 days after receipt of the request to remove the meter for testing or to test the meter in place. Tests on removed meters shall be conducted within a reasonable time. If the test is to be performed after the period of presumed accuracy listed by the manufacturer or if the test is to be performed for a residential or small commercial Customer for whom no such test have been performed within the previous four (4) years for the same Customer at the same location, no service charge will be assessed. Otherwise, the Customer shall pay a service charge for such test as specified in Section 21.1.

12.5 BILLING ADJUSTMENTS - GENERAL SERVICE Whenever it has been determined that a meter reading and the subsequent billing has been in error, the Company shall recalculate the affected bill(s). If the date and amount of the error can be definitely fixed, the Company shall refund or may bill the affected Customer for the entire difference between the actual bills rendered and the amount which should have been billed. If a meter is found to have registered inaccurately (such as a meter found to be registering fast or slow), the Company shall refund or bill an amount equal to the difference between the actual bills rendered and the amount which would have been billed if the meter had been 100 percent accurate during the time since the last previous test or the last six months, whichever is less. If the meter is found not to have registered, then the rebilling shall be limited to a three-month period previous to the time the meter is found not to be registering. The determination of amounts used but not metered is to be based on consumption during other like periods by the same Customer at the same location, when available, and on consumption under similar conditions at the same location or of other similarly situated Customers, when not available. Undercharges billed to the Customer may be repaid in a series of equal installments over a reasonable period of time. This Paragraph shall not apply to meter errors found as a result of routine testing in the Company's or its designee's meter shop.

12.6 PROVISIONS FOR SPECIAL SERVICE The following modifications shall apply to the provisions of this Section for all Special Service rate schedules and service under special written agreements: a) Orifice and turbine meters shall be tested at least four times per year at intervals not to exceed 120 days. Should the Customer so elect, tests shall be made in the presence of his or her representative. b) Whenever a meter is found to be registering above or below the limits of accuracy, adjustment of the bill (either up or down) shall be limited to the monthly billing subsequent to the last meter test. The adjustment shall be made upon the basis of the best data available, using the first of the following methods, whichever is most appropriate: i) by using registration of Customer's check meter(s); ii) by correcting

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 28842
-----------------	----------------------

the error, if the percentage of error is ascertainable by calibration test or mathematical calculation; or iii) by estimating the quantity of gas delivered by comparison with deliveries during the preceding period under similar conditions when accurate registration was obtained.

12.7 PERIODIC TESTS The Company shall make periodic tests of meters, associated devices and instruments to assure their accuracy. Such tests shall be scheduled within the calendar year or earlier, when the interval is stated in years; or within the calendar month, or earlier when the interval is stated in months. The basic periodic test interval shall be no longer than provided for in the manufacturer's recommendations, a copy of which is available upon request.

BILLING AND PAYMENT OF BILLS

13.1 RENDERING OF BILLS Bills for all service shall be rendered monthly as promptly as feasible after the meter has been read. Bills shall be due and payable in full on or before the due date, which shall be stated on the face of the bill and shall not be earlier than fifteen (15) days after the bill is mailed (including electronic mail). Bills shall be considered to have been rendered when deposited in the United States Mail with postage prepaid thereon or, when the customer has elected to receive billings via electronic mail, when the electronic document has been sent. Payment shall be considered received when the correct amount has been received at the appropriate Company office or one of its authorized pay stations. If not paid in full by the date due, the bill shall be considered delinquent.

13.2 BILLING PERIOD Bills shall be rendered at regular monthly intervals unless otherwise authorized or unless service is rendered for a period of less than a month.

13.3 ESTIMATED BILLS In the event any meter cannot be read at the end of the billing period, the Company shall bill the Customer on the basis of an estimated consumption determined in accordance with Paragraph 12.1 of this Tariff. The next bill based on actual reading after an estimated bill shall make any corrections necessary to bring the Customer's account to a current status for the actual consumption.

13.4 DISPUTED BILLS a) In the event of a dispute between the Customer and the Company regarding the bill, the Company will make such investigation as is required by the particular case and report the results to the Customer. If the Customer wishes to obtain the benefits of Paragraph b) of this subsection, notification of the dispute must be given to the Company prior to the date the bill becomes delinquent. In the event the dispute is not resolved, the Company shall inform the Customer of the complaint procedures of the appropriate regulatory authority. b) Notwithstanding any other subsection of this section, the Customer shall not be required to pay the disputed portion of the bill which exceeds the amount of that Customer's average usage for the billing period at current rates until the earlier of the following: resolution of the dispute or the expiration of the 60 day period beginning on the day the disputed bill is issued. For purposes of this section only, the Customer's average usage for the billing period shall be the average of the Customer's usage for the same billing period during the preceding two years. Where no previous usage history exists, the average usage shall be estimated on the basis of usage levels of similar Customers and under similar conditions.

13.5 PAYMENT RE-PROCESSING FEE The Company may charge or add to the Customer's account and collect a fee (as provided in Section 21.1 d) to recover costs for reprocessing any payment,

GAS SERVICES DIVISION

TARIFF CODE: DS	RRC TARIFF NO: 28842
-----------------	----------------------

including paper check, electronic transfer payment, and debit or credit card payment, that has been rejected or returned to the Company by the bank for any reason other than bank error.

13.6 E-BILL The Customer may at its option receive bills and notices via electronic mail, thereby eliminating paper bills and notices.

13.7 ALTERNATIVE PAYMENT OPTIONS The Company may, at its option and discretion, contract with vendors to provide various payment options to Customers for paying their bills for gas service and to collect such payments. These alternative payment options may be performed electronically, telephonically, and/or in person and may include payment by automatic bank draft, credit card, check or cash.

QUALITY OF GAS

14.1 HEATING VALUE Gas delivered to Consumers in all service areas shall have an average gross heating value of at least 900 British Thermal Units per cubic foot measured when saturated with water vapor at a pressure of 14.73 psia and temperature of 60 degrees Fahrenheit. Gas of lesser heating value may be delivered for short periods, providing that the average heating value for the calendar month in which the reduction occurs is equal to or greater than the standard and that the burning characteristics of the gas are not significantly altered.

14.2 CHARACTER OF GAS All gas furnished to Consumers in the Gulf Coast Service Area shall be of merchantable quality suitable for use in standard gas burning appliances. Merchantable quality shall mean that the gas must be commercially free from dust, resins, water and hydrocarbons in liquid form at the pressure and temperature at which the gas is delivered.

14.3 ODORIZATIION All gas shall be odorized with a chemical odorant at a sufficient rate to make it readily detectable. Gas containing enough natural odorant as prescribed by the Railroad Commission of Texas need not be odorized unless the odorant level drops below the acceptable level.

GCst1c

TEXAS GAS SERVICE COMPANY Gas Tariff - Gulf Coast Service Area
SERVICE WORK

15.1 CERTAIN SERVICES PROVIDED AT NO CHARGE When a Customer or Consumer smells or detects natural gas and contacts the Company, the Company shall provide to the Consumer at no-charge to the Customer or Consumer leakage and pressure investigations to ensure that unsafe conditions do not exist. Where leakage or unsafe conditions are determined by the Company to be in the Customer's or Consumer's piping or equipment, the Customer or Consumer will be so advised and service will be discontinued until such time that all leakage and other unsafe conditions have been properly corrected by the Customer or Consumer. In addition, when service is initiated, gas air adjustments on a standard domestic and commercial gas range and water heater will be made. Any other work performed on any Consumer's appliances or house piping will be on a charge basis.

15.2 OTHER SERVICE The Company may have personnel available for and may undertake other service work on the Consumer's premises on a charge basis, as time permits. Charges shall be made at the Company's standard rate in the Service Area and such work and the associated revenues and costs shall be considered non-utility.

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 28842
-----------------	----------------------

15.3 EXPEDITED SERVICE A Customer may request expedited service initiation. (See Section 21 - Fees and Deposits).

15.4 NO ACCESS Charged to any Customer who requests a specific time for service, if the Company agrees to the time, sends appropriate personnel to the appointed location and the Customer is not present to allow access to the premises. (See Section 21 - Fees and Deposits)

15.5 MATERIALS OR EQUIPMENT FURNISHED BY THE COMPANY The Company shall furnish and install the service pipe, and equipment related thereto, including meter valve and service regulator, from the Company's main to the Customer's meter. Although affixed to or buried in the Customer's property, the entire service line and meter set shall become the property of the Company and shall be operated and maintained by the Company.

15.6 MATERIALS OR EQUIPMENT FURNISHED BY THE APPLICANT The Applicant shall furnish and install at his or her expense all piping, conversions of existing equipment, and appliances required to conduct and utilize the gas furnished by the Company. The adequacy, safety, and compliance with applicable codes and ordinances of piping, conversion equipment and appliances shall remain the responsibility of the Applicant and no action of the Company in accordance with this Tariff shall release the Applicant of the responsibility to furnish and install the facilities required by this section.

15.7 CODES AND ORDINANCES All piping, installations, and conversion equipment owned by the Applicant shall comply with all applicable federal, state, and city ordinances and shall be properly designed for the pressures and volumes to be handled. Where there are no appropriate ordinances, the applicable provisions of the National Fuels Gas Code 54; ANSI Z223.1, and any amendments thereto shall apply.

15.8 INSPECTIONS AND TESTS The Company shall have the right to inspect new installations and/or conversions of appliances and equipment prior to initiation of service and to require any test or repair of the Applicant's facilities it deems necessary.

15.9 REFUSAL TO SERVE The Company shall refuse service to any Applicant who refuses Company or Company's representatives access to or entry for observation or whose facilities do not comply with the applicable provision of this Tariff. The right to refuse service shall terminate upon satisfactory correction of the condition that was the cause for refusal. Initiation of service, however, shall not be considered acceptance or approval by the Company of such facilities.

MAINTENANCE OF EQUIPMENT

16.1 MAINTENANCE BY COMPANY The Company shall maintain all facilities owned by it and shall be responsible for the safe conduct and handling of the gas until it passes the point of delivery. The Company's representative shall have the right to enter the Customer's premises at any reasonable time, in the event of an emergency at any time, to read the meter or make any necessary inspection, repair, adjustment, or replacement of any property owned by the Company.

16.2 MAINTENANCE BY THE CUSTOMER The Customer shall maintain all facilities owned by him or her and shall be responsible for the safe conduct and handling of the gas after it passes the point of delivery. The Customer shall remove, repair or adjust any Customer-owned property

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310	COMPANY NAME: TEXAS GAS SERVICE COMPANY
----------------	---

TARIFF CODE: DS	RRC TARIFF NO: 28842
-----------------	----------------------

which may pose a threat of damage to the property of the Company. The Customer shall take all reasonable means to assure that no one other than an employee of the Company shall adjust, repair, disconnect or change the meter or other Company facilities in any way. In case of loss or damage to the Company's property from the negligence or willful acts of the Customer or Consumer or the Customer's or Consumer's representatives, the Customer will reimburse the Company for all costs of repairing or replacing the damaged property, including any costs of collection such as attorney's fees.

16.3 LEAKS - RIGHT TO DISCONNECT FOR The Customer or Consumer shall give the Company notice of any leaking or escaping gas as soon as it is detected. Upon receipt of this notice, the Company shall investigate the matter as promptly as feasible under the circumstances. If the Company's test indicates leakage in the Customer's or Consumer's facilities, the Company shall have the right to disconnect service immediately until the Customer or Consumer has had the condition corrected. If leakage is found to be from Company owned facilities, the Company shall have the right to disconnect service for a reasonable period of time until it can be corrected by the Company. The Company shall have the right to disconnect service immediately if any of the Customer's or Consumer's appliances or equipment is, in the Company's opinion, operating in an unsafe manner.

16.4 FACILITIES CURRENTLY OWNED BY THE CUSTOMER Any facilities downstream of the meter installed by the Customer shall remain the property and responsibility of the Customer. Whenever the condition of the facility is such that replacement is required, the work shall be done by the Company pursuant to the provisions of subsection 16.7 of this Tariff. New facilities will continue to be installed pursuant to subsections 7.1 and 7.2 of this Tariff.

16.5 RESPONSIBILITY Nothing in this Section shall make the Company responsible for the safe upkeep of any Customer or Consumer owned facilities.

16.6 RELOCATION OF COMPANY FACILITIES

- a) A charge of not more than actual cost may be made for relocating a meter or other Company equipment on the same premises at the request of the Customer or Consumer.
- b) If the Company shall for its own convenience and not for the safety or convenience of the Customer, change the point of delivery or change the location of its equipment on private property, the Company shall bear the expense.

16.7 REPLACEMENT OF CUSTOMER-OWNED PIPING

- a) When repair or replacement of Customer-owned piping becomes necessary due to deterioration of the line, damage to the line (except when caused by Customer or Customer's agent), relocation of the Company's distribution main, or for other safety reasons, the Company will relocate Customer's meter to the exterior of the building wall, as close as possible to the existing stub out (where piping exits the structure), and will replace the service piping up to the stub out. The Company will own and be responsible for all service piping from the main line to the meter, and Customer will own and be responsible for all piping from the meter to the building.
- b) The Customer may be billed for all costs of the meter relocate and pipeline replacement.
- c) In the absence of any provision contained in a deed of dedication authorizing the Company to install the service piping and meter on the Customer's premises, the owner of the premises shall execute an agreement establishing the meter location, authorizing the Company to install or replace the line, and granting Company access for such work. If the Customer or owner of the premises refuses to give Company personnel or Company-authorized personnel appropriate

access to the property for purposes of installation, the Customer will retain responsibility for his/her facilities and shall bear the expense of any replacement or repairs.

DISCONTINUANCE OF SERVICE

17.1 BY CUSTOMER The Customer shall be responsible for all charges for gas service from the time Customer gives notice of the intention to discontinue service until the Company has read the meter, or for 5 working days from the date of such notice, whichever is the shorter period of time.

17.2 FOR NON-PAYMENT The Company shall have the right to discontinue service to any Customer for non-payment of bills or other charges authorized by this Tariff or the applicable rate schedules, following the due date specified in Section 13.1 hereof. Before discontinuing service for non-payment, the Company shall mail a separate written notice to the Customer in English and Spanish with the words TERMINATION NOTICE or similar language prominently displayed. This notice shall include a telephone number to contact the Company, the amount of the delinquent bill and the date by which the bill must be paid to avoid disconnection, and a statement of how to contact the Company in case of illness or other emergency. If a representative of the Company makes an attempt to collect a past due amount, a collection fee per visit shall be assessed to such Customers as specified in Section 21.1.

No Customer shall be disconnected for non-payment:

- a) Within a period of 5 working days after mailing of the notice or the day following the date indicated in the notice, whichever is the later time.
- b) After full payment of the delinquent bill except when there is not sufficient time to advise Company's service personnel of receipt of the payment.
 - c) Before 7:00 AM or after 7:00 PM on any day or on Friday, Saturday, Sunday, holiday, or day before a holiday unless Company personnel are available the following day for the purpose of reconnecting service.
 - d) If within 5 working days after the date of delinquency of the bill the Company receives a written request from the Customer not to discontinue service for health reasons and the request is accompanied by a written statement from a licensed physician. Upon receipt of such request, the Company will suspend termination of service for a period up to 20 days. The Customer shall sign an installment agreement which provides for payment of such service along with timely payments for subsequent monthly billings.

17.3 SPECIAL CONDITIONS The Company shall have the right to discontinue service to any Consumer for any of the following reasons:

- a) Without notice for the presence of what the Company considers to be an unsafe condition on the Consumer's premises or if an emergency exists;
- b) Without notice for willful destruction or damage to or tampering with the Company's property by the Consumer or by others with knowledge or negligence of the Consumer;
- c) Within 5 working days after written notice if the Consumer uses his or her equipment in any way which causes or creates a potential for adverse effect on the Company's service to others;
- d) Without notice if failure to curtail by such Consumer endangers the supply to Consumers in Priority Class A or B;
- e) 5 working days after written notice from the Company for refusal to grant Company personnel or its designee's access to the Consumer's premises at any reasonable time for any lawful purpose;
- f) 5 working days after written notice from the Company for use, sale or delivery of gas in

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

TARIFF CODE: DS	RRC TARIFF NO: 28842
-----------------	----------------------

violation of the provisions of this Tariff or violation of any applicable laws, orders or ordinances, provided that disconnection may be made without notice if the violation creates an unsafe condition;

g) For Customers on transportation service, the Company may discontinue service upon request of a Qualified Supplier, provided however, that the Qualified Supplier represents to the Company that notice has been given to the Customer by the Qualified Supplier of delinquency in payment at least 5 working days prior to Qualified Supplier's request for disconnection, and provided that Qualified Supplier agrees to indemnify and hold harmless the Company from any potential resulting liability;

h) If a Customer fails to uphold the terms of an individual installment agreement or contract; or

i) Within 5 working days after written or electronic notice, for Consumers enrolled in e-bill, that any payment including paper check, electronic transfer payment, and debit or credit card payment, that has been rejected or returned to the Company by the bank.

17.4 RIGHT OF ENTRY The Company shall have the right to enter the Consumer's premises at any reasonable time to shut off service in accordance with this Tariff and to remove its meter and any other Company property. If the Company is required to take legal action to enforce its rights hereunder, the Company shall be entitled to recover all of its necessary expenses and fees including, but not limited to attorneys' fees, police escort fees and/or the cost to relocate the meter at the Customer's expense.

17.5 ABANDONMENT OF SERVICE Unless requested by the Customer, service shall not be abandoned (permanent disconnection of any Customer other than a temporary Customer) without permission of the Regulatory Authority. Failure of the Customer to request reinstatement of service within a reasonable period of time after disconnection shall be considered a request for permanent discontinuance of service.

RE-ESTABLISHMENT OF SERVICE

18.1 FOR NON-PAYMENT When service has been disconnected for non-payment, the Company shall require that the Customer pay the total amount of his account then due plus the prescribed reconnect fee or make satisfactory arrangements for that payment before service is reinstated. In addition, the Company shall require that the Customer reestablish satisfactory credit in accordance with Section 5 of this Tariff.

18.2 FOR OTHER REASONS

If disconnection has been made by the Company for reasons other than non-payment, service shall not be reinstated until the condition for which it was terminated has been corrected to the Company's satisfaction. The Customer shall also be required to pay a reconnect fee before service is turned on. When service has been disconnected at the Customer's request for a period of one year or more, the request for service shall be treated as a new application. When service has been disconnected for less than one year, the request shall be treated in the same manner as a disconnection for non-payment.

18.3 RECONNECTION The Company shall restore service as soon as feasible after receipt of a reconnection request and compliance with the requirements of this Section. The Company shall charge a non-refundable reconnection fee for all Customers in accordance with Section 21.1. The restoration of service will be accomplished as expeditiously as scheduling permits. If the Customer requests service after hours or earlier than reconnection would otherwise be scheduled, the Company shall offer expedited service in accordance with Section 21.1. Customer shall be advised that an additional fee will be charged and must agree to pay such

charge. In the event the Company is required to make more than one call because the reason for disconnection has not been properly corrected, the reconnect fee may be charged for each call made. No fee shall be charged for any reconnection made after disconnection due to Company's operation. See Section 21.1 for fees.

NOTICE

19.1 GENERAL Notice is required for all matters in this Tariff other than billing and payment of bills, which shall be deemed to have been given by the Customer when a letter with postage prepaid has been deposited in the United States Mail addressed to the Company at the office specified on the front sheet of this Tariff, and to the Customer when addressed to Customer at his or her last known service address, or to either party when directly communicated to the other party in person or by telephone.

AVERAGE BILL CALCULATION PLAN

20.1 DESCRIPTION-RESIDENTIAL Any residential Customer may elect to participate in the Company's Average Bill Calculation Plan (ABC Plan), or as such ABC Plan may be modified from time to time for payment of charges for gas service. In the event the Company modifies the ABC Plan, the Company shall notify individual Customers of those changes when the Customer requests enrollment. In general, the conditions under which a Customer may participate in the ABC Plan are set forth below: a) The Company reserves the right to adjust the monthly ABC Plan payments of any Customer at any time for changes in conditions or rates; b) The Company shall advise each Customer participating in the ABC Plan of the monthly ABC Plan payment to be paid by the Customer. Each participating Customer will receive a regular monthly gas bill that reflects actual consumption and the charges for that billing month and the amount of any debit or credit balance before the payment of that month's ABC Plan payment. The Customer shall continue to pay the monthly ABC Plan payment amount each month for gas service, notwithstanding the current gas service charge shown on the bill; c) In addition to the monthly ABC Plan payment any other charges incurred by the Customer shall be paid monthly when due; d) Interest shall neither be charged to the Customer on accrued on ABC Plan debit balances nor paid by the Company on accrued ABC Plan credit balances; e) Any amount due to the Customer or the Company will be settled and paid at the time a Customer, for any reason, ceases to be a participant in the ABC Plan; f) Any Customer's participation in the ABC Plan may be discontinued by the Company if the monthly plan payment has not been paid on or before the due date of the monthly payment; g) If any Customer in the ABC Plan shall cease, for any reason, to participate in the ABC Plan, then the Company may deny that Customer's reentry into the ABC Plan until the following August.

FEES AND DEPOSITS

21.1 FEES All fees and charges shall be adjusted by taxes and fees (including franchise fees) where applicable.

a) Initiation of Service

i) Connect (Section 5.4) \$35.00

A connection fee shall be charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when a meter is set and/or gas turned on.

ii) Read-In (Section 5.4) \$10.00

A read-in fee shall be charged to any Applicant for the cost involved in initiation of service. This fee shall be charged when only a meter reading is required.

iii) Special Handling & Expedited Service (Section 5.4 and 15.3)

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28842

In addition to initiation of service fee above, a fee may be charged to any Applicant whose request to initiate service cannot be worked during normal business hours or requires special handling. Applicant must be advised that an additional fee will be charged and must agree to pay such charge. These charges include:

1) Special Handling \$6.00 The Company may, at Applicant or Customer's request, provide special handling in order to meet the Applicant or Customer's requirements. Special handling does not include calling the Applicant/Customer in advance or A.M. or P.M. scheduling

2) Expedited Service and Overtime Rate \$67.50 The Applicant or Customer's request for expedited service may be scheduled at any time to fit the Company's work schedule, and an Expedited Service charge shall be collected. The Company shall not be obligated to provide Expedited Service when the personnel and resources to do so are not reasonably available.

b) Services - Others As stated below Whenever service is furnished from the facilities of others and the Company must pay any special fees to the supplying Company, the Applicant may be requested to reimburse the Company for such charge.

c) Customer Requested Meter Test (Section 12.4)

Positive Displacement Charge

Up to 1500 cubic feet per hour \$80.00

Over 1500 cubic feet per hour \$100.00

Orifice Meters All sizes \$100.00

d) Payment Re-processing Fee (Section 13.5) \$25.00

e) Collection Fee (Section 17.2) \$12.00

A Collection Fee shall be charged to any Customer whose failure to respond to a termination notice results in the dispatch of a Company representative to attempt collection of payment from Customer.

f) Reconnect Fees (Section 18.3) \$35.00 A reconnect fee shall be charged to any Customer whose service is terminated and then re-initiated unless terminated in error by the Company. This fee is the same as the Standard Initiation Fee charged for new service.

(i) Regular Labor and After Hours Rates \$45.00 (Regular) \$67.50 (After Hours)

Charge for non-routine services including but not limited to repeat high bill investigations and building meter loops.

g) Special Read (Section 12.1) \$10.00

A special read fee shall be charged for customer requested reading of a meter of which estimated billing has been made. This is not in connection with Section 12.4.

h) Meter Exchange (Customer Request) (Section 16.6) \$100.00 without ERT \$150.00 with ERT

A fee will be charged for customers requested meter exchanges when a meter working properly or done for the Customers convenience.

i) Meter Tampering - Residential (Section 16.2) \$100.00 A fee will be charged to Customers who knowingly tamper with Company property (i.e. broken meter locks, broken stop cocks, tampered meter dials, and broken meter blind seals).

RATE SCHEDULE

SCHEDULE ID DESCRIPTION

1-INC-GulfGALV-IS-CO

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE 1-INC(GALV)
 Gulf Coast Service Area

COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas in the Gulf Coast Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after March 1, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission no later than June 15th.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation

GAS SERVICES DIVISION

GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28843

RATE SCHEDULESCHEDULE IDDESCRIPTION

Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

9. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas

RAILROAD COMMISSION OF TEXAS
 GAS SERVICES DIVISION

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28843

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month.

(The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28843

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. This report shall be filed concurrently with the Cost of Gas Statement for October.

TARIFF CODE: DS RRC TARIFF NO: 28843

RATE SCHEDULE

SCHEDULE IDDESCRIPTION

for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after March 1, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission no later than June 15th.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause,

5. (cont.) (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

9. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%).

TARIFF CODE: DS RRC TARIFF NO: 28843

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any.

This report shall be filed concurrently with the Cost of Gas Statement for October.

IKE-Rider GalsvA-IS

TEXAS GAS SERVICE COMPANY
 Galveston Service Area - Gulf Coast Region
 RATE SCHEDULE IKE-RIDER
 HURRICANE IKE SURCHARGE

A. APPLICABILITY

The Hurricane Ike Surcharge (IKE) rate as set forth in Section (B) below is for the recovery of losses incurred by the Company as a direct result of Hurricane Ike and not recoverable from any other source. These losses include insurance deductibles under the property damage and business interruption policies.

The IKE rate shall apply to the following gas sales and transportation rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas: 10, 12, 13, 20, 21, 22, 23, 24, 25, 30, 31, 32, 33, 34, 35, 40, 41, 42, 43, 44, 45, C-1, CNG-1, and T-1.

B. IKE RATE

The following rate will be added to the applicable Rate Schedule Cost of Service rate per Ccf for each monthly billing period:

Hurricane Ike Surcharge - All Ccf during each billing period:
 \$0.0273 per Ccf (gas sales and standard transport customers)

This rate will be in effect until all approved and expended Hurricane Ike costs and associated rate case expenses are recovered under the applicable rate schedules. This Rider does not limit the legal rights and duties of the Cities and is subject to all applicable laws and orders and the Company's rules and regulations on file with the regulatory authority.

 RATE SCHEDULE PSF
 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8
 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section 8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section 121.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

(A) shall be a flat rate, one-time surcharge;

 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28843

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;

(D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and

(E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on

DESCRIPTION

June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

489	<p style="text-align: right;">RAILROAD COMMISSION OF TEXAS OIL AND GAS</p> <p>DIVISION</p> <p style="text-align: right;">GAS UTILITIES</p> <p>DIVISION</p> <p>OIL AND GAS DOCKET</p> <p style="text-align: center;">GAS UTILITIES</p> <p>DIVISION</p> <p>NO. 20-62, 505</p> <p style="text-align: center;">DOCKET NO. 489</p>
	<p>ORDER RELATING TO THE APPROVAL BY THE COMMISSION OF CURTAILMENT PROGRAMS FOR NATURAL GAS TRANSPORTED AND SOLD WITHIN THE STATE OF TEXAS</p>
	<p>After due notice the Railroad Commission of Texas on the 30th day of November, 1972, heard testimony and requested written curtailment priorities from representatives of investor owned and municipal gas utilities companies, private industry consumers and others responsible for directing available natural gas supplies to the consumers of natural gas in the State of Texas.</p>
	<p>WHEREAS, pursuant to the authority granted to the Railroad Commission of Texas in Article 6050 to 6066, inclusive, R.C.S., as amended; and</p>
	<p>WHEREAS, the Commission has determined the need for a curtailment program to assure effective control of the flow of natural gas to the proper destinations to avoid suffering and hardship of domestic consumers; and</p>
	<p>WHEREAS, the Commission has determined a need to make natural gas available to all gas consumers on a reasonable but limited basis during times of needed curtailment to the end that the public will be best served; and</p>
	<p>WHEREAS, the Commission has determined that the transportation delivery and/or sale of natural gas in the State of Texas for any purpose other than human need consumption will be curtailed to whatever extent and for whatever periods the Commission may find necessary for the primary benefit of human needs customers (domestic and commercial consumption) and such small industries as cannot practically be curtailed without curtailing human needs.</p>
	<p>IT IS THEREFORE, ORDERED BY THE RAILROAD COMMISSION OF TEXAS that the following rules relating to the approval by the Commission of curtailment programs for gas transported and sold within the State of Texas shall apply to all parties responsible for directing available and future natural gas supplies to the consumers of natural gas in the State of Texas.</p>
	<p>RULE 1.</p>
	<p>Every natural gas utility, as that term is defined in Article 6050, R.C.S. of Texas, as amended, intrastate operations only, shall file with the Railroad Commission on or before Feb. 12, 1973, its curtailment program. The Commission may approve the program without a hearing; set the matter for a public hearing on its own motion or on the motion of any affected customer of said utility.</p>

RAILROAD COMMISSION OF TEXAS
GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

01/24/2017

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28843

The curtailment program to be filed shall include, in verified form, the following information:

A. Volume of gas reserves attached to its system together with a brief description of each separate source of gas reserves setting forth the following:

1. the name of the supplier,
2. the term of each contract in years, and the years remaining on said contract,
3. the volume of recoverable reserve contracted for, and
4. rated deliverability of such reserves in MCF.

B. Capacity and location of underground storage, if any, attached to its system with a statement of whether the company's storage balance is above or below its desired level for this time, and, if below, what plans has the company made to restore the balance.

C. Peak day and average daily deliverability on an annual basis of its wells, gas plants and underground storage attached to its system.

D. Peak day capacity of its system.

E. Forecast of additions to reserves for each of the next two succeeding years.

F. Location and size of the line pipes, compressor stations, operating maximum line pressures, and a map showing delivery points along the system.

G. Disposition of all gas entering its system, with names of all customers other than residential customers and volumes delivered to each during the past calendar year. Identify those customers using 3,000 MCF gas per day, or more, which are under a service contract, and if such contract includes an Interruptible Service clause, and if so, attach a reproduced copy of the relevant provisions of such contract.

H. Steps taken in past years, being taken at the present, and to be taken to alleviate curtailments.

RULE 2.

Until such time as the Commission has specifically approved a utilities curtailment program, the following priorities in descending order shall be observed:

A. Deliveries for residences, hospitals, schools, churches and other human needs customers.

B. Deliveries of gas to small industrials and regular commercial loads (defined as those customers using less than 3,000 MCF per day) and delivery of gas for use as pilot lights or in accessory or auxiliary equipment essential to avoid serious damage to industrial plants.

RAILROAD COMMISSION OF TEXAS
 GAS SERVICES DIVISION
 GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28843

C. Large users of gas for fuel or as a raw material where an alternate cannot be used and operation and plant production would be curtailed or shut down completely when gas is curtailed.

D. Large users of gas for boiler fuel or other fuel users where alternate fuels can be used. This category is not to be determined by whether or not a user has actually installed alternate fuel facilities, but whether or not an alternate fuel could be used.

E. Interruptible sales made subject to interruption or curtailment at Seller's sole discretion under contracts or tariffs which provide in effect for the sale of such gas as Seller may be agreeable to selling and Buyer may be agreeable to buying from time to time.

RULE 3.

Each gas utility that has obtained Commission approval of a curtailment program shall conduct operations in compliance with such program. So long as any gas utility which has obtained Commission approval of a curtailment program continues to curtail deliveries to its customers, except as provided by contract or those customers included in Part E of Rule 2 above, it

(a) shall file on or before April 1 of each year, under oath, the information called for in Rule 1, for the preceeding year, and

(b) shall not, without Commission approval, make sales of gas to any new customers or increase volumes sold to existing customers, except those new or existing customers defined in Parts A & B of Rule 2 above.

IT IS FURTHER ORDERED that this cause be held open for such other and further orders as may be deemed necessary.

ENTERED AT AUSTIN, TEXAS, this 5th day of January, 1973.

SCHEDULE ID DESCRIPTION

1-INC-GulfGALV-IS-CO

TEXAS GAS SERVICE COMPANY
 RATE SCHEDULE 1-INC(GALV)
 Gulf Coast Service Area

COST OF GAS CLAUSE

A. APPLICABILITY

This Cost of Gas Clause shall apply to all general service rate schedules of Texas Gas Service Company (The Company) in the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas in the Gulf Coast Service Area.

B. DEFINITIONS

1. Cost of Gas - The rate per billing unit or the total calculation under this clause, consisting of the commodity cost, a reconciliation component, any surcharges or refunds, Uncollectible Cost of Gas, and the revenue associated fees (including franchise fees) and taxes.

2. Commodity Cost - The Cost of Purchased Gas multiplied by the Purchase Sales Ratio plus any adjustment deemed prudent by the Company to correct any known and quantifiable under or over collection prior to the end of the reconciliation period for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after March 1, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission no later than June 15th.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation

DESCRIPTION

Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause, (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. 1/(1 - .05) unless expressly authorized by the appropriate regulatory authority.

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

9. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas

RAILROAD COMMISSION OF TEXAS

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28844

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%).

F. SURCHARGE OR REFUND PROCEDURES In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above. The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month.

(The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

DESCRIPTION

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any. This report shall be filed concurrently with the Cost of Gas Statement for October.

for the objective of minimizing the impact of under or over collection by the reconciliation factor in the next year.

3. Cost of Purchased Gas - The estimated cost for gas purchased by the Company from its supplier or the estimated weighted average cost for gas purchased by the Company from all sources where applicable. Such cost shall include not only the purchase cost of natural gas, but shall also include all reasonable fees for services such as gathering, treating, processing, transportation, capacity and/or supply reservation fees, storage, balancing, and swing services necessary for the movement of gas to the Company's city gate delivery points. The cost of purchased gas may also include costs related to the purchase and transportation of Renewable Natural Gas (RNG). Renewable Natural Gas is the term used to describe pipeline-quality biomethane produced from biomass. The cost of purchased gas shall not include the cost of financial instruments that were entered into after March 1, 2016, unless the use of such financial instruments is approved in advance and in writing by the Director of the Oversight and Safety Division of the Railroad Commission of Texas. Such approval would be requested as part of the Company's annual gas purchase plan, which shall be submitted annually to the Commission no later than June 15th.

4. Reconciliation Component - The amount to be returned to or recovered from customers each month from October through June as a result of the Reconciliation Audit.

5. Reconciliation Audit - An annual review of the Company's books and records for each twelve month period ending with the production month of June to determine the amount of over or under collection occurring during such twelve month period. The audit shall determine: (a) the total amount paid for gas purchased by the Company (per Section B(3) above) to provide service to its general service customers during the period, (b) the revenues received from operation of the provisions of this cost of gas clause,

5. (cont.) (c) the total amount of refunds made to customers during the period and any other revenues or credits received by the Company as a result of relevant gas purchases or operation of this Cost of Gas Clause, (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

6. Purchase/Sales Ratio - A ratio determined by dividing the total volumes purchased for general service customers during the twelve (12) month period ending June 30 by the sum of the volumes sold to general service customers during the same period. For the purpose of this computation all volumes shall be stated at 14.95 psia. Such ratio as determined shall in no event exceed 1.0526 i.e. $1/(1 - .05)$ unless expressly authorized by the appropriate regulatory authority.

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

7. Reconciliation Account - The account maintained by the Company to assure that over time it will neither over nor under collect revenues as a result of the operation of the cost of gas clause. Entries shall be made monthly to reflect, (a) the total amounts paid to the Company's supplier(s) for gas applicable to general service customers as recorded on the Company's books and records (per Section B(3) above), (b) the revenues produced by the operation of this Cost of Gas Clause, and (c) refunds, payments, or charges provided for herein or as approved by the regulatory authority. (d) the total amount accrued during the period for imbalances under the transportation rate schedule(s) net of franchise fees and applicable taxes, (e) the total amount of uncollectible accounts that are attributable to charges calculated under this tariff during the period, and (f) an adjustment, if necessary, for lost and unaccounted for gas during the period in excess of five (5) percent of purchases.

8. General Service Customers - those customers served under general service rate schedules.

9. Uncollectible Cost of Gas - the amounts actually written off after the effective date of this rate schedule related to cost of gas.

C. COST OF GAS

In addition to the cost of service as provided under its general service rate schedules, the Company shall bill each general service customer for the Cost of Gas incurred during the billing period. The Cost of Gas shall be clearly identified on each customer bill.

D. DETERMINATION AND APPLICATION OF THE RECONCILIATION COMPONENT

If the Reconciliation Audit reflects either an over recovery or under recovery of revenues, such amount, plus or minus the amount of interest calculated pursuant to Section E below, if any, shall be divided by the general service sales volumes, adjusted for the effects of weather, growth, and conservation for the period beginning with the October billing cycle last preceding through the June billing cycle. The Reconciliation Component so determined to collect any revenue shortfall or to return any excess revenue shall be applied for a nine (9) month period beginning with the next following October billing cycle and continuing through the next following June billing cycle at which time it will terminate until a new Reconciliation Component is determined.

E. PAYMENT FOR FUNDS

Concurrently with the Reconciliation Audit, the Company shall determine the amount by which the Cost of Gas was over or under collected for each month including any cost of gas inventory in storage within the period of audit. If, on the average, the Company had overcollected during the period, it shall credit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%). If on the average, the Company had undercollected during the period, it shall debit into the Reconciliation Account during September an amount equal to the average balance multiplied by six percent (6%).

RATE SCHEDULESCHEDULE IDDESCRIPTION

F. SURCHARGE OR REFUND PROCEDURES

In the event that the rates and charges of the Company's supplier are retroactively reduced and a refund of any previous payments is made to the Company, the Company shall make a similar refund to its general service customers. Similarly, the Company may surcharge its general service customers for retroactive payments made for gas previously delivered into the system. Any surcharge or refund amount will be included in the Reconciliation Account. Refunds or charges shall be entered into the Reconciliation Account as they are collected from or returned to the customers. For the purpose of this Section F, the entry shall be made on the same basis used to determine the refund or charge component of the Cost of Gas and shall be subject to the calculation set forth in Section (E) Payment for Funds, above.

G. COST OF GAS STATEMENT

The Company shall file a Cost of Gas Statement with the Regulatory Authority by the beginning of each billing month. (The Company shall file such initial statement as soon as is reasonably possible). The Cost of Gas Statement shall set forth (a) the estimated Cost of Purchased Gas; (b) that cost multiplied by the Purchase/Sales Ratio; (c) the amount of the cost of gas caused by any surcharge or refund; (d) the Reconciliation Component; and (e) the Cost of Gas calculation. The statement shall include all data necessary for the Regulatory Authority to review and verify the calculation of the Cost of Gas. The date on which billing using the Cost of Gas is to begin (bills prepared) is to be specified in the statement.

H. ANNUAL RECONCILIATION REPORT

The Company shall file an Annual Reconciliation Report with the Regulatory Authority which shall include but not necessarily be limited to:

1. A tabulation of volumes of gas purchased and costs incurred listed by account or type of gas, supplier and source by month for the twelve months ending June 30.
2. A tabulation of gas units sold to general service customers and related Cost of Gas Clause revenues.
3. A description of all other costs and refunds made during the year and their effect on the Cost of Gas Clause to date.
4. A description of the imbalance payments made to and received from the Company's transportation customers within the service area, including monthly imbalances incurred, the monthly imbalances resolved, and the amount of the cumulative imbalance. The description should reflect the system imbalance and imbalance amount for each supplier using the Company's distribution system during the reconciliation period.
5. A tabulation of the uncollectible accounts attributable to charges calculated under this tariff, including monthly amounts charged off, and monthly charged off amounts later collected, if any.

This report shall be filed concurrently with the Cost of Gas Statement for October.

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

Rate Schedule RCE: Adjustments in accordance with provisions of the Rate Case Expense Surcharge Rider.

Taxes: Plus applicable taxes and fees (including franchise fees) related to above.

CONDITIONS Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority. The rate schedule may be used for special unmetered service such as gas street lights. The total hourly rated consumption of all gas burning appliances included, expressed in Ccf, at the location, shall be multiplied by 731 to determine the average monthly consumption of the service. The result, rounded to the next highest Ccf shall then be billed the rates provided in this rate.

RATE SCHEDULE IKE-RIDER

HURRICANE IKE SURCHARGE

A. APPLICABILITY

The Hurricane Ike Surcharge (IKE) rate as set forth in Section (B) below is for the recovery of losses incurred by the Company as a direct result of Hurricane Ike and not recoverable from any other source. These losses include insurance deductibles under the property damage and business interruption policies.

The IKE rate shall apply to the following gas sales and transportation rate schedules of Texas Gas Service Company currently in force in the Company's service area within the incorporated areas of Galveston, Bayou Vista and Jamaica Beach, Texas: 10, 12, 13, 20, 21, 22, 23, 24, 25, 30, 31, 32, 33, 34, 35, 40, 41, 42, 43, 44, 45, C-1, CNG-1, and T-1.

B. IKE RATE

The following rate will be added to the applicable Rate Schedule Cost of Service rate per Ccf for each monthly billing period:

Hurricane Ike Surcharge - All Ccf during each billing period:
 \$0.0273 per Ccf (gas sales and standard transport customers)

This rate will be in effect until all approved and expended Hurricane Ike costs and associated rate case expenses are recovered under the applicable rate schedules. This Rider does not limit the legal rights and duties of the Cities and is subject

 PIPELINE SAFETY AND REGULATORY PROGRAM FEES
 TEXAS ADMINISTRATIVE CODE TITLE 16
 ECONOMIC REGULATION PART 1
 RAILROAD COMMISSION OF TEXAS
 CHAPTER 8
 PIPELINE SAFETY REGULATIONS
 SUBCHAPTER C
 REQUIREMENTS FOR NATURAL GAS PIPELINES ONLY

Rule Section8.201 Pipeline Safety and Regulatory Program Fees

(a) Application of fees. Pursuant to Texas Utilities Code, Section21.211, the Commission establishes a pipeline safety and regulatory program fee, to be assessed annually against operators of natural gas distribution pipelines and pipeline facilities and natural gas master metered pipelines and pipeline facilities subject to the Commission's jurisdiction under Texas Utilities Code, Title 3. The total amount of revenue estimated to be collected under this section does not exceed the amount the Commission estimates to be necessary to recover the costs of administering the pipeline safety and regulatory programs under Texas Utilities Code, Title 3, excluding costs that are fully funded by federal sources for any fiscal year

(b) Natural gas distribution systems. The Commission hereby assesses each operator of a natural gas distribution system an annual pipeline safety and regulatory program fee of \$1.00 for each service (service line) in service at the end of each calendar year as reported by each system operator on the U.S. Department of Transportation (DOT) Gas Distribution Annual Report, Form PHMSA F7100.1-1 due on March 15 of each year.

(1) Each operator of a natural gas distribution system shall calculate the annual pipeline safety and regulatory program total to be paid to the Commission by multiplying the \$1.00 fee by the number of services listed in Part B, Section 3, of Form PHMSA F7100.1-1, due on March 15 of each year.

(2) Each operator of a natural gas distribution system shall remit to the Commission on March 15 of each year the amount calculated under paragraph (1) of this subsection.

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

(3) Each operator of a natural gas distribution system shall recover, by a surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

DESCRIPTION

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28844

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

March 24, 2016 between Texas Gas Service (TGS) and the Cities of Galveston, Bayou Vista, Port Neches, Port Arthur, Nederland and Groves, Texas (collectively, the Cities). This rate shall apply to the following rate schedules of Texas Gas Service Company in the incorporated areas of the Cities served in TGS's Gulf Coast Service Area: 10, 20, 30, 40 and T-1.

B. RCE RATE

All Ccf during each billing period:
\$0.0172 per Ccf

This rate will be in effect until all approved and expended rate case expenses are recovered under the applicable rate schedules. Texas Gas Service Company will recover \$706,179 in actual expense and up to \$147,645 in estimated expense, not to exceed actual expense. The Rate Case Expense Surcharge will be a separate line item on the bill.

C. OTHER ADJUSTMENTS

Taxes: Plus applicable taxes and fees (including franchise fees) related to above.

D. CONDITIONS

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

E. COMPLIANCE

TGS shall file a reconciliation report annually on or before December 31st, commencing in 2016. TGS shall file the report with the Commission, Addressed to the Director of the Oversight and Safety Division and referencing Gas Utilities Docket No. 10488, Rate Case Expense Recovery Report. The report shall include: - The volumes used by month by customer class during the applicable period, - The amount of Rate Case Expense recovered, by month - The outstanding balance, by month

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28844

RATE SCHEDULE

SCHEDULE ID

DESCRIPTION

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \frac{\text{WNAD}}{\text{CV}}, \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

WNAD = (HDD Diff * CB * WF) * COS rate, where
HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

Residential 0.169485; Commercial 0.359253; Public Authority 2.504963

CV = Current Volumes for the billing period.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request.

By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.

RATE SCHEDULESCHEDULE IDDESCRIPTION

surcharge to its existing rates, the amount the operator paid to the Commission under paragraph (1) of this subsection.

The surcharge:

- (A) shall be a flat rate, one-time surcharge;
- (B) shall not be billed before the operator remits the pipeline safety and regulatory program fee to the Commission; (C) shall be applied in the billing cycle or cycles immediately following the date on which the operator paid the Commission;
- (D) shall not exceed \$1.00 per service or service line (For calendar year 2015 the annual pipeline safety program fee, billed effective with meters read on and after March 28, 2016, Texas Gas Service Company will bill all customers a one-time customer charge per bill of \$0.94, based on \$1.00 per service line); and
- (E) shall not be billed to a state agency, as that term is defined in Texas Utilities Code, Section101.003.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each operator of a natural gas distribution system shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(5) Each operator of a natural gas distribution system that is a utility subject to the jurisdiction of the Commission pursuant to Texas Utilities Code, Chapters 101 - 105, shall file a generally applicable tariff for its surcharge in conformance with the requirements of Section7.315 of this title, relating to Filing of Tariffs.

(6) Amounts recovered from customers under this subsection by an investor-owned natural gas distribution system or a cooperatively owned natural gas distribution system shall not be included in the revenue or gross receipts of the system for the purpose of calculating municipal franchise fees or any tax imposed under Subchapter B, Chapter 182, Tax Code, or under Chapter 122, nor shall such amounts be subject to a sales and use tax imposed by Chapter 151, Tax Code, or Subtitle C, Title 3, Tax Code.

(c) Natural gas master meter systems. The Commission hereby assesses each natural gas master meter system an annual pipeline safety and regulatory program fee of \$100 per master meter system.

(1) Each operator of a natural gas master meter system shall remit to the Commission the annual pipeline safety and regulatory program fee of \$100 per master meter system no later than June 30 of each year.

DESCRIPTION

(2) The Commission shall send an invoice to each affected natural gas master meter system operator no later than April 30 of each year as a courtesy reminder. The failure of a natural gas master meter system operator to receive an invoice shall not exempt the natural gas master meter system operator from its obligation to remit to the Commission the annual pipeline safety and regulatory program fee on June 30 each year.

(3) Each operator of a natural gas master meter system shall recover as a surcharge to its existing rates the amounts paid to the Commission under paragraph (1) of this subsection.

(4) No later than 90 days after the last billing cycle in which the pipeline safety and regulatory program fee surcharge is billed to customers, each natural gas master meter system operator shall file with the Commission's Gas Services Division and the Pipeline Safety Division a report showing:

- (A) the pipeline safety and regulatory program fee amount paid to the Commission;
- (B) the unit rate and total amount of the surcharge billed to each customer;
- (C) the date or dates on which the surcharge was billed to customers; and
- (D) the total amount collected from customers from the surcharge.

(d) Late payment penalty. If the operator of a natural gas distribution system or a natural gas master meter system does not remit payment of the annual pipeline safety and regulatory program fee to the Commission within 30 days of the due date, the Commission shall assess a late payment penalty of 10 percent of the total assessment due under subsection (b) or (c) of this section, as applicable, and shall notify the operator of the total amount due to the Commission.

DESCRIPTION

Service Company, a division of ONE Gas, Inc to Increase Gas Utility Rates Within the Unincorporated Areas of the Galveston Service Area and South Jefferson County Service Area, Final Order Finding of Fact No. 67.

This rate shall apply to the following rate schedules of Texas Gas Service Company in the unincorporated areas served in TGS's Gulf Coast Service Area, including Galveston, Bayou Vista, Port Neches, Port Arthur, Nederland and Groves, Texas: 1Z, 2Z, 3Z, 4Z, and T-1-ENV.

B. RCE RATE

All Ccf during each billing period: \$0.0129 per Ccf

This rate will be in effect until all approved and expended rate case expenses are recovered under the applicable rate schedules. Texas Gas Service Company will recover \$9,787 in actual expense and up to \$2,354 in estimated expense, not to exceed actual expense. The Rate Case Expense Surcharge will be a separate line item on the bill.

C. OTHER ADJUSTMENTS

Taxes: Plus applicable taxes and fees related to above.

D. CONDITIONS

Subject to all applicable laws and orders, and the Company's rules and regulations on file with the regulatory authority.

E. COMPLIANCE

TGS shall file a reconciliation report annually on or before December 31st, commencing in 2016. TGS shall file the report with the Commission, Addressed to the Director of the Oversight and Safety Division and referencing Gas Utilities Docket No. 10488, Rate Case Expense Recovery Report. The report shall include: - The volumes used by month by customer class during the applicable period, - The amount of Rate Case Expense recovered, by month - The outstanding balance, by month

WEATHER NORMALIZATION ADJUSTMENT CLAUSE

A. APPLICABILITY

The Weather Normalization Adjustment Clause (WNA) shall apply to the following general service rate schedules of Texas Gas Service Company in the incorporated and unincorporated areas served in the Gulf Coast Service Area including Galveston,

GAS SERVICES DIVISION
GSD - 1 TARIFF REPORT

RRC COID: 6310 COMPANY NAME: TEXAS GAS SERVICE COMPANY

TARIFF CODE: DS RRC TARIFF NO: 28845

RATE SCHEDULE

DESCRIPTION

Bayou Vista, Jamaica Beach, Port Arthur, Nederland, Groves & Port Neches: Rate Schedules 10, 1Z, 20, 2Z, 40 and 4Z. The WNA shall be effective during the September through May billing cycles.

B. PURPOSE

The WNA refunds over-collections or surcharges under-collections of revenue due to colder or warmer than normal weather, as established in the Company's most recent rate filing.

C. WNA MECHANISM

In order to reflect weather effects in a timely and accurate manner, the WNA adjustment shall be calculated separately for each billing cycle and rate schedule. The weather factor, determined for each rate schedule in the most recent rate case, shows the effect of one heating degree day on consumption for that rate schedule. During each billing cycle, the weather factor is multiplied by the difference between normal and actual heating degree days for the billing period and by the number of customers billed. This WNA volume adjustment is priced at the current cost of service rate per Ccf to determine a WNA revenue adjustment, which is spread to the customers in the billing cycle on a prorata basis. The WNA for each billing cycle and rate schedule shall be based on the following formula:

$$\text{WNA Rate} = \text{WNAD} \cdot \text{CV} \quad \text{where}$$

WNAD = Weather Normalization Adjustment Dollars to be collected from each billing cycle and rate schedule. This factor shall be based on the following formula:

WNAD = (HDD Diff * CB * WF) * COS rate, where
HDD Diff = (Normal HDD - Actual HDD), the difference between normal and actual heating degree days for the billing period.

CB = Number of customers billed for the billing period.

WF = Weather factor determined for each rate schedule in the most recent rate case.

Residential 0.169485; Commercial 0.359253; Public Authority 2.504963

CV = Current Volumes for the billing period.

D. FILING WITH THE CITIES AND THE RAILROAD COMMISSION OF TEXAS (RRC) The Company will file monthly reports showing the rate adjustments for each applicable rate schedule. Supporting documentation will be made available for review upon request.

By each October 1, the Company will file with the Cities and the RRC an annual report verifying the past year's WNA collections or refunds.
